I. Department of Political and Peacebuilding Affairs

A. Proposed programme plan for 2027 and programme performance in 2025

Overall orientation

Mandates and background

- 3.I.1 The Department of Political and Peacebuilding Affairs is responsible for all Secretariat matters related to the prevention, management and resolution of conflicts at the global level. The Department is the lead entity of the United Nations for good offices, political analysis, mediation, electoral assistance, peacebuilding support and political guidance as they relate to the Organization's efforts towards, inter alia, preventive diplomacy, peacemaking, peacebuilding and sustaining peace. The Department oversees the work of missions under its responsibility, including special envoys and regional offices. It also provides support to peacekeeping operations in the areas of mediation, electoral assistance and peacebuilding, as well as to resident coordinators. It provides substantive support and secretariat services to the Security Council and its subsidiary bodies, as well as to relevant subsidiary organs of the General Assembly, including the Special Committee on the Situation with regard to the Implementation of the Declaration on the Granting of Independence to Colonial Countries and Peoples and the Committee on the Exercise of the Inalienable Rights of the Palestinian People. The Department also provides strategic, substantive and technical support to the work of the Peacebuilding Commission, manages the Peacebuilding Fund on behalf of the Secretary-General and draws together the expertise of the United Nations system to facilitate coherent system-wide action in support of peacebuilding and sustaining peace and to build on linkages to the 2030 Agenda for Sustainable Development.
- 3.I.2 The mandate of the Department derives from the Charter of the United Nations and the priorities established in relevant General Assembly resolutions and decisions, including resolution [46/232](#), in which the Assembly established the Department of Political Affairs, and, more recently, resolution [72/262](#) C, in which the Assembly established the Department of Political and Peacebuilding Affairs. The proliferation of the number and intensity of conflicts over the past few years and their immense human and material cost confirms the importance of conflict prevention and resolution through inclusive political solutions, peacebuilding and sustaining peace. In view of its comprehensive mandate, the Department of Political and Peacebuilding Affairs plays a central role in the implementation of several actions set out by Member States in the Pact for the Future (Assembly resolution [79/1](#)), including in relation to: (a) the pacific settlement of disputes (action 16), in particular, urging the Secretary-General to actively use his good offices and ensure that the United Nations is adequately equipped to lead and support mediation and preventive diplomacy; (b) building and sustaining peace (action 18), including provision of assistance to States, upon their request, in full conformity with national ownership and needs, to build national capacity to promote, develop and implement their nationally owned prevention efforts and address the root causes of violence and conflict in their countries; (c) accelerating the implementation of commitments on women and peace and security (action 19); (d) accelerating the implementation of commitments on youth and peace and security (action 20); and (e) adapting peace operations to better respond to existing challenges and new realities (action 21).

Strategy and external factors for 2027

- 3.I.3 The Department has global responsibility for political and peacebuilding issues and manages a spectrum of tools and engagements across the conflict continuum to ensure a coherent and effective approach to conflict prevention and resolution, electoral assistance, peacebuilding and sustaining peace. Given its global mandate for conflict prevention and peacemaking, the Department will play a lead role within

the United Nations in formulating and implementing comprehensive regional strategies that address cross-boundary issues, in cooperation with regional and subregional organizations.

- 3.I.4 In order to achieve these goals, the Department will rely on its expertise at Headquarters, including the single regional political-operational structure shared with the Department of Peace Operations, and its network of field presences, in particular, special political missions, regional offices and liaison presences with regional and other organizations. It will also draw on the capacities of the United Nations peace and security pillar, which was restructured in 2019 and further adjusted following the General Assembly's approval of relevant proposals in the revised estimates relating to the proposed programme budget for 2026 (Assembly resolution [80/242](#)).
- 3.I.5 The Department will continue to provide advice and substantive services to the Security Council, its subsidiary organs and the Military Staff Committee; assist and support the Peacebuilding Commission; provide advice and substantive support to the Special Committee on the Situation with regard to the Implementation of the Declaration on the Granting of Independence to Colonial Countries and Peoples, as well as to other relevant intergovernmental bodies; and continue to provide support to the Committee on the Exercise of the Inalienable Rights of the Palestinian People.
- 3.I.6 With regard to cooperation with other entities at the global, regional, national and local levels, under Chapter VIII of the Charter, the Department, through its special political missions and its liaison offices, will continue to strengthen partnerships with regional and other organizations in the field of peace and security, including with a view to supporting their role in diplomacy, mediation and the peaceful settlement of disputes, in line with action 16 of the Pact for the Future. The Department will also expand its partnerships with other relevant actors, including civil society and local communities, in particular in support of women and young people.
- 3.I.7 With regard to inter-agency coordination and liaison, the Department will continue to participate in the Executive Committee established by the Secretary-General and chair a number of inter-agency task forces aimed at enhancing the coherence of United Nations system engagement in specific countries, regions and thematic areas, in accordance with respective mandates. These coordination arrangements have contributed to more streamlined decision-making, reduced duplication of analytical and reporting products and clearer division of labour among entities, particularly in complex and protracted crisis settings. The Peacebuilding Fund, as a cross-pillar tool of financial support, will continue to work with and through agencies, funds and programmes in-country and at Headquarters. Under the United Nations-World Bank Partnership Framework for Crisis-Affected Situations, the Department will continue to strengthen partnerships with the World Bank and other international financial institutions to ensure that international engagement in crisis-affected situations is more coherent, effective and sustainable, in line with action 18 of the Pact for the Future. The Department will maintain the Partnership Facility to support field teams' joint data, analysis and operational collaboration with the World Bank Group. The Department will also enhance collaboration with the Department of Peace Operations with a view to better linking cross-cutting functions across the two Departments, including in training, innovation, partnerships and information integrity, to provide more coherent support to missions.
- 3.I.8 With regard to the external factors, the overall plan for 2027 is based on the following planning assumptions:
- (a) Unity among Member States, in particular the Security Council, including in critical situations in which the United Nations is engaged;
 - (b) Existence of entry points for United Nations engagement to mitigate tensions and prevent conflict;
 - (c) Commitment of the parties to a conflict to engaging in a process towards the peaceful settlement of disputes.
- 3.I.9 The Department integrates a gender perspective into its operational activities, deliverables and results, as appropriate. Through the newly established joint Gender Unit of the Department of Political and Peacebuilding Affairs and the Department of Peace Operations, the Department will

enhance the implementation of the women and peace and security agenda to promote the meaningful participation of women in peacemaking, mediation, peace sustainment and peacebuilding efforts, as well as in electoral and political processes, consistent with relevant mandates, including action 19 of the Pact for the Future. Strengthened collaboration through the joint Gender Unit of the two Departments, and through close partnership with the United Nations Entity for Gender Equality and the Empowerment of Women (UN-Women) and other relevant entities, will also enable more coherent support to missions and country teams. The Department will further support the efforts of the Peacebuilding Commission to integrate a gender perspective into all aspects of its work and prioritize women's engagement through Peacebuilding Fund-supported programmes.

- 3.I.10 In line with the United Nations Disability Inclusion Strategy, the Department will implement a joint Department of Political and Peacebuilding Affairs-Department of Peace Operations action plan for disability inclusion with a view to reinforcing an organizational culture that supports the inclusion of persons with disabilities and further advancing disability inclusion in strategic planning and management, knowledge and information management. The Department will also foster engagement with government counterparts and civil society organizations to promote the inclusivity of political processes, including in addressing the needs of persons with disabilities.

Adjustments arising from the UN80 Initiative

- 3.I.11 The proposed programme plan for 2027 reflects changes arising from the UN80 Initiative. In particular, the tables of deliverables reflect updated planned deliverables for 2026, in line with the approved programme budget for 2026. In addition, in collaboration with the Department of Peace Operations, the Department of Political and Peacebuilding Affairs has advanced efforts to further consolidate the single shared regional political-operational structure. The Departments have also consolidated functions related to peacebuilding, disarmament, demobilization and reintegration, security sector reform and justice and corrections to enable more integrated and comprehensive peacebuilding and peace support across peacekeeping, special political missions and non-mission settings, as reflected under subprogramme 6, which has been renamed "Peacebuilding and Peace Support Office". The unified structure will provide more coherent support to Member States from prevention through transition, ensuring that security gains are reinforced by institution-building and development. To further enhance the implementation of the women and peace and security agenda, the Department will enhance collaboration with the Department of Peace Operations, as outlined in paragraph 3.I.9 above. Further coordination of policy, training and innovation functions between the two Departments will be undertaken, as described in paragraph 3.I.7 above.
- 3.I.12 The Department will be guided by any future decisions taken in the context of the UN80 Initiative, in accordance with applicable rules and procedures, including decisions, resolutions and established practice of the competent intergovernmental organs. This includes, among others, any decisions concerning proposals emerging from the peacebuilding architecture review and the review on the future of all forms of United Nations peace operations. These processes are expected to inform the refinement of priorities, modalities of engagement and resource allocation, with a view to strengthening coherence across the peace and security pillar and enhancing the effectiveness of United Nations support to Member States.

Legislative mandates

- 3.I.13 The list below, which was reviewed in the preparation of the proposed programme budget, provides all mandates entrusted to the programme.

Charter of the United Nations

Articles 33 and 99

General Assembly resolutions

46/232	Revitalization of the United Nations Secretariat	79/264	Promotion of durable peace through sustainable development in Africa
72/262 C	Special subjects relating to the programme budget for the biennium 2018–2019 (subsection III)	80/72	Peaceful settlement of the question of Palestine
73/267 ; 77/17 ; 79/12	Cooperation between the United Nations and the League of Arab States	80/242	Questions relating to the proposed programme budget for 2026
79/1	The Pact for the Future		

Security Council resolutions

1325 (2000)	2419 (2018)
1645 (2005)	2535 (2020)

Subprogramme 6 Peacebuilding and Peace Support Office

General Assembly resolutions

60/180	The Peacebuilding Commission	78/257	Investing in prevention and peacebuilding
63/282	The Peacebuilding Fund	79/262	Revision of the terms of reference of the Peacebuilding Fund
72/276	Follow-up to the report of the Secretary-General on peacebuilding and sustaining peace	80/11	2025 review of the United Nations peacebuilding architecture
76/305	Financing for peacebuilding		

Security Council resolutions

2282 (2016)	2754 (2024)
2594 (2021)	2800 (2025)
2634 (2022)	2805 (2025)
2753 (2024)	

Deliverables

3.I.14 Table 3.I.1 lists all cross-cutting deliverables of the programme.

Table 3.I.1

Cross-cutting deliverables for the period 2025–2027, by category and subcategory

Category and subcategory	2025 planned	2025 actual	2026 planned	2027 planned
A. Facilitation of the intergovernmental process and expert bodies				
Substantive services for meetings (number of three-hour meetings)	3	3	3	3
Meetings of the:				
1. Fifth Committee	1	1	1	1
2. Committee for Programme and Coordination	1	1	1	1
3. Advisory Committee on Administrative and Budgetary Questions	1	1	1	1
C. Substantive deliverables				
Good offices: good offices and preventive diplomacy; high-level diplomatic missions and meetings, including jointly with regional and subregional organizations; and support for special political missions, including provision of mediation support.				
Consultation, advice and advocacy: consultations with representatives of Member States, regional and subregional organizations and civil society organizations; and strategic coordination meetings with relevant partners.				
Databases and substantive digital materials: databases and data sets on international peace and security issues, including manuals and guides on issues related to international peace and security.				
D. Communication deliverables				
Outreach programmes, special events and information materials: exhibits and other communications products about the work of the Department.				
External and media relations: statements on behalf of the Secretary-General; notes to correspondents; and press releases, communiqués and other communications products on issues related to international peace and security.				

Evaluation activities

3.I.15 The following evaluations completed in 2025 have guided the proposed programme plan for 2027:

- (a) Office of Internal Oversight Services (OIOS) thematic evaluation of cluster I conflict-specific special political missions;

- (b) Four evaluations conducted by the Department, including a midterm evaluation of implementation of its strategic plan for the period 2023–2026, a project evaluation in West Africa, and two reviews of mission transitions (Iraq and Somalia);
 - (c) Five Peacebuilding Fund portfolio evaluations (Cameroon, Central African Republic, Democratic Republic of the Congo, Mali and Mauritania).
- 3.I.16 In response to the results of the evaluations referenced above, internal processes, such as those related to the development of briefing and reporting, for example, will be streamlined where possible to make better use of limited resources, avoid duplication and prioritize programme impacts. In addition, the Department will document lessons from contexts where multiple interventions have been deployed to better understand and communicate the full range of the Department's approaches and tools for good offices, guiding future strategic planning. Furthermore, the findings from the Peacebuilding Fund evaluations have been incorporated into programming, including through the development of a strategic results framework for designing and assessing how contributions impact national peacebuilding and prevention priorities.
- 3.I.17 Peacebuilding Fund portfolio evaluations for up to four countries are planned for 2027.

Programme of work

Subprogramme 1

Prevention, management and resolution of conflicts

Objective

- 3.I.18 The objective, to which this subprogramme contributes, is to advance the prevention, management and resolution of conflicts by peaceful means.

Strategy

- 3.I.19 To contribute to the objective, the subprogramme will:
- (a) Support the pacific settlement of disputes, under Chapter VI of the Charter, through the use of the tools of preventive diplomacy, peacemaking, peacebuilding and sustaining peace, and utilizing the single regional political-operational structure shared with the Department of Peace Operations as an entry point for connection with the field;
 - (b) Work in close cooperation with a wide array of actors, in particular regional and subregional organizations, including under Chapter VIII of the Charter;
 - (c) Promote a more effective and cohesive response to help to prevent, mitigate, manage and resolve conflicts by:
 - (i) Responding in a timely manner to conflict situations;
 - (ii) Providing timely and accurate information, analysis and policy recommendations;
 - (iii) Making available and providing substantive and technical support to the good offices of the Secretary-General, including through formal mediation, where appropriate, in support of the active use of his good offices, in line with action 16 of the Pact for the Future;
 - (iv) Providing substantive, political and technical support to the Secretary-General in the discharge of his functions and in his relationships with Member States;
 - (v) Supporting the role of regional and subregional organizations in diplomacy, mediation and the pacific settlement of disputes, in line with action 16 of the Pact for the Future;
 - (vi) Providing substantive support and guidance to special political missions;

- (vii) Strengthening the Department's capacity, expertise and partnerships with other United Nations and subregional, regional and international organizations in order to address peace and security challenges more effectively;
 - (viii) Monitoring and evaluating the impact and the cost-effectiveness of key conflict prevention and mitigation initiatives;
 - (ix) Developing coherent strategies for crisis prevention and peacebuilding, linking diplomatic, security, humanitarian and development efforts by the United Nations system, including United Nations country teams, and other international and regional actors;
 - (x) Enhancing political and operational links with the wider United Nations system, in particular with United Nations country teams, to support nationally led prevention and peacebuilding efforts, in line with action 18 of the Pact for the Future;
 - (xi) Operationalizing the women and peace and security and the youth and peace and security agendas to promote the full, equal and meaningful participation of women, as well as the constructive engagement of young people, in political and peacebuilding processes, in line with actions 19 and 20 of the Pact for the Future.
- 3.I.20 The above-mentioned work is expected to result in the improved capacity and capability of Member States to identify, prevent and address conflict situations.

Programme performance in 2025

Member States and other stakeholders contribute to the review on the future of all forms of United Nations peace operations

- 3.I.21 The subprogramme led the development, drafting and preparation of the Secretary-General's review on the future of all forms of United Nations peace operations, mandated by the Pact for the Future (General Assembly resolution [79/1](#)), together with the Department of Peace Operations. The report will outline the Secretary-General's vision for the future of United Nations peace operations in an evolving geopolitical era, amid complex conflict dynamics. The review covers all peace operations, defined as peacekeeping operations and special political missions. To inform its preparation, the subprogramme, together with the Department of Peace Operations, organized extensive consultations with Member States in different formats, as well as with other stakeholders, such as civil society organizations and research institutions, with a specific focus on geographical representation. In addition, General Assembly and Security Council discussions offered opportunities for Member States to share their views on the future of peace operations, informing the review.
- 3.I.22 Progress towards the objective is presented in the performance measure below (see table 3.I.2).

Table 3.I.2
Performance measure

2023 (actual)	2024 (actual)	2025 (actual)
—	—	Member States, regional and subregional organizations, civil society organizations and research institutions contributed to consultations on the review on the future of all forms of United Nations peace operations

Planned results for 2027

Result 1: reduced threats to international peace and security

Programme performance in 2025 and target for 2027

- 3.I.23 The subprogramme's work contributed to ongoing engagement with Member States and regional and subregional organizations to provide increased support for peacemaking efforts, including political analysis and operational and technical support for political processes, when requested, which met the planned target.
- 3.I.24 Progress towards the objective and the target for 2027 are presented in the performance measure below (see table 3.I.3).

Table 3.I.3

Performance measure

<i>2023 (actual)</i>	<i>2024 (actual)</i>	<i>2025 (actual)</i>	<i>2026 (planned)</i>	<i>2027 (planned)</i>
Nationwide bilateral and temporary ceasefire took effect on 3 August 2023 in Colombia	Proximity talks convened with the participation of two parties in the Sudan conflict	Structured dialogue launched in Libya to help clear a path towards national elections and unified institutions	Member States have greater access to tools and expertise to prevent, manage and resolve conflicts	Member States have expanded and systematic access to tools and expertise to prevent, manage and resolve conflicts
Advances made in the peace process in Mozambique, including the completion of the first two phases of the disarmament, demobilization and reintegration strategy				

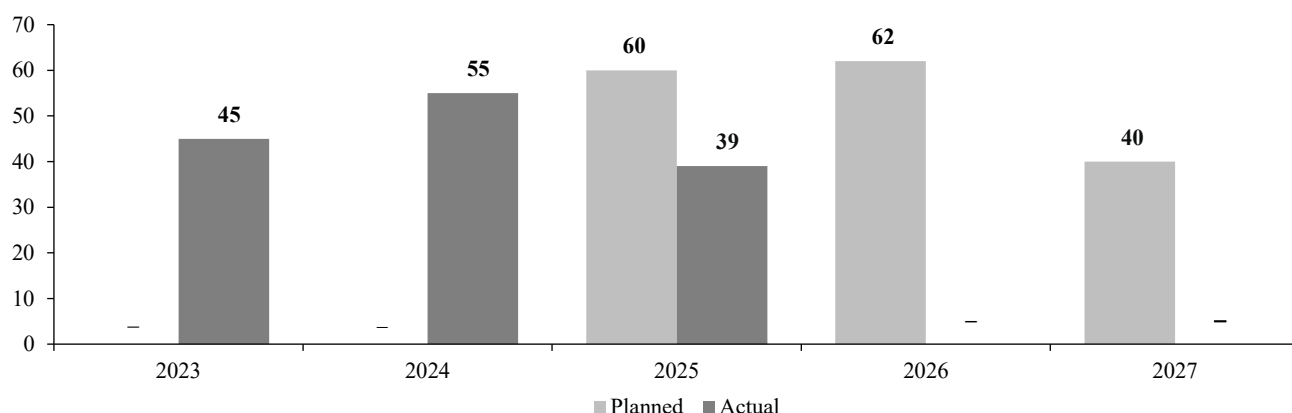

Result 2: regional and subregional organizations have access to support on mediation, preventive diplomacy and good offices

Programme performance in 2025 and target for 2027

- 3.I.25 The subprogramme's work contributed to continuous engagement with a wide range of regional and subregional organizations with a view to supporting their role in diplomacy, mediation and the pacific settlement of disputes, resulting in 39 initiatives, which did not meet the planned target of 60. The target was not met due to a combination of factors, including financial constraints, which limited the ability to sustain a higher number of engagements with regional and subregional organizations.
- 3.I.26 Progress towards the objective and the target for 2027 are presented in the performance measure below (see figure 3.I.I).

Figure 3.I.I

Performance measure: number of initiatives undertaken by regional and subregional organizations to strengthen coordination with the United Nations and other regional organizations (annual)

Result 3: Member States have enhanced access to rapid mediation support

Proposed programme plan for 2027

- 3.I.27 Member States and regional organizations request timely mediation expertise support from the subprogramme on a wide range of issues to better support dialogue and conflict mediation efforts, including the design and management of dialogue processes, constitutional matters, ceasefire and security arrangements, power-sharing arrangements and natural resources, as well as the integration of a gender perspective and other considerations related to inclusion. The subprogramme engages with Member States and regional organizations, upon request, to provide rapid and flexible mediation expertise in crisis situations, in both mission and non-mission contexts.

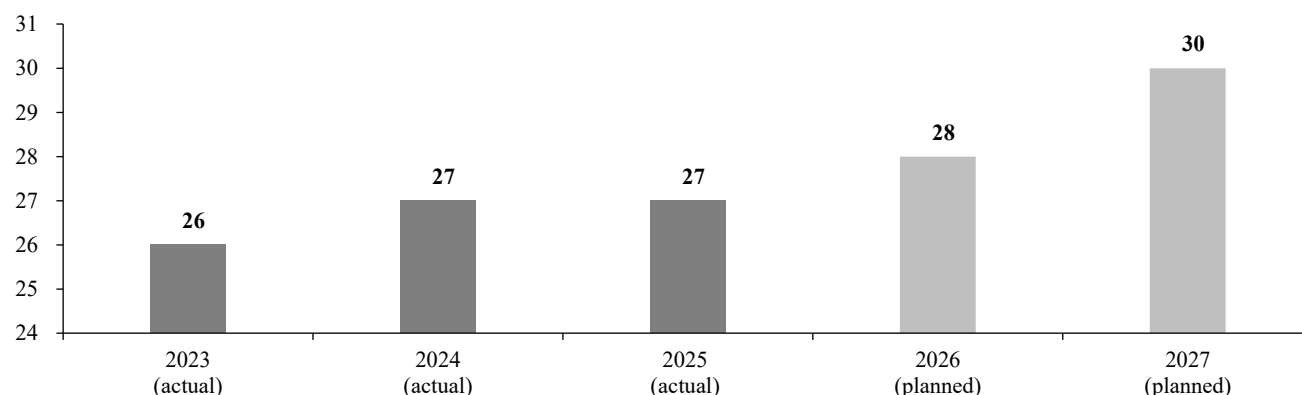

Lessons learned and planned change

- 3.I.28 The lesson for the subprogramme was that timely and demand-driven mediation support is critical to effective crisis response, and that demand has at times exceeded available capacity. In applying the lesson, the subprogramme will enhance the flexibility of its mediation support to respond effectively to fluctuating and high levels of demand in crisis situations and adjust its ability to sustain follow-up mediation support.

- 3.I.29 Expected progress towards the objective is presented in the performance measure below (see figure 3.I.II).

Figure 3.I.II

Performance measure: number of contexts in which assistance for mediation is deployed upon request (annual)

Deliverables

3.I.30 Table 3.I.4 lists all deliverables of the subprogramme.

Table 3.I.4

Subprogramme 1: deliverables for the period 2025–2027, by category and subcategory

Category and subcategory	2025 planned	2025 actual	2026 planned ^a	2027 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	68	67	68	67
Reports of the Secretary-General:				
1. On cooperation between the United Nations and regional and other organizations for the General Assembly	–	–	1	–
2. On matters related to peace and security for the General Assembly	16	16	16	16
3. Pursuant to Security Council resolution 2240 (2015) for the General Assembly	1	–	–	–
4. On matters related to peace and security for the Security Council	50	50	50	50
5. On activities of the United Nations Standing Advisory Committee on Security Questions in Central Africa for the General Assembly	1	1	1	1
Substantive services for meetings (number of three-hour meetings)	105	183	105	105
6. Meetings and/or informal consultations of the General Assembly and its subsidiary organs	16	23	16	16
7. Meetings and/or informal consultations of the Security Council and its subsidiary organs	80	151	80	80
8. Meetings and/or informal consultations of the United Nations Standing Advisory Committee on Security Questions in Central Africa	4	4	4	4
9. High-level side events on issues relating to the prevention and resolution of conflicts during the General Assembly	5	5	5	5
B. Generation and transfer of knowledge				
Seminars, workshops and training events (number of days)	195	125	150	150
10. Seminars, training events and academic meetings on advancing preventive diplomacy, peacemaking and peacebuilding	195	125	150 [195]	150
C. Substantive deliverables				
Good offices: good offices and preventive diplomacy; high-level diplomatic missions and meetings, including jointly with more than 24 regional organizations; and strategic assessment missions and support for an estimated 22 special political missions with a good offices role, including mediation support.				
Consultation, advice and advocacy: consultations with representatives of Member States from all regions, international and regional organizations and civil society organizations; and strategic coordination meetings with relevant partners.				
Databases and substantive digital materials: databases such as the Peace and Security Data Hub, United Nations Peacemaker and Diplomatic Pulse.				
D. Communication deliverables				
External and media relations: communications products about the work of the Department, such as <i>Politically Speaking</i> , Diplomacy for Peace and accounts on relevant social media platforms.				

^a Reflects updated planned deliverables for 2026. Values in square brackets represent the number of planned deliverables reflected in [A/80/6 \(Sect. 3\)](#).

Subprogramme 2 Electoral assistance

Objective

3.I.31 The objective, to which this subprogramme contributes, is to strengthen the existing capacity of requesting Member States to organize and conduct inclusive, transparent and peaceful elections that

enjoy public confidence and that contribute to stability and security, especially in transitional and post-conflict situations.

Strategy

- 3.I.32 To contribute to the objective, the subprogramme will continue to provide timely electoral support to Member States upon their request or pursuant to a mandate from the General Assembly or the Security Council, in close coordination with other relevant United Nations entities under the leadership of the United Nations focal point for electoral assistance matters. Specifically, the subprogramme will:
- (a) Deploy technical experts and various types of electoral missions in support of requesting Member States, including on designing and establishing election management bodies, designing or reforming electoral frameworks and systems, addressing political and technical issues that arise in the conduct of electoral processes, developing voter education and voter registration activities, and promoting the participation of women, young people and persons with disabilities in electoral and political processes;
 - (b) Develop and strengthen partnerships and provide capacity development support to requesting regional organizations, including by co-organizing, with regional organizations and other relevant United Nations entities, training events for Member States in various regions, including on gender equality and elections, enhancing the credibility, inclusivity and integrity of electoral processes and preventing election-related violence;
 - (c) Develop or update internal policies on electoral assistance, in close cooperation with other relevant United Nations entities, and review and provide input to initiatives and documents of other United Nations entities that intersect with elections;
 - (d) Maintain and manage the United Nations single roster of electoral experts and the United Nations electoral institutional memory;
 - (e) Assist Member States, upon request, in assessing the impact of digital and emerging technologies, including social media, in the context of electoral processes.
- 3.I.33 The above-mentioned work is expected to result in:
- (a) More inclusive, peaceful and transparent electoral processes;
 - (b) Strengthened election management bodies;
 - (c) More effective electoral frameworks and systems;
 - (d) Enhanced voter education and voter registration activities;
 - (e) Increased participation of women, young people, persons with disabilities and those who are underrepresented and/or marginalized, including people in rural areas lacking infrastructure, in electoral and political processes;
 - (f) Strengthened electoral capacity of regional organizations;
 - (g) Consistent, coherent and coordinated electoral assistance to Member States.

Programme performance in 2025

Enhanced women's leadership and participation in electoral and political processes

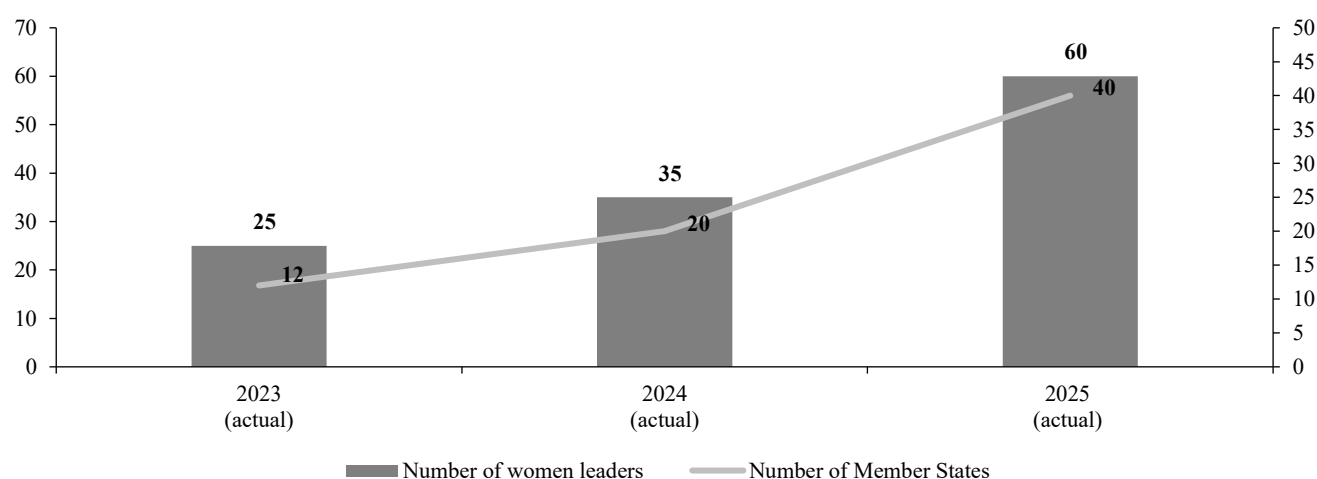

- 3.I.34 In 2025, the subprogramme strengthened Member States' electoral and political processes by scaling up the Women's Leadership Academy, implemented jointly with the United Nations Development Programme, into a global platform for senior women leaders from electoral management bodies, public institutions and civil society. The Academy aims to support women's leadership and political participation by strengthening their digital skills, fostering peer networks and enabling knowledge exchange on common challenges. In 2023, the first edition of the Academy was held in Spain, with

the participation of women leaders in the Arab region primarily from public institutions and civil society, with a view to piloting the Academy model and curriculum. In 2024, an expanded edition was held in Qatar with women leaders from Asia, Africa and the Arab region. Building on these previous regional editions, in 2025, a global edition of the Women's Leadership Academy was held, with a strong emphasis placed on communication in the digital era, including the risks posed by misinformation and disinformation and the role of strategic communications. Through these efforts, the subprogramme enhanced the capacity of women leaders to engage effectively in electoral governance, public decision-making and political leadership in increasingly complex and polarized environments.

3.I.35 Progress towards the objective is presented in the performance measure below (see figure 3.I.III).

Figure 3.I.III

Performance measure: number of women leaders with strengthened capacity to engage effectively in electoral governance, public decision-making and political leadership (annual)

Planned results for 2027

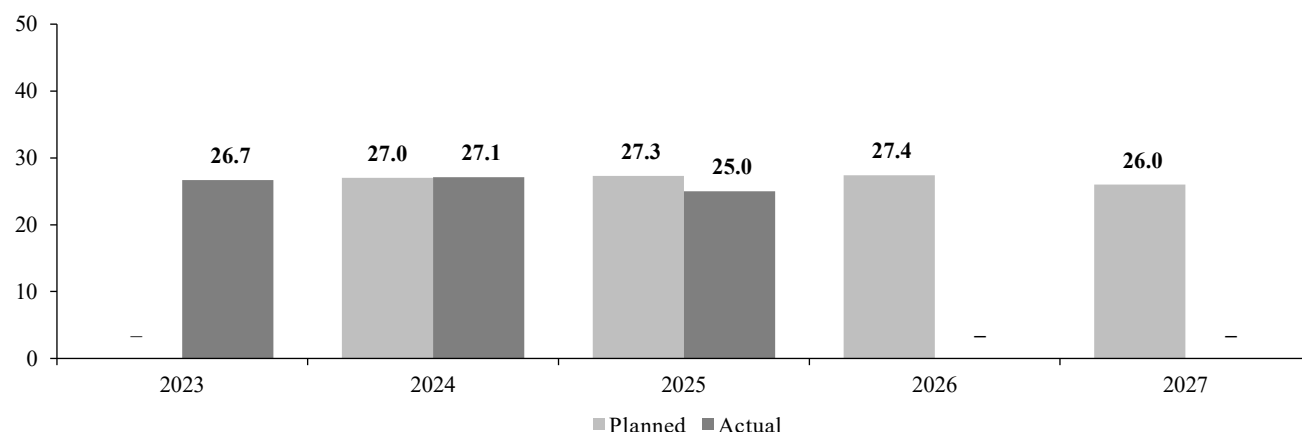

Result 1: increased representation of women in electoral and political processes

Programme performance in 2025 and target for 2027

- 3.I.36 The subprogramme's work contributed to an average of 25.0 per cent of women in parliaments in countries receiving United Nations electoral assistance, which did not meet the planned target of 27.3 per cent. While the subprogramme continued to provide technical advice, capacity-building and advocacy, the target was not met as progress remained constrained by factors related to social norms, legal frameworks, political party nomination practices and broader political dynamics.
- 3.I.37 Progress towards the objective and the target for 2027 are presented in the performance measure below (see figure 3.I.IV).

Figure 3.I.IV

Performance measure: percentage of women in parliaments in countries receiving United Nations electoral assistance (annual)

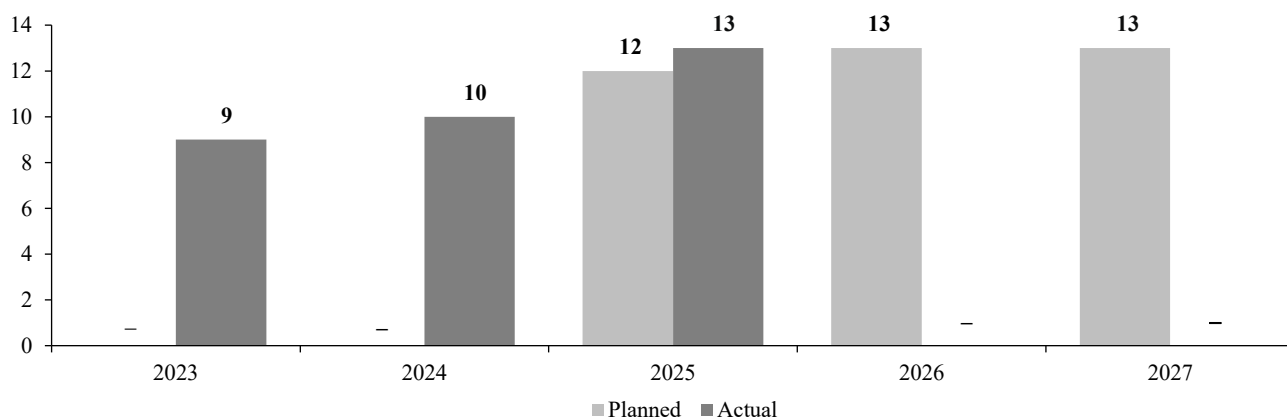

Result 2: strengthened capacity of Member States receiving United Nations electoral assistance through joint initiatives with regional and subregional organizations

Programme performance in 2025 and target for 2027

- 3.I.38 The subprogramme's work contributed to 13 regional and subregional organizations participating in electoral capacity development initiatives, which exceeded the planned target of 12.
- 3.I.39 Progress towards the objective and the target for 2027 are presented in the performance measure below (see figure 3.I.V).

Figure 3.I.V

Performance measure: number of regional and subregional organizations participating in electoral capacity development initiatives (annual)

Result 3: Member States receive timely and effective response to requests for United Nations electoral assistance

Proposed programme plan for 2027

- 3.I.40 Timely and predictable responses to requests for electoral assistance are critical to preventing electoral-related tensions, supporting inclusive political processes and enabling Member States to identify and address emerging risks early in the electoral cycle. The subprogramme provides requesting Member States with clear and coherent initial guidance on available United Nations

electoral assistance shortly after a request is submitted. This enhances predictability, trust and the overall relevance of United Nations electoral assistance throughout the electoral cycle.

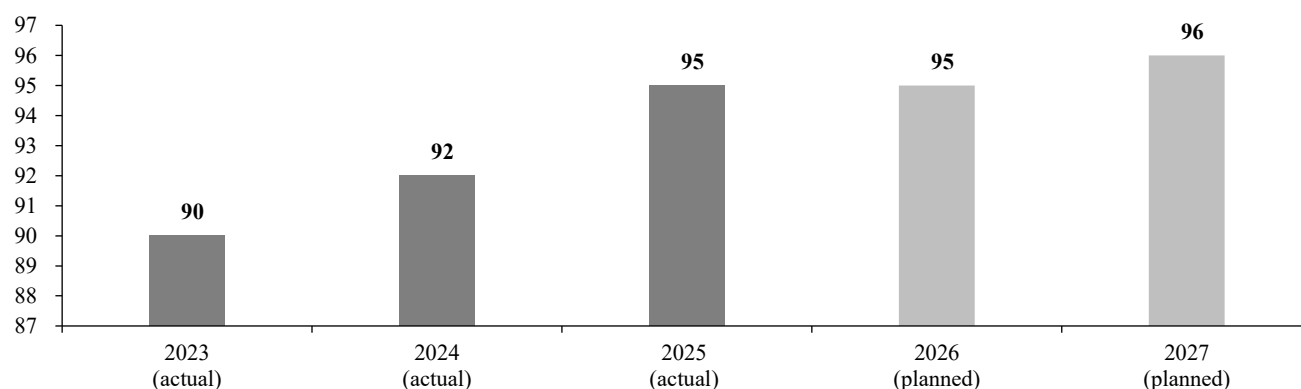

Lessons learned and planned change

3.I.41 The lesson for the subprogramme was the need to improve timeliness of responses to Member States' requests for electoral assistance. Experience has shown that internal coordination requirements, including staffing availability and administrative processes, can affect response times. In applying the lesson, the subprogramme will further streamline internal decision-making and deployment processes to address bottlenecks, strengthen early coordination with partners and expand the use of flexible staffing and planning tools, with a view to improving the timeliness and coordination of initial responses to requesting Member States.

3.I.42 Expected progress towards the objective is presented in the performance measure below (see figure 3.I.VI).

Figure 3.I.VI

Performance measure: percentage of requests for electoral assistance for which a coordinated initial response was communicated to the requesting Member State within four weeks (annual)

Deliverables

3.I.43 Table 3.I.5 lists all deliverables of the subprogramme.

Table 3.I.5

Subprogramme 2: deliverables for the period 2025–2027, by category and subcategory

Category and subcategory	2025 planned	2025 actual	2026 planned ^a	2027 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	1	1	–	1
1. Report of the Secretary-General to the General Assembly on strengthening the role of the United Nations in enhancing periodic and genuine elections and the promotion of democratization	1	1	–	1
Substantive services for meetings (number of three-hour meetings)	1	1	–	1
2. Plenary of the General Assembly	1	1	–	1
B. Generation and transfer of knowledge				
Field and technical cooperation projects (number of projects)	36	36	30	30
3. For the deployment of international election observers at the request of Member States and other organizations	1	1	1	1
4. On electoral assistance to Member States	35	35	29 [35]	29

Seminars, workshops and training events (number of days)	26	26	16	16
5. Training events and workshops for electoral administrators and staff at the regional and national levels on key electoral matters, including gender equality and elections, elections and violence, and election observation	26	26	16 [26]	16
Technical materials (number of materials)	7	7	5	5
6. Technical guidelines and reference materials on electoral processes, the electoral legal framework and the organization and administration of elections	7	7	5 [7]	5
Electoral missions (number of missions)	34	30	24	24
7. Technical, advisory and review missions for electoral processes	34	30	24 [34]	24
C. Substantive deliverables				
Consultation, advice and advocacy: technical advice for electoral processes to an estimated 50 Member States, particularly in the areas of electoral systems and frameworks, mainstreaming a gender perspective, voter registration and electoral operations; and consultations, including with Governments, United Nations entities and civil society organizations, including women's organizations.				
Databases and substantive digital materials: United Nations single electoral roster of experts; and records on the provision of electoral assistance for preserving United Nations electoral institutional memory.				

^a Reflects updated planned deliverables for 2026. Values in square brackets represent the number of planned deliverables reflected in A/80/6 (Sect. 3).

Subprogramme 3 Security Council affairs

Objective

- 3.I.44 The objective, to which this subprogramme contributes, is to ensure the effective discharge by the Security Council of its responsibility for the maintenance of international peace and security.

Strategy

- 3.I.45 To contribute to the objective, the subprogramme will facilitate the full, complete and timely execution of the work of the Security Council and its subsidiary bodies, including by:
- (a) Assisting the monthly presidency of the Council in carrying out its official functions, particularly the preparation and conduct of the Council's monthly programme of work, and providing procedural and substantive advice to the monthly presidency, Council members and other Member States regarding the conduct of meetings and Council activities;
 - (b) Coordinating the timely and accurate issuance of the official documentation of the Council, including its outcomes, the annual report to the General Assembly and other documents, as well as other correspondence from the Secretariat, Member States and entities;
 - (c) Supporting the work of the subsidiary bodies of the Council, including sanctions committees, other committees and working groups, as well as their associated monitoring teams, groups and panels, including by providing procedural and substantive advice to Chairs and other Council members;
 - (d) Supporting missions of the Council and Chairs of its subsidiary bodies to countries and regions in connection with matters on the Council's agenda;
 - (e) Supporting the design and implementation of the Council's sanctions regimes, including by conducting assessments of regimes upon the Council's request;
 - (f) Organizing training sessions for incoming members of the Council, and Chairs and members of sanctions committees, and engaging with the broader United Nations system and Member

States to enhance the effective functioning of sanctions committees as well as to promote deeper understanding and implementation of Council sanctions;

- (g) Disseminating the United Nations Security Council Consolidated List to Member States, the United Nations system, other regional and international organizations and the private sector immediately following the adoption of Council and sanctions committees listing and delisting decisions;
- (h) Providing to Member States specialized research and analyses regarding the practice and procedures of the Council, through publications such as the *Repertoire of the Practice of the Security Council*, the *Highlights of Security Council Practice* and other information and data resources on specific areas of practice of the Council;
- (i) Responding to specific requests for research and advice from Member States and convening dedicated information sessions, upon request; and contributing to the publicly available joint Peace and Security Data Hub of the Departments of Political and Peacebuilding Affairs and Peace Operations.

3.I.46 The above-mentioned work is expected to result in:

- (a) The Security Council being able to fulfil its responsibilities under the Charter of the United Nations;
- (b) The Council and its sanctions committees being able to implement targeted sanctions;
- (c) Member States being able to rely on up-to-date and comprehensive information concerning the practice and procedures of the Council, allowing them to be better equipped to participate in the work of the Council and to actively contribute to its effective functioning.

Programme performance in 2025

Improved working methods of the Security Council through more timely consideration of members' feedback

3.I.47 The subprogramme conducts surveys to assess Secretariat services provided to the monthly presidencies of the Security Council, gathering feedback on key workflows that support the Council's programme of work, including meeting scheduling and servicing, the provision of procedural advice and research, and the timely and efficient circulation of communications. While these surveys were intended to identify areas for improvement, their previous format proved cumbersome for members to complete and return. In 2025, with a view to facilitating more accessible and timely feedback from Council members, the subprogramme introduced a digitized version of the survey, simplifying access and significantly reducing the required time for completion, while maintaining the necessary level of detail. These improvements resulted in a marked decrease in delays in response time and enabled the subprogramme to adjust workflows more expeditiously in response to the feedback received from Council members.

3.I.48 Progress towards the objective is presented in the performance measure below (see table 3.I.6).

Table 3.I.6
Performance measure: average time taken by Security Council presidencies to complete surveys on Secretariat support

2023 (actual)	2024 (actual)	2025 (actual)
Response time ranging from three weeks to six months on average	Response time ranging from three weeks to six months on average	Response time ranging from five days to four weeks on average

Planned results for 2027

Result 1: enhanced engagement with Member States on the Security Council's work

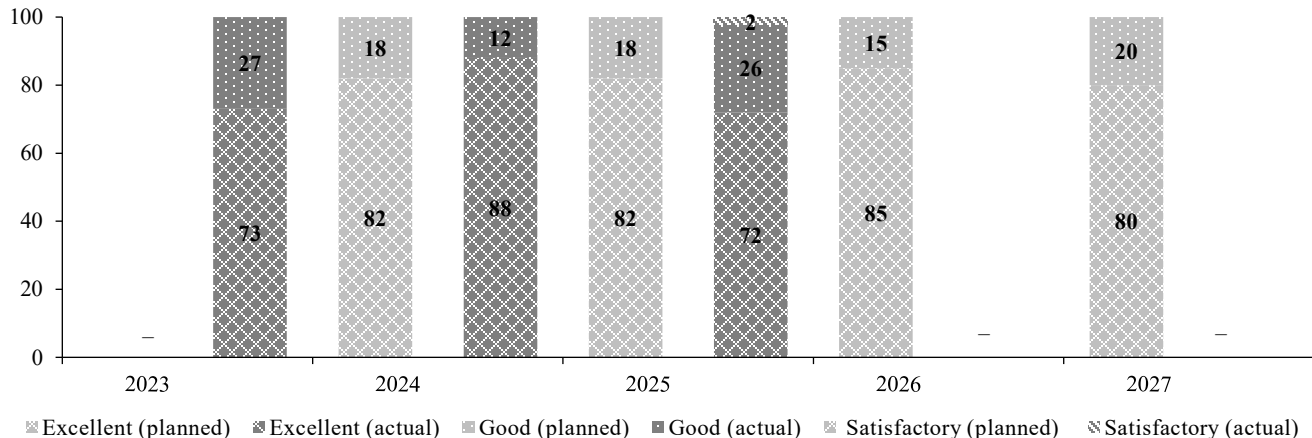

Programme performance in 2025 and target for 2027

3.I.49 The subprogramme's work contributed to 72 per cent of participants in the induction workshops for incoming Security Council members expressing an "excellent" degree of satisfaction, 26 per cent expressing a "good" degree of satisfaction and 2 per cent expressing a "satisfactory" degree of satisfaction, which did not meet the planned target of 82 per cent of participants expressing an "excellent" degree of satisfaction. The target was not met due to feedback received on new elements introduced into the content of the workshops.

3.I.50 Progress towards the objective and the target for 2027 are presented in the performance measure below (see figure 3.I.VII).

Figure 3.I.VII

Performance measure: percentage of participants in the induction workshops for incoming Security Council members expressing a "satisfactory", "good" or "excellent" degree of satisfaction

Result 2: improved access for Member States and the public to up-to-date, contemporaneous analytical information on the practice and work of the Security Council

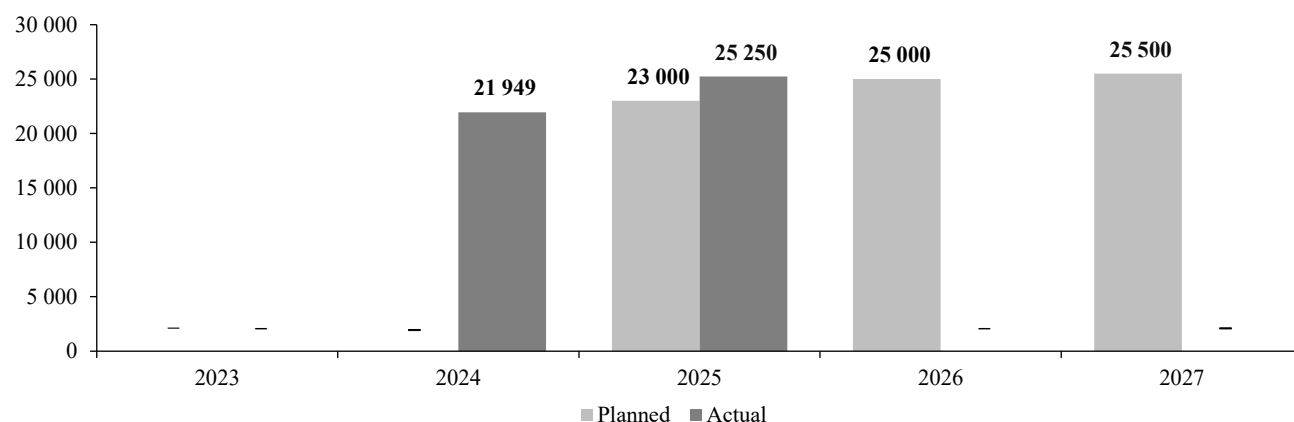

Programme performance in 2025 and target for 2027

3.I.51 The subprogramme's work contributed to enhanced awareness regarding the practice and procedure of the Security Council, with 25,250 views of databases on the Security Council website, which exceeded the planned target of 23,000 views.

3.I.52 Progress towards the objective and the target for 2027 are presented in the performance measure below (see figure 3.I.VIII).

Figure 3.I.VIII

Performance measure: number of views of databases on the Security Council website (annual)

Result 3: Security Council members receive timely information on the implementation of sanctions measures

Proposed programme plan for 2027

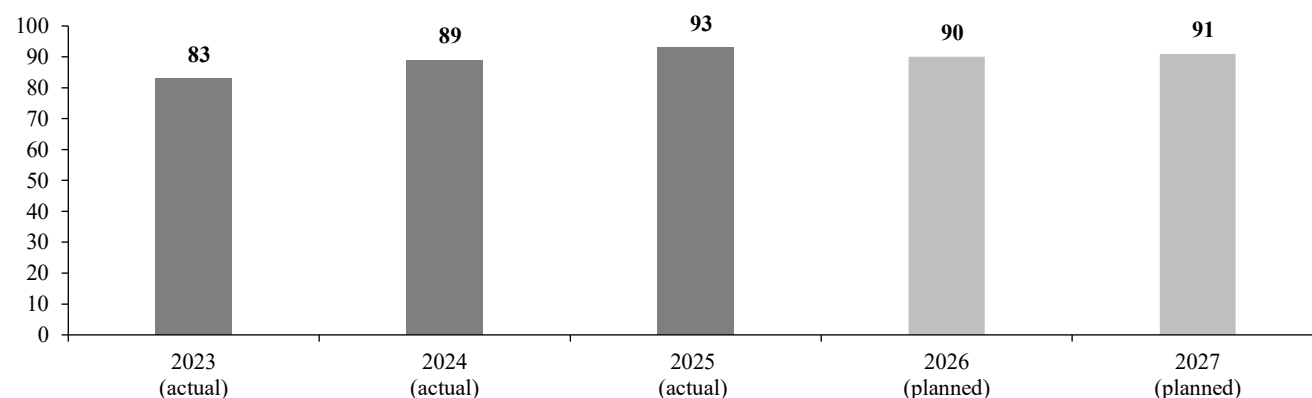

- 3.I.53 The subprogramme facilitates the timely submission of the reports of the panels of experts to the sanctions committees established by the Security Council on the implementation of sanctions measures, in accordance with relevant Council resolutions. To this end, the subprogramme coordinates with expert panels, groups and teams and provides substantive guidance and administrative support throughout the reporting process. This work contributes to ensuring that the sanctions committees receive timely information necessary to discharge their responsibilities.

Lessons learned and planned change

- 3.I.54 The lesson for the subprogramme was the importance of early engagement and regular follow-up to ensure the timely submission of the reports of the panels of experts. In applying the lesson, the subprogramme will enhance coordination with expert panels, groups and teams, including with respect to their programme of work and investigation plans, to ensure the timely submission of reports.
- 3.I.55 Expected progress towards the objective is presented in the performance measure below (see figure 3.I.IX).

Figure 3.I.IX

Performance measure: percentage of midterm or final reports of panels of experts submitted to the sanctions committees in accordance with the timelines established in applicable Security Council resolutions (annual)

Deliverables

3.I.56 Table 3.I.7 lists all deliverables of the subprogramme.

Table 3.I.7

12. Statistics of Security Council deliberations	12	12	12	12
C. Substantive deliverables				
Consultation, advice and advocacy: consultation, advice and advocacy to the Security Council in the preparation of the report of the Security Council for the General Assembly; and tailored research for Member States on Security Council practice and procedure, current and historic.				
Databases and substantive digital materials: database of Council procedures, practices and working methods, including data on over 200 public meetings convened annually, covering approximately 50 agenda items; pool of experts for Council subsidiary bodies, and the United Nations Security Council Consolidated List of sanctions in all official languages provided to Member States, the private sector and other stakeholders; Security Council subsidiary organs fact sheets; interactive dashboards on representation of women at the Council, membership of the Council, Chairs and Vice-Chairs of its subsidiary organs and Arria-formula meetings; and data sets related to the work of the Council published on the Peace and Security Data Hub.				
D. Communication deliverables				
Digital platforms and multimedia content: website of the Security Council and its subsidiary bodies in the six official languages of the United Nations for Member States and the wider public; and social media posts and articles linking the activities of the Council to relevant constitutional and procedural aspects captured in the <i>Repertoire of the Practice of the Security Council</i> .				

^a Reflects updated planned deliverables for 2026. Values in square brackets represent the number of planned deliverables reflected in A/80/6 (Sect. 3).

Subprogramme 4 Decolonization

Objective

- 3.I.57 The objective, to which this subprogramme contributes, is to promote the decolonization process in accordance with the Charter and relevant resolutions of the General Assembly of the 17 Non-Self-Governing Territories so as to bring about the complete eradication of colonialism.

Strategy

- 3.I.58 To contribute to the objective, the subprogramme will:
- (a) Provide substantive support to the Special Committee on the Situation with regard to the Implementation of the Declaration on the Granting of Independence to Colonial Countries and Peoples and the Fourth Committee, including the preparation of Secretariat working papers and mandated reports of the Secretary-General, and inputs for the annual report of the President of the Economic and Social Council on the implementation of the Declaration by the specialized agencies and the international institutions associated with the United Nations;
 - (b) Provide advice, briefing materials and substantive support to the meetings, annual regional seminars and visiting missions of the Special Committee, and meetings of the Fourth Committee and the Economic and Social Council, in close coordination with the Department for General Assembly and Conference Management;
 - (c) Maintain contact with the representatives of the Non-Self-Governing Territories and United Nations agencies, funds and programmes and work with the Department of Global Communications, the Department for General Assembly and Conference Management and the Office of Information and Communications Technology in disseminating information on decolonization, including through the enhancement of the United Nations and decolonization website, and in supporting the implementation of an outreach programme to mobilize educational institutions and civil society to expand their activities in the field of remembering colonialism, its root causes and consequences.
- 3.I.59 The above-mentioned work is expected to result in:
- (a) Advancement of specific proposals to bring about an end to colonialism;
 - (b) Programmes of work developed on a case-by-case basis for the decolonization of the Non-Self-Governing Territories;
 - (c) Timely and informed decision-making by the Special Committee when considering the situation in the Non-Self-Governing Territories.

Programme performance in 2025

Strengthened public awareness of decolonization

- 3.I.60 In 2025, the subprogramme designed and implemented a dedicated digital awareness campaign highlighting key aspects of decolonization. This campaign was implemented alongside a high-level plenary meeting of the General Assembly held on 18 December 2025 to commemorate the sixty-fifth anniversary of the adoption of its resolution [1514 \(XV\)](#), containing the Declaration on the Granting of Independence to Colonial Countries and Peoples, and to mark the first observance of the International Day against Colonialism in All Its Forms and Manifestations, established by the Assembly in its resolution [80/106](#). All campaign materials were produced in the six official languages of the United Nations and tailored for dissemination across various social media platforms. Launched on 6 December 2025, the campaign maintained consistent visibility and

engagement across various digital and social media platforms and supported efforts to strengthen public awareness of United Nations efforts to advance the decolonization agenda.

3.I.61 Progress towards the objective is presented in the performance measure below (see table 3.I.8).

Table 3.I.8
Performance measure

2023 (actual)	2024 (actual)	2025 (actual)
–	–	Increased public awareness of decolonization, with 17,533 impressions across various platforms

Planned results for 2027

Result 1: the Special Committee has access to an up-to-date list of qualified experts on decolonization

Programme performance in 2025 and target for 2027

- 3.I.62 The subprogramme's work contributed to the Special Committee having access to a list with an increased number of qualified experts on decolonization, reflecting a 41 per cent increase in the representation of women, diverse geographic regions and varied areas of expertise, which met the planned target.
- 3.I.63 Progress towards the objective and the target for 2027 are presented in the performance measure below (see table 3.I.9).

Table 3.I.9
Performance measure

2023 (actual)	2024 (actual)	2025 (actual)	2026 (planned)	2027 (planned)
The Special Committee had access to a list of experts on decolonization from which the Bureau selected the experts invited to the Pacific regional seminar	The Special Committee continued to have access to a list of experts on decolonization Gender parity was achieved with respect to the shortlist of experts proposed for selection	The Special Committee had access to a list with an increased number of qualified experts, reflecting a 41 per cent increase in the representation of women, diverse geographic regions and varied areas of expertise	The Special Committee has access to a list with an increased number of qualified experts, which contributes to the list of qualified experts on decolonization having improved geographical representation and area of expertise representation	The Special Committee has access to a list with an increased number of qualified experts, which contributes to the list of qualified experts on decolonization having improved geographical representation and area of expertise representation

Result 2: increased dissemination of information on decolonization

Programme performance in 2025 and target for 2027

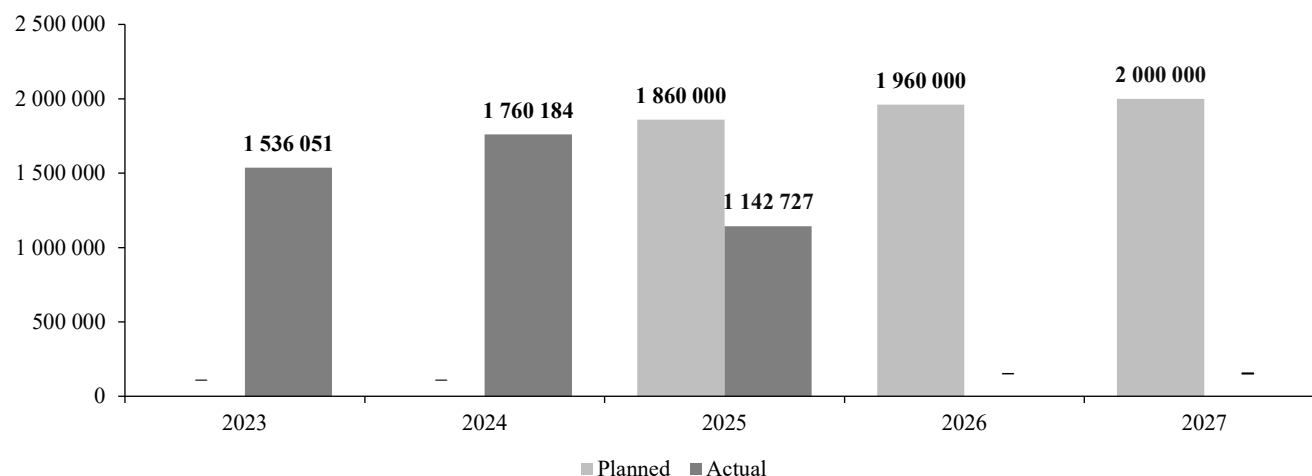

- 3.I.64 The subprogramme's work contributed to over 1.1 million page views of the United Nations and Decolonization website, which did not meet the planned target of 1.86 million views. The target was

not met as some content updates had to be deferred due to liquidity constraints, which likely led to lower visitor engagement than anticipated.

- 3.I.65 Progress towards the objective and the target for 2027 are presented in the performance measure below (see figure 3.I.X).

Figure 3.I.X

Performance measure: number of page views of the United Nations and Decolonization website

Result 3: the Special Committee has access to enhanced reporting on assistance to Non-Self-Governing Territories

Proposed programme plan for 2027

- 3.I.66 Annual resolutions of the General Assembly and the Economic and Social Council underscore that Non-Self-Governing Territories, most of which are small islands, face limited development options and significant challenges in planning and implementing sustainable development. The subprogramme compiles information on assistance extended to the Territories by United Nations entities, on a case-by case basis and within their respective mandates, and by international and regional organizations, thereby supporting the deliberations of the Special Committee.

Lessons learned and planned change

- 3.I.67 The lesson for the subprogramme was the need to include more focused information on assistance provided, on a case-by-case basis, on sustainable development in the report of the President of the Economic and Social Council and relevant working papers, in accordance with General Assembly resolutions which emphasize the continuous review of activities by specialized agencies and other organizations in implementing resolutions and decisions relating to decolonization. In applying the lesson, the subprogramme will enhance coordination and data collection, ensuring more specific inputs from administering Powers, United Nations entities and international organizations on activities supporting the implementation of the 2030 Agenda in the Non-Self-Governing Territories.
- 3.I.68 Expected progress towards the objective is presented in the performance measure below (see table 3.I.10).

Table 3.I.10
Performance measure

2023 (actual)	2024 (actual)	2025 (actual)	2026 (planned)	2027 (planned)
–	–	The Special Committee received information on assistance provided to the Territories in various areas on a case-by-case basis	The Special Committee has access to more focused information on assistance provided, on a case-by-case basis, for the implementation of the 2030 Agenda in the Territories	The Special Committee has access to specific information on assistance provided, on a case-by-case basis, for the implementation of the 2030 Agenda in the Territories

Deliverables

Subprogramme 5 Question of Palestine

Objective

- 3.I.70 The objective, to which this subprogramme contributes, is to ensure the effective and efficient implementation of the programme of work of the Committee on the Exercise of the Inalienable Rights of the Palestinian People to promote the realization of the inalienable rights of the Palestinian people.

Strategy

- 3.I.71 To contribute to the objective, the subprogramme will:
- (a) Organize Committee and Bureau meetings, conduct observances globally of the International Day of Solidarity with the Palestinian People, including a high-level event in New York; commemorate the anniversary of the Nakbah, including by organizing annual events and through the dissemination of relevant archives and testimonies, in line with General Assembly resolution 79/82; organize outreach for the Bureau with United Nations entities and Member States on the question of Palestine; and hold other advocacy and awareness-raising activities, events and international conferences;
 - (b) Develop and expand the digital advocacy of the Committee, including its website and social media channels supported by the subprogramme, and the online United Nations Information System on the Question of Palestine and publications;
 - (c) Liaise and cooperate with civil society and parliamentarians on the question of Palestine;
 - (d) Implement the Committee's capacity-building activities for Palestinian officials, with a focus on strategic communications and diplomatic protocol.
- 3.I.72 The above-mentioned work is expected to result in:
- (a) Mobilization of the diplomatic community, through the work of the Committee, in support of the realization of the two-State solution, the inalienable rights of the Palestinian people and a just, comprehensive and lasting solution to the question of Palestine;
 - (b) The general public, civil society and the media being informed about the question of Palestine and the work of the Committee;
 - (c) Stronger institutional capacity of the Government of the State of Palestine in areas such as strategic communications and diplomatic protocol.

Programme performance in 2025

Increased engagement and support by Member States for the Committee

3.I.73 The subprogramme supported the Committee in conducting outreach to Member States and regional and subregional organizations to engage in advocacy and awareness-raising. In 2025, outreach efforts in the Latin America and Caribbean region led to a formal request from an additional Member State for admission to the Committee, further mobilizing the international community in support of the realization of the two-State solution, the inalienable rights of the Palestinian people and a just, comprehensive and lasting solution to the question of Palestine.

3.I.74 Progress towards the objective is presented in the performance measure below (see table 3.I.12).

Table 3.I.12
Performance measure

2023 (actual)	2024 (actual)	2025 (actual)
—	—	An additional Member State requested admission to the Committee

Planned results for 2027

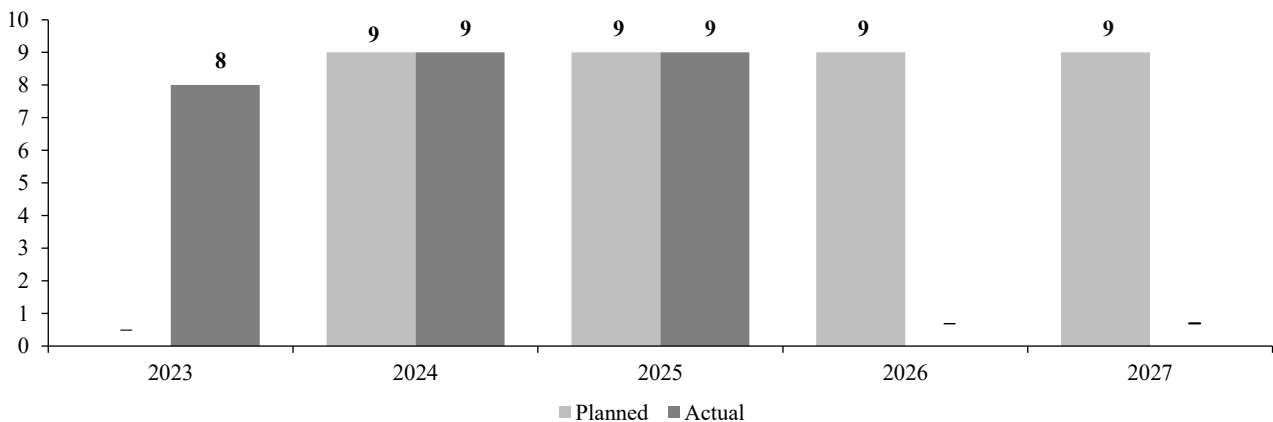

Result 1: enhanced public outreach by the Committee on the question of Palestine

Programme performance in 2025 and target for 2027

3.I.75 The subprogramme's work contributed to nine press statements of the Bureau of the Committee on the Exercise of the Inalienable Rights of the Palestinian People, which met the planned target.

3.I.76 Progress towards the objective and the target for 2027 are presented in the performance measure below (see figure 3.I.XI).

Figure 3.I.XI
Performance measure: number of press statements of the Bureau of the Committee on the Exercise of the Inalienable Rights of the Palestinian People

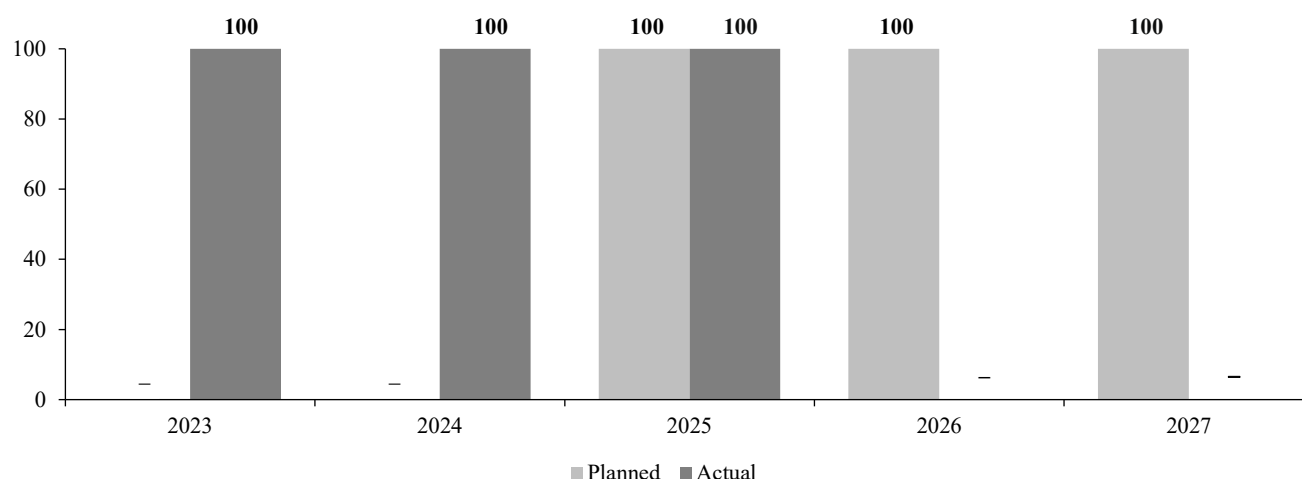

Result 2: enhanced Committee briefings and engagement with the Security Council

Programme performance in 2025 and target for 2027

- 3.I.77 The subprogramme's work contributed to 100 per cent of Committee members and observers expressing satisfaction with the subprogramme's support for outreach to Member States, which met the planned target.
- 3.I.78 Progress towards the objective and the target for 2027 are presented in the performance measure below (see figure 3.I.XII).

Figure 3.I.XII

Performance measure: percentage of Committee members and observers expressing satisfaction with the subprogramme's support for outreach to Member States¹

Result 3: increased advocacy and public engagement by the Committee on the question of Palestine

Proposed programme plan for 2027

- 3.I.79 The subprogramme contributes to the Committee's public outreach, both through the organization of public events, including briefings and conferences, and the implementation of the Committee's digital advocacy, including social media outreach, website and mailing list maintenance and maintenance of the United Nations Information System on the Question of Palestine.

Lessons learned and planned change

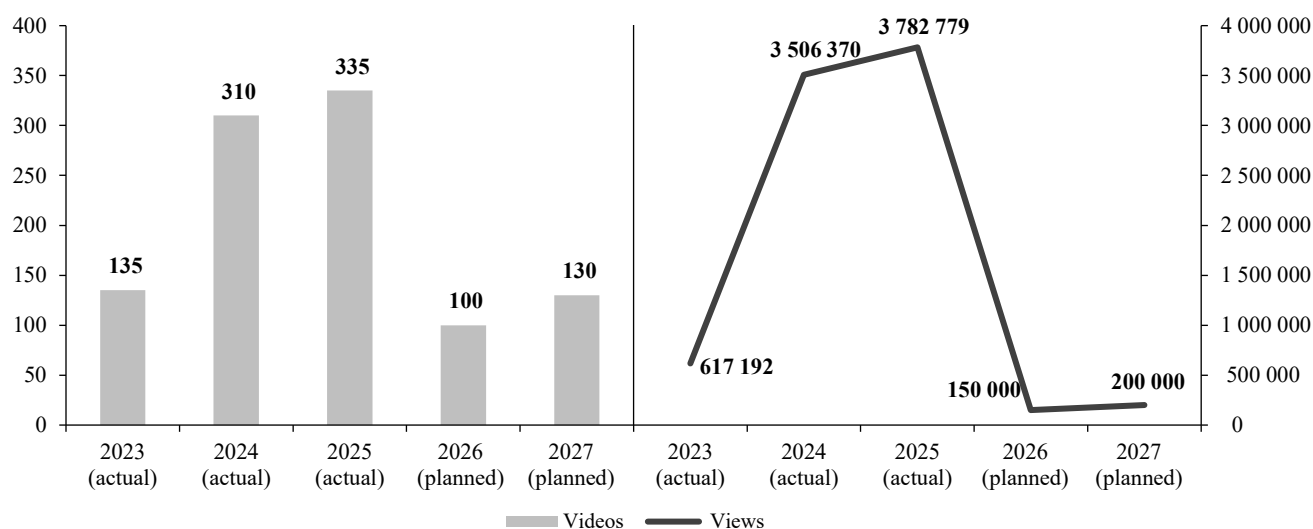

- 3.I.80 The lesson for the subprogramme was that the media outreach via short videos had proved to be successful and would need to be intensified. While engagement and advocacy were intensified during the conflict in Gaza, all Committee messaging via short videos generated significant public engagement. These video clips are based on the Committee's engagement with relevant stakeholders on the question of Palestine, leading to joint public advocacy. In applying the lesson, the subprogramme will focus on video clips featuring key messages, as appropriate, from the Committee meetings and engagements, as compared to the period prior to the conflict in Gaza.
- 3.I.81 Expected progress towards the objective is presented in the performance measure below (see figure 3.I.XIII).

¹ Percentage based on number of Committee members and observers responding to a survey.

Figure 3.I.XIII

Performance measure: access to videos published on the question of Palestine

(Number of views and number of videos)

Databases and substantive digital materials: database of over 2,000 experts and some 1,500 non-governmental organizations working on the question of Palestine.				
D. Communication deliverables				
Outreach programmes, special events and information materials: International Day of Solidarity with the Palestinian People and other special events at the discretion of the Committee reaching all Member States and the public at large; annual Palestinian exhibit or cultural event in connection with the International Day of Solidarity at United Nations Headquarters reaching all Member States and the public at large; commemoration of the Nakbah; briefings for United Nations officials, visitors, non-governmental organizations and others; and information-sharing, outreach efforts and participation in meetings of civil society.				
External and media relations: communiqués, press statements, press conferences and other communication materials for the media and other external entities before, during and after the Committee's activities.				
Digital platforms and multimedia content: website of the subprogramme/Committee and its social media accounts.				
Library services: United Nations Information System on the Question of Palestine.				

^a Reflects updated planned deliverables for 2026. Values in square brackets represent the number of planned deliverables reflected in A/80/6 (Sect. 3).

Subprogramme 6 Peacebuilding and Peace Support Office

Objective

- 3.I.83 The objective, to which this subprogramme contributes, is to strengthen the effective role of the Peacebuilding Commission in bringing attention to peacebuilding needs, convening key actors and proposing peacebuilding strategies; and to strengthen country- and region-owned and -led peacebuilding efforts and United Nations system-wide coherence on the ground through the Peacebuilding Fund, and strengthen partnerships with international financial institutions in support of efforts to build and sustain peace.

Strategy

- 3.I.84 To contribute to the objective, the subprogramme will:
- (a) Organize visits of the Peacebuilding Commission, provide technical and substantive advice regarding the Commission meetings and advance partnerships between the Commission and international financial institutions and regional and subregional organizations, civil society and the private sector;
 - (b) Through the Peacebuilding Fund, support nationally-led peacebuilding programmes, prioritizing transition contexts, subregional and cross-border contexts and the empowerment of women and young people, in particular those in vulnerable situations and situations of armed conflict;

- (c) Spearhead policy development related to peacebuilding, lead relevant coordination and integration mechanisms within the United Nations system and with the World Bank and other international financial institutions, including regional multilateral development banks, and advocate for the participation of women, youth and civil society organizations in peacebuilding;
- (d) Provide more coherent support to Member States through enhanced coordination with the Department of Peace Operations through the unified Peacebuilding and Peace Support Office, which consolidates existing capacities of peacebuilding, disarmament, demobilization and reintegration, security sector reform, and justice and corrections expertise.

3.I.85 The above-mentioned work is expected to result in:

- (a) A deeper commitment and a more coherent and integrated approach to sustaining peace by Member States and regional and international partners, including international financial institutions;
- (b) Synergistic, coordinated and effective national peacebuilding actions;
- (c) Improved alignment of policy responses for peacebuilding needs, with increased involvement of regional and international partners, including international financial institutions;
- (d) Improved coordination among Member States and regional and international partners to prioritize transition contexts, subregional and cross-border contexts and the empowerment of women and young people.

Programme performance in 2025

Member States strengthened national prevention and peacebuilding strategies and approaches

3.I.86 The General Assembly, in its resolution [79/1](#), on the Pact for the Future, commits Member States to strengthen and implement existing national prevention strategies and approaches to sustain peace, and to consider developing them where they do not exist, on a voluntary basis and in accordance with national priorities, to address the root causes of violence and armed conflict. In 2025, the subprogramme provided support, including technical assistance and logistical support, for the development and implementation of national prevention strategies, which resulted in three Member States advancing such strategies to address the root causes of violence and armed conflict.

3.I.87 Progress towards the objective is presented in the performance measure below (see table 3.I.14).

Table 3.I.14

Performance measure

2023 (actual)	2024 (actual)	2025 (actual)
—	—	Chad presented its national social cohesion strategy to the Peacebuilding Commission in September 2025 and is in the process of operationalizing it Mauritania adopted its national peacebuilding and social cohesion strategy for the period 2025–2030 Papua New Guinea adopted its national prevention strategy for the period 2025–2030

Planned results for 2027

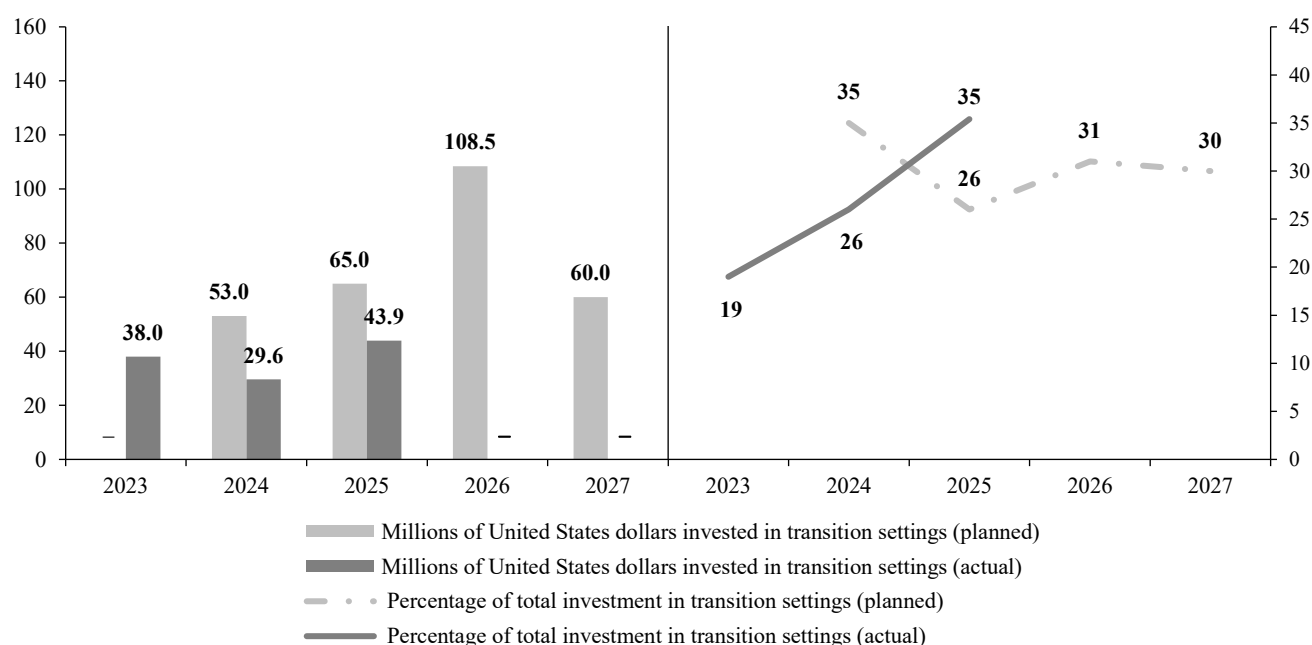

Result 1: increased focus on mission transitions

Programme performance in 2025 and target for 2027

- 3.I.88 The subprogramme's work contributed to an allocation of 35 per cent of Peacebuilding Fund resources to countries in transition, which exceeded the planned target of 26 per cent. These resources constituted \$43.9 million, which, however, did not meet the planned target of \$65 million. The target was not met due to the reduced annual approvals (\$124 million compared to the \$250 million target) in light of reduced contributions and liquidity constraints.
- 3.I.89 Progress towards the objective and the target for 2027 are presented in the performance measure below (see figure 3.I.XIV).

Figure 3.I.XIV

Performance measure: financing by the Peacebuilding Fund of initiatives in transition settings

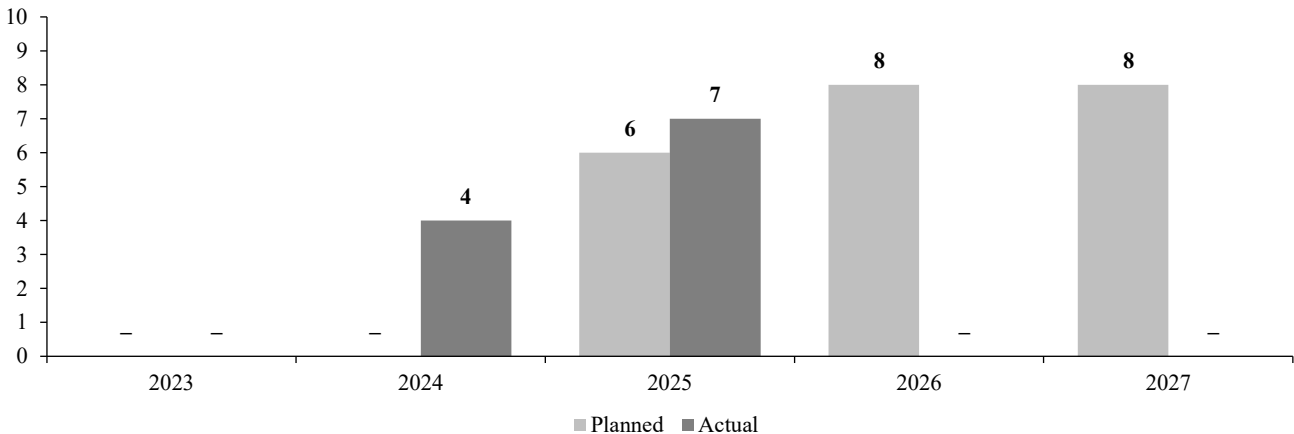

Result 2: strengthened partnership with international financial institutions for nationally-owned peacebuilding and prevention strategies

Programme performance in 2025 and target for 2027

- 3.I.90 The subprogramme's work contributed to seven joint initiatives undertaken by international financial institutions and regional multilateral development banks to strengthen strategic cooperation on peacebuilding, which exceeded the planned target of six.
- 3.I.91 Progress towards the objective and the target for 2027 are presented in the performance measure below (see figure 3.I.XV).

Figure 3.I.XV
Performance measure: number of joint initiatives undertaken by international or regional financial institutions to strengthen strategic cooperation on peacebuilding (annual)

Result 3: increased investment in Peacebuilding Fund initiatives reporting catalytic effects

Proposed programme plan for 2027

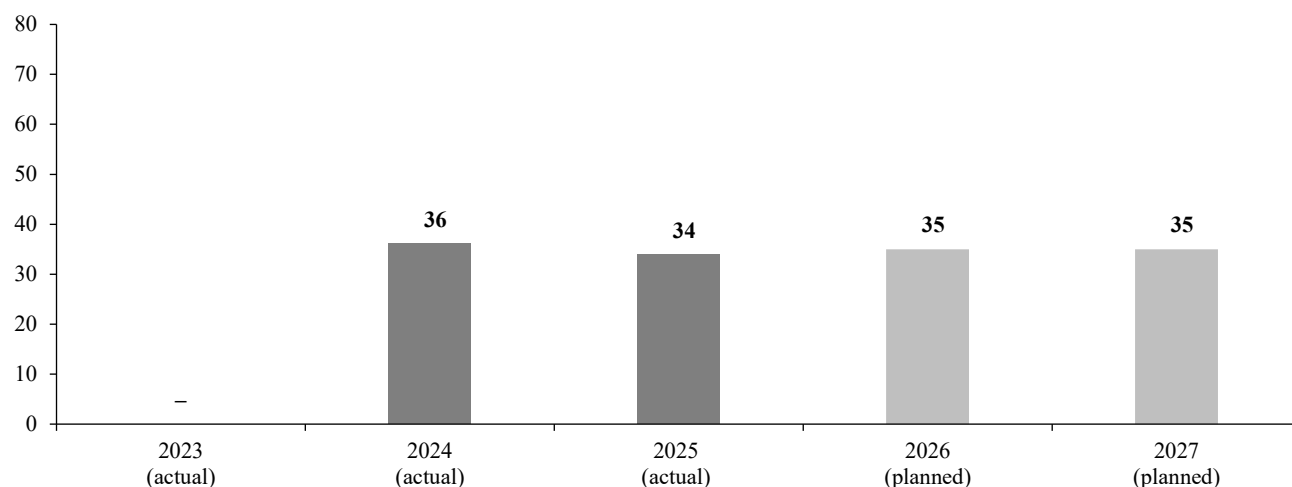

- 3.I.92 Through the Peacebuilding Fund, the subprogramme provides support to initiatives that are catalytic in their effects, in that they create conditions for sustained peacebuilding support, engage additional stakeholders in existing peacebuilding efforts and/or facilitate initiatives that attract new resources to peacebuilding priorities in the country.

Lessons learned and planned change

- 3.I.93 The lesson for the subprogramme, based on a recommendation of the Board of Auditors in 2024 (see [A/77/5 \(Vol. I\)](#), chap. II, para. 480), was the need to revise the guidelines for identifying the Fund's catalytic effects. In applying the lesson, the subprogramme consequently developed an indicator to measure the share of ongoing projects that report financial or non-financial catalytic effects. Going forward, the subprogramme will review investments through portfolio evaluations to identify country-specific financial and non-financial catalytic effects and apply the findings to strengthen future Peacebuilding Fund investments and peacebuilding programming at the country level.
- 3.I.94 Expected progress towards the objective is presented in the performance measure below (see figure 3.I.XVI).

Figure 3.I.XVI

Performance measure: percentage of Peacebuilding Fund initiatives reporting catalytic effects (annual)

Deliverables

3.I.95 Table 3.I.15 lists all deliverables of the subprogramme.

C. Substantive deliverables

Consultation, advice and advocacy: guidance and advice to country-level and regional recipients of funding from the Peacebuilding Fund on priority-setting and programming; promotion of partnerships in the form of regular dialogue, operational and strategic consultation between the United Nations and the World Bank, the International Monetary Fund and other international and regional financial institutions in seven countries and/or subregions; consultation, advice and advocacy with regional and subregional organizations (including through the annual informal consultation between the Peacebuilding Commission and the Peace and Security Council of the African Union), civil society organizations, think tanks, academia and the private sector on peacebuilding issues; strategic guidance and advice in support of the delivery of the mandate of the Peacebuilding Commission and the formulation and delivery of the priorities and the workplan of the Peacebuilding Commission; support, including advice by the Peacebuilding Commission, to other intergovernmental bodies and peacebuilding forums; information-sharing, guidance and strategic advice to Member States, the United Nations system and key stakeholders on policy issues related to the implementation of the sustaining peace framework; and policy support and advice to all members of the Peacebuilding Commission and Peacebuilding Fund donors and all recipient Governments on peacebuilding and sustaining peace and on women and young people in peacebuilding.

D. Communication deliverables

External and media relations: press statements of the Peacebuilding Commission; and four newsletters on peacebuilding.

Digital platforms and multimedia content: United Nations Peacebuilding website and social media platforms; and multimedia content, including short videos highlighting the results and impact on the ground.

^a Reflects updated planned deliverables for 2026. Values in square brackets represent the number of planned deliverables reflected in A/80/6 (Sect. 3).

Subprogramme 7 Cooperation between the United Nations and the League of Arab States

Objective

- 3.I.96 The objective, to which this subprogramme contributes, is to strengthen cooperation between the United Nations and the League of Arab States (LAS).

Strategy

- 3.I.97 To contribute to the objective, the subprogramme will:
- (a) Identify areas of work of joint interest and strengthen relationships with LAS through the pursuit of the common goals and objectives of the League and the United Nations;
 - (b) Contribute to efforts by LAS and its member States to make progress on achieving Sustainable Development Goal 16 and their commitments to building effective, accountable and inclusive institutions at all levels;
 - (c) Promote the Charter of the United Nations, in particular Chapter VIII;
 - (d) Deliver capacity-building exercises and staff exchanges and increase channels of communication, upon request.
- 3.I.98 The above-mentioned work is expected to result in:
- (a) Enhanced partnership and expanded outreach with LAS in the area of international peace and security, including conflict prevention, peacemaking and peacebuilding;
 - (b) Improved capacity of LAS on issues such as conflict prevention, peacemaking and peacebuilding;
 - (c) Improved coordination with LAS on cooperation activities.

Programme performance in 2025

Enhanced cooperation between the League of Arab States and the United Nations on women's rights and child protection in armed conflict

- 3.I.99 The biennial United Nations-League of Arab States sectoral meeting was dedicated to cooperation in the area of women's rights and child protection in armed conflict. The subprogramme convened the meeting in November 2025, with 28 representatives from LAS and 27 representatives from United Nations entities. In preparation for the meeting, LAS and United Nations entities developed new cooperation initiatives related to the implementation of the women and peace and security and the youth and peace and security agendas, as well as issues related to children in armed conflict, health and humanitarian affairs. Participants also identified recommendations to help guide cooperation in these areas over the coming two-year period.
- 3.I.100 Progress towards the objective is presented in the performance measure below (see table 3.I.16).

Table 3.I.16

Performance measure

2023 (actual)	2024 (actual)	2025 (actual)
Representatives of LAS and United Nations entities in the sectoral meeting identified potential synergies and opportunities to structure their cooperation on addressing the impacts of climate change	Representatives of LAS and United Nations entities identified key partnership areas and potential synergies and opportunities to structure their cooperation	Representatives of LAS and United Nations entities identified recommendations to guide cooperation on addressing women's rights, child protection in armed conflict and related issues

Planned results for 2027

Result 1: progress on preventive diplomacy, mediation and analysis by the League of Arab States

Programme performance in 2025 and target for 2027

- 3.I.101 The subprogramme's work contributed to enhanced capacity of LAS officials in preventive diplomacy, mediation and analysis, which met the planned target.
- 3.I.102 Progress towards the objective and the target for 2027 are presented in the performance measure below (see table 3.I.17).

	additional capacity-building needs of LAS officials			

Result 2: strengthened engagement with the General Secretariat of the League of Arab States and the League's member States

Programme performance in 2025 and target for 2027

- 3.I.103 The subprogramme's work contributed to enhanced mutual understanding of and analysis on political developments in the Arab region, including in the Occupied Palestinian Territory, the Syrian Arab Republic, Lebanon, Libya, the Sudan, Yemen and Iraq, as well as improved political coordination and strengthened cooperation through the biennial United Nations-LAS sectoral meeting, meetings of Special Envoys and Special Representatives of the Secretary-General with LAS senior officials and regular meetings with LAS officials and representatives of the diplomatic community, United Nations entities and other partners, which met the planned targets.
- 3.I.104 Progress towards the objective and the target for 2027 are presented in the performance measure below (see table 3.I.18).

Table 3.I.18
Performance measure

<i>2023 (actual)</i>	<i>2024 (actual)</i>	<i>2025 (actual)</i>	<i>2026 (planned)</i>	<i>2027 (planned)</i>

Improved cooperation on good offices and peace efforts in the Arab region through meetings of Special Envoys and Special Representatives of the Secretary-General with LAS senior officials	Improved cooperation on good offices and peace efforts in the Arab region through meetings of Special Envoys and Special Representatives of the Secretary-General with LAS senior officials	Improved political coordination and strengthened cooperation through the biennial United Nations-LAS sectoral meeting, meetings of Special Envoys and Special Representatives of the Secretary-General with LAS senior officials, and regular meetings with LAS officials	Improved cooperation through the biennial United Nations-LAS general cooperation meeting	Strengthened and more systematic cooperation through the biennial United Nations-LAS sectoral meeting

Section 3 Political affairs

2023 (actual)	2024 (actual)	2025 (actual)	2026 (planned)	2027 (planned)
		and representatives of the diplomatic community, United Nations entities and other partners		

Result 3: strengthened United Nations-League of Arab States partnership in advancing conflict prevention and sustaining peace in the Arab region

Proposed programme plan for 2027

- 3.I.105 The Arab region continues to face political and security challenges, in addition to protracted crises and conflicts, that make conflict prevention and sustaining peace key priorities for both the United Nations and LAS. The subprogramme has contributed to strengthening the capacity of officials of LAS and representatives of its member States in conflict prevention and sustaining peace through support for the advancement of the women and peace and security and the youth and peace and security agendas, as well as through capacity-building initiatives aimed at enhancing strategic foresight.

Lessons learned and planned change

- 3.I.106 The lesson for the subprogramme was that the engagement with LAS should follow a two-tiered approach, focusing both on strengthening policy frameworks and on operationalizing those policies through capacity-building and programmatic work. In applying the lesson, the subprogramme will approach future initiatives through comprehensive strategies that encompass both the policy and operational aspects.

- 3.I.107 Expected progress towards the objective is presented in the performance measure below (see table 3.I.19).

Table 3.I.19

Performance measure

2023 (actual)	2024 (actual)	2025 (actual)	2026 (planned)	2027 (planned)
Strengthened partnership between the United Nations and LAS on conflict prevention and sustaining peace	Strengthened partnership between the United Nations and LAS on conflict prevention and sustaining peace through supporting LAS in drafting an action plan for the Arab Strategy for Youth, Peace and Security	Strengthened partnership between the United Nations and LAS on conflict prevention and sustaining peace through organizing training for LAS officials and representatives of LAS member States and Arab youth on developing national action plans on youth and peace and security	Strengthened engagement between the United Nations and LAS, in particular with respect to action 16 of the Pact for the Future by identifying joint activities to support the promotion of conflict prevention and sustaining peace in the Arab region	Strengthened engagement between the United Nations, LAS and its member States on conflict prevention and sustaining peace through joint initiatives

Deliverables

3.I.108 Table 3.I.20 lists all deliverables of the subprogramme.

Table 3.I.20

Subprogramme 7: deliverables for the period 2025–2027, by category and subcategory

Category and subcategory	2025 planned	2025 actual	2026 planned	2027 planned
B. Generation and transfer of knowledge				
Field and technical cooperation projects (number of projects)	2	2	1	1
1. On peace and security, including conflict prevention, mediation and peacebuilding	2	2	1	1
Seminars, workshops and training events (number of days)	2	5	1	1
2. Training event for the General Secretariat of LAS on peace and security	2	5	1	1
C. Substantive deliverables				
Consultation, advice and advocacy: regular and ad hoc consultations with LAS, general meetings on cooperation between the representatives of the secretariats of the United Nations system and the General Secretariat of LAS and its specialized organizations, and sectoral meetings of the United Nations and LAS.				

II. Office of the United Nations Special Coordinator for the Middle East Peace Process

A. Proposed programme plan for 2027 and programme performance in 2025

Overall orientation

Mandates and background

- 3.II.1 The Office of the United Nations Special Coordinator for the Middle East Peace Process is responsible for serving as the Organization's focal point for the Middle East peace process, for ensuring the coordinated work of the United Nations system to adequately respond to the needs of the Palestinian people and for mobilizing financial, technical and economic assistance. The mandate derives from the priorities established in relevant General Assembly resolutions and decisions, including Assembly resolutions [48/213](#) and [49/88](#), as well as Security Council resolutions [1860 \(2009\)](#) and [2334 \(2016\)](#). The Israeli-Palestinian conflict remains at the core of the instability prevailing in the Middle East and continues to threaten international peace and security. As violence and tensions persist across the Occupied Palestinian Territory, including the West Bank, East Jerusalem and Gaza, the Office continues to engage to mitigate and prevent armed conflict, address humanitarian and development challenges, including recovery and reconstruction efforts in Gaza, and engage the parties and the international community with a view to making political progress towards a two-State solution.

Programme of work

Objective

- 3.II.2 The objective, to which the Office contributes, is to achieve a comprehensive, just and lasting resolution to the Israeli-Palestinian conflict based on the two-State solution and to improve the socioeconomic conditions of the Palestinian people.

Strategy and external factors for 2027

- 3.II.3 To contribute to the objective, the Office will:
- (a) Intensify engagement with regional and international actors, including with members of the Middle East Quartet, to work towards ending the occupation and resolving the Israeli-Palestinian conflict on the basis of a two-State solution, and reducing regional tensions;
 - (b) Support the ceasefire in Gaza and the implementation of Security Council resolution [2803 \(2025\)](#), including through humanitarian assistance, recovery, and reconstruction efforts in Gaza;
 - (c) Increase engagement with the parties and relevant partners to reduce violence and tensions across the Occupied Palestinian Territory, including East Jerusalem, and the region, and uphold the viability of the two-State solution;
 - (d) Strengthen the Palestinian Authority's institutions and support its State-building agenda, including by supporting the parties to update their economic and administrative relationships and to enact policy reforms;
 - (e) Continue to work with the parties to uphold their obligations under United Nations resolutions and international law, including reporting to the Security Council on resolution [2334 \(2016\)](#);

- (f) Support efforts, including through recovery and reconstruction efforts in Gaza, in collaboration with the United Nations country team, and through engagement with entities established pursuant to Security Council resolution [2803 \(2025\)](#), towards the political, economic and administrative unification of Gaza and the West Bank, including East Jerusalem.

3.II.4 The above-mentioned work is expected to result in:

- (a) Movement towards meaningful negotiations aimed at ending the occupation and resolving the Israeli-Palestinian conflict on the basis of the two-State solution and internationally recognized parameters;
- (b) Reduced tensions and violence, the full implementation of the Gaza ceasefire agreement and the prevention of renewed escalation;
- (c) Reduced settlement activities, land confiscation and home demolitions, and reduced levels of settler violence against Palestinian civilians and their properties and increased implementation of Security Council resolution [2334 \(2016\)](#);
- (d) Increased institutional stability and governance capacity of the Palestinian Authority and tangible steps towards improving the fiscal situation;
- (e) Mobilization of political, financial and technical support across the Occupied Palestinian Territory, including East Jerusalem, including for recovery and reconstruction efforts in Gaza;
- (f) Provision and distribution of assistance to meet the needs of the Palestinian people, across the Occupied Palestinian Territory, including East Jerusalem;
- (g) Advancement of a single, democratic, national Palestinian governing authority administering the entire Occupied Palestinian Territory;
- (h) The parties identifying tangible steps to improve the situation on the ground.

3.II.5 With regard to the external factors, the overall plan for 2027 is based on the following planning assumptions:

- (a) The two-State solution remains viable, in line with relevant United Nations resolutions and bilateral agreements;
- (b) The Gaza ceasefire will continue to be implemented and relevant parties support de-escalation efforts;
- (c) Governance arrangements, security arrangements and other enabling conditions are in place that allow humanitarian, recovery and reconstruction activities in Gaza;
- (d) The security situation in the Occupied Palestinian Territory allows for the continued implementation of United Nations activities, including political outreach, development and humanitarian programming;
- (e) Israeli and Palestinian interlocutors and regional and international stakeholders engage in meaningful dialogue and cooperation with the Office and the United Nations country team in the performance of their functions;
- (f) There is adequate political support from Member States and financial support from donors.

3.II.6 With regard to cooperation with other entities at the global, regional, national and local levels, the Office will continue its active engagement, including promoting de-escalation, conducting preventive diplomacy, halting and reversing negative trends and enhancing coordination efforts to advance concrete steps towards a two-State solution to the Israeli-Palestinian conflict. The Office will remain an active contributor to the Ad Hoc Liaison Committee for the Coordination of the International Assistance to Palestinians and will continue to promote actionable recommendations to both parties. The Office will strengthen engagement with other forums and partners, such as the Development Partners Group, Arab and Gulf donors, and European Union-led support to Palestinian Authority reforms, including the Palestine Donor Group, in order to facilitate the work of the United

Nations entities supporting the Palestinian people. The Office will advocate with the parties, Member States, humanitarian and development partners, regional actors, the private sector, civil society and other stakeholders to facilitate humanitarian relief, recovery, reconstruction, and economic and social development.

- 3.II.7 With regard to inter-agency coordination and liaison, the Office will continue to lead the coordination of more than 20 United Nations resident and non-resident agencies, funds and programmes in responding to the development and humanitarian needs of the Palestinian people. The Office will promote policies to improve movement and access for people and goods throughout the Occupied Palestinian Territory. The Office will foster inter-agency collaboration by identifying opportunities for improving socioeconomic conditions in the occupied West Bank, including East Jerusalem, facilitating humanitarian, recovery and reconstruction efforts in Gaza, and implementing the United Nations Sustainable Development Cooperation Framework and the United Nations early recovery approach and action plan for Gaza. The Office will also coordinate with regional entities, such as the regional Development Coordination Office and the regional offices of United Nations agencies, funds and programmes, to leverage expertise and identify opportunities. The Office will work with the United Nations Office for Project Services, which will continue to manage the day-to-day operations of the United Nations mechanism established pursuant to Security Council resolution [2720 \(2023\)](#), reporting to the Deputy Special Coordinator/Resident Coordinator/Humanitarian Coordinator, and through them to the Special Coordinator for the Middle East Peace Process.
- 3.II.8 The Office integrates a gender perspective into its operational activities, deliverables and results, as appropriate, including through engagement with women's and youth groups in support of the implementation of Security Council resolution [1325 \(2000\)](#). The Office will continue to promote women's participation in political processes, conflict prevention and peacebuilding, including through engagement with women leaders and civil society, ensuring that their priorities inform policy dialogue and advocacy. Through its coordination role within the United Nations country team, the Office advances the women and peace and security agenda, including within recovery planning processes. The Office will continue to highlight the distinct needs of women and girls across the Occupied Palestinian Territory and ensure that publications and reporting systematically reflect differentiated impacts.
- 3.II.9 In line with the United Nations Disability Inclusion Strategy, the Office will advocate for the full inclusion of individuals with disabilities in all aspects of United Nations programmes. Programmatic efforts will prioritize disability inclusion in recovery and reconstruction efforts in Gaza, including by advocating for inclusive planning and facilitating access to specialized services.

Adjustments arising from the UN80 Initiative

- 3.II.10 The proposed programme plan for 2027 reflects efforts of the Office to implement all mandates in a more efficient and effective manner and contains no substantive adjustments arising from the UN80 Initiative.
- 3.II.11 The Office will be guided by any future decisions taken in the context of the UN80 Initiative, in accordance with the applicable rules and procedures, including decisions, resolutions and established practice of the competent intergovernmental organs.

Evaluation activities

- 3.II.12 An evaluation to be conducted by the Office of the effectiveness and relevance of the Office's engagement with relevant parties, including mechanisms pursuant to Security Council resolution [2803 \(2025\)](#), to support progress towards a single Palestinian Government administering the entire Occupied Palestinian Territory is planned for 2027.

Programme performance in 2025

Evidence-based recovery planning for Gaza

- 3.II.13 In 2025, the Office continued its good offices and programmatic efforts to support preparation and planning for the future of Gaza, in order to improve Palestinian lives, rights and dignity, ensure security for Israelis and Palestinians and advance the two-State solution. Since late 2023, the World Bank, the European Union and the United Nations have been working collectively on damage and needs assessments. In 2025, an interim rapid damage and needs assessment was conducted, which provided a comprehensive analysis of the damage, losses and needs related to the conflict in Gaza and the West Bank, including East Jerusalem. The findings provide a valuable evidence base to inform stakeholders of the impact in Gaza and the West Bank, including East Jerusalem, on the population, economy, physical assets, infrastructure and service delivery, as well as to conduct an estimate of the needs for physical infrastructure reconstruction, economic and social recovery, and service restoration in selected sectors. Following the ceasefire agreement in October 2025, the Office supported efforts of the United Nations and its humanitarian partners to implement a 60-day response plan to meet the humanitarian needs of Palestinians in Gaza, including through political engagement with key stakeholders to facilitate access, movement and other enabling conditions, as well as engagement with Member States to support resource mobilization and advocacy efforts.
- 3.II.14 Progress towards the objective is presented in the performance measure below (see table 3.II.1).

Table 3.II.1

Performance measure

2023 (actual)	2024 (actual)	2025 (actual)
–	Findings from the first interim damage assessment, conducted in 2024, informed partners' humanitarian response and early recovery planning efforts	Findings from the interim rapid damage and needs assessment, conducted in 2025, informed partners' planning processes for Gaza's recovery and reconstruction United Nations and humanitarian partners implemented a 60-day response plan to scale up humanitarian assistance in Gaza, following the ceasefire agreement in October 2025. Approximately 159,100 tons of humanitarian assistance was delivered to Gaza between October and December 2025, compared to 147,800 tons between January and September of the same year

Planned results for 2027

Result 1: progress towards a single Palestinian Government administering the entire Occupied Palestinian Territory, within the framework of a negotiated two-State solution

Programme performance in 2025 and target for 2027

- 3.II.15 The Office's work contributed to establishing broad consensus among key stakeholders, including through advocacy with the parties and within the Security Council, on the criticality of unifying Gaza and the West Bank, including East Jerusalem, politically, economically and administratively;

and also contributed to the process that led to the General Assembly’s endorsement, through its decision 80/506, of the New York Declaration on the Peaceful Settlement of the Question of Palestine and the Implementation of the Two-State Solution, which states that “Gaza is an integral part of a Palestinian State and must be unified with the West Bank”. This did not meet the planned target of “A single Palestinian Government administers the entire Occupied Palestinian Territory”. The target was not met because of limited political will to take the necessary measures to advance this process.

- 3.II.16 Progress towards the objective and the target for 2027 are presented in the performance measure below (see table 3.II.2).

Table 3.II.2
Performance measure

2023 (actual)	2024 (actual)	2025 (actual)	2026 (planned)	2027 (planned)
–	Broad consensus among key stakeholders on the criticality of unifying Gaza and the West Bank, including East Jerusalem, politically, economically and administratively	The General Assembly, through its decision 80/506, endorsed the New York Declaration on the Peaceful Settlement of the Question of Palestine and the Implementation of the Two-State Solution, which states that “Gaza is an integral part of a Palestinian State and must be unified with the West Bank”	A single Palestinian Government takes steps to assume governance authority of the entire Occupied Palestinian Territory politically, administratively and economically	Progress towards a single Palestinian Government assuming governance authority of the entire Occupied Palestinian Territory politically, administratively and economically

Result 2: towards a political framework to resolve the Israeli-Palestinian conflict

Programme performance in 2025 and target for 2027

- 3.II.17 The Office’s work contributed to tangible diplomatic progress towards a political framework to resolve the conflict, including the endorsement by the General Assembly, through its decision 80/506, of the New York Declaration on the Peaceful Settlement of the Question of Palestine and the Implementation of the Two-State Solution and the adoption by the Security Council of its resolution [2803 \(2025\)](#), which met the planned target.
- 3.II.18 Progress towards the objective and the target for 2027 are presented in the performance measure below (see table 3.II.3).

Table 3.II.3
Performance measure

2023 (actual)	2024 (actual)	2025 (actual)	2026 (planned)	2027 (planned)
–	–	Tangible diplomatic progress towards a political framework to resolve the conflict, including endorsement by the General Assembly of the New York Declaration on the Peaceful Settlement of the Question of Palestine and the Implementation of the Two-State Solution and the adoption by the Security Council of its resolution 2803 (2025)	Concrete steps towards the establishment of a political framework to resolve the Israeli-Palestinian conflict, end the occupation and achieve a two-State solution	Concrete steps towards the implementation of the New York Declaration on the Peaceful Settlement of the Question of Palestine and the Implementation of the Two-State Solution

Result 3: progress towards the implementation of the Comprehensive Plan to End the Gaza Conflict as endorsed by the Security Council in resolution 2803 (2025)

Proposed programme plan for 2027

- 3.II.19 In 2025, the Security Council adopted its resolution 2803 (2025), in which it endorsed the Comprehensive Plan to End the Gaza Conflict. Prior to the resolution's adoption, the United Nations, including through the good offices of the Special Coordinator, continued to support all efforts to de-escalate the situation and advance a ceasefire and hostage release deal.

Lessons learned and planned change

- 3.II.20 The lesson for the Office was the need to strengthen engagement and coordination with the parties and regional and international stakeholders to advance the goal of implementing the Comprehensive Plan. In applying the lesson, the Office will focus on expanding its dialogue with the parties and liaise with entities established pursuant to Security Council resolution 2803 (2025) to promote concrete steps towards the implementation of the Comprehensive Plan, including supporting the delivery of post-conflict recovery assistance and future reconstruction.
- 3.II.21 Expected progress towards the objective is presented in the performance measure below (see table 3.II.4).

Table 3.II.4
Performance measure

2023 (actual)	2024 (actual)	2025 (actual)	2026 (planned)	2027 (planned)
—	—	—	Strategies for advancing the implementation of the Comprehensive Plan to End the Gaza Conflict are coordinated with all stakeholders, including the parties and regional and international stakeholders	Concrete steps towards the implementation of Security Council resolution 2803 (2025)

Legislative mandates

- 3.II.22 The list below, which was reviewed in the preparation of the proposed programme budget, provides all mandates entrusted to the programme.

General Assembly resolutions

48/213 ; 79/141	Assistance to the Palestinian people	80/81	Israeli settlements in the Occupied Palestinian Territory, including East Jerusalem, and the occupied Syrian Golan
49/88	Middle East peace process		
80/72	Peaceful settlement of the question of Palestine	80/82	The occupied Syrian Golan
80/73	The Syrian Golan		

Security Council resolutions

1860 (2009)	2720 (2023)
2334 (2016)	2803 (2025)

Deliverables

- 3.II.23 Table 3.II.5 lists all deliverables of the Office.

Table 3.II.5

Office of the United Nations Special Coordinator for the Middle East Peace Process: deliverables for the period 2025–2027, by category and subcategory

<i>Category and subcategory</i>	<i>2025 planned</i>	<i>2025 actual</i>	<i>2026 planned</i>	<i>2027 planned</i>
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	3	3	3	3
1. Report of the Secretary-General to the Security Council on the implementation of Security Council resolution 2334 (2016)	2	2	2	2
2. Report of the Secretary-General to the General Assembly on assistance to the Palestinian people	1	1	1	1
Substantive services for meetings (number of three-hour meetings)	15	15	15	15
3. Security Council briefings on the situation in the Middle East, including quarterly reporting on Security Council resolution 2334 (2016)	12	12	12	12
4. Meeting of the Fifth Committee	1	1	1	1
5. Meeting of the Committee for Programme and Coordination	1	1	1	1
6. Meeting of the Advisory Committee on Administrative and Budgetary Questions	1	1	1	1
B. Generation and transfer of knowledge				
Technical materials (number of materials)	2	2	2	2
7. On recommended actions to bring about positive changes on the ground (reports to the Ad Hoc Liaison Committee)	2	2	2	2
C. Substantive deliverables				
Good offices: good offices visits to countries in the region and internationally, as well as regular engagement on regional de-escalation efforts, enabling of provision and distribution of humanitarian assistance, and recovery and reconstruction efforts in Gaza, and renewed political initiatives to find a durable political solution to the conflict.				
Consultation, advice and advocacy: consultations with and advocacy to Governments, relevant parties, civil society organizations and other stakeholders to identify and implement strategies to address the deteriorating political, security and economic situation in the occupied West Bank, including East Jerusalem; consultations with the parties and other relevant actors to de-escalate tensions and enable humanitarian assistance at scale in Gaza; engagement with the parties and other relevant actors, including key regional actors and members of the Middle East Quartet, to mobilize assistance, advance a political process to return to meaningful negotiations and promote the administration of the entire Occupied Palestinian Territory by a single Palestinian Government and advance a two-State solution; and advice to Israeli and Palestinian interlocutors on the easing of movement and access constraints in Gaza and the West Bank, including East Jerusalem.				
D. Communication deliverables				
Outreach programmes, special events and information materials: exchange of information and partnerships with some 80 civil society organizations, academic institutions and non-governmental organizations, to promote the activities of the mission as well as to enhance its visibility.				
External and media relations: daily press reviews, press conferences in the presence of some 35 international media outlets (television, radio and print); and interviews and publications with target audiences and networks, as well as public statements and press releases for more than 1,500 stakeholders, including diplomatic missions, civil society organizations, think tanks and media personnel.				
Digital platforms and multimedia content: the Office's website and social media accounts.				

III. United Nations Register of Damage Caused by the Construction of the Wall in the Occupied Palestinian Territory

A. Proposed programme plan for 2027 and programme performance in 2025

Overall orientation

Mandates and background

- 3.III.1 The United Nations Register of Damage Caused by the Construction of the Wall in the Occupied Palestinian Territory is responsible for recording, in documentary form, the damage caused to all natural and legal persons concerned as a result of the construction of the wall by Israel in the Occupied Palestinian Territory, including in and around East Jerusalem. The mandate derives from the priorities established in relevant General Assembly resolutions and decisions, including resolution [ES-10/17](#). The Assembly, in its resolution [ES-10/17](#), called for the Register of Damage to remain open for registration for the duration of existence of the wall in the Occupied Palestinian Territory, including in and around East Jerusalem.

Programme of work

Objective

- 3.III.2 The objective, to which the Office of the Register of Damage contributes, is to establish and maintain a Register of Damage Caused by the Construction of the Wall in the Occupied Palestinian Territory, thus contributing to the protection of the legal rights of the Palestinian natural and legal persons affected by the construction of the wall.

Strategy and external factors for 2027

- 3.III.3 To contribute to the objective, the Office will:
- (a) Process and review the previously collected but not processed claims and present them to the Board of the Register of Damage for its decision;
 - (b) Undertake outreach and claim intake activities in the Occupied Palestinian Territory in relation to public claims and claims of natural persons, by maintaining a presence in the area of operation;
 - (c) Work on promoting the rule of law at the national and international levels, helping Member States to ensure equal access to justice for all claimants in the Occupied Palestinian Territory and make progress towards achieving Sustainable Development Goal 16.
- 3.III.4 The above-mentioned work is expected to result in:
- (a) An increased number of efficiently processed claims, leading to a reduction in the gap between collected and unprocessed claims;
 - (b) Submission of new claims from Palestinian institutions and individuals;
 - (c) Processed claims decided upon by the Board and included in the Register.
- 3.III.5 With regard to the external factors, the overall plan for 2027 is based on the following planning assumptions:
- (a) There is political will and cooperation on the part of all parties concerned;

- (b) Extrabudgetary resources are available for maintaining a needed presence on the ground;
- (c) The overall security situation on the ground and in the region allows for the mandate of the Register of Damage to be carried out.

- 3.III.6 With regard to inter-agency coordination and liaison, the Office will continue to cooperate closely with the United Nations Office for Project Services, which is the key provider of logistical, human and financial resources services in the implementation of outreach and claims collection activities funded by extrabudgetary resources. In addition, the Office will continue its close cooperation with the Department of Political and Peacebuilding Affairs, the United Nations Truce Supervision Organization and the Office for the Coordination of Humanitarian Affairs.
- 3.III.7 The Office integrates a gender perspective into its operational activities, deliverables and results, as appropriate. For example, consultations will be conducted with local women's committees in all communities in which outreach and claim intake activities are planned. The Office will continue to pay special attention to informing potential female claimants of the possibility of and requirements for submitting claim forms and will provide them with support in the preparation of their claims, noting that 38 per cent of all claimants are female.
- 3.III.8 In line with the United Nations Disability Inclusion Strategy, the Office will continue to make special arrangements for the intake of claims from claimants with disabilities. These arrangements include on-site support of claimants, which enables the filing of claims without having to travel.

Adjustments arising from the UN80 Initiative

- 3.III.9 The proposed programme plan for 2027 reflects efforts of the Office to implement all mandates in a more efficient and effective manner and contains no substantive adjustments arising from the UN80 Initiative.
- 3.III.10 The Office will be guided by any future decisions taken in the context of the UN80 Initiative, in accordance with the applicable rules and procedures, including decisions, resolutions and established practice of the competent intergovernmental organs.

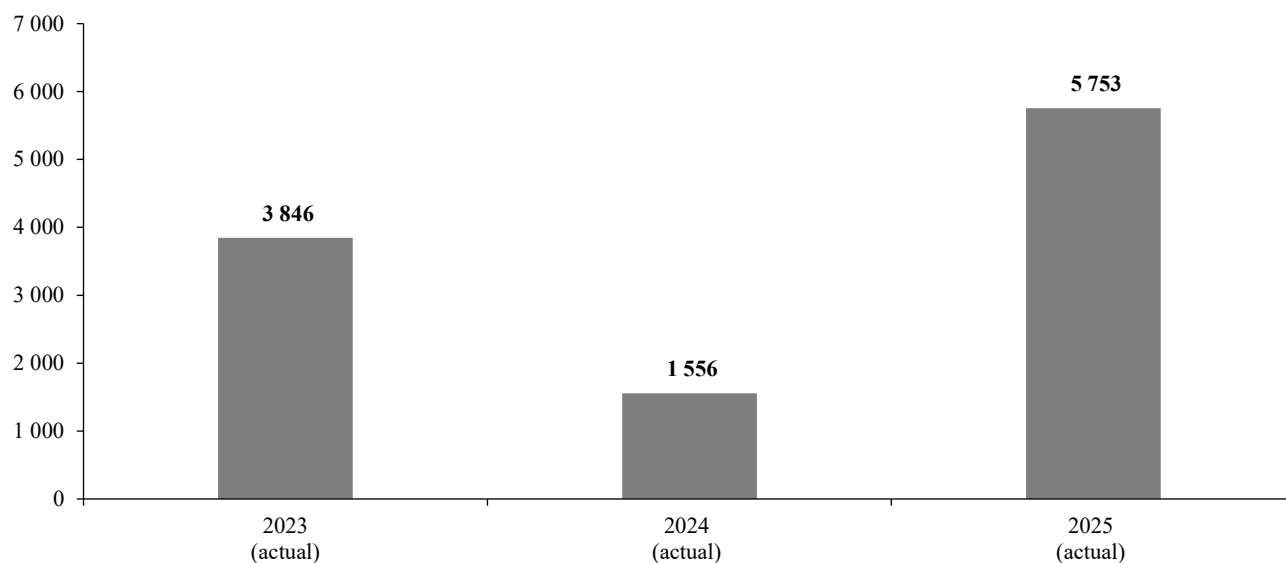

Programme performance in 2025

Optimized damage claims review process for faster servicing of claimants

- 3.III.11 During 2025, the Office sought ways to increase the efficiency of the claims review process, with the goal of decreasing the number of unprocessed claims more rapidly. In an effort to increase the number of damage claims submitted for the decision of the Board of the Register of Damage each year, the Office, in cooperation with and with the approval of the Board, began enhancement of the eligibility matrix in the in-house database. The new matrix, rolled out in late 2025 for category A (agriculture) claims, facilitated the processing of such claims while upholding the integrity and reliability of the review process. In parallel, and up to the development of the new eligibility matrix, the Office improved the legal assessment process through the use of unified and simplified comment text, which resulted in time savings of approximately 15 minutes per claim.
- 3.III.12 Progress towards the objective is presented in the performance measure below (see figure 3.III.I).

Figure 3.III.I

Performance measure: number of damage claims processed by the Office of the Register of Damage (annual)

Planned results for 2027

Result 1: reduced number of unprocessed claims

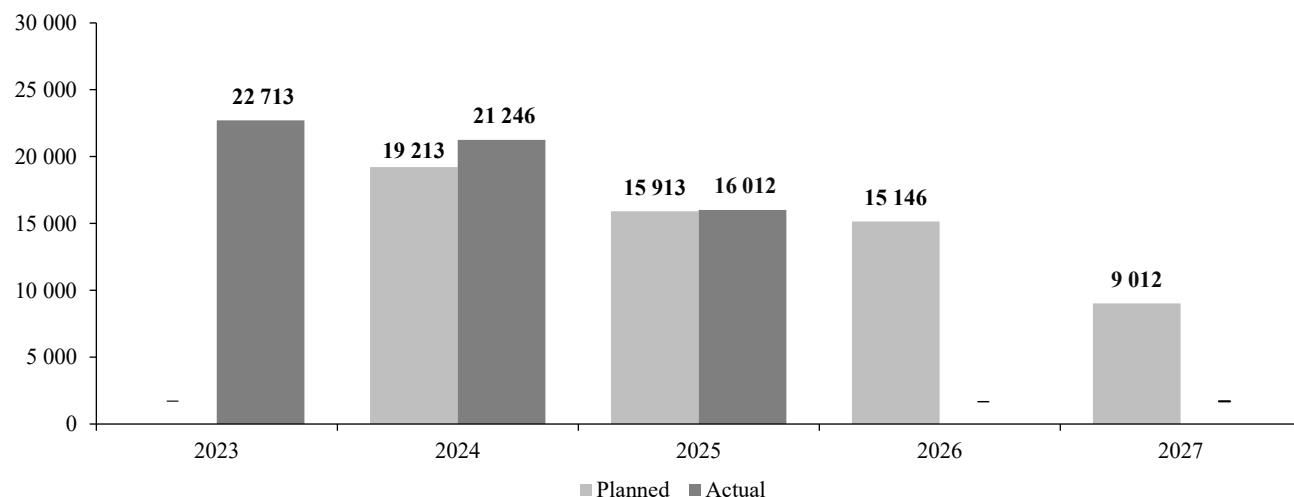

Programme performance in 2025 and target for 2027

3.III.13 The Office's work contributed to a reduction in the number of unprocessed claims to 16,012, which did not meet the planned target of 15,913. The target was not met due to the high complexity of a number of claims, which required a more extensive legal review.

3.III.14 Progress towards the objective and the target for 2027 are presented in the performance measure below (see figure 3.III.II).

Figure 3.III.II

Performance measure: reduced number of unprocessed claims outstanding for the decision of the Board (annual)

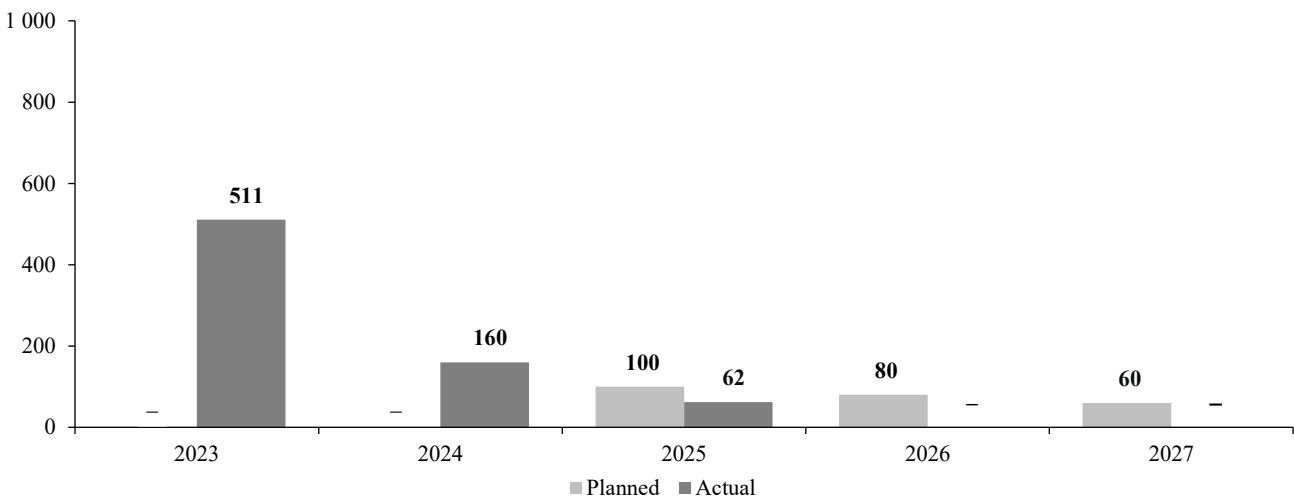

Result 2: enhanced rectification process to complete deficient collected claims

Programme performance in 2025 and target for 2027

- 3.III.15 The Office's work contributed to a reduction in the number of claims requiring rectification to 62 damage claims, which exceeded the planned target of 100 claims requiring rectification.
- 3.III.16 Progress towards the objective and the target for 2027 are presented in the performance measure below (see figure 3.III.III).

Figure 3.III.III
Performance measure: number of claims requiring rectification (annual)

Result 3: decision-making by the Board strengthened by a harmonized submission process

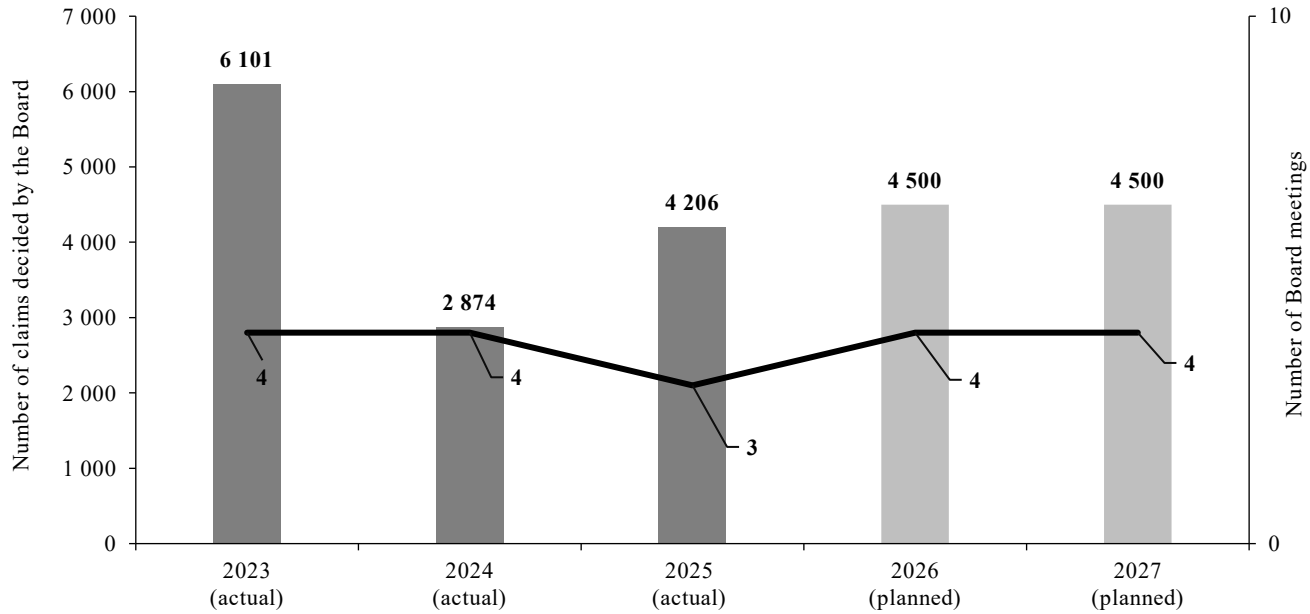

Proposed programme plan for 2027

- 3.III.17 Processing claims efficiently contributes to a reduction in the backlog of claims. The Office has helped to facilitate the claims review decision process to increase the number of decided claims by the Board of the Register of Damage annually.

Lessons learned and planned change

- 3.III.18 The lesson for the Office was that the Board's work could be further enhanced with the use of tools, such as the new eligibility matrix, that could be expanded to support decision-making on more claims in a given time frame. In applying the lesson, the Office will further refine the way it presents the processed claims for the review of the Board in the in-house database. While a new eligibility matrix was rolled out for one category of claims in 2025, the Office will expand its efforts to another category of claims. It is expected that this effort could result in an increased number of processed and decided claims despite the increased complexity of claims.
- 3.III.19 Expected progress towards the objective is presented in the performance measure below (see figure 3.III.IV).

Figure 3.III.IV
Performance measure: number of claims decided by the Board and number of Board meetings (annual)

Legislative mandates

3.III.20 The list below, which was reviewed in the preparation of the proposed programme budget, provides all mandates entrusted to the programme.

General Assembly resolution

[ES-10/17](#) Establishment of the United Nations Register of Damage Caused by the Construction of the Wall in the Occupied Palestinian Territory

Deliverables

3.III.21 Table 3.III.1 lists all deliverables of the programme.

IV. United Nations Office to the African Union

A. Proposed programme plan for 2027 and programme performance in 2025

Overall orientation

Mandates and background

- 3.IV.1 The United Nations Office to the African Union was established on 1 July 2010 pursuant to General Assembly resolution [64/288](#). The mandate of the Office is to enhance the partnership between the United Nations and the African Union in the area of peace and security; provide coordinated and consistent United Nations advice to the African Union on long-term capacity-building and short-term operational support matters; and enhance coherence and efficiency in delivering United Nations assistance to the African Union. In its resolutions [2033 \(2012\)](#), [2167 \(2014\)](#), [2320 \(2016\)](#), [2378 \(2017\)](#) and [2457 \(2019\)](#), the Security Council called upon the United Nations to strengthen the cooperation between the United Nations and the African Union, including in the areas of mediation, capacity-building and, in particular, the operationalization of the African Peace and Security Architecture and implementation of the Silencing the Guns initiative.
- 3.IV.2 The Office provides a mechanism for cooperation at the regional level, primarily with the African Union and subregional organizations throughout Africa. It seeks to build a common United Nations-African Union understanding of the causes and drivers of armed conflicts and potential armed conflicts, from which collaborative initiatives to prevent, manage and resolve armed conflicts can be developed.

Programme of work

Objective

- 3.IV.3 The objective, to which the Office contributes, is to strengthen the United Nations-African Union partnership for peace and security in Africa.

Strategy and external factors for 2027

- 3.IV.4 To contribute to the objective, the Office will:
- (a) Support the implementation of the priorities of the African Peace and Security Architecture and the African Governance Architecture, and their operationalization, through conflict prevention, crisis/conflict management, post-conflict reconstruction and peacebuilding, a focus on strategic security issues, and coordination and partnership;
 - (b) Support regular, formal and informal engagements between the policy organs of the African Union, including the Peace and Security Council and the Permanent Representatives Committee, with the United Nations, including the Security Council and the Peacebuilding Commission;
 - (c) Engage with the African Union at senior and operational levels on political and operational priorities through the United Nations-African Union annual conference, the United Nations-African Union Joint Task Force on Peace and Security, the annual retreat of Special Representatives of the Secretary-General and the Chairperson of the African Union Commission and the annual United Nations-African Union consultative meeting on prevention and management of conflicts;

- (d) Conduct good offices missions to address peace and security challenges, including with regard to dispute resolution and elections, upon request by or in collaboration with the African Union;
- (e) Maintain regular interaction between the United Nations and the African Union, regional economic communities and regional mechanisms, as well as with Member States, on thematic and country-specific situations, including in support of the African Union early warning mechanism;
- (f) Build institutional capacities of the African Union Commission to prevent, manage and respond to armed conflicts and address root causes of conflict in Africa, including by strengthening the capabilities of the African Union with regard to early warning and mediation;
- (g) Support African Union efforts to advance implementation of Security Council resolution [1325 \(2000\)](#) on women and peace and security, including by supporting efforts in addressing conflict-related sexual violence and enhancing the participation of women in peace and security processes;
- (h) Support the implementation of the African Union Continental Framework for Youth, Peace and Security, including its Ten-Year Implementation Plan for 2020–2029;
- (i) Support African Union efforts in advocating for the effective operationalization of relevant accountability frameworks for parties involved in armed conflict;
- (j) Collaborate with the African Union to implement Security Council resolution [2719 \(2023\)](#).

3.IV.5 The above-mentioned work is expected to result in:

- (a) Strengthened strategic coherence and collaboration between the African Union, the United Nations and other partners in addressing Africa's peace and security challenges, including the root causes of conflicts;
- (b) Strengthened ability of the African Union, mainly through its Peace and Security Council, the African Union Commission, the regional economic communities and the regional mechanisms with regard to conflict prevention, management and resolution, including the capacity of the African Union to plan and manage its peace operations.

3.IV.6 With regard to the external factors, the overall plan for 2027 is based on the following planning assumptions:

- (a) There is continued political will and commitment by the United Nations and the African Union in promoting cooperation with regional and subregional organizations in peace and security;
- (b) The African Union will continue to develop the human and financial capacity necessary to effectively deliver on mandates to address peace and security challenges in Africa;
- (c) Extrabudgetary funding is available.

3.IV.7 With regard to cooperation with other entities at the global, regional and national levels, the Office will maintain relationships with external partners and stakeholders, taking into consideration priorities expressed in Agenda 2063: The Africa We Want and relevant policy documents, the 2030 Agenda and the Joint United Nations-African Union Framework for Enhanced Partnership in Peace and Security. The Office will further maintain regular interaction on thematic and country-specific issues and advance common United Nations and African Union positions, while enhancing coordination and synergies between key partners, such as the European Union, regional economic communities and regional mechanisms.

3.IV.8 With regard to inter-agency coordination and liaison, the Office will continue to lead or support coordination mechanisms with United Nations entities to ensure coherence in delivering assistance to the African Union. The Office will also engage with relevant opportunities and issue-based coalitions of the Regional Collaborative Platform for Africa.

- 3.IV.9 The Office integrates a gender perspective into its operational activities, deliverables and results, as appropriate. A key focus will be on strengthening cooperation with the United Nations and the African Union to institutionalize gender-sensitive policymaking and programming. The Office will continue to support the full, equal and meaningful participation of women in preventive diplomacy, mediation, elections and early warning systems, and the deployment of women in peace support operations. This includes further mainstreaming the women and peace and security agenda in joint initiatives with the African Union Commission and subregional organizations.
- 3.IV.10 In line with the United Nations Disability Inclusion Strategy, the Office will provide support to the African Union, as relevant, to enhance the inclusion of persons with disabilities in peace and security initiatives.

Adjustments arising from the UN80 Initiative

- 3.IV.11 The proposed programme plan for 2027 reflects efforts of the Office to implement all mandates in a more efficient and effective manner and contains no substantive adjustments arising from the UN80 Initiative.
- 3.IV.12 The Office will be guided by any future decisions taken in the context of the UN80 Initiative, in accordance with the applicable rules and procedures, including decisions, resolutions and established practice of the competent intergovernmental organs.

Programme performance in 2025**Somalia security transition took place and African Union peace support capacities strengthened**

- 3.IV.13 The Office has been continuously involved in supporting the transition from the African Union Transition Mission in Somalia (ATMIS) to the African Union Support and Stabilization Mission in Somalia (AUSSOM). In 2024, the Office, together with the African Union, prepared a joint report that included benchmarks with clear indicators and milestones to measure the progress made on the ground in the transition from ATMIS to AUSSOM. In addition, as part of the transition, the Office strengthened the force generation effort for AUSSOM by participating in the predeployment assessment of military contingents, formed police units and individual police officers. Pursuant to Security Council resolution [2767 \(2024\)](#), the Office participated in a joint African Union-United Nations and Federal Government of Somalia benchmarking exercise in September 2025 to undertake assessments aimed at determining the conditions for authorizing subsequent phases of AUSSOM, including an updated exit strategy, and articulating a plan for further reductions in the size of the deployed force, with consideration for progress against benchmarks set in the joint report. Based on these assessments, a joint United Nations, African Union and Federal Government of Somalia report outlining progress was submitted to the Security Council in October 2025. The Office also supported continued strengthening of the African Standby Force through policy reviews, training development and technical support to readiness initiatives.
- 3.IV.14 Progress towards the objective is presented in the performance measure below (see table 3.IV.1).

Table 3.IV.1
Performance measure

2023 (actual)	2024 (actual)	2025 (actual)
—	ATMIS is downsized and Somali security forces progressively take over security responsibilities in line with Security Council resolution 2628 (2022) The Security Council, by its resolution 2767 (2024), endorsed the African Union Peace and Security Council's decision to replace ATMIS with AUSSOM	The Security Council, by its resolution 2809 (2025), authorized the deployment of qualified military and police personnel to AUSSOM, informed by the findings of the joint technical assessment report on progress submitted to the Security Council in October 2025

Planned results for 2027

Result 1: advanced youth involvement in peace and security initiatives in Africa

Programme performance in 2025 and target for 2027

- 3.IV.15 The Office's work contributed to 3 African Union member States developing national action plans on youth and peace and security, which did not meet the planned target of 10 African Union member States developing such plans. The target was not met due to financial constraints that limited the Office's ability to allocate dedicated human capacity for this work, thereby restricting sustained country-level technical assistance and follow-up.
- 3.IV.16 Progress towards the objective and the target for 2027 are presented in the performance measure below (see table 3.IV.2).

Table 3.IV.2
Performance measure

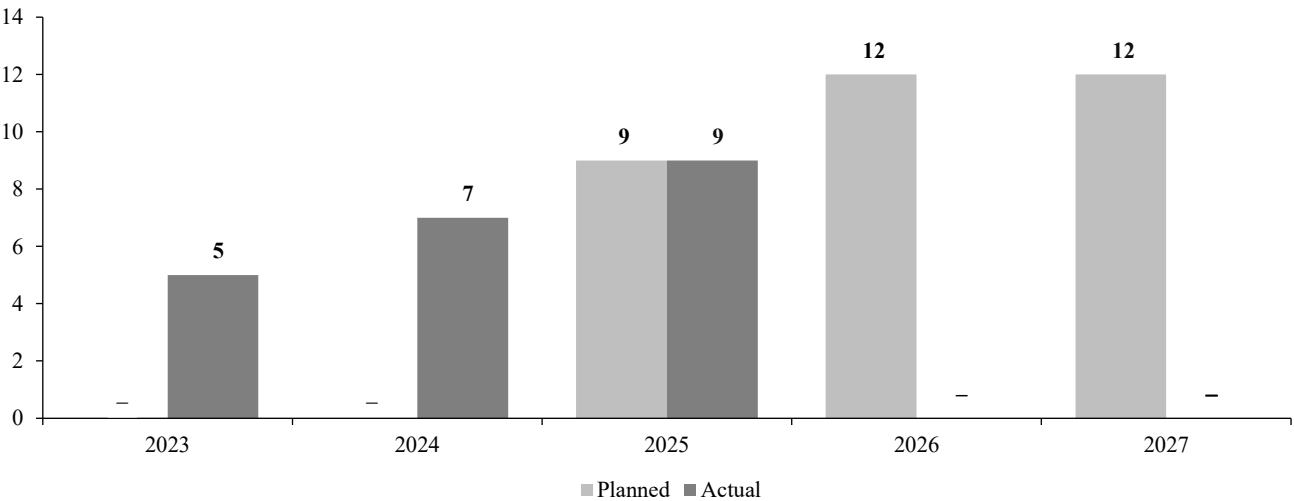

2023 (actual)	2024 (actual)	2025 (actual)	2026 (planned)	2027 (planned)
The African Union supported its member States to integrate the Continental Framework for Youth, Peace and Security into national policies and processes	The African Union completed the induction and training of the second cohort of African Youth Ambassadors for Peace	Three African Union member States developed national action plans on youth and peace and security	Five additional African Union member States develop national action plans on youth and peace and security	Five additional African Union member States develop national action plans on youth and peace and security Implementation of the plan continues in those countries with approved national action plans

Result 2: enhancing joint United Nations-African Union efforts in preventing and mediating conflict, sustaining peace and addressing the root causes of conflict

Programme performance in 2025 and target for 2027

- 3.IV.17 The Office’s work contributed to nine joint African Union-United Nations initiatives in support of security sector reform; disarmament, demobilization and reintegration; and addressing the impact of climate change on peace and security, which met the planned target.
- 3.IV.18 Progress towards the objective and the target for 2027 are presented in the performance measure below (see figure 3.IV.I).

Figure 3.IV.I
Performance measure: number of joint African Union-United Nations initiatives in support of security sector reform; disarmament, demobilization and reintegration; and addressing the impact of climate change on peace and security (annual)

Result 3: strengthened meaningful participation, leadership and influence of women in peace and security processes in Africa

Proposed programme plan for 2027

- 3.IV.19 In line with Security Council resolution [1325 \(2000\)](#) and related African Union-United Nations commitments, the women and peace and security agenda is a core pillar of the United Nations-African Union partnership on peace and security, addressing impacts of armed conflict in Africa on women and girls while advancing women’s leadership across the prevention, participation, protection, and relief and recovery pillars. The Office, in close collaboration with the African Union Commission, has advanced implementation of the women and peace and security agenda through policy and technical support, high-level advocacy and knowledge generation.

Lessons learned and planned change

- 3.IV.20 The lesson for the Office was the need to move beyond awareness-raising towards more systematic, outcome-oriented support, as fragmented engagement and limited follow-through of existing activities reduced the potential for sustained impact at the national and regional levels. In applying this lesson, the Office will focus on long-term partnerships with women peacebuilders and African Union structures, and will support the integration of the women and peace and security agenda into African Union mechanisms and frameworks in various areas, enhance monitoring and learning mechanisms and align communications and advocacy more closely with policy and operational outcomes.

Table 3.IV.3
Performance measure

2023 (actual)	2024 (actual)	2025 (actual)	2026 (planned)	2027 (planned)
Advancement by the African Union of the women and peace and security agenda, through the development of a draft curriculum on integrating a gender perspective into security sector reform	Implementation of Security Council resolution 1325 (2000) in the areas of protection, prevention, recovery and resolution	Enhanced implementation by the African Union of Security Council resolution 1325 (2000), through continued support for the full, equal and meaningful participation of women in preventive diplomacy, mediation, electoral processes, early warning systems and peace support operations	Four African Union mechanisms and frameworks (e.g. in governance, security sector reform, disarmament, demobilization and reintegration and mediation) strengthened to integrate the women and peace and security agenda into African Union peace and security efforts	Four additional African Union mechanisms and frameworks (e.g. in governance, security sector reform, disarmament, demobilization and mediation) strengthened to integrate the women and peace and security agenda into African Union peace and security efforts

Legislative mandates

- 3.IV.21 The list below, which was reviewed in the preparation of the proposed programme budget, provides all mandates entrusted to the programme.

General Assembly resolutions

52/220	Questions relating to the proposed programme budget for the biennium 1998–1999	71/270	Review of the United Nations Office to the African Union
64/288	Financing of the United Nations Office to the African Union	79/1 79/329	The Pact for the Future Cooperation between the United Nations and the African Union

Security Council resolutions

D. Communication deliverables

Outreach programmes, special events and information materials: International Women’s Day, International Youth Day, Africa Day, International Day of United Nations Peacekeepers and International Day of Peace; information materials, flyers, banners and infographic documents; quarterly public newsletter of the Office; and information circular submitted every two weeks to the African Union Peace and Security Council on relevant Security Council resolutions and decisions.

Digital platforms and multimedia content: website and social media accounts; and online platform showcasing United Nations-African Union partnership activities.

V. Office of Counter-Terrorism

A. Proposed programme plan for 2027 and programme performance in 2025

Overall orientation

Mandates and background

- 3.V.1 Pursuant to General Assembly resolution [71/291](#), and as reaffirmed by the Assembly in its resolution [77/298](#), on the eighth review of the United Nations Global Counter-Terrorism Strategy, the Office of Counter-Terrorism (UNOCT) is responsible for five main functions: providing leadership on the General Assembly counter-terrorism mandates entrusted to the Secretary-General; enhancing coordination and coherence across the United Nations system to ensure the balanced implementation of the four pillars of the United Nations Global Counter-Terrorism Strategy; strengthening delivery of United Nations counter-terrorism capacity-building assistance to Member States; improving the visibility of, and advocacy and resource mobilization for, United Nations counter-terrorism efforts; and ensuring that due priority is given to counter-terrorism across the United Nations system and that work on preventing violent extremism as and when conducive to terrorism is firmly rooted in the Strategy.
- 3.V.2 The United Nations Global Counter-Terrorism Strategy (General Assembly resolution [60/288](#)) is composed of four pillars, in the form of measures to: address the conditions conducive to the spread of terrorism; prevent and combat terrorism; build States' capacity to prevent and combat terrorism and to strengthen the role of the United Nations system in this regard; and ensure respect for human rights for all and the rule of law as the fundamental basis of the fight against terrorism. The mandate of the Office derives from the priorities established in the Strategy and subsequent review resolutions adopted by the General Assembly, including resolution [77/298](#), and other relevant General Assembly and Security Council resolutions, including Security Council resolution [2810 \(2025\)](#).
- 3.V.3 The Office acts as the secretariat for the United Nations Global Counter-Terrorism Coordination Compact, which promotes action-oriented collaboration within the United Nations system and serves as a platform for joint programming, coherent monitoring and evaluation, and facilitation of joint resource mobilization and outreach to funding partners.

Programme of work

Objective

- 3.V.4 The objective, to which the Office contributes, is to prevent and counter terrorism in all its forms and manifestations, as well as violent extremism as and when conducive to terrorism, in compliance with international law.

Strategy and external factors for 2027

- 3.V.5 To contribute to the objective, the Office will:
- (a) Provide leadership for the General Assembly counter-terrorism mandates entrusted to the Secretary-General and convene high-level international and regional conferences and outreach events for Member States, international and regional organizations and civil society to exchange information, expertise and resources, develop partnerships and collectively address a range of counter-terrorism issues;

- (b) Enhance coordination and coherence across the Compact entities to support the counter-terrorism efforts of Member States, including by strengthening the response to technical assistance needs identified by the Counter-Terrorism Committee Executive Directorate and to requests from various Member States;
- (c) Provide technical and capacity-building assistance to requesting Member States, including through its presences away from Headquarters, in a focused, integrated and coordinated manner, and reinforce resource mobilization activities with donors;
- (d) Conduct research, identify and disseminate new and innovative programme management methodologies, best practices and lessons learned, and embed evidence-informed delivery as a foundation for its technical assistance work;
- (e) Strengthen the capacity of Member States to ensure respect for human rights and the rule of law while countering terrorism, in accordance with the fourth pillar of the United Nations Global Counter-Terrorism Strategy;
- (f) Support parliamentarians and strengthen outreach to civil society organizations, including youth and women's organizations, in preventing and countering terrorism and violent extremism conducive to terrorism.

3.V.6 The above-mentioned work is expected to result in:

- (a) Multilateral cooperation against terrorism, and strengthened partnerships with and among Member States, international and regional organizations, civil society, the private sector and academia for a whole-of-society approach to counter-terrorism and the prevention of violent extremism conducive to terrorism;
- (b) Implementation by Member States of relevant General Assembly and Security Council resolutions related to countering terrorism and preventing violent extremism conducive to terrorism, including by building greater resilience and reinforcing responses to terrorist threats and attacks;
- (c) Enriched international and multisectoral policy discourse in support of greater prioritization and coherence on counter-terrorism and the prevention of violent extremism conducive to terrorism;
- (d) Integration of human rights norms and standards in relevant measures taken in the context of preventing and countering terrorism and violent extremism conducive to terrorism, in requesting Member States.

3.V.7 With regard to the external factors, the overall plan for 2027 is based on the following planning assumptions:

- (a) Member States will continue to request support from the United Nations in preventing and countering terrorism and violent extremism conducive to terrorism;
- (b) Extrabudgetary resources for capacity-building support for Member States will be available;
- (c) Member States will grant the necessary official approvals and access to enable implementation and delivery of this support.

3.V.8 With regard to cooperation with other entities at the global, regional, national and local levels, the Office will continue to cooperate with the Global Counterterrorism Forum and specialized international and regional organizations, such as the African Union, the Association of Southeast Asian Nations, the Caribbean Community, the Collective Security Treaty Organization, the Anti-Terrorism Centre of the Commonwealth of Independent States, the European Union, the League of Arab States, the North Atlantic Treaty Organization, the Organization of American States, the Organization for Security and Cooperation in Europe, the Organization of Islamic Cooperation, the Regional Anti-Terrorist Structure of the Shanghai Cooperation Organization, the Economic Community of West African States, the Southern African Development Community, the Central

American Integration System, the Cooperation Council for the Arab States of the Gulf, the Conference on Interaction and Confidence-building Measures in Asia and the Council of Europe. The Office will continue to implement existing and develop new partnership frameworks to support joint approaches to promote the implementation of the United Nations Global Counter-Terrorism Strategy and regional counter-terrorism strategies.

- 3.V.9 With regard to inter-agency coordination and liaison, the Office leads the United Nations Global Counter-Terrorism Coordination Compact, which includes 46 entities, including 42 United Nations entities and the International Criminal Police Organization, the Financial Action Task Force, the Inter-Parliamentary Union and the World Customs Organization, as member or observer entities. The Compact comprises eight thematic working groups specialized in priority areas relating to preventing and countering terrorism and violent extremism conducive to terrorism, aligned with the four pillars of the United Nations Global Counter-Terrorism Strategy. The Office will continue to strengthen the coordination of counter-terrorism efforts through consultative inter-agency efforts with the United Nations country teams and resident coordinators, in cooperation with respective host countries, and use its coordination role to strengthen existing partnerships and initiate new ones for multi-stakeholder collaboration at the national, regional and global levels. The Office will continue to advocate an approach that prioritizes joint programming with other United Nations partners to maximize the use of resources and deliver more coherent and expert capacity-building activities.
- 3.V.10 The Office integrates a gender perspective into its operational activities, deliverables and results, as appropriate. The Office will provide technical assistance in line with the women and peace and security agenda and the United Nations Global Counter-Terrorism Strategy and its reviews, including by integrating a gender analysis on the drivers of radicalization of women and men to terrorism to consider, when appropriate, the specific impacts of counter-terrorism strategies on women and women's organizations.
- 3.V.11 In line with the United Nations Disability Inclusion Strategy, the Office will integrate disability inclusion within its programmatic, coordination and policy functions, including modalities to reflect disability considerations in programme design and the implementation of evaluations.

Adjustments arising from the UN80 Initiative

- 3.V.12 The proposed programme plan for 2027 reflects changes arising from the UN80 Initiative. In particular, the tables of deliverables reflect updated planned deliverables for 2026, in line with the approved programme budget for 2026. In addition, the Office will reinforce cooperation on counter-terrorism and violent extremism conducive to terrorism, and will strengthen its collaboration with the Terrorism Prevention Branch of the United Nations Office on Drugs and Crime, including through joint resource mobilization to strengthen linkages between prevention and counter-terrorism efforts.
- 3.V.13 The Office will be guided by any future decisions taken in the context of the UN80 Initiative, in accordance with the applicable rules and procedures, including decisions, resolutions and established practice of the competent intergovernmental organs.

Evaluation activities

- 3.V.14 The following evaluations completed in 2025 have guided the proposed programme plan for 2027:
 - (a) OIOS evaluation of UNOCT;
 - (b) Six programme and project evaluations conducted by the Office.
- 3.V.15 In response to the results of the OIOS evaluation referenced above, UNOCT adopted its strategic plan and results framework for the period 2026–2028 and developed, in coordination and consultation with Compact entities, a unified results framework for system-wide monitoring, measurement and reporting of results across the four pillars of the United Nations Global Counter-Terrorism Strategy. Evaluations of programmes and projects have informed future programming. For example, in response to a midterm programme evaluation, the programme revised its monitoring and

evaluation framework to systematically capture and assess operational effectiveness and long-term impact.

3.V.16 Final evaluations of four projects and two programmes are planned for 2027.

Programme performance in 2025

A global network for victims of terrorism to advocate for their rights, shape policy and access support

3.V.17 The United Nations Global Counter-Terrorism Strategy underscores the importance of protecting the rights and addressing the needs of victims of terrorism. The General Assembly, in its resolution [73/305](#), stressed the need to promote and protect the rights of victims of terrorism and the importance of providing them with proper support and assistance. In the same resolution, the Assembly recognized the role that victims of terrorism can play, including in criminal justice processes and countering the appeal of terrorism. In 2022, the United Nations Global Congress of Victims of Terrorism affirmed the need for victim-led platforms. In response, the Office supported the establishment of the Victims of Terrorism Associations Network, which unites victims of terrorism and victims' associations from all backgrounds, recognizing the diversity of victims and the issues that are important to them, to drive collective action in favour of victims' rights and promote the significant expertise and resilience of its members as advocates, educators and peacebuilders. Prior to its establishment, the Office undertook a year of consultations with victims and victims' associations around the globe to reflect their priorities and needs in the Network. By facilitating collaboration and the sharing of best practices and amplifying the voices of victims, the Network seeks to strengthen victim-centred policy and programming on counter-terrorism and prevention of violent extremism conducive to terrorism and enable victims and victims' associations to advocate with high-level decision makers. The Network was officially launched in April 2025 as the first and only global victim-led network of its kind, bringing together more than 120 victims and victims' associations from over 50 Member States. Since its launch, members have collectively shaped the Network's governance and priorities and have initiated the co-creation of victim-led initiatives.

3.V.18 Progress towards the objective is presented in the performance measure below (see table 3.V.1).

Table 3.V.1
Performance measure

2023 (actual)	2024 (actual)	2025 (actual)
—	Victims of terrorism and victims' organizations contributed to the development of the network	A global network was established for victims of terrorism to advocate for their rights, shape policy and access support, bringing together more than 120 victims and victims' associations from over 50 Member States

Planned results for 2027

Result 1: Member States advance their efforts in countering terrorist use of weapons

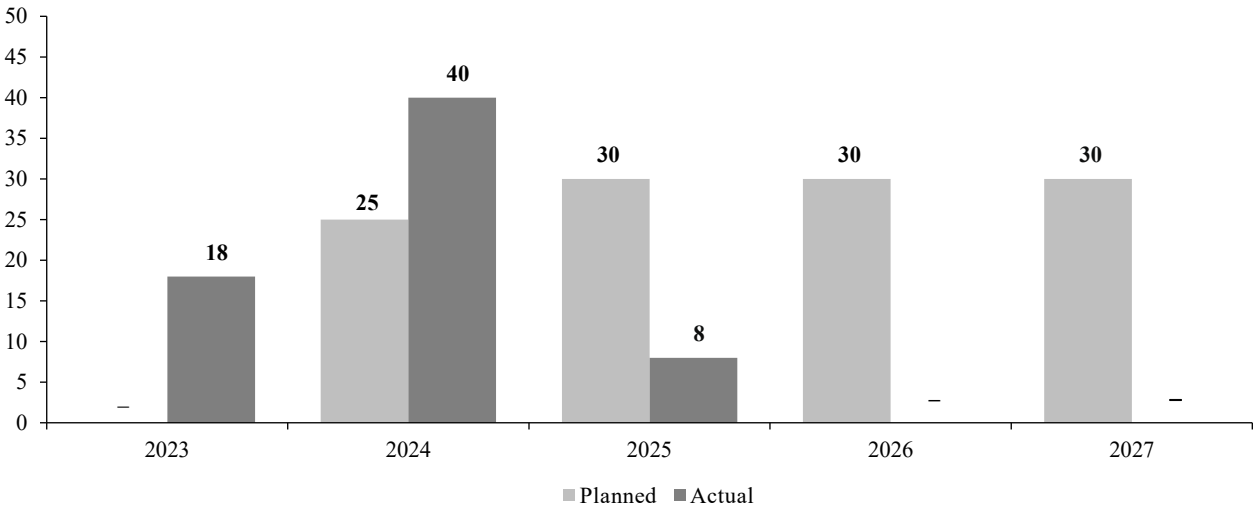

Programme performance in 2025 and target for 2027

3.V.19 The Office's work contributed to 8 Member States reporting increased capacities to prevent, prepare for and respond to the terrorist use of conventional and non-conventional weapons, which did not

meet the planned target of 30 Member States. The target was not met due to the cancellation of several capacity-building activities due to unforeseen reductions in extrabudgetary funding.

3.V.20 Progress towards the objective and the target for 2027 are presented in the performance measure below (see figure 3.V.I).

Figure 3.V.I
Performance measure: number of Member States reporting increased capacities to prevent, prepare for and respond to terrorist use of conventional and non-conventional weapons (annual)

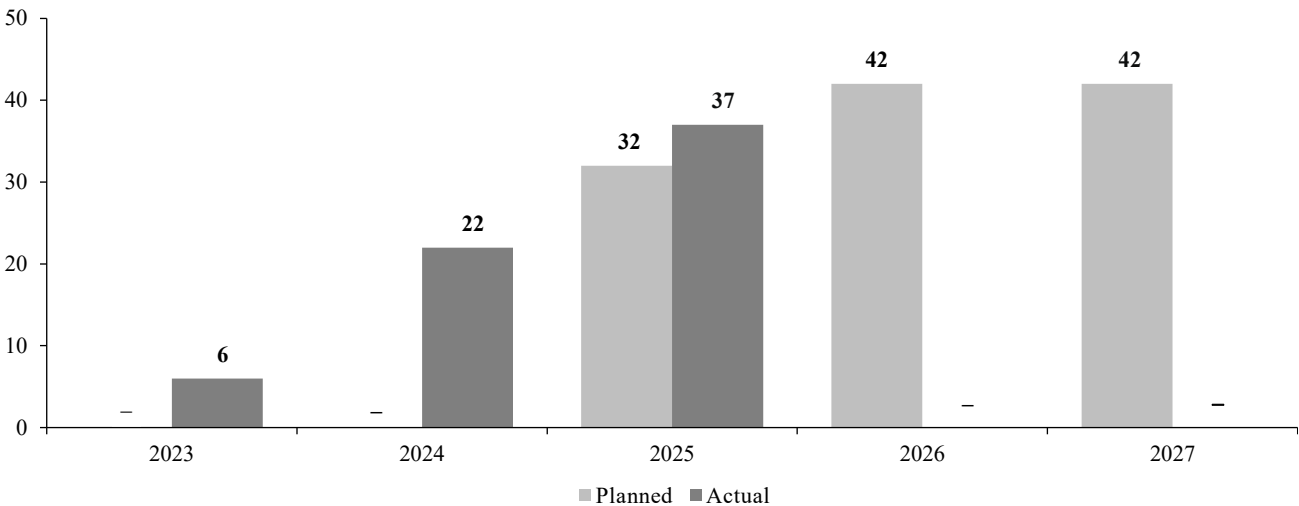

Result 2: enhanced national counter-terrorism capabilities through strengthened inter-agency coordination and intelligence analyst skills to prevent and counter terrorism

Programme performance in 2025 and target for 2027

3.V.21 The Office’s work contributed to 15 additional Member States with enhanced national inter-agency coordination mechanisms in support of counter-terrorism efforts, for a total of 37 Member States, which exceeded the planned target of 32 Member States. In 2027, the Office will focus on enhancing support to national inter-agency coordination mechanisms rather than expanding to additional countries.

3.V.22 Progress towards the objective and the target for 2027 are presented in the performance measure below (see figure 3.V.II).

Figure 3.V.II
Performance measure: number of Member States with enhanced national inter-agency coordination mechanisms in support of counter-terrorism (cumulative)

Result 3: enhanced national capacity to counter the use of unmanned aircraft systems for terrorist purposes

Proposed programme plan for 2027

3.V.23 The General Assembly, in its resolution [77/298](#) on the eighth review of the United Nations Global Counter-Terrorism Strategy, expressed concern over the potential use of new and emerging technologies for terrorist purposes, including the use of unmanned aircraft systems as the well as weaponization of commercial drones. The Office supports Member States, upon request, to understand this technology and to enhance their capacity to counter its use for terrorist purposes and to leverage unmanned systems for counter-terrorism activities, in line with obligations under international law.

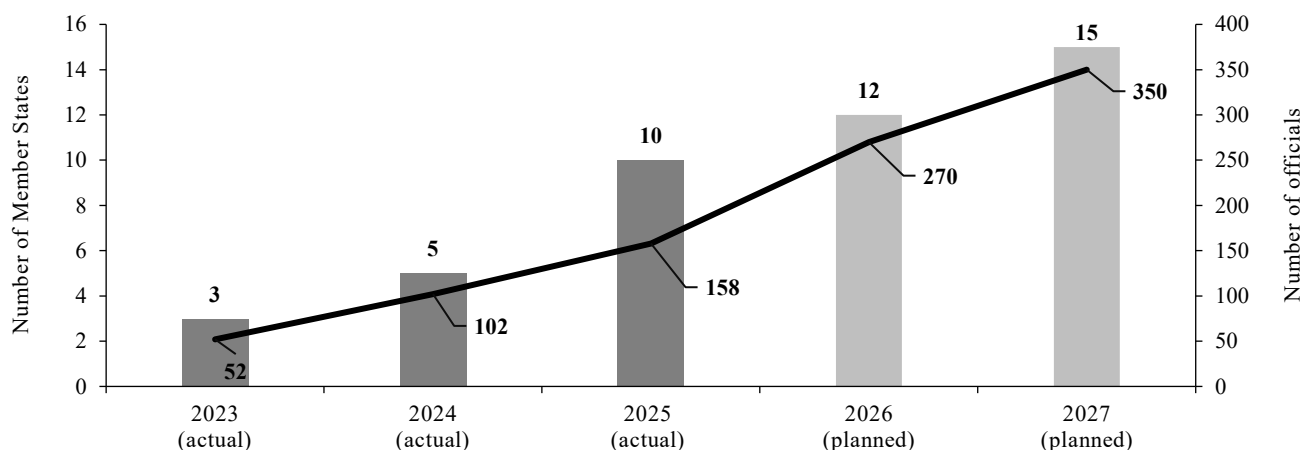

Lessons learned and planned change

3.V.24 The lesson for the Office was that supporting Member States through a combination of modalities, including operational training and coursework on countermeasures, generates sustainable and long-term impact. This has yielded exponential results, including enabling national authorities to sustainably replicate training internally, as well as contributing to the development of national policy frameworks on countering the use of new and emerging technologies for terrorist purposes. In applying the lesson, the Office will seek to expand the thematic scope of its training, certification and capacity development by introducing new courses on unmanned systems countermeasures, countering threats related to improvised explosive devices, and imagery and video analysis, among others, to address the evolving needs of Member States.

3.V.25 Expected progress towards the objective is presented in the performance measure below (see figure 3.V.III).

Figure 3.V.III

Performance measure: number of Member States and number of officials reporting strengthened capacities to counter the use of new and emerging technologies, including unmanned aircraft systems, for terrorist purposes (cumulative)

Legislative mandates

3.V.26 The list below, which was reviewed in the preparation of the proposed programme budget, provides all mandates entrusted to the Office.

General Assembly resolutions

60/288	United Nations Global Counter-Terrorism Strategy	75/291	The United Nations Global Counter-Terrorism Strategy: seventh review
66/10	United Nations Counter-Terrorism Centre	77/243	International Day for the Prevention of Violent Extremism as and when Conducive to Terrorism
70/254	Secretary-General's Plan of Action to Prevent Violent Extremism	77/298	The United Nations Global Counter-Terrorism Strategy: eighth review
71/291	Strengthening the capability of the United Nations system to assist Member States in implementing the United Nations Global Counter-Terrorism Strategy	79/1	The Pact for the Future
72/165	International Day of Remembrance of and Tribute to the Victims of Terrorism	79/53	Countering the threat posed by improvised explosive devices
73/305	Enhancement of international cooperation to assist victims of terrorism	80/171	Measures to eliminate international terrorism
		80/213	Terrorism and human rights

Security Council resolutions

1373 (2001)	2370 (2017)
1540 (2004)	2396 (2017)
2242 (2015)	2462 (2019)
2341 (2017)	2482 (2019)
2368 (2017)	2810 (2025)

Deliverables

3.V.27 Table 3.V.2 lists all deliverables of the Office.

Table 3.V.2
