* The present document (A/81/6 (Sect. 29E)/Part A), consisting of the programme plan and programme performance information (part II; see General Assembly resolution [77/267](#), para. 10), will be replaced by a document containing parts A and B (A/81/6 (Sect. 29E)) once part B is issued.

** [A/81/50](#).

*** In keeping with paragraph 10 of General Assembly resolution [77/267](#), the part consisting of the programme plan and programme performance information (part II) is submitted through the Committee for Programme and Coordination for the consideration of the Assembly.

A. Proposed programme plan for 2027 and programme performance in 2025

Overall orientation

Mandates and background

- 29E.1 The United Nations Office at Geneva was established in 1947 pursuant to General Assembly resolution [24 \(I\)](#) and successive resolutions of the Assembly. The Office is responsible for providing administrative and support services to entities in Geneva and their field offices, and to other organizations of the United Nations common system, in accordance with policies, procedures and practices established by the Under-Secretary-General for Management Strategy, Policy and Compliance, the Under-Secretary-General for Operational Support and the Assistant Secretary-General/Chief Information Technology Officer. The Office is also responsible for providing support services to the intergovernmental processes of the Organization in line with its role as a major conference centre for international diplomacy. This includes providing technical conference support services as part of the conferencing ecosystem, which enables the work of Member States and client entities.

Strategy and external factors for 2027

- 29E.2 In compliance with General Assembly resolution [2 \(I\)](#), the Office will offer administrative and support services in English and French, including direction, management and coordination in the areas of human resources, financial and budgetary resources, information and communications technology (ICT), central support services, and library and archives services. The Office, as property manager for the United Nations premises, which accommodate nearly 70 tenants, will continue to play a central role in supporting United Nations meetings and events through audiovisual and ICT services, as well as the maintenance of conference rooms and equipment. The Office will also implement policy and other functions, as determined by the Under-Secretaries-General referred to in paragraph 29E.1 above.
- 29E.3 The Office will provide financial, budgetary and accounting services, as well as guidance and advice, in accordance with the Financial Regulations and Rules of the United Nations and relevant standards. In addition, the Office will provide human resources services, including staff development and learning, career support and coaching, and medico-administrative occupational safety and health, and carry out staff mental health and well-being activities, as well as provide guidance and advice in accordance with the Organization's human resources policies, rules and regulations. The Office will provide procurement, commercial activities, transportation, travel and other central support services for the Secretariat and the specialized agencies. It will also provide regional administrative services, as well as library, records, archives and knowledge services, in support of the implementation of mandated programmes and activities of the Secretariat, including to resident coordinator offices. The Office will further ensure the business continuity of administrative support and guidance for other entities in Geneva in emergency cases.
- 29E.4 Renovation works at the historic buildings of the Palais des Nations under the strategic heritage plan will continue throughout 2027, with substantial completion expected during the year and residual works continuing into 2028. The Office will strengthen systems supporting building operations, maintenance and energy management to reduce energy consumption, optimize asset performance and lower life-cycle costs while improving reliability and sustainability.
- 29E.5 Operational efficiency, cost control and client support will remain priorities in 2027. Quarterly client board meetings will continue to promote transparent service delivery, supported by regular reporting on performance indicators covering more than 20 services. Client engagement will be further strengthened through dedicated functional client forums, introduced in 2026, which provide structured opportunities for in-depth dialogue between the Office's functional leads and subject

matter experts of client entities on operational issues, performance trends and service improvements. The Office will continue to provide operational support through its Client Support Centre, delivering tier 2-level support and handling approximately 20,000 client visits and 12,000 client calls annually. In response to growing demand and increasing technical complexity related to delivering side events, cultural events and activities, client support will also be provided through the Event Support Centre, launched in January 2026. Dedicated support will also continue for client entities relocating to or from the Palais des Nations. Operational efficiency will be further strengthened through faster, more reliable network services for clients. All efforts will be supported by a targeted communications strategy informed by annual client entity and end-user surveys.

- 29E.6 With regard to inter-agency coordination and liaison, the Office will continue to collaborate with other Geneva-based United Nations system organizations and international governmental organizations, coordinating the Common Procurement Activities Group. The Office will continue to own and administer global and regional United Nations contracts, conduct annual daily subsistence allowance surveys, coordinate cost-of-living surveys, conduct place-to-place surveys and monitor the consumer price index at Geneva. The Office will also work closely with facilities managers of international organizations in Geneva to strengthen coordination on policies and procedures. In addition, the Office will collaborate with other United Nations libraries to digitize official United Nations documents and further streamline library activities by managing the common library management system and catalogue for United Nations Headquarters, the Economic Commission for Latin America and the Caribbean, the Economic Commission for Africa and the Economic and Social Commission for Asia and the Pacific.
- 29E.7 With regard to external factors, the overall plan for 2027 is based on the planning assumption that client offices will have sufficient extrabudgetary resources to pay for services provided by the Office, when applicable.
- 29E.8 The Office integrates a gender perspective into its operational activities, deliverables and results, as appropriate. In 2027, it will contribute to improving gender equality in supported offices, in line with the Secretary-General's system-wide strategy on gender parity, through consultations and briefings to hiring managers and human resources focal points on the impact of selection decisions, including advice on targeted outreach and the promotion of United Nations career opportunities.
- 29E.9 In line with the United Nations Disability Inclusion Strategy, the Office will continue to implement its disability inclusion action plan and support the strategic heritage plan in its efforts to incorporate accessibility features in renovation works.

Adjustments arising from the UN80 initiative

- 29E.10 The proposed programme plan for 2027 reflects changes arising from the UN80 Initiative. In particular, the tables of deliverables reflect updated planned deliverables for 2026, in line with the approved programme budget for 2026. In addition, in the light of the consolidation of payroll processing into a single global team, the Office will cease payroll operations, as reflected in the updated table of deliverables of subprogramme 1. In addition, in the context of continuing organizational changes, the Office will support clients, managers and staff throughout any future transitions, as reflected in result 3 under subprogramme 2.
- 29E.11 The Office will be guided by any future decisions taken in the context of the UN80 Initiative, in accordance with the applicable rules and procedures, including decisions, resolutions and established practice of the competent intergovernmental organs. This includes, among others, any decisions concerning proposals relating to the establishment of a common administrative platform in Geneva, as part of the next phase of consolidation and streamlining of support services and structures across the Secretariat.

Legislative mandates

- 29E.12 The list below, which was reviewed in the preparation of the proposed programme budget, provides all mandates entrusted to the programme.

General Assembly resolutions

24 (I)	Transfer of certain functions, activities and assets of the League of Nations	80/243	Special subjects relating to the proposed programme budget for 2026
77/280	Progress towards an accountability system in the United Nations Secretariat		

**Subprogramme 1
Programme planning, finance and budget**

General Assembly resolutions

41/213	Review of the efficiency of the administrative and financial functioning of the United Nations	77/267	Shifting the management paradigm in the United Nations: review of changes to the budgetary cycle
42/211	Implementation of General Assembly resolution 41/213		

**Subprogramme 2
Human resources management**

General Assembly resolutions

59/164	Improvement of the status of women in the United Nations system	78/275	Amendments to the Staff Regulations and Rules
63/271	Amendments to the Staff Regulations	79/252 A–B; 80/236 A–B	United Nations common system
73/281	Shifting the management paradigm in the United Nations	79/254; 80/238	Administration of justice at the United Nations
77/278; 79/280	Human resources management		

**Subprogramme 3
Support services**

General Assembly resolutions

58/263	Report of the Joint Inspection Unit on the revenue-producing activities of the United Nations system	59/289 69/273	Outsourcing practices Procurement
--------	--	------------------	--------------------------------------

**Subprogramme 4
Information and communications technology operations**

General Assembly resolutions

63/262	Information and communications technology, enterprise resource planning, and security, disaster recovery and business continuity	71/272 B	Special subjects relating to the programme budget for the biennium 2016–2017 (sect. III, Status of implementation of the information and communications technology strategy for the United Nations)
63/269	Information and communications technology, disaster recovery and business continuity for the United Nations: arrangements for the secondary data centre at Headquarters	78/243	Information and communications technology strategy

**Subprogramme 5
Library services**

General Assembly resolution

356 (IV)	Budget appropriations for the financial year 1950		
----------	---	--	--

Deliverables

29E.13 Table 29E.1 lists all cross-cutting deliverables of the programme.

Table 29E.1

Cross-cutting deliverables for the period 2025–2027, by category and subcategory

<i>Category and subcategory</i>	<i>2025 planned</i>	<i>2025 actual</i>	<i>2026 planned</i>	<i>2027 planned</i>
A. Facilitation of the intergovernmental process and expert bodies				
Substantive services for meetings (number of three-hour meetings)	5	6	5	5
Meetings of:				
1. The Advisory Committee on Administrative and Budgetary Questions	2	3	2	2
2. The Committee for Programme and Coordination	1	1	1	1
3. The Fifth Committee	2	2	2	2

Evaluation activities

- 29E.14 An evaluation conducted by the Office on optimized warehouse storage space for its clients, completed in 2025, has guided the proposed programme plan for 2027.
- 29E.15 In response to the results of the evaluation referenced above, the Office incorporated recommendations and lessons learned to inform its work referenced in paragraph 29E.44 under subprogramme 3 to optimize the use of space and improve logistical services and support for client entities.

Programme of work**Subprogramme 1****Programme planning, finance and budget****Objective**

- 29E.16 The objective, to which this subprogramme contributes, is to ensure sound, effective and efficient financial management by client offices.

Strategy

- 29E.17 To contribute to the objective, the subprogramme will:
- (a) Monitor budget implementation, report budget and financial information and conduct financial management and accounts control by coordinating with Headquarters and providing timely advice to client entities regarding a broad range of financial services, spanning from payments and disbursements services to accounting, medical insurance, and trust funds and budget management;
 - (b) Provide assistance, guidance and training to programme managers and administrative units;
 - (c) Perform financial and administrative procedures, including internal financial controls and monitoring strict compliance with the Financial Regulations and Rules of the United Nations and the financial policies of the United Nations;
 - (d) Identify ways to achieve a faster and more efficient client response, including through digital transformation and innovative tools in line with the Secretary-General's strategy on new technologies;
 - (e) Monitor the implementation of oversight body recommendations;
 - (f) Monitor and report on enterprise risk management.

- 29E.18 The above-mentioned work is expected to result in improved integrity of financial data and enhanced overall management of programme budget and extrabudgetary resources.

Programme performance in 2025

Improved timeliness of vendor payments

- 29E.19 In 2025, the subprogramme introduced a system enhancement to streamline vendor invoice payments by automating the verification of invoices attached to the service entry sheet in Umoja. Where an invoice is present, payment can be initiated immediately, eliminating the need for separate client requests through iNeed. The new workflow reduced processing time and administrative efforts for clients and the subprogramme, strengthened controls and supported timely vendor payments.

- 29E.20 Progress towards the objective is presented in the performance measure below (see table 29E.2).

Table 29E.2

Performance measure

2023 (actual)	2024 (actual)	2025 (actual)
—	—	Payment was initiated immediately for approximately one third of payments

Planned results for 2027

Result 1: entities have access to dedicated support when moving to or relocating from the Palais des Nations

Programme performance in 2025 and target for 2027

- 29E.21 The subprogramme's work contributed to all client entities moving to or leaving the Palais des Nations using the new centralized support model, which met the planned target.
- 29E.22 Progress towards the objective and the target for 2027 are presented in the performance measure below (see table 29E.3).

Table 29E.3

Performance measure

2023 (actual)	2024 (actual)	2025 (actual)	2026 (planned)	2027 (planned)
Clients have access to guidance documentation for entity onboarding/offboarding	Office of the Secretary-General's Envoy on Technology has access to the new pilot centralized support model	All client entities moving to or leaving the Palais des Nations used the new centralized support model	Client entities participate in surveys and provide feedback to improve support model	New client entities participate in service-level client forums, introduced in 2026, providing structured opportunities to engage with service providers on service delivery and operational issues

Result 2: resilient and efficient treasury transaction processes**Programme performance in 2025 and target for 2027**

- 29E.23 The subprogramme's work contributed to field offices of the Office for the Coordination of Humanitarian Affairs piloting an online tailored workshop to improve the quality of payment transactions, which met the planned target.
- 29E.24 Progress towards the objective and the target for 2027 are presented in the performance measure below (see table 29E.4).

Table 29E.4

Performance measure

2023 (actual)	2024 (actual)	2025 (actual)	2026 (planned)	2027 (planned)
–	Generic training available on banking requirements	Field offices of the Office for the Coordination of Humanitarian Affairs piloted an online tailored workshop to improve the quality of payment transactions	Three additional client entities benefit from tailored workshops to improve the quality of payment transactions	Two additional client entities benefit from tailored workshops to improve the quality of payment transactions

Result 3: clients gain clearer insight into service performance through quarterly reporting**Proposed programme plan for 2027**

- 29E.25 The subprogramme is responsible for providing clients with a service-level agreement containing performance indicators. In its 2025 audit of the arrangements for provision of administrative services by the United Nations Office at Geneva,¹ the Office of Internal Oversight Services (OIOS) found that the performance indicators included in the Office's 2025 service-level agreements were primarily service standards and did not meet the criteria of measurable performance indicators. In response to the audit recommendation, the subprogramme worked with service lines to identify 24 client-focused performance indicators, which were incorporated into the 2026 service-level agreements and shared with clients.

Lessons learned and planned change

- 29E.26 The lesson for the subprogramme was that client satisfaction and service delivery can be strengthened through regular reporting on performance results and structured discussion of those results with clients. In applying this lesson, the subprogramme will establish a central reporting capacity for performance indicators across all subprogrammes and produce service-line reports for discussion at quarterly client board meetings. Performance results will also be examined in greater detail through service-level client forums for each subprogramme, providing structured opportunities for dialogue on service delivery and operational issues. Based on client feedback, the performance indicators and reporting approach will be further refined to enhance their relevance and to support continuous improvement in service delivery, including as part of the implementation of a common administrative platform in Geneva.
- 29E.27 Expected progress towards the objective is presented in the performance measure below (see table 29E.5).

¹ OIOS, "Audit of the arrangements for provision of administrative services by the United Nations Office at Geneva," report No. 2025/042, issued 23 September 2025. Available at <https://oios.un.org/file/10840/download?token=n8e7S211>.

Table 29E.5
Performance measure

2023 (actual)	2024 (actual)	2025 (actual)	2026 (planned)	2027 (planned)
—	—	Client entities received a standardized set of 24 measurable, client-focused performance indicators, covering administrative service delivery across service lines	Client entities receive quarterly service-line performance reports, enabling improved visibility into service timeliness, responsiveness and delivery trends	Client entities use performance reporting to better understand service performance patterns, emerging operational issues and areas for improvement to be raised with the service provider

Deliverables

29E.28 Table 29E.6 lists all deliverables of the subprogramme.

Table 29E.6
Subprogramme 1: deliverables for 2027, by category and subcategory

Category and subcategory

E. Enabling deliverables

Administration: financial management, risk management and internal control, and preparation and implementation of resource proposals; management of more than 700 posts; financial reporting and accounting; cash and revenue management; management of service arrangements with 50 client entities across 120 service lines; processing of more than 300,000 payments and disbursements annually; guidance and advice on all budgetary and financial matters; provision of medical insurance to more than 36,000 staff, retirees and dependants; processing of more than 490,000 medical invoices annually; administration of compensation claims; and delivery of quarterly client board meetings

Subprogramme 2 Human resources management

Objective

29E.29 The objective, to which this subprogramme contributes, is to ensure an effective, adaptable and resilient workforce that upholds the highest standards of efficiency, competence and integrity.

Strategy

29E.30 To contribute to the objective, the subprogramme will:

- Provide expert support to clients to attract, recruit and retain talent, including applicants from unrepresented and underrepresented countries, by leveraging efficient workforce planning and internal human resources analytics capabilities and engaging in outreach activities such as career fairs;
- Strengthen tailored advisory services and adopt a cross-functional approach to case management, and promote staff well-being and an inclusive work culture;

- (c) Provide learning and development activities, such as training sessions and briefings on performance management, innovation and navigation of workplace changes, as well as through language programmes to promote multilingualism;
 - (d) Promote a harmonious workplace with zero tolerance for prohibited conduct.
- 29E.31 The above-mentioned work is expected to result in:
- (a) Improved client experience, satisfaction and decision-making, on the basis of enhanced business insight using human resources data;
 - (b) Staff successfully navigating workplace changes, embracing innovation and adopting new ways of working;
 - (c) Increased awareness of the mechanisms to address prohibited conduct and of the responsibility of individual staff and management to foster a harmonious, inclusive and psychologically safe work environment;
 - (d) A widened pool of young and geographically diverse applicants.

Programme performance in 2025

Staff support for career transition and early separation

- 29E.32 During implementation of the global early separation programme launched by the Secretary-General, the subprogramme supported staff, managers and client entities by advising individuals on their entitlements and separation procedures, and guiding managers in its application.
- 29E.33 The subprogramme responded to a high volume of advisory cases in a timely and accurate manner, fostering trust and transparency among staff, managers and clients. The subprogramme also delivered targeted career transition sessions and collaborated with Geneva-based United Nations common system organizations and external partners, including the European Union. In coordination with host country authorities, dedicated briefings were organized to support staff on separation-related matters, including residency permits, post-service arrangements and access to the Swiss labour market. These initiatives received positive feedback and helped mitigate the impact of organizational change.
- 29E.34 Progress towards the objective is presented in the performance measure below (see table 29E.7).

Table 29E.7

Performance measure

2023 (actual)	2024 (actual)	2025 (actual)
—	—	Over 100 staff affected by early separation and their managers were able to navigate separation procedures and transition arrangements with clarity

Planned results for 2027

Result 1: staff and external applicants better understand the United Nations recruitment process and make informed career-related decisions

Programme performance in 2025 and target for 2027

- 29E.35 The subprogramme's work contributed to staff having access to 9 Career Tips Thursday sessions and 45 sessions on career development as part of the inter-agency Career Development Week, as well as

7 sessions on career transition support for staff transitioning out of the Organization, which exceeded the target of staff having access to career development initiatives which respond to United Nations Staff Engagement Survey results.

29E.36 Progress towards the objective and the target for 2027 are presented in the performance measure below (see table 29E.8).

Table 29E.8
Performance measure

2023 (actual)	2024 (actual)	2025 (actual)	2026 (planned)	2027 (planned)
Approximately 10,000 end users (staff and public globally) participated in the Career Tips Thursday series	20 per cent increase in end-users participating in the Career Tips Thursday series, and award received	Staff had access to 9 Career Tips Thursday sessions and 45 sessions on career development as part of the inter-agency Career Development Week, as well as 7 sessions on career transition to support those staff transitioning out of the Organization	Young and external applicants actively use resources on United Nations career development	Staff and external applicants have access to a dedicated social media page which shares career development materials such as Career Tips Thursday sessions

Result 2: expanded youth engagement and intergenerational dialogue

Programme performance in 2025 and target for 2027

29E.37 The subprogramme's work contributed to 28 per cent of interns who received and accepted an offer being from underrepresented countries, which exceeded the target of 27 per cent.

29E.38 Progress towards the objective and the target for 2027 are presented in the performance measure below (see figure 29E.I).

Figure 29E.I

Performance measure: percentage of interns from unrepresented and underrepresented countries (annual)

Result 3: improved workforce support and organizational readiness through transitions**Proposed programme plan for 2027**

- 29E.39 In the context of continued organizational changes, client entities have faced increasing complexity when navigating human resource processes. To respond to clients' needs, among other initiatives, the subprogramme designated human resource business partners for each client entity to support collaboration and responsiveness.

Lessons learned and planned change

- 29E.40 The lesson for the subprogramme was that structured advisory services and early involvement of human resource business partners effectively support mandate delivery and staff well-being during periods of transition. In applying the lesson, the subprogramme will establish dedicated human resources business advisory services to provide structured support to clients, managers and staff. This will include guidance on change management, clarification of roles and responsibilities, and coordinated engagement with global human resources service providers.
- 29E.41 Expected progress towards the objective is presented in the performance measure below (see table 29E.9).

Table 29E.9
Performance measure

2023 (actual)	2024 (actual)	2025 (actual)	2026 (planned)	2027 (planned)
—	—	Clients access dedicated human resources partners for timely processing and issue resolution and improved client satisfaction	Clients receive clear and targeted change management guidance and communications related to any new administrative arrangements	Clients receive human resources advisory and change management guidance relating to the establishment of a common administrative platform in Geneva

Deliverables

- 29E.42 Table 29E.10 lists all deliverables of the subprogramme.

Table 29E.10
Subprogramme 2: deliverables for 2027, by category and subcategory

Category and subcategory
D. Communication deliverables
Outreach programmes, special events and information materials: job fairs and career presentations to identify prospective candidates from unrepresented and underrepresented Member States; and knowledge-sharing in the area of human resources and staff health and well-being.
E. Enabling deliverables
Administration: talent management and job classification; administration of approximately 3,150 staff contracts; advice and guidance on human resources policies, including on the Staff Regulations and Rules and staff selection system; 500 learning activities, including training on organizational and managerial competencies, substantive and technical skills, language and communications, and career development for 13,000 staff members and others annually; administration of assessment tests; staff counselling services and psychological support; conduct of staff surveys, including on cost of living and daily subsistence allowance; approximately 8,400 host country residence permits obtained in liaison with local authorities; occupational health and medico-administrative services for approximately 15,000 client staff in Geneva and field offices, medical consultations and advice, medical emergency preparedness, health and well-being campaigns; and learning, career development and performance management.

Internal justice and oversight: human resources-related legal services provided to the Office; represent the Secretary-General before the United Nations Dispute Tribunal; act as Office legal adviser in human resources matters, including in cases of alleged misconduct; support management in reviewing human resources-related administrative decisions; negotiate settlement agreements on behalf of the Secretariat and work with the United Nations Ombudsman and Mediation Services; act as conduct and discipline focal point for the Office; and provide regular briefings for managers on best practices and lessons learned from current legal jurisprudence to increase awareness and compliance.

Subprogramme 3 Support services

Objective

- 29E.43 The objective, to which this subprogramme contributes, is to ensure the efficient, effective and environmentally responsible functioning of the United Nations Office at Geneva with regard to premises, office and conference facilities management; asset management; travel and transportation; mail and pouch services; procurement; immunities and privileges; and commercial activities.

Strategy

- 29E.44 To contribute to the objective, the subprogramme will:
- (a) Provide services in the areas of facilities management, security infrastructure maintenance, assistance with conference activities, special events, project management, and property and space management;
 - (b) Equip, operate and maintain meeting and conference rooms with advanced technologies, infrastructure and equipment;
 - (c) Provide procurement services, including collaborative procurement activities with other United Nations organizations and agencies based in Geneva and regionally in Europe through the Common Procurement Activities Group;
 - (d) Provide services in the areas of contract management, travel, administration of diplomatic privileges, visas, United Nations laissez-passer and travel documents, transportation, mail and pouch services, and warehousing;
 - (e) Support the implementation of the strategic heritage plan, ensuring that solutions are in place to minimize the impact of any potential disruptions during renovation of the historic buildings of the Palais des Nations and operation of building H.
- 29E.45 The above-mentioned work is expected to result in:
- (a) Optimized and safe use of space and the provision of high-quality logistical services and support to client entities;
 - (b) Modern, high-quality conference support services, including the availability of conference rooms equipped for multilingualism;
 - (c) Clients' procurement needs being met.

Programme performance in 2025

Assembly Hall audiovisual systems help deliver large-scale intergovernmental meetings and events

- 29E.46 The Assembly Hall, the largest conference room in the Palais des Nations, is used for major conferences, commemorations, concerts and award ceremonies. It underwent extensive renovation under the strategic heritage plan from June 2021 to April 2025, limiting the ability to hold large-scale events.

- 29E.47 The subprogramme played a central role in modernizing the Hall, upgrading audiovisual facilities while preserving the building's heritage and ensuring the continuity of high-quality conference services. This was achieved through the dismantling, overhauling, upgrading, reinstallation and reprogramming of the entire conference system, including 681 seats with microphones, 1,032 seats with listening devices, 14 interpretation booths and 7 cameras. In addition, two large screens and an image capture system were installed, an operator control room developed and the sound system fully replaced. The renovation significantly enhanced service reliability and meeting delivery, facilitating live broadcasting and improved accessibility for delegates and participants. Close cooperation between the strategic heritage plan and the subprogramme enabled the Office to host 10 large-scale events.
- 29E.48 Progress towards the objective is presented in the performance measure below (see table 29E.11).

Table 29E.11
Performance measure

2023 (actual)	2024 (actual)	2025 (actual)
—	—	Large-scale events included, among others: (a) Intergovernmental negotiating committee to develop an international legally binding instrument on plastic pollution, including in the marine environment, with 2,600 participants from 183 countries (b) Sixteenth session of the United Nations Conference on Trade and Development (c) Seventy-sixth session of the Executive Committee of the Programme of the United Nations High Commissioner for Refugees (d) Fiftieth session of the Working Group on the Universal Periodic Review of the Human Rights Council (e) Sixth World Conference of Speakers of Parliament (f) 22nd Meeting of the States Parties to the Convention on the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on Their Destruction

Planned results for 2027

Result 1: event support centre, phase II: improved audiovisual support used by Member States and client entities

Programme performance in 2025 and target for 2027

- 29E.49 The subprogramme's work contributed to Member States and client entities using the centralized, improved and proactive audiovisual support for side events, cultural events and activities, which met the planned target.

29E.50 Progress towards the objective and the target for 2027 are presented in the performance measure below (see table 29E.12).

Table 29E.12

Performance measure

2023 (actual)	2024 (actual)	2025 (actual)	2026 (planned)	2027 (planned)
–	Member State and client entity audiovisual needs and scenarios identified	Member States and client entities used the centralized, improved and proactive audiovisual support for side events, cultural events and activities	Member States and client entities have access to optimized support informed by a client survey	Member States and clients receive more responsive support and access simplified processes based on targeted service improvements

Result 2: clients benefit from modern building facilities following strategic heritage plan renovations

29E.51 The subprogramme's work contributed to clients utilizing renovated facilities in buildings A and AB, which met the planned target.

29E.52 Progress towards the objective and the target for 2027 are presented in the performance measure below (see table 29E.13).

Table 29E.13

Performance measure

2023 (actual)	2024 (actual)	2025 (actual)	2026 (planned)	2027 (planned)
Clients utilize renovated facilities in buildings D and AC	Clients utilize renovated facilities in building S1	Clients utilize renovated facilities in buildings A and AB	Clients utilize renovated facilities in building C	Clients utilize renovated facilities in building S2

Result 3: improved energy management across the Palais des Nations

Proposed programme plan for 2027

29E.53 The Office has strengthened its approach to energy management to better control operating costs, reduce waste and improve energy efficiency in the context of constrained resources. Activities have included adopting action plans for energy management, waste management and biodiversity; conducting energy and waste audits; and implementing cost-free energy and waste reduction measures.

Lessons learned and planned change

29E.54 The lesson for the subprogramme was that high levels of energy and environmental performance are best achieved through an integrated, organization-wide management framework rather than ad hoc or asset-specific measures. In applying the lesson, the subprogramme will lead and coordinate the implementation of an energy management system to support more efficient operations across the Palais des Nations. The system will enable structured monitoring and management of energy use, reduce inefficiencies and support cost avoidance as renovated buildings return to service. Improvements related to environmental impact implemented in 2026 will be followed by the phased

roll-out of the energy management system in renovated buildings in 2027. These efforts will be aligned with relevant United Nations policies and internationally recognized standards, including International Organization for Standardization (ISO) 14001 and 50001, and will support reliable operations under resource constraints.

29E.55 Expected progress towards the objective is presented in the performance measure below (see table 29E.14).

Table 29E.14

Performance measure

2023 (actual)	2024 (actual)	2025 (actual)	2026 (planned)	2027 (planned)
–	–	Clients achieved cost savings and greater resource efficiency enabled by energy and waste action plans and cost-free efficiency measures	Clients receive more standardized, and efficient energy and waste facility operations with higher environmental performance	All renovated buildings comply with ISO 14001 and ISO 50001, supporting efficient and reliable facility operations

Deliverables

29E.56 Table 29E.15 lists all deliverables of the subprogramme.

Table 29E.15

Subprogramme 3: deliverables for 2027, by category and subcategory
Category and subcategory
E. Enabling deliverables

Administration: travel arrangements (approximately 20,000 plane and train tickets) for Geneva-based Secretariat entities, other United Nations entities (in Geneva; Paris, France; Bonn, Germany; Turin, Italy; and the Hague, Kingdom of the Netherlands) and 18 regional coordinator offices based in Europe; visas and laissez-passer (approximately 7,600) for United Nations Geneva-based entities and 53 United Nations entities in Europe, Asia and Africa; audiovisual support (for approximately 6,100 meetings and 150 events); and management and maintenance of the Office campus (215,381 m², containing 2,871 offices, 49 conference rooms and 85 meeting rooms).

Logistics: full procurement services (amounting to approximately \$53 million); physical verification of around 16,500 serialized equipment items and fixed assets; shipment of official property, bulk consignments for conferences (exceeding 100,000 kg) and distribution services (approximately 128,400 items) for United Nations offices and other United Nations entities.

Subprogramme 4
Information and communications technology operations
Objective

29E.57 The objective, to which this subprogramme contributes, is to advance the economic, efficient and effective implementation of substantive programmes through technologies, including a coherent enterprise ICT system and enterprise architecture; access to ICT-related technological innovations; and a stable, secure and standardized technology platform that enables the Organization to run its operations cost-effectively.

Strategy

29E.58 To contribute to the objective, the subprogramme will:

- (a) Manage a portfolio of end-to-end hardware and software solutions and implement new technologies based on business objectives and prioritizing optimization;
- (b) Build resilient technological capacity to meet objectives by migrating to cost-effective sourcing options, exploiting economies of scale, adopting proven platform-agnostic technologies to minimize provider dependency and discontinuing legacy systems;
- (c) Manage the use of resources by engaging and leading the ICT community and entities of the United Nations system in Geneva and other offices based in Europe for which the Office is service provider in the definition, adoption and deployment of ICT governance policies and procedures, overseeing and supporting ICT strategy implementation and providing secure, standardized ICT services.

29E.59 The above-mentioned work is expected to result in:

- (a) A safe and reliable ICT environment for all United Nations Secretariat entities in Geneva;
- (b) More timely and better informed administrative and management decision-making facilitated by information technology solutions;
- (c) Cost-effective services and solutions that optimize the use of resources for mandate delivery.

Programme performance in 2025

Clients achieve more efficient fixed phone line use

29E.60 Reducing the number of fixed phone lines enables clients to eliminate unnecessary costs and optimize resources. In 2025, the subprogramme supported informed decision-making by providing clients with tailored reports identifying active, unused and redundant fixed phone lines, by reconciling data from multiple sources to compensate for the absence of predefined reporting tools. As a result, client entities were able to reduce the number of fixed phone lines by 66 per cent between 2023 and 2025.

29E.61 Progress towards the objective is presented in the performance measure below (see figure 29E.II).

Figure 29E.II

Performance measure: number of fixed phone lines in use at the Palais des Nations (annual)

Planned results for 2027

Result 1: event support centre, phase I: clients utilize a single point of contact and online tool to organize cultural events, side events and activities

Programme performance in 2025 and target for 2027

- 29E.62 The subprogramme's work contributed to clients having access to a single point of contact and an online tool to request event services and support, which met the planned target.
- 29E.63 Progress towards the objective and the target for 2027 are presented in the performance measure below (see table 29E.16).

Table 29E.16

Performance measure

2023 (actual)	2024 (actual)	2025 (actual)	2026 (planned)	2027 (planned)
Staff have access to automated technology to facilitate the holding of blended meetings in building H	Design of digital platform and a support data model incorporating client requirements and feedback	Clients have access to single point of contact and an online tool to request event services and support	Clients utilize online tool to manage supported event types, enabling stakeholders to interact with and efficiently oversee event services	Member States and clients receive more responsive support and access simplified processes based on targeted service improvements

Result 2: enhanced efficiency and security through the Internet of things for a better client experience

Programme performance in 2025 and target for 2027

- 29E.64 The subprogramme's work contributed to stakeholders participating in study of Internet of things adoption that identified opportunities to enhance operational efficiency and improve client experience, which met the planned target.
- 29E.65 Progress towards the objective and the target for 2027 are presented in the performance measure below (see table 29E.17).

Table 29E.17

Performance measure

2023 (actual)	2024 (actual)	2025 (actual)	2026 (planned)	2027 (planned)
—	Client experience improved through ad hoc adoption of Internet of things technologies such as digital badges	Stakeholders participated in study of Internet of things adoption that identified opportunities to enhance operational efficiency and improve client experience	Stakeholders participate in development of implementation plan to integrate proposed Internet of things technologies into information security framework to mitigate related security risks for clients	Client experience improvements in the areas of conference services, campus access and building services following implementation of Internet of things strategy

Result 3: faster, more reliable network services for clients**Proposed programme plan for 2027**

- 29E.66 Reliable network services underpin the Office's operations, including meetings, conferences and digital collaboration. During 2025, the subprogramme assessed options for modernizing the network infrastructure, including by replacing legacy core network switches, upgrading wireless access points, transitioning users from wired to high-performance wireless connectivity and decommissioning redundant switches to improve reliability, capacity and cost efficiency.

Lessons learned and planned change

- 29E.67 The lesson for the subprogramme was that improvements to network resilience and reliability can be achieved by concentrating resources on fewer, standardized network solutions, reducing dependency on legacy configurations and concentrating resources on scalable, high-impact solutions. In applying the lesson, the subprogramme will replace wireless access points, optimize wireless coverage, transition users from wired to wireless connectivity and decommission redundant switches. These actions will support faster, more reliable network services for clients and strengthen the resilience of ICT operations.

- 29E.68 Expected progress towards the objective is presented in the performance measure below (see table 29E.18).

Table 29E.18

Performance measure

2023 (actual)	2024 (actual)	2025 (actual)	2026 (planned)	2027 (planned)
—	—	Clients have access to full wireless coverage in buildings S1, A and AB and backbone bandwidth of 10 gigabits per second (Gbps) (an increase from 1 Gbps)	Clients have access to full wireless coverage in building C and backbone bandwidth coverage of 10 Gbps in renovated buildings	Clients have access to faster, more reliable network services including 100% wireless coverage across all office spaces and core network capacity of up to 400 Gbps

Deliverables

- 29E.69 Table 29E.19 lists all deliverables of the subprogramme.

Table 29E.19

Subprogramme 4: deliverables for 2027, by category and subcategory*Category and subcategory***E. Enabling deliverables**

Information and communications technology: provision of security for information technology systems and data; connectivity services; hosting services; voice, video and data communications services; operation and maintenance of application systems in a secure environment; technical support for approximately 4,000 end users; advisory services on business solutions and ICT governance coordination; and support to approximately 96,000 meeting participants.

Subprogramme 5

Library services

Objective

- 29E.70 The objective, to which this subprogramme contributes, is to ensure the preservation of and enhanced access to past, present and future knowledge of the United Nations, to mobilize this knowledge and to increase knowledge-sharing, education and dialogue among Member States and between Member States and the international community.

Strategy

- 29E.71 To contribute to the objective, the subprogramme will:
- (a) Provide access to United Nations documents, archives and publications, including both online and paper-based resources, and to external knowledge resources that provide information about the Organization's areas of work; and guarantee access to paper-based resources stored in the building, and online resources and services;
 - (b) Coordinate with the strategic heritage plan to ensure the safe storage of all collections and the accessibility of core collections during the planned closure of the Library building for strategic heritage plan renovations;
 - (c) Provide knowledge tools that bring together key information resources and partners on United Nations issues and global agendas, manage the Office's art collection and digitize and preserve archives and official documents, in collaboration with other United Nations libraries and archives;
 - (d) Provide guidance on records management standards and best practices across the Office and at other Secretariat entities in Geneva through the provision of staff training, advisory services and records management services;
 - (e) Provide support to other United Nations offices based in Europe requesting storage/archival or library services and solutions;
 - (f) Transfer official records of the United Nations, both physical and digital, to the Records Management Unit for long-term preservation;
 - (g) Provide support to Member States for cultural diplomacy, connect diplomats with United Nations staff, experts and academic partners through discussion and learning events, and organize learning events and cultural activities, including virtual and blended events.
- 29E.72 The above-mentioned work is expected to result in:
- (a) More informed participation and subsequent decision-making by diplomats and staff;
 - (b) Improved transparency and accountability for the Organization;
 - (c) Preservation of institutional and historical memory;
 - (d) A vibrant online and on-site cultural activities programme that enables Member States to showcase their art and culture through exhibitions, film screenings and other events;
 - (e) Alternative learning opportunities for United Nations staff and diplomats on topics that support career development and the implementation of United Nations policies and agendas.

Programme performance in 2025

Irreplaceable and historic library collections protected for future generations during renovations

- 29E.73 The Library collections are housed in one of the main buildings of the Palais des Nations, which was constructed in the 1930s and no longer meets current fire and life safety, and building, standards.

The building also experienced water intrusions, resulting in damage to and loss of materials. While strategic heritage plan renovations will address these deficiencies, the renovation period itself posed significant risks to print publications, including irreplaceable collections dating back to the sixteenth century. The collection comprises approximately 45,000 shelves and includes United Nations Educational, Scientific and Cultural Organization Memory of the World Programme documents, historic library holdings and legacy United Nations documents. To mitigate these risks, the subprogramme relocated the entire collection in close coordination with the strategic heritage plan team. The collections were tracked and preservation packed as required, and a temporary reading space was established to provide access to a core collection.

29E.74 Progress towards the objective is presented in the performance measure below (see table 29E.20).

Table 29E.20

Performance measure

2023 (actual)	2024 (actual)	2025 (actual)
–	Irreplaceable historic collections safeguarded during relocation preparation process	Irreplaceable historic collections are fully protected and secured during renovations, with access to a core collection of library materials

Planned results for 2027**Result 1: increased availability of tools for clients to gain access to and use information resources efficiently and responsibly****Programme performance in 2025 and target for 2027**

29E.75 The subprogramme's work contributed to an additional 10 new tools (three updates to information resources, implementation of one PDF tool, four training-related blog articles and two videos), bringing the cumulative number of new tools to 20, which exceeded the planned target of 15.

29E.76 Progress towards the objective and the target for 2027 are presented in the performance measure below (see figure 29E.III).

Figure 29E.III

Performance measure: number of new tools (literacy guidance and learning products and services) available to clients (cumulative)

Result 2: enhanced access to more United Nations knowledge**Programme performance in 2025 and target for 2027**

- 29E.77 The subprogramme's work contributed to users having improved searchability and access to archival collections through finalized metadata studies and the creation of new metadata using machine-learning-based handwritten text recognition, which met the planned target.
- 29E.78 Progress towards the objective and the target for 2027 are presented in the performance measure below (see table 29E.21).

Table 29E.21

Performance measure

<i>2023 (actual)</i>	<i>2024 (actual)</i>	<i>2025 (actual)</i>	<i>2026 (planned)</i>	<i>2027 (planned)</i>
–	Access to training on navigating online catalogues and repositories	Users have improved searchability of and access to archival collections through finalized metadata studies and the creation of new metadata using machine-learning-based handwritten text recognition	Library and archives users benefit from improved and more accurate online search results when using digital catalogues and repositories	Library and archives users benefit from further improvements and more accurate online search results when using digital catalogues and repositories

Result 3: long-term sustainable access to United Nations archives for Member States and other stakeholders

- 29E.79 The subprogramme is custodian of approximately 15,000 linear metres of United Nations physical records and archives documenting the work of the League of Nations and Secretariat entities in Geneva. Member States and other stakeholders use these archives to analyse and support multilateral cooperation and inform future action. Following the digitization of approximately 14.5 million pages of League of Nations archives, the subprogramme identified that existing storage conditions for physical and digital archives at the Palais pose risks to their long-term preservation, while demand for archival services from other United Nations offices in Europe is increasing. In order to support proper archival storage, the subprogramme in 2023 secured donated funding for a new archive building. In 2024, due diligence and compliance checks, as well as a preliminary feasibility study, were completed.

Lessons learned and planned change

- 29E.80 The lesson for the subprogramme was that non-specialized storage facilities increase the risk of damage to archival materials and can limit the efficiency of records management and client services. In applying the lesson, the subprogramme will construct a purpose-built archives storage facility for the Office and other relevant United Nations offices. The facility will improve preservation, streamline storage and retrieval, and enable faster client access to archives and information services.
- 29E.81 Expected progress towards the objective is presented in the performance measure below (see table 29E.22).

Table 29E.22

Performance measure

<i>2023 (actual)</i>	<i>2024 (actual)</i>	<i>2025 (actual)</i>	<i>2026 (planned)</i>	<i>2027 (planned)</i>
Donated funding for a new archive building secured	Clearance to commence project	Building site selected, with associated work and project structure	Project management advisory services procured and preliminary technical studies under way	Architectural designs procured and programming under way

Deliverables

29E.82 Table 29E.23 lists all deliverables of the subprogramme.

Table 29E.23

Subprogramme 5: deliverables for the period 2025–2027, by category and subcategory

<i>Category and subcategory</i>	<i>2025 planned</i>	<i>2025 actual</i>	<i>2026 planned^a</i>	<i>2027 planned</i>
B. Generation and transfer of knowledge				
Seminars, workshops and training events (number of days)	25	29	18	25
Events for diplomats and United Nations staff on the processes, working mechanisms and rules of the Secretariat and for career development	25	29	18 [25]	25
C. Substantive deliverables				
Consultation, advice and advocacy: advisory services on records management for approximately 400 clients.				
D. Communication deliverables				
Outreach programmes, special events and information materials: cultural activities, including exhibitions, concerts and films; guided tours of the Library, Archives and exhibitions of the United Nations Museum Geneva; discussion panels and conferences for cultural exchange, education and dialogue on key United Nations issues; and exhibitions in the Library and at the United Nations Museum Geneva.				
Library services: knowledge services to enable evidence-based policymaking and research for approximately 12,000 diplomats, delegates, United Nations staff and academics worldwide; creation and maintenance of web pages of official records and documents; unified resource management system for the Office and three United Nations Secretariat libraries; print and electronic information resources; management of 15,000 linear metres of United Nations and League of Nations archives and records in paper form; and access to on-site and online archives and records.				

^a Reflects updated planned deliverables for 2026. Value in square brackets represents the number of planned deliverables reflected in A/80/6 (Sect. 29E).
