Proposed programme budget for 2027

Proposed programme budget for 2027

Part II
Political affairs

Section 3
Political affairs

Special political missions

Thematic cluster II: sanctions monitoring teams, groups and panels, and other entities and mechanisms

Summary

The present report contains the proposed resource requirements for 2027 for 15 special political missions grouped under the thematic cluster of sanctions monitoring teams, groups and panels, and other entities and mechanisms.

The proposed resource requirements for 2027 for special political missions grouped under this cluster amount to $37,726,800 (net of staff assessment).

* A/81/50.

Annexes

I. Summary of follow-up action taken to implement the decisions and requests made by the General Assembly, including the requests and recommendations of the Advisory Committee on Administrative and Budgetary Questions endorsed by the Assembly 91
II. Vacancy rates of special political missions, 2025–2027 94
III. Organizational structure and post distribution for 2027 96

I. Resource overview

1. The proposed resources for 2027 for the 15 continuing special political missions grouped under thematic cluster II amount to $37,726,800 (net of staff assessment). Tables 1 and 2 provide a comparison between the financial and human resources proposed for 2027 and such resources for 2026 as approved by the General Assembly in its resolutions 80/243 A and 80/254.

[d] Includes one general temporary assistance position.

Figure I
Distribution of proposed resources for 2027
(Number of posts/thousands of United States dollars)

2. The overall increase of $1.3 million for the 15 continuing special political missions is attributable primarily to: (a) increased requirements for civilian personnel resulting from the application of lower vacancy rates and the application of the latest salary rates; and (b) increased requirements for expert fees, reflecting changes in the budgeted average monthly fees based on the current composition of expert teams. The increase was offset in part by: (a) lower estimated common staff costs for national staff, based on actual past expenditures; and (b) reduced requirements for communications and information technology, reflecting the non-recurrent provision for the acquisition of equipment included in the 2026 approved budget, as well as lower requirements for subscriptions to specialized databases and news resources to support and supplement investigations and research.

Vacancy rates

3. The proposed vacancy rates applied in the budget take into account the experience to date. The assumptions considered for the proposed vacancy factors include: (a) the 12-month average vacancy rate from January to December 2025; and (b) the actual vacancy rate as at 31 March 2026. The lower

of the two was used as the budgeted vacancy rate. This is in line with the policy guidance to improve the accuracy and consistency of the vacancy factors applied in the proposed budgets for 2027 and to ensure that the proposed vacancy rates are based, as much as possible, on actual rates. Annex II outlines the proposed vacancy rates.

Efficiency gains

4. The proposed budget reflects efficiencies and cost-reduction measures resulting in reduced requirements for operational costs, owing to: (a) lower official and expert travel requirements through the use of virtual meetings and the consolidation of travel itineraries, where feasible, and efficiencies achieved through the use of regional meeting formats with intelligence counterparts by the Analytical Support and Sanctions Monitoring Team, specifically, by expanding participation and representation at these regional meetings, the Monitoring Team being able to broaden its outreach and use expert travel resources more efficiently through a decreased number of country-specific visits; (b) reduced requirements under facilities and infrastructure for the rental of office equipment due to the consolidation of previously dispersed work locations for New York-based staff across cluster II special political missions administered by the Department of Political and Peacebuilding Affairs; (c) reduced provisions for security services, taking into account partial close protection support provided by the United Nations Integrated Office in Haiti (BINUH) during visits to Haiti; and (d) lower requirements under communications and information technology, resulting from the discontinuation of fixed telephone services following increased reliance on Internet-based communication technologies. Overall, cost efficiencies to be achieved for 2027 are as follows:

(Thousands of United States dollars)

Budget class	*Description of the Initiative*	*Estimated efficiency gains 2025* *(a)*	*Realized efficiency gains 2025* *(b)*	*Variance 2025* *(c)=(b)-(a)*	*Investment since inception to generate the efficiency gains of 2027* *(d)*	*Cumulated efficiency gains since inception and before 2027* *(e)*	*Estimated efficiency gains 2027* *(f)*	*Cumulated investments and efficiency gains as of 2027* *(g)=(d)+(e)+(f)*
Experts	Use of regional meeting formats with intelligence counterparts	–	–	–	–	–	5.0	5.0
Official travel	Increased use of virtual meetings and consolidation of travel itineraries, where feasible	–	–	–	–	–	25.0	25.0
Facilities and infrastructure	Reduced rental of office equipment through consolidation of previously dispersed work locations	–	–	–	–	–	11.7	11.7
	Reduced requirements for security services, reflecting partial close protection support provided by BINUH during visits to Haiti through inter-mission cooperation	–	–	–	–	–	15.0	15.0
Communications and information technology	Increased reliance on Internet-based communication technologies	–	–	–	–	–	6.8	6.8
Total		**–**	**–**	**–**	**–**	**–**	**63.5**	**63.5**

Budget class	Description of the Initiative	*Estimated efficiency gains 2025* *(a)*	*Realized efficiency gains 2025* *(b)*	*Variance 2025* *(c)=(b)-(a)*	*Investment since inception to generate the efficiency gains of 2027* *(d)*	*Cumulated efficiency gains since inception and before 2027* *(e)*	*Estimated efficiency gains 2027* *(f)*	*Cumulated investments and efficiency gains as of 2027* *(g)=(d)+(e)+(f)*
Approved budget for 2026								36 431.4
Efficiencies as a percentage of the approved budget for 2026								0.2

Extrabudgetary resources

5. For the sake of brevity, the present document will include a section on extrabudgetary resources only for those missions that have projected extrabudgetary resources in 2026 or 2027.

II. Cross-cutting information

Cooperation

6. To improve the effectiveness of sanctions imposed by the Security Council, the missions supporting sanctions committees will, as requested, engage with the Informal Working Group of the Security Council on General Security Council Sanctions Issues established by the Council in its resolution 2744 (2024).

Gender perspective

7. Special political missions are guided by the relevant Security Council resolutions[1] on the women and peace and security agenda, by which the Council mandates the incorporation of a gender perspective into the political work of the United Nations, including in special political missions. The missions are also guided by General Assembly resolution 75/100 on the comprehensive review of special political missions, in which the Assembly reaffirmed the important role of women in the prevention and resolution of conflicts and in peacebuilding and recognized the importance of the equal and effective participation and the full involvement of women at all levels, at all stages and in all aspects of the peaceful settlement of disputes, conflict prevention and conflict resolution.

8. The sanctions monitoring teams, groups and panels, along with the mission supporting the Security Council Committee established pursuant to resolution 1718 (2006), integrate a gender perspective into their operational activities, deliverables and results, as guided by the relevant Council resolutions. Gender balance is an important consideration in the recruitment of experts, the Focal Point for Delisting and the Ombudsperson, as well as of related staff. The terms of reference for experts in sanctions monitoring teams, groups and panels indicate that experts are to incorporate gender perspectives into their substantive areas of responsibility. In addition, the Focal Point for Delisting will examine delisting petitions in relation to relevant designation criteria, referring to sexual and gender-based violence.

9. These missions are also guided by the gender strategy of the Department of Political and Peacebuilding Affairs and benefit from available gender training for staff and sanctions-specific gender training for experts. To further broaden the geographical and gender diversity of sanctions monitoring teams, groups and panels, in October 2025, the Department participated in the ImpactPool virtual career fair for women in senior roles. A total of 914 women registered for the

[1] 1325 (2000), 1820 (2008), 1888 (2009), 1889 (2009), 1960 (2010), 2106 (2013), 2122 (2013), 2242 (2015), 2467 (2019) and 2493 (2019).

career fair, 410 of whom (from countries across all regional groups) visited the Department's virtual booth containing presentations, fact sheets, videos and information on job openings for sanctions experts. In addition, in May 2025, the Department briefed representatives of the Group of Asia-Pacific States and, in February 2026, the Group of African States, on the recruitment process of members of sanctions monitoring teams, groups and panels.

Disability inclusion

10. In line with the United Nations Disability Inclusion Strategy, special political missions review the Strategy with a view to further advancing disability inclusion through inclusive messaging, awareness-raising and promoting the Strategy through their work, including in political and peace processes. The missions also support mitigating measures to overcome accessibility challenges, in addition to the efforts by relevant United Nations entities to ensure the accessibility of facilities, platforms, security and other infrastructure to facilitate easy access and use by persons with disabilities.

Evaluation activities

11. The Department of Political and Peacebuilding Affairs will support the biennial assessment conducted by the Office of Internal Oversight Services on strengthening the role of evaluation and the application of evaluation findings on programme design, delivery and policy directives. Mission-specific evaluation activities are described, as applicable, under the respective missions in the present report.

III. Special political missions

1. Group of Experts on the Democratic Republic of the Congo

($1,418,500)

A. Proposed programme plan for 2027 and programme performance in 2025

Overall orientation

Mandates and background

12. The Group of Experts on the Democratic Republic of the Congo is responsible for monitoring the implementation of the arms embargo, asset freeze, travel ban and transport and customs measures, as well as for providing information relevant to the potential designation of individuals and entities. The mandate derives from the priorities established in relevant Security Council resolutions, including resolution 1533 (2004), and renewed in its subsequent resolutions, including, most recently, resolution 2783 (2025). The sanctions regime is aimed at preventing individuals and entities from undermining the peace, stability or security of the Democratic Republic of the Congo.

Programme of work

Objective

13. The objective, to which this mission contributes, is to ensure the full implementation of the sanctions regime concerning the Democratic Republic of the Congo, which includes an arms embargo on all non-governmental entities and individuals operating in the territory of the Democratic Republic of the Congo, an asset freeze and a travel ban.

Strategy and external factors for 2027

14. To contribute to the objective, the Group of Experts will provide updated information to the Security Council and the Security Council Committee established pursuant to resolution 1533 (2004) concerning the Democratic Republic of the Congo.

15. The above-mentioned work is expected to result in an enhanced capacity of the Security Council and the Committee to take follow-up action on alleged violations of the sanctions regime.

16. With regard to cooperation with other entities, the mission cooperates with, among others, Member States and the International Conference on the Great Lakes Region to request information relevant to its investigations into the implementation and/or violations of the sanctions regime concerning the Democratic Republic of the Congo.

17. With regard to inter-agency coordination and liaison, the Group of Experts cooperates with, among others, the United Nations Organization Stabilization Mission in the Democratic Republic of the Congo, the Focal Point for Delisting to support the review of petitioners' requests to be removed from the Committee's sanctions list, the Office of the Special Representative of the Secretary-General for Children and Armed Conflict, the Office of the Special Representative of the Secretary-General on Sexual Violence in Conflict and other sanctions monitoring teams, groups and panels, as appropriate. In the context of safety, security and logistics, the Group of Experts cooperates with the Mission, the Department of Safety and Security and the United Nations Development Programme (UNDP).

18. With regard to the external factors, the overall plan for 2027 is based on the following planning assumptions:

(a) Member States comply with the resolutions of the Security Council and cooperate with the Group of Experts;

(b) The security situation allows the Group of Experts to conduct missions, as needed.

Adjustments arising from the UN80 Initiative

19. The proposed programme plan for 2027 reflects changes arising from the UN80 Initiative. In particular, the tables of deliverables reflect updated planned deliverables for 2026, in line with the approved programme budget for 2026.

Programme performance in 2025

Enhanced understanding by the Security Council and the Committee of the illegal exploitation of natural resources and the activities of armed groups in the Democratic Republic of the Congo

20. The Group of Experts reported on the activities of armed groups and criminal networks in destabilizing the Democratic Republic of the Congo through the illegal exploitation of or trade in natural resources, and, in that regard, recommended that States cooperate fully with the ad hoc commission of inquiry established by the International Conference on the Great Lakes Region to investigate allegations of smuggling of tin, tantalum and tungsten minerals and gold.

21. This work contributed to the Security Council and the Committee receiving updated information on the involvement of armed groups and criminal networks in the illicit exploitation of and trade in natural resources, including the role of criminal networks in financing armed groups, exacerbating insecurity and negatively affecting civilian populations.

22. Progress towards the objective is presented in the performance measure below (see table 3).

Table 3
Performance measure

2023 (actual)	*2024 (actual)*	*2025 (actual)*
Security Council and the Committee received updated information on the illicit exploitation of or trafficking in natural resources and considered amendments to the list entries, and new designations	Security Council and the Committee received updated information on the illicit exploitation of or trafficking in natural resources and approved new designations	Security Council and the Committee received updated information on the illicit exploitation of or trafficking in natural resources and considered new designations

Planned result for 2027

Enhanced understanding by the Security Council and the Committee of the illegal activities of armed groups in the Democratic Republic of the Congo

Programme performance in 2025 and target for 2027

23. In 2025, the work of the Group of Experts contributed to the full implementation of the sanctions regime, which met the planned target. In its midterm report (S/2025/858), the Group of Experts reported that despite ongoing negotiations following the signing of peace agreements, their

implementation had stalled as armed groups continued mobilizing and conducting offensive operations. Alliance Fleuve Congo/Mouvement du 23 mars (AFC/M23) expanded its territorial control across North and South Kivu in the eastern Democratic Republic of the Congo, and conducted operations against the Forces démocratiques de libération du Rwanda (FDLR) with support from the Rwanda Defence Force. AFC/M23 also consolidated access to major mining sites.

Lessons learned and planned change

24. In view of the restricted access to the eastern Democratic Republic of the Congo due to the activity of armed groups and the resulting security considerations and constraints on engaging relevant interlocutors to gather information, the lesson for the Group of Experts was the need to strengthen and broaden engagement with the Group's sources in the affected areas, including those present in neighbouring States. In applying the lesson, the mission will continue to plan its investigative missions, engaging further with regional Member States to gather and validate information.

25. Progress towards the objective and the target for 2027 are presented in the performance measure below (see table 4).

Table 4
Performance measure

2023 (actual)	*2024 (actual)*	*2025 (actual)*	*2026 (planned)*	*2027 (planned)*
Committee considered adjusting list entries of individuals and/or entities in connection with illicit exploitation of or trafficking in natural resources	Committee added new entries to its sanctions list and considered adjusting the designations of individuals and/or entities in connection with human rights violations and other illegal activities committed by armed groups	Committee considered designations and adjustments to list entries of individuals and/or entities in connection with illicit exploitation of or trafficking in natural resources	Committee considers new designations and adjusts list entries of individuals and/or entities in connection with human rights violations and illegal activities committed by armed groups	Committee considers new designations and adjusts list entries of individuals and/or entities in connection with human rights violations and illegal activities committed by armed groups

Deliverables

26. Table 5 lists all deliverables of the mission.

Table 8
Proposed posts and post changes

	Number	*Level*
2026 approved	1	P-3
2027 proposed	1	P-3

27. The proposed resource requirements for the Group of Experts for 2027 amount to $1,418,500 (net of staff assessment) and would provide for the salaries and common staff costs ($224,700) for the continuation of one post (P-3) to provide substantive, administrative and security support in relation to the sanctions regime, and operational costs ($1,193,800) comprising expert fees ($792,400) and travel ($239,600) of the six experts, official travel of staff ($24,000) and other operational and logistical support requirements, including the rental of premises, rental of vehicles, communications and information technology services and other supplies, services and equipment ($137,800).

28. For 2027, no change is proposed to the number and level of posts for the mission.

29. The increase in the requirements for 2027 compared with the appropriation for 2026 is attributable primarily to higher civilian personnel costs, reflecting the application of a zero per cent vacancy rate for international staff compared with 50.0 per cent applied in 2026. The increase is offset in part by the lower requirements for expert fees owing to reduced budgeted average monthly fees based on the current composition of the team, as well as the lower requirements for communications and information technology resulting from a reduced cost-shared portion of subscriptions to specialized databases and news resources to support and supplement investigations and research.

2. Panel of Experts on the Sudan

($1,186,000)

A. Proposed programme plan for 2027 and programme performance in 2025

Overall orientation

Mandates and background

30. The Panel of Experts on the Sudan is responsible for monitoring the implementation of the arms embargo, asset freeze and travel ban, as well as for providing information relevant to the potential designation of individuals and entities. The mandate is defined in Security Council resolution 1591 (2005) and was renewed in its subsequent resolutions, including, most recently, 2791 (2025). The sanctions regime is one of the tools used by the Council to address the conflict in Darfur and is aimed at preventing threats to the stability in Darfur and the region, towards a peaceful settlement of the conflict in Darfur. In its resolution 2791 (2025), the Council extended the mandate of the mission until 12 October 2026.

Programme of work

Objective

31. The objective, to which this mission contributes, is to ensure the full implementation of the sanctions regime concerning the Sudan, which includes an arms embargo, an asset freeze and a travel ban, as well as to report on the possible threats to the peace and stability of Darfur, including the current conflict.

Strategy and external factors for 2027

32. To contribute to the objective, the Panel of Experts will provide updated information to the Security Council and the Security Council Committee established pursuant to resolution 1591 (2005) concerning the Sudan.

33. The above-mentioned work is expected to result in an enhanced capacity of the Security Council and the Committee to take follow-up action on alleged violations of the Sudan sanctions regime.

34. With regard to cooperation with other entities, the Panel of Experts cooperates with, among others, Member States and the African Union.

35. With regard to inter-agency coordination and liaison, the Panel of Experts cooperates with, among others, the Focal Point for Delisting to support the review of petitioners' requests to be removed from the Committee's sanctions list, the Office for the Coordination of Humanitarian Affairs, the United Nations Children's Fund, the Personal Envoy of the Secretary-General for the Sudan, and other sanctions monitoring teams, groups and panels, as appropriate. In the context of safety, security and logistics, the Panel cooperates with the Department of Safety and Security, UNDP and the World Food Programme (WFP).

36. With regard to the external factors, the overall plan for 2027 is based on the following planning assumptions:

(a) Member States comply with the resolutions of the Security Council and cooperate with the Panel of Experts;

(b) The security situation allows the Panel of Experts to conduct missions, as needed.

Adjustments arising from the UN80 Initiative

37. The proposed programme plan for 2027 reflects changes arising from the UN80 Initiative. In particular, the tables of deliverables reflect updated planned deliverables for 2026, in line with the approved programme budget for 2026.

Programme performance in 2025

Committee received information on Darfuri armed groups in Darfur and Libya and on the impact of the wider conflict in the Sudan on Darfur

38. In 2025, the Panel of Experts reported on Darfuri armed groups and their activities in Darfur and the region, including hostilities in El Fasher in October 2025 and their impact on the civilian population. The Panel also reported on violations of international humanitarian law and human rights, ongoing peace efforts and the relevant security situation in neighbouring States.

39. Progress towards the objective is presented in the performance measure below (see table 9).

Table 9
Performance measure

2023 (actual)	*2024 (actual)*	*2025 (actual)*
Security Council and the Committee received updated information on Darfuri armed groups in Darfur and Libya, their financing and their integration in accordance with the Juba Agreement for Peace in the Sudan	Security Council and the Committee received updated information on Darfuri armed groups in Darfur and Libya, their financing and their integration in accordance with the Juba Agreement	Security Council and the Committee received updated information on the situation in Darfur, on Darfuri armed groups and on the implementation of possible peace initiatives to address the current conflict in the Sudan

Planned result for 2027

Updated information on the ongoing conflict in Darfur and its impact on the wider region

Programme performance in 2025 and target for 2027

40. In 2025, the work of the mission partially contributed to the full implementation of the sanctions regime, although it did not meet the planned target. Due to the late appointment of the Panel of Experts, the Security Council and the Committee received delayed reporting from the Panel on the ongoing conflict in Darfur and its impact on the wider region, including the activities of armed groups in Darfur and Libya. The Panel also reported on ongoing peace efforts and the relevant security situation in neighbouring countries impacted by the conflict in the Sudan.

Lessons learned and planned change

41. The lesson for the Panel of Experts was the continued need to adjust its investigation methods owing to the security situation in the Sudan. Being unable to travel to Darfur since the outbreak of the conflict, combined with its delayed appointment, the Panel met relevant stakeholders in the peace process in Kenya and conducted interviews remotely with various interlocutors based in the Sudan, the Central African Republic, Chad, Egypt, Ethiopia, Kenya and South Sudan. The Panel also liaised with the Sudan on a proposed trip to Port Sudan. In applying the lesson, the Panel will broaden and deepen its contacts to advance investigations and will report on the conflict in Darfur, peace initiatives to stop it, and its impact on the wider region.

42. Progress towards the objective and the target for 2027 are presented in the performance measure below (see table 10).

Table 10
Performance measure

2023 (actual)	*2024 (actual)*	*2025 (actual)*	*2026 (planned)*	*2027 (planned)*
Security Council and the Committee received updated information on the Darfuri armed groups in Darfur and Libya and their integration	Security Council and the Committee received updated information on the Darfuri armed groups in Darfur and Libya and their integration following the signing of the Juba Agreement for Peace in the Sudan, and information on the impact of the wider conflict in the Sudan on Darfur	Security Council and the Committee received limited information on the situation in Darfur, on Darfuri armed groups and on implementation of possible peace initiatives to address the current conflict in the Sudan	Security Council and the Committee receive updated information on the situation in Darfur, on Darfuri armed groups and on implementation of possible peace initiatives to address the current conflict in the Sudan	Security Council and the Committee receive updated information on the situation in Darfur, on Darfuri armed groups and on implementation of possible peace initiatives to address the current conflict in the Sudan

Deliverables

43. Table 11 lists all deliverables of the mission.

Table 14
Proposed posts and post changes

	Number	*Level*
2026 approved	1	P-3
2027 proposed	1	P-3

44. The proposed resource requirements for the Panel of Experts for 2027 amount to $1,186,000 (net of staff assessment) and would provide for the salaries and common staff costs ($224,700) for the continuation of one post (P-3) to provide substantive, administrative and security support in relation to the sanctions regime, and operational costs ($961,300) comprising expert fees ($659,600) and travel ($210,000) of the five experts, official travel of staff ($15,900) and other operational and logistical support requirements, including the rental of premises, rental of vehicles, communications and information technology services and other supplies, services and equipment ($75,800).

45. For 2027, no change is proposed to the number and level of posts for the mission.

46. The increase in the requirements for 2027 compared with the appropriation for 2026 is attributable primarily to higher requirements for expert fees, reflecting increased budgeted average monthly fees based on the current composition of the team, as well as the increased civilian personnel costs resulting from the application of the latest salary rates for international staff. The increase is offset in part by the lower requirements under communications and information technology resulting from a reduced cost-shared portion of subscriptions to specialized databases and news resources supporting investigations and research.

3. Support to the Security Council Committee established pursuant to resolution 1718 (2006)

($455,100)

A. Proposed programme plan for 2027 and programme performance in 2025

Overall orientation

Mandates and background

47. The Security Council Committee established pursuant to resolution 1718 (2006) oversees the implementation of the sanctions regime concerning the Democratic People's Republic of Korea. The sanctions regime is the most comprehensive and complex of all United Nations sanctions regimes in effect and is intended to ensure that the Democratic People's Republic of Korea abandons all nuclear weapons and its existing nuclear programme, as well as any other existing weapons of mass destruction and ballistic missile programmes, in a complete, verifiable and irreversible manner. The regime includes 26 sanctions measures. In addition to an arms embargo and an embargo relating to nuclear, ballistic missile and other weapons of mass destruction programmes, a travel ban and/or asset freeze on designated individuals and entities, it includes a range of maritime provisions for designating vessels for involvement in prohibited activities and restrictions on various commodity transfers, such as refined petroleum products, minerals, metals, heavy machinery, transportation vehicles, luxury goods, seafood, textiles and more. It also includes restrictions on transportation and on financial services, as well as on overseas workers. Furthermore, the Security Council adopted a wide range of humanitarian and other exemptions to ensure that the imposed measures do not have adverse humanitarian consequences for the civilian population.

48. The support of the Secretariat is required across all areas of the Committee's mandate. Member States and other actors liaise directly with the Committee and the Secretariat for guidance on, or assistance with, the implementation of sanctions measures, including exemptions and notifications, which were previously handled by the Panel of Experts. The Committee and the Secretariat receive a high volume of information on alleged violations of the sanctions measures, which were also previously handled by the Panel. In addition, the Chair and the Committee undertake increased outreach activities to promote better understanding and implementation of the relevant resolutions, including the various exemptions processes. The Secretariat also provides extensive guidance in responding to requests from Member States, the United Nations and humanitarian actors.

49. Furthermore, with the gradual return of the international community to the Democratic People's Republic of Korea, there has been an increase in humanitarian exemption requests received by the Committee.

Programme of work

Objective

50. The objective, to which this mission contributes, is to ensure the full implementation of the sanctions regime concerning the Democratic People's Republic of Korea, which includes an arms embargo, an embargo relating to nuclear, ballistic missile and other weapons of mass destruction programmes, an asset freeze, a travel ban, maritime and financial measures, a ban on petroleum products and crude oil, a coal ban and sanctions measures in other sectoral areas.

Strategy and external factors for 2027

51. To contribute to the objective, the mission will continue to support the work of the Security Council and the Committee in relation to the implementation of the sanctions regime with regard to the Democratic People's Republic of Korea.

52. The above-mentioned work is expected to result in an enhanced capacity of the Security Council and the Committee conducive to overseeing and promoting the full implementation of the Council sanctions measures.

53. With regard to inter-agency coordination and liaison, the mission will continue to cooperate with the Resident Coordinator's Office and the Office for the Coordination of Humanitarian Affairs and other United Nations agencies carrying out humanitarian assistance and relief activities in the Democratic People's Republic of Korea, including the Food and Agriculture Organization of the United Nations, UNDP, the United Nations Population Fund, the United Nations Children's Fund, WFP and the World Health Organization, as well as other non-United Nations agencies carrying out related activities. The mission will continue to facilitate the work of the United Nations agencies through regular and ad hoc briefings to the United Nations country team in the Democratic People's Republic of Korea, and assist those agencies with the Committee's humanitarian exemption application process. The mission will also continue to guide relevant entities through the sanctions measures and exemption procedures to ensure sanctions compliance. In the context of safety and security, information technology security and logistics, the mission cooperates with the Department of Safety and Security and the Office of Information and Communications Technology.

54. With regard to the external factors, the overall plan for 2027 is based on the following planning assumptions:

(a) Member States will comply with the resolutions of the Security Council and continue to cooperate with the sanctions committee;

(b) The Chair and the Committee are adequately supported to perform their functions as mandated by the Security Council.

Adjustments arising from the UN80 Initiative

55. The proposed programme plan for 2027 reflects efforts of the mission to implement all mandates in a more efficient and effective manner and contains no substantive adjustments arising from the UN80 Initiative.

Programme performance in 2025

Committee continues to carry out its work on overseeing sanctions implementation

56. In 2025, the mission supported the Committee as it continued to oversee sanctions implementation and ensured that the Committee continued to receive relevant guidance and information. The mission also provided support to the Committee in organizing briefings to facilitate the exchange of views with relevant actors, including the Office for Disarmament Affairs, the United Nations Office on Drugs and Crime (UNODC) and the Financial Action Task Force.

57. The above-mentioned work contributed to the Security Council's and the Committee's ability to oversee the implementation of sanctions as the Democratic People's Republic of Korea persisted in carrying out prohibited activities, including ballistic missile launches.

58. Progress towards the objective is presented in the performance measure below (see table 15).

Table 15
Performance measure

2023 (actual)	*2024 (actual)*	*2025 (actual)*
Security Council, the Committee and Member States received from the mission administrative, procedural and substantial support for sanctions implementation, including exemption and notification procedures, through the mission's guidance, Committee meetings, the Chair's periodic reports to the Council and the Committee's open briefings to Member States	Security Council, the Committee and Member States received from the mission administrative, procedural and substantial support for sanctions implementation, including exemption and notification procedures, through the mission's guidance, Committee meetings, the Chair's periodic reports to the Council and the Committee's open briefings to Member States	Security Council, the Committee and Member States received from the mission administrative, procedural and substantial support on sanctions implementation, including exemption and notification procedures, through the mission's guidance, Committee meetings, the Chair's periodic reports to the Council and Committee's open briefings to Member States

Planned result for 2027

Continuous support received by the Security Council Committee established pursuant to resolution 1718 (2006)

Programme performance in 2025 and target for 2027

59. In 2025, the mission's work contributed to the promotion of an understanding of the complex sanctions regime and the Committee's work, which met the planned target of supporting the Security Council, the Committee and Member States on sanctions implementation, including providing guidance on exemption and notification procedures and preparing the Chair's periodic reports to the Council and the Committee's open briefings to Member States.

Lessons learned and planned change

60. The lesson for the mission was the need to maintain the Committee's continued access to information to help the Committee understand sanctions implementation in the absence of a monitoring mechanism. It was also key for the mission to assist the Committee in raising awareness of the sanctions regime and support Member States in meeting their reporting obligations. In applying the lesson, the mission will support the Committee in strengthening outreach to Member States and other stakeholders through briefings, dedicated meetings and discussions on implementation challenges and will also provide guidance to the Committee and the Chair in responding to requests from Member States, United Nations entities and humanitarian actors.

61. Progress towards the objective and the target for 2027 are presented in the performance measure below (see table 16).

Table 16
Performance measure

2023 (actual)	*2024 (actual)*	*2025 (actual)*	*2026 (planned)*	*2027 (planned)*
Enhanced understanding of the complex sanctions regime and improved implementation at the international and other levels	Security Council and the Committee received support for carrying out their mandates in overseeing the implementation of sanctions by providing guidance to Member States and other relevant actors within and outside the United Nations system	Security Council and the Committee received support to carry out their mandates in overseeing sanctions implementation by providing guidance to Member States and other relevant actors within and outside the United Nations system	Continuous support received by the Security Council and the Committee to oversee the implementation of resolution 1718 (2006) and subsequent resolutions, through the provision of guidance to Member States and other relevant actors within and outside the United Nations system	Continuous support received by the Security Council and the Committee to oversee the implementation of resolution 1718 (2006) and subsequent resolutions, through the provision of guidance to Member States and other relevant actors within and outside the United Nations system

Deliverables

62. Table 17 lists all deliverables of the mission.

Proposed posts and post changes

	Number	*Level*
2026 approved	2	1 P-4 and 1 GS (PL)
2027 proposed	2	1 P-4 and 1 GS (PL)

63. The proposed resource requirements for the mission for 2027 amount to $455,100 (net of staff assessment) and would provide for salaries and common staff costs ($402,400) for the continuation of two posts (1 P-4 and 1 General Service (Principal level)) to provide substantive and administrative support to the sanctions committee in relation to the sanctions regime, and operational costs ($52,700) comprising official travel of staff ($14,100) and other operational and logistical support requirements, including the rental of premises, communications and information technology services and other supplies, services and equipment ($38,600).

64. For 2027, no change is proposed to the number and level of posts for the mission.

65. The increase in the requirements for 2027 compared with the appropriation for 2026 is attributable primarily to the increased international staff costs resulting from the application of the latest salary rates. The increase is offset in part by: (a) lower estimated common staff costs for national staff based on actual past expenditures; and (b) lower requirements under operational costs due to efficiency gains achieved through the consolidation of several rental spaces into a single flexible office space, which negates the need for rental of office equipment.

4. Panel of Experts on Libya

($1,574,400)

A. Proposed programme plan for 2027 and programme performance in 2025

Overall orientation

Mandates and background

66. The Panel of Experts on Libya is responsible for monitoring the implementation of the arms embargo, asset freeze, travel ban and measures in relation to attempts to illicitly export petroleum, and for providing information relevant to the potential designation of individuals and entities. The mandate derives from the priorities established in relevant Security Council resolutions, including resolutions 1973 (2011), 2009 (2011) and 2017 (2011), and renewed in its subsequent resolutions, including, most recently, 2819 (2026). The sanctions regime is aimed at preventing and containing threats to the peace, security and stability of Libya, including obstructing or undermining the successful completion of the political transition. In its resolutions 2780 (2025) and 2804 (2025), the Council requested the Secretary-General to report on the implementation of the arms embargo on the high seas off the coast of Libya. The Secretary-General submitted his first report on 27 October 2025 (S/2025/675), while the second report was submitted on 22 April 2026 (S/2026/354).

67. In its resolution 2769 (2025), the Security Council authorized the frozen cash reserves of the Libyan Investment Authority to be invested in low-risk time deposits and in fixed financial instruments, subject to a notification and approval procedure by the Sanctions Committee concerning Libya, and requested the Panel of Experts to assess the effect and performance of those investments in their annual final reports.

Programme of work

Objective

68. The objective, to which this mission contributes, is to ensure the full implementation of the sanctions regime concerning Libya, which includes an arms embargo, an asset freeze, a travel ban and measures in relation to attempts to illicitly export petroleum.

Strategy and external factors for 2027

69. To contribute to the objective, the Panel of Experts will provide updated information to the Security Council and to the Security Council Committee established pursuant to resolution 1970 (2011) concerning Libya, including an assessment of the performance of the reinvestment of the Libyan Investment Authority's frozen cash reserves.

70. The above-mentioned work is expected to result in an enhanced capacity of the Security Council and the Committee to take follow-up action on alleged violations of the sanctions regime.

71. With regard to cooperation with other entities, in the context of information-sharing, the Panel of Experts cooperates with, among others, Member States and the European Union and its military operation in the Mediterranean pursuant to Security Council resolution 2292 (2016).

72. With regard to inter-agency coordination and liaison, the Panel of Experts cooperates with the United Nations Support Mission in Libya, the Focal Point for Delisting to support the review of petitioners' requests to be removed from the Committee's sanctions list, and other sanctions monitoring teams,

groups and panels, as appropriate. In the context of safety, security and logistics, the Panel cooperates with the Department of Safety and Security and UNDP.

73. With regard to the external factors, the overall plan for 2027 is based on the following planning assumptions:

(a) Member States comply with the resolutions of the Security Council and cooperate with the Panel of Experts;

(b) The security situation allows the Panel of Experts to conduct missions in the field;

(c) Proposals for investment and reinvestment of the Libyan Investment Authority frozen cash reserves are submitted.

Adjustments arising from the UN80 Initiative

74. The proposed programme plan for 2027 reflects changes arising from the UN80 Initiative. In particular, the tables of deliverables reflect updated planned deliverables for 2026, in line with the approved programme budget for 2026.

Programme performance in 2025

Enhanced capacity of the Security Council and the Committee to address violations of the arms embargo and illicit exports of petroleum

75. In 2025, the Panel of Experts reported on acts that threatened the peace, stability and security of Libya, implementation of the arms embargo and attempts to illicitly export petroleum from Libya. The Panel also submitted guidance to the Committee aimed at facilitating the implementation of a new asset freeze exemption concerning the reinvestment of the Libyan Investment Authority's frozen cash reserves. At the request of the Committee, the Panel provided its technical input on various matters pertaining to arms embargo and asset freeze measures. This enabled the Security Council and the Committee to consider follow-up action based on relevant Panel recommendations.

76. Progress towards the objective is presented in the performance measure below (see table 21).

Table 21
Performance measure

2023 (actual)	*2024 (actual)*	*2025 (actual)*
Security Council and the Committee received information on instances of non-compliance with the arms embargo and considered follow-up action on reported arms embargo violations, and possible listings of individuals and entities	Security Council and the Committee received information on instances of non-compliance with the asset freeze and the arms embargo, and on the possibility of reinvestment of the Libyan Investment Authority's frozen assets, and considered follow-up action	Security Council and the Committee received information on acts that threatened the peace, stability and security of Libya, implementation of the arms embargo and attempts to illicitly export petroleum from Libya

Planned result for 2027

Enhanced capacity of the Security Council and the Committee to address non-compliance with the asset freeze and the arms embargo

Programme performance in 2025 and target for 2027

77. In 2025, the work of the Panel of Experts contributed to the implementation of this sanctions regime, although it did not fully meet the planned target. Due to delays in the appointment of two experts, the Panel focused its interim report on documenting acts that threatened the peace, stability and security of Libya, including the implementation of the arms embargo and attempts to illicitly export petroleum from Libya. In the future, the Panel will also report on the implementation of the asset freeze, violations of international humanitarian law and human rights law, including human rights abuses, the implementation of the asset freeze measures and the reinvestment of the Libyan Investment Authority's frozen cash reserves as requested by the Council.

Lessons learned and planned change

78. The lesson for the Panel of Experts was the need for closer engagement and information-sharing on frozen cash reserves with the Government of Libya, the Libyan Investment Authority, relevant international bodies and regional actors. In applying the lesson, the Panel will further enhance information exchange and improve cooperation with relevant stakeholders.

79. Progress towards the objective and the target for 2027 are presented in the performance measure below (see table 22).

Table 22
Performance measure

2023 (actual)	*2024 (actual)*	*2025 (actual)*	*2026 (planned)*	*2027 (planned)*
On the basis of information provided by the Panel of Experts, the Security Council and the Committee took follow-up action on reported arms embargo violations, including considering listings	On the basis of information provided by the Panel of Experts, the Security Council and the Committee took follow-up action on reported non-compliance with the asset freeze and the arms embargo, and allowed for the possibility of reinvestment of some Libyan Investment Authority frozen assets	On the basis of information provided by the Panel of Experts, the Security Council and the Committee considered follow-up action on reported violations of the arms embargo and attempts to illicitly export petroleum from Libya	On the basis of information provided by the Panel of Experts, the Security Council and the Committee take follow-up action on non-compliance with the asset freeze and the arms embargo, violations of international humanitarian law and human rights law, and human rights abuses, including considering listings, and on possible reinvestment of the Libyan Investment Authority's frozen assets	On the basis of information provided by the Panel of Experts, the Security Council and the Committee take follow-up action on non-compliance with the asset freeze and the arms embargo and violations of international humanitarian law and human rights law, including considering new listings and reviewing reinvestment proposals of the Libyan Investment Authority's frozen assets

Deliverables

80. Table 23 lists all deliverables of the mission.

Table 23
Deliverables for the period 2025–2027, by category and subcategory

Table 26
Proposed posts and post changes

	Number	Level
2026 approved	2	1 P-3 and 1 GS (OL)
2027 proposed	2	1 P-3 and 1 GS (OL)

81. The proposed resource requirements for the Panel of Experts for 2027 amount to $1,574,400 (net of staff assessment) and would provide for salaries and common staff costs ($337,600) for the continuation of two posts (1 P-3 and 1 General Service (Other level)) to provide substantive, administrative and security support in relation to the sanctions regime, and operational costs ($1,236,800) comprising expert fees ($781,800) and travel ($313,800) of the six experts, official travel of staff ($16,800) and other operational and logistical support requirements, including the rental of premises, rental of vehicles, communications and information technology services and other supplies, services and equipment ($124,400).

82. For 2027, no change is proposed to the number and level of posts for the mission.

83. The increase in the requirements for 2027 compared with the appropriation for 2026 is attributable primarily to increased requirements under civilian personnel costs, owing to the application of a zero per cent vacancy rate for national staff, compared with 50.0 per cent applied in 2026, and the application of the latest salary rates for international and national staff. The increase is offset in part by the decreased requirements for expert fees owing to reduced budgeted average monthly fees based on the current composition of the team, as well as the lower requirements under communications and information technology resulting from a reduced cost-shared portion of subscriptions to specialized databases and news resources supporting investigations and research.

5. Panel of Experts pursuant to resolution 2745 (2024)

($1,206,400)

A. Proposed programme plan for 2027 and programme performance in 2025

Overall orientation

Mandates and background

84. The Panel of Experts pursuant to resolution 2745 (2024) is responsible for monitoring the implementation of the targeted arms embargo, asset freeze and travel ban, as well as for providing information relevant to the potential designation of individuals and entities. The mandate derives from the priorities established in relevant Security Council resolutions, including resolution 2127 (2013), and renewed in its subsequent resolutions, including, most recently, 2789 (2025). The sanctions regime is aimed at preventing individuals and entities from undermining the peace, stability or security of the Central African Republic.

Programme of work

Objective

85. The objective, to which this mission contributes, is to ensure the full implementation of the 2745 (2024) sanctions regime, which includes a targeted arms embargo that no longer applies to the Government of the Central African Republic, as well as an asset freeze and a travel ban.

Strategy and external factors for 2027

86. To contribute to the objective, the Panel of Experts will continue to provide updated information to the Security Council and the Security Council Committee pursuant to resolution 2745 (2024).

87. The above-mentioned work is expected to result in an enhanced capacity of the Security Council and the Committee to take follow-up action on alleged violations of the sanctions regime, in particular by non-governmental entities and individuals providing support to armed groups or criminal networks through the illicit exploitation of or trade in natural resources, including diamonds, gold, wildlife and wildlife products in or from the Central African Republic.

88. With regard to cooperation with other entities, in the context of information-sharing, the Panel of Experts cooperates with, among others, Member States, the African Union, the European Union Common Security and Defence Policy Advisory Mission in the Central African Republic, the Economic Community of Central African States, the International Conference on the Great Lakes Region and the Central African Economic and Monetary Community.

89. With regard to inter-agency coordination and liaison, the Panel of Experts cooperates with, among others, the United Nations Multidimensional Integrated Stabilization Mission in the Central African Republic, the Focal Point for Delisting to support the review of petitioners' requests to be removed from the Committee's sanctions list, the United Nations Institute for Disarmament Research, the Office of the Special Representative of the Secretary-General for Children and Armed Conflict, the Office of the Special Representative of the Secretary-General on Sexual Violence in Conflict and other sanctions monitoring teams, groups and panels, as appropriate. In the context of safety, security and logistics, the Panel cooperates with the Department of Safety and Security and UNDP.

90. With regard to the external factors, the overall plan for 2027 is based on the following planning assumptions:

(a) Member States comply with the resolutions of the Security Council and cooperate with the Panel of Experts;

(b) The security situation allows the Panel of Experts to conduct missions, as needed.

Adjustments arising from the UN80 Initiative

91. The proposed programme plan for 2027 reflects changes arising from the UN80 Initiative. In particular, the tables of deliverables reflect updated planned deliverables for 2026, in line with the approved programme budget for 2026.

Programme performance in 2025

Enhanced understanding by the Security Council and the Committee of the illicit activities of armed groups

92. In 2025, the Panel of Experts further reported on the involvement of armed group elements from the Central African Republic in mercenary activities in the Sudan and the spillover of regional conflicts into the Central African Republic, undermining the stability of the country and impacting its political environment. In addition, the Panel reported on the trafficking in natural resources, in particular gold and diamonds, by armed groups and criminal networks.

93. Progress towards the objective is presented in the performance measure below (see table 27).

Table 27
Performance measure

2023 (actual)	*2024 (actual)*	*2025 (actual)*
Security Council and the Committee had relevant information on the illicit exploitation of and trafficking in natural resources and arms embargo violations	Security Council and the Committee had relevant information on the illicit exploitation of and trafficking in natural resources and arms embargo violations	Security Council and the Committee had relevant information on the illicit exploitation and trafficking of natural resources, cross-border arms trafficking by armed groups, and the spillover of regional conflicts into the Central African Republic

Planned result for 2027

Enhanced understanding by the Security Council and the Committee of the illicit exploitation of and trafficking in natural resources and sexual violence in conflict

Programme performance in 2025 and target for 2027

94. The work of the Panel of Experts contributed to the implementation of the sanctions regime, which met the planned target. The Panel recommended that all neighbouring Member States take action to counter arms trafficking by armed groups and associated individuals. The Panel also documented cases of summary killings and extrajudicial executions, and of sexual violence, as well as arms embargo violations, including transfers of advanced improvised explosive devices to the armed groups and their use in targeted attacks.

Lessons learned and planned change

95. The lesson for the Panel of Experts was the continued need to strengthen the collection and verification of information for its reports, in view of limited access to certain individuals, facilities and areas in the Central African Republic, including those under the control of armed groups or areas affected by cross-border conflict, as well as security constraints arising from attacks against personnel of the United Nations Multidimensional Integrated Stabilization Mission in the Central African Republic. In applying the lesson, the Panel will continue to improve the planning of its visits and, if appropriate, engage remotely with relevant interlocutors and use United Nations procured databases and subscriptions.

96. Progress towards the objective and the target for 2027 are presented in the performance measure below (see table 28).

Table 28
Performance measure

2023 (actual)	*2024 (actual)*	*2025 (actual)*	*2026 (planned)*	*2027 (planned)*
Security Council and the Committee had relevant information on the illicit exploitation of and trafficking in natural resources and acted on the Panel's recommendations	Security Council and the Committee received further updated relevant information on the illicit exploitation of and trafficking in natural resources and sexual violence in conflict and considered designating individuals and entities	Security Council and the Committee received further updated relevant information on the illicit exploitation of and trafficking in natural resources and sexual violence in conflict, and considered designating individuals and entities	Security Council and the Committee receive further relevant information on the illicit activities of armed groups, including arms trafficking	Security Council and the Committee receive further information on the illicit activities of armed groups and on the spillover of regional conflicts into the Central African Republic

Deliverables

97. Table 29 lists all deliverables of the mission.

Table 29
Deliverables for the period 2025–2027, by category and subcategory

Table 32
Proposed posts and post changes

	Number	*Level*
2026 approved	2	1 P-3 and 1 GS (OL)
2027 proposed	2	1 P-3 and 1 GS (OL)

98. The proposed resource requirements for the Panel of Experts for 2027 amount to $1,206,400 (net of staff assessment) and would provide for salaries and common staff costs ($337,600) for the continuation of two posts (1 P-3 and 1 General Service (Other level)) to provide substantive, administrative and security support in relation to the sanctions regime, and operational costs ($868,800) comprising expert fees ($526,600) and travel ($218,500) of the four experts, official travel of staff ($33,200) and other operational and logistical support requirements, including the rental of premises, rental of vehicles, communications and information technology services and other supplies, services and equipment ($90,500).

99. For 2027, no change is proposed to the number and level of posts for the mission.

100. The increase in the requirements for 2027 compared with the appropriation for 2026 is attributable primarily to higher requirements for expert fees, reflecting increased budgeted average monthly fees based on the current composition of the team, as well as the increased international staff costs resulting from the application of the latest salary rates. The increase is offset in part by the lower common staff costs for national staff based on actual 2025 expenditure patterns, compared with the rate applied in 2026, as well as lower requirements under communications and information technology resulting from a reduced cost-shared portion of subscriptions to specialized databases and news resources supporting investigations and research.

6. Panel of Experts on Yemen

($2,026,200)

A. Proposed programme plan for 2027 and programme performance in 2025

Overall orientation

Mandates and background

101. The Panel of Experts on Yemen is responsible for monitoring the implementation of the asset freeze, travel ban and targeted arms embargo on designated individuals and entities, as well as for providing information relevant to the potential designation of such individuals and entities. The mandate is defined in Security Council resolution 2140 (2014), as modified in resolution 2216 (2015) and extended, most recently, in resolution 2801 (2025). The sanctions regime is aimed at preventing and containing threats to the peace, security and stability of Yemen. In its resolution 2801 (2025), the Council requested the Panel of Experts to submit a new report and to provide advice on dual-use components and precursor chemicals.

Programme of work

Objective

102. The objective, to which this mission contributes, is to ensure the full implementation of the sanctions regime concerning Yemen, which includes a targeted arms embargo, an asset freeze and a travel ban.

Strategy and external factors for 2027

103. To contribute to the objective, the Panel of Experts will provide updated information to the Security Council and the Security Council Committee established pursuant to resolution 2140 (2014).

104. The above-mentioned work is expected to result in the enhanced capacity of the Security Council and the Committee to take follow-up action on alleged violations of the sanctions regime.

105. With regard to cooperation with other entities, in the context of information-sharing, the Panel of Experts cooperates with, among others, Member States, the Combined Maritime Forces and the International Criminal Police Organization (INTERPOL).

106. With regard to inter-agency coordination and liaison, the Panel of Experts cooperates with, among others, the Focal Point for Delisting to support the review of petitioners' requests to be removed from the Committee's sanctions list, the World Bank, the International Monetary Fund, WFP, the United Nations Verification and Inspection Mechanism for Yemen and other sanctions monitoring teams, groups and panels, as appropriate. In the context of safety, security and logistics, the Panel cooperates with the Office of the Special Envoy of the Secretary-General for Yemen, the Department of Safety and Security and UNDP.

107. With regard to the external factors, the overall plan for 2027 is based on the following planning assumptions:

(a) Member States comply with the resolutions of the Security Council and cooperate with the Panel of Experts;

(b) The security situation allows the Panel of Experts to conduct missions, as needed.

Adjustments arising from the UN80 Initiative

108. The proposed programme plan for 2027 reflects changes arising from the UN80 Initiative. In particular, the tables of deliverables reflect updated planned deliverables for 2026, in line with the approved programme budget for 2026.

Programme performance in 2025

Further enhanced awareness of the armed groups' dynamics and the Houthis' revenue sources used to finance military activities

109. In 2025, the Panel of Experts continued to report on the activities of armed groups, with a particular focus on the revenue sources used by the Houthis to finance their operations, including their capacity to generate and diversify income streams, a portion of which funded the Houthis' military activities. The Panel reported that arms continued to flow to the Houthis due to the adaptability of smuggling networks and the persistent gaps in enforcement.

110. Progress towards the objective is presented in the performance measure below (see table 33).

Table 33
Performance measure

2023 (actual)	*2024 (actual)*	*2025 (actual)*
Security Council and the Committee received comprehensive information from the Panel of Experts on the trafficking in arms and related materiel	Security Council and the Committee received comprehensive information from the Panel of Experts on the trafficking in arms and related materiel, including sources, types and scale of violations of the arms embargo	Security Council and the Committee received comprehensive information from the Panel of Experts on armed groups, including the Houthis' financing sources

Planned result for 2027

Further enhanced awareness of the trafficking in arms and commercial components for use in certain military applications

Programme performance in 2025 and target for 2027

111. The mission's work contributed to the Security Council and the Committee receiving information from the Panel of Experts, although it did not fully meet the planned target. The Security Council and the Committee received delayed reporting on the trafficking in arms and commercial components for use in certain military applications due to delays in the appointment of one expert. The Security Council and the Committee did, however, receive comprehensive information from the Panel on the dynamics of armed groups and the financing sources and military activities of the Houthis. The Panel will continue to provide comprehensive information on the dynamics of armed groups, their financing mechanisms and trafficking in arms and related materiel.

Lessons learned and planned change

112. The lesson for the Panel of Experts was that the absence of one expert significantly limited the Panel's ability in 2025 to assess arms embargo violations and provide relevant information to the Council and the Committee. In applying the lesson, the Panel will adapt and improve planning according to the availability of relevant expertise on the Panel in the event of delays in experts' appointment.

113. Progress towards the objective and the target for 2027 are presented in the performance measure below (see table 34).

Table 34
Performance measure

2023 (actual)	*2024 (actual)*	*2025 (actual)*	*2026 (planned)*	*2027 (planned)*
Security Council and the Committee received comprehensive information from the Panel of Experts on the trafficking in arms and related materiel	Security Council and the Committee received comprehensive information from the Panel of Experts on the trafficking in arms and related materiel	Security Council and the Committee received comprehensive information from the Panel of Experts on the trafficking in arms and related materiel	Security Council and the Committee receive comprehensive information from the Panel of Experts on the trafficking in arms and related materiel	Security Council and the Committee receive comprehensive information from the Panel of Experts on the dynamics of armed groups, illicit weapons acquisition and financing sources

Deliverables

114. Table 35 lists all deliverables of the mission.

Table 38
Proposed posts and post changes

	Number	*Level*
2026 approved	4	1 P-3 and 3 FS
2027 proposed	4	1 P-3 and 3 FS

115. The proposed resource requirements for the Panel of Experts for 2027 amount to $2,026,200 (net of staff assessment) and would provide for the salaries and common staff costs ($815,700) for the continuation of four posts (1 P-3 and 3 Field Service) to provide substantive, administrative and security support in relation to the sanctions regime, and operational costs ($1,210,500) comprising expert fees ($672,300) and travel ($212,500) of the five experts, official travel of staff ($65,300) and other operational and logistical support requirements, including the rental of premises, rental of vehicles, communications and information technology services, medical services and other supplies, services and equipment ($260,400).

116. For 2027, no change is proposed to the number and level of posts for the mission.

117. The decrease in the requirements for 2027 compared with the appropriation for 2026 is attributable primarily to: (a) lower requirements for expert fees owing to lower budgeted average monthly fees based on the current composition of the team; (b) reduced requirements for danger pay at duty stations in Yemen; and (c) lower requirements under communications and information technology resulting from a reduced cost-shared portion of subscriptions to specialized databases and news resources supporting investigations and research, as well as efficiency gains achieved and the increased reliance on Internet-based communication technologies.

7. Panel of Experts on South Sudan

($1,538,300)

A. Proposed programme plan for 2027 and programme performance in 2025

Overall orientation

Mandates and background

118. The Panel of Experts on South Sudan is responsible for monitoring the implementation of the arms embargo, asset freeze and travel ban, as well as for providing information relevant to the potential designation of individuals and entities. The mandate derives from the priorities established in relevant Security Council resolutions, including resolution 2206 (2015), and renewed in its subsequent resolutions, including, most recently, 2781 (2025). The sanctions regime is aimed at, but not limited to, targeting spoilers of the Revitalized Agreement on the Resolution of the Conflict in the Republic of South Sudan, which was signed on 12 September 2018. On 16 April 2026, following a request by the Council in its resolution 2731 (2024), the Secretary-General provided the Council with an assessment of the progress achieved on the key benchmarks established in resolution 2577 (2021) (S/2026/330).

Programme of work

Objective

119. The objective, to which this mission contributes, is to ensure the full implementation of the sanctions regime concerning South Sudan, which includes a territorial arms embargo, an asset freeze and a travel ban.

Strategy and external factors for 2027

120. To contribute to the objective, the Panel of Experts will provide updated information, including on the potential impacts of elections currently scheduled for December 2026, on the overall situation in South Sudan, to the Security Council and the Security Council Committee established pursuant to resolution 2206 (2015) concerning South Sudan.

121. The above-mentioned work is expected to result in an enhanced capacity of the Security Council and the Committee to take follow-up action on alleged violations of the sanctions regime, including actions or policies that threaten the peace, security or stability of South Sudan.

122. With regard to cooperation with other entities, in the context of information-sharing, the Panel of Experts cooperates with, among others, Member States, the African Union and the Intergovernmental Authority on Development.

123. With regard to inter-agency coordination and liaison, the Panel of Experts cooperates with the United Nations Mission in South Sudan, the Focal Point for Delisting to support the review of petitioners' requests to be removed from the Committee's sanctions list, the Office of the United Nations High Commissioner for Human Rights (OHCHR), the Office of the Special Representative of the Secretary-General for Children and Armed Conflict, the Office of the Special Representative of the Secretary-General on Sexual Violence in Conflict and other sanctions monitoring teams, groups and panels, as appropriate. In the context of safety and security, information technology security and logistics, the Panel cooperates with the mission, the Department of Safety and Security and UNDP.

124. With regard to the external factors, the overall plan for 2027 is based on the following planning assumptions:

(a) Member States comply with the resolutions of the Security Council and cooperate with the Panel of Experts;

(b) The security situation allows the Panel of Experts to conduct missions, as needed.

Adjustments arising from the UN80 Initiative

125. The proposed programme plan for 2027 reflects changes arising from the UN80 Initiative. In particular, the tables of deliverables reflect updated planned deliverables for 2026, in line with the approved programme budget for 2026.

Programme performance in 2025

Committee members receive an update on the implementation of the Revitalized Agreement and on the progress made in the implementation of the key benchmarks of the arms embargo

126. The Panel of Experts provided the Security Council and the Committee with information on the implementation of the Revitalized Agreement, focusing on the political and security crisis since March 2025, including the detention and trial of prominent opposition leaders, among them the First Vice-President, Riek Machar, and the resulting escalation of armed clashes between government and opposition security forces. This information enabled Committee members to assess the impact of the crisis on transitional security arrangements, a key element for completing South Sudan's transitional period until the end of February 2027.

127. Progress towards the objective is presented in the performance measure below (see table 39).

Table 39
Performance measure

2023 (actual)	*2024 (actual)*	*2025 (actual)*
Security Council and the Committee received updated information on the progress made in implementation of the Revitalized Agreement and reviewed the arms embargo based on the progress achieved on the key benchmarks	Security Council and the Committee received updated information on the progress made in implementation of the Revitalized Agreement and reviewed the arms embargo based on the progress achieved on the key benchmarks	Security Council and the Committee received updated information on the progress made in implementation of the Revitalized Agreement and reviewed the arms embargo based on the progress achieved on the key benchmarks

Planned result for 2027

Update on the implementation of the Revitalized Agreement and on the progress of implementation of the arms embargo key benchmarks

Programme performance in 2025 and target for 2027

128. In 2025, the work of the Panel of Experts contributed to the implementation of the sanctions regime, which met the planned target. The Panel's reports deepened the Committee's understanding of the current situation in South Sudan, including developments and challenges in the implementation of the Revitalized Agreement, as well as the implementation of the arms embargo. They also contributed to the Security Council's decision to maintain the arms embargo and to review it on the basis of the progress achieved on the key benchmarks.

Lessons learned and planned change

129. The lesson for the Panel of Experts was the continued need to enhance the collection and validation of information for its reports, given limited access to some individuals, facilities and areas owing to the security situation in South Sudan. In applying the lesson, the Panel will continue to improve planning of regional missions, use relevant communication technologies, databases and subscriptions provided by the United Nations, and corroborate information with confidential sources in locations accessible to the Panel, including outside of South Sudan.

130. Progress towards the objective and the target for 2027 are presented in the performance measure below (see table 40).

Table 40
Performance measure

2023 (actual)	*2024 (actual)*	*2025 (actual)*	*2026 (planned)*	*2027 (planned)*
Security Council and the Committee reviewed the arms embargo on the basis of updated information regarding progress achieved on the established key benchmarks	Security Council and the Committee further reviewed the arms embargo on the basis of updated information regarding progress in implementing the Revitalized Agreement and the established key benchmarks	Security Council and the Committee reviewed the arms embargo on the basis of updated information regarding progress in implementing the Revitalized Agreement and key benchmarks	Security Council and the Committee review the arms embargo on the basis of updated information regarding progress in implementing the Revitalized Agreement, including electoral preparations, and on the established key benchmarks	Security Council and the Committee review the arms embargo on the basis of updated information regarding progress in implementing the Revitalized Agreement and key benchmarks

Deliverables

Table 44
Proposed posts and post changes

	Number	*Level*
2026 approved	3	1 P-3 and 2 GS (OL)
2027 proposed	3	1 P-3 and 2 GS (OL)

132. The proposed resource requirements for the Panel of Experts for 2027 amount to $1,538,300 (net of staff assessment) and would provide for salaries and common staff costs ($450,500) for the continuation of three posts (1 P-3 and 2 General Service (Other level)) to provide substantive, administrative and security support in relation to the sanctions regime, and operational costs ($1,087,800) comprising expert fees ($692,400) and travel ($247,400) of the five experts, official travel of staff ($40,200) and other operational and logistical support requirements, including the rental of premises, rental of vehicles, communications and information technology services and other supplies, services and equipment ($107,800).

133. For 2027, no change is proposed to the number and level of posts for the mission.

134. The increase in the requirements for 2027 compared with the appropriation for 2026 is attributable primarily to higher requirements for expert fees owing to higher budgeted average monthly fees based on the current composition of the team, as well as the increased requirements under civilian personnel costs resulting from the application of the latest salary rates. The increase is offset in part by lower estimated common staff costs for national staff based on actual past expenditures, and the lower requirements under communications and information technology resulting from a reduced cost-shared portion of subscriptions to specialized databases and news resources supporting investigations and research.

8. Analytical Support and Sanctions Monitoring Team pursuant to resolutions 1526 (2004) and 2253 (2015) concerning Islamic State in Iraq and the Levant (Da'esh), Al-Qaida and the Taliban and associated individuals and entities

($5,569,000)

A. Proposed programme plan for 2027 and programme performance in 2025

Overall orientation

Mandates and background

135. The Analytical Support and Sanctions Monitoring Team, which supports the work of both the Security Council Committee pursuant to resolutions 1267 (1999), 1989 (2011) and 2253 (2015) concerning Islamic State in Iraq and the Levant (Da'esh), Al-Qaida and associated individuals, groups, undertakings and entities (ISIL (Da'esh) and Al-Qaida Sanctions Committee), and the Security Council Committee established pursuant to resolution 1988 (2011), is responsible for assisting in and reporting on the implementation of asset freezes, travel bans and targeted arms embargoes on designated individuals and entities. The mandate is derived from the priorities established in the relevant Council resolutions, including resolution 1267 (1999), which was renewed in its subsequent resolutions, including, most recently, 2734 (2024), 2761 (2024), 2763 (2024) and 2816 (2026). The sanctions regimes are aimed at strengthening the Council's response to threats to international peace and security caused by terrorist acts and at contributing to the peace, stability and security of Afghanistan.

Programme of work

Objective

136. The objective, to which this mission contributes, is to ensure the full implementation of sanctions regimes concerning Da'esh, Al-Qaida and the Taliban, which include targeted arms embargoes, asset freezes and travel bans.

Strategy and external factors for 2027

137. To contribute to the objective, the Monitoring Team will provide updated information to the Security Council, the ISIL (Da'esh) and Al-Qaida Sanctions Committee and the Security Council Committee established pursuant to resolution 1988 (2011).

138. The above-mentioned work is expected to result in an enhanced capacity of the Security Council and the Committees to take follow-up action on alleged violations of the sanctions regimes.

139. With regard to cooperation with other entities, in the context of information-sharing, the Monitoring Team cooperates with, among others, Member States, the International Air Transport Association, the International Civil Aviation Organization, the World Customs Organization, the Financial Action Task Force and INTERPOL.

140. With regard to inter-agency coordination and liaison, the Monitoring Team cooperates with, among others, the Counter-Terrorism Committee Executive Directorate, the Office of Counter-Terrorism (UNOCT), the mission assisting the Security Council Committee established pursuant to resolution 1540 (2004), the Office of the Ombudsperson established pursuant to Security Council resolution 1904

(2009), the Focal Point for Delisting to support the review of petitioners' exemptions requests, UNODC, the United Nations Assistance Mission in Afghanistan and other sanctions monitoring teams, groups and panels, as appropriate. In the context of safety and security, information technology security and logistics, the Monitoring Team cooperates with the Department of Safety and Security, the Office of Information and Communications Technology, United Nations field missions and UNDP, as appropriate.

141. With regard to the external factors, the overall plan for 2027 is based on the following planning assumptions:

(a) Member States comply with the resolutions of the Security Council and cooperate with the Monitoring Team;

(b) The security situation allows the Monitoring Team to conduct missions, as needed.

Adjustments arising from the UN80 Initiative

142. The proposed programme plan for 2027 reflects changes arising from the UN80 Initiative. In particular, the tables of deliverables reflect updated planned deliverables for 2026, in line with the approved programme budget for 2026.

Programme performance in 2025

Enhanced analysis to follow an evolving threat

143. To assist in addressing the global terrorism threat posed by Da'esh and Al-Qaida and the threat posed by the Taliban to the peace, stability and security of Afghanistan, and to fully implement sanctions measures, the Monitoring Team submitted seven reports to the Security Council or the Committees in 2025, providing analysis on the evolving global terrorism threat, and one report on the situation in Afghanistan. The Monitoring Team gathered information from Member States, including the de facto authorities in Afghanistan, regional organizations and other stakeholders, and used databases and subscriptions provided by the United Nations to conduct research.

144. Progress towards the objective is presented in the performance measure below (see table 45).

Table 45
Performance measure

2023 (actual)	*2024 (actual)*	*2025 (actual)*
Security Council and the Committees had comprehensive information on the terrorist threat and the Taliban, and the Committees considered exemptions, amendments to listings and new designations	Security Council and the Committees had comprehensive information on the terrorist threat and the Taliban, and the Committees considered exemptions, amendments to listings and new designations	Security Council and the Committees had comprehensive information on the terrorist threat and the Taliban, and the Committees considered exemptions, amendments to listings and new designations

Planned result for 2027

Strengthened analysis to follow an evolving threat

Programme performance in 2025 and target for 2027

145. The mission provided comprehensive reports to the Security Council (S/2025/71/Rev.1, S/2025/482 and S/2025/796) based on its extensive engagement with Member States and with other stakeholders and met the planned target. In 2025, the ISIL (Da'esh) and Al-Qaida Sanctions Committee listed one individual and removed two individuals from the ISIL (Da'esh) and Al-Qaida sanctions list. Additionally, two individuals were removed from the sanctions list by the Security Council through resolution 2799 (2025). The Committee also approved amendments to the entries of 21 individuals on the ISIL (Da'esh) and Al-Qaida sanctions list and exemptions from existing sanctions measures.

Lessons learned and planned change

146. The lesson for the Monitoring Team was the continued need to plan in-person meetings more efficiently to gather sensitive and confidential information and to provide targeted training to Member States on sanctions implementation. In applying the lesson, the mission will continue to optimize field visits, regional meetings and participation in multilateral meetings to maintain in-person engagement with Member States, regional organizations and other stakeholders. In parallel, the mission will continue to use virtual meetings and research tools to support its work, as appropriate.

147. Progress towards the objective and the target for 2027 are presented in the performance measure below (see table 46).

Table 46
Performance measure

2023 (actual)	*2024 (actual)*	*2025 (actual)*	*2026 (planned)*	*2027 (planned)*
Security Council and the Committees had comprehensive information on the terrorist threat and the Taliban; the Committees considered exemptions and amendments to listings; and the Council and Committees considered new designations	Security Council and the Committees had comprehensive information on the terrorist threat and the Taliban; the Committees considered exemptions and amendments to listings; and the Council and Committees considered new designations	Security Council and the Committees had comprehensive information on the terrorist threat and the Taliban; the Committees considered exemptions and amendments to listings; and the Council and Committees listed one individual and removed two individuals from sanctions lists, and amended 21 listings	Security Council and the Committees have comprehensive information on the terrorist threat, the Taliban and violations of standing humanitarian exemptions; the Committees consider exemptions and amendments to listings; and the Council and Committees consider new designations	Security Council and the Committees have comprehensive information on the terrorist threat, the Taliban and violations of standing humanitarian exemptions; the Committees consider exemptions and amendments to listings; and the Council and Committees consider new designations

Deliverables

Table 50
Proposed posts and post changes

	Number	Level
2026 approved	16	1 P-5, 4 P-4, 6 P-3 and 5 GS (OL)
2027 proposed	16	1 P-5, 4 P-4, 6 P-3 and 5 GS (OL)

149. The proposed resource requirements for the Monitoring Team for 2027 amount to $5,569,000 (net of staff assessment) and would provide for salaries and common staff costs ($2,765,500) for the continuation of 16 posts (1 P-5, 4 P-4, 6 P-3 and 5 General Service (Other level)) to provide substantive and administrative support to the sanctions regimes, and operational costs ($2,803,500) comprising expert fees ($1,760,100) and travel of experts ($356,700) of the eight experts, official travel of staff ($64,200) and other operational and logistical support requirements, including the rental of premises, communications and information technology services and other supplies, services and equipment ($622,500).

150. For 2027, no change is proposed to the number and level of posts for the mission.

151. The increase in the requirements for 2027 compared with the appropriation for 2026 is attributable primarily to: (a) increased requirements for international staff, owing to the application of a lower vacancy rate of 9.1 per cent compared with 14.4 per cent applied in 2026; and (b) increased requirements for expert fees, owing to higher budgeted average monthly fees based on the current

composition of the team. The increase is offset in part by: (a) reduced requirements for national staff, resulting from the application of a higher vacancy rate of 51.0 per cent compared with 38.5 per cent applied in 2026 and lower estimated common staff costs based on actual past expenditures; (b) reduced requirements for the rental of office equipment through the consolidation of several rental spaces into a single flexible office space; and (c) lower requirements under communications and information technology resulting from the application of the latest standard information and communications technology service rates and the increased reliance on Internet-based communication technologies. In addition, the mission developed and deployed the RSS feed for clients of the United Nations Security Council Consolidated List, leading to a more efficient process of dissemination of information, allowing clients to receive sanctions list updates faster, and facilitating a more effective response to client queries.

9. Office of the Ombudsperson established pursuant to Security Council resolution 1904 (2009)

($785,500)

A. Proposed programme plan for 2027 and programme performance in 2025

Overall orientation

Mandates and background

152. The Office of the Ombudsperson to the Security Council Committee pursuant to resolutions 1267 (1999), 1989 (2011) and 2253 (2015) concerning Islamic State in Iraq and the Levant (Da'esh), Al-Qaida and associated individuals, groups, undertakings and entities is responsible for reviewing delisting requests from individuals or entities inscribed on the related sanctions list. The mandate is defined in Security Council resolution 1904 (2009), and renewed by subsequent resolutions, most recently resolution 2734 (2024).

Programme of work

Objective

153. The objective, to which this mission contributes, is to provide an independent review of delisting requests of individuals, entities and undertakings on the ISIL (Da'esh) and Al-Qaida sanctions list. In doing so, it ensures that listed individuals, entities and undertakings have access to fair and clear procedures for the administration of requests for removal (delisting) from the sanctions list.

Strategy and external factors for 2027

154. To contribute to the objective, the Office will fairly and expeditiously consider and process all requests for delisting and travel to interview each petitioner in person, whenever possible, in the petitioner's country of residence.

155. The above-mentioned work is expected to result in informed decision-making by the Committee on the Ombudsperson's analysis and recommendation on the delisting request contained in a comprehensive report on each case.

156. With regard to cooperation with other entities, including in the context of information-sharing, the Office cooperates with, among others, Member States, the European Union, academic institutions, think tanks and international law associations.

157. With regard to inter-agency coordination and liaison, the Office cooperates with, among others, UNDP, OHCHR, the Counter-Terrorism Committee Executive Directorate, UNOCT, the Special Rapporteur on the promotion and protection of human rights and fundamental freedoms while countering terrorism, and the Analytical Support and Sanctions Monitoring Team pursuant to resolutions 1526 (2004) and 2253 (2015) concerning ISIL (Da'esh), Al-Qaida and the Taliban and associated individuals and entities. In the context of safety and security, information technology security and logistics, the Office cooperates with the Department of Safety and Security, the Office of Information and Communications Technology and UNDP.

158. With regard to the external factors, the overall plan for 2027 is based on the following planning assumptions:

(a) Member States comply with the resolutions of the Security Council and cooperate with the Office;

(b) The security situation allows the Office to conduct missions, as needed.

Adjustments arising from the UN80 Initiative

159. The proposed programme plan for 2027 reflects efforts of the mission to implement all mandates in a more efficient and effective manner and contains no substantive adjustments arising from the UN80 Initiative.

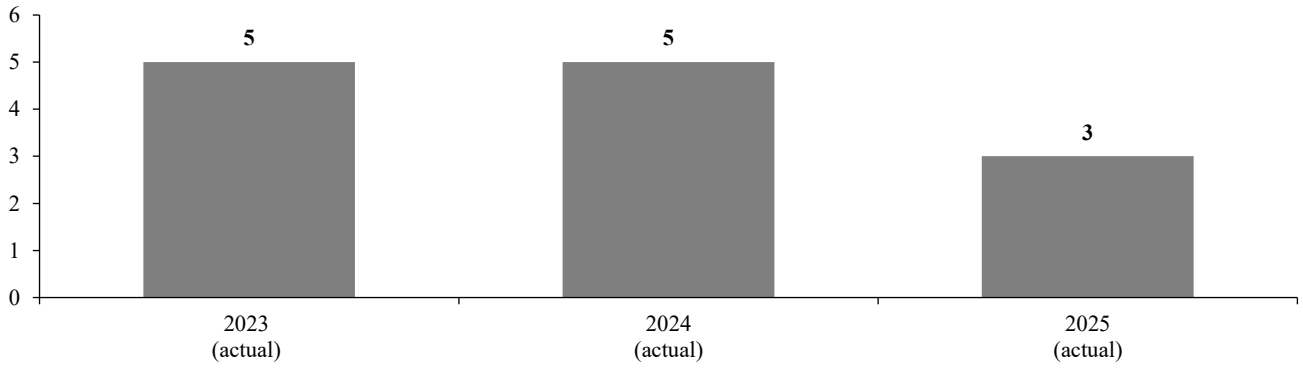

Programme performance in 2025

Fair and expeditious review of delisting requests

160. In 2025, the Ombudsperson advanced consideration of all petitions before the Office, which included the presentation of three cases and the submission of three comprehensive reports to the Committee and interviews with two petitioners. The Ombudsperson also undertook extensive inquiries and independent research to gather information on each petition, including from Member States and the Monitoring Team. In 2025, the Office accepted three new petitions, bringing the total number of accepted petitions to 114. The above-mentioned work contributed to the Committee receiving in a timely manner comprehensive reports from the Office.

161. Progress towards the objective is presented in the performance measure below (see figure II).

Figure II
Performance measure: number of comprehensive reports received by the ISIL (Da'esh) and Al-Qaida Sanctions Committee

Planned result for 2027

Ensuring fair and expeditious review of delisting requests

Programme performance in 2025 and target for 2027

162. The mission's work contributed to the independent review of delisting requests, although it did not meet the planned target of five comprehensive reports submitted to the ISIL (Da'esh) and Al-Qaida Sanctions Committee. The target was not met because the timelines set by the Security Council for the five cases considered in 2025 did not allow for the submission of comprehensive reports in each case within the calendar year.

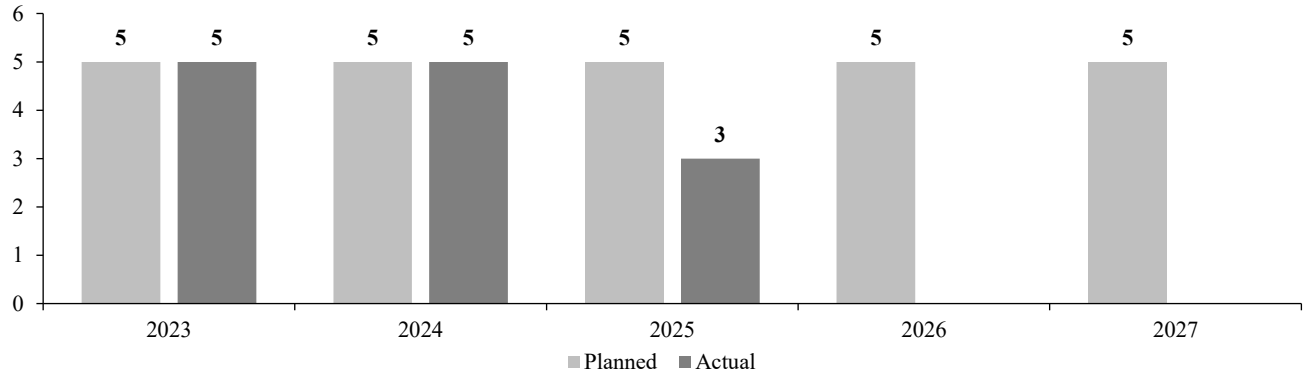

163. In 2025, the Ombudsperson independently reviewed delisting requests from petitioners and conducted extensive outreach to raise awareness of the mission's work among Member States, regional organizations, academic institutions, think tanks and international law associations.

Lessons learned and planned change

164. The lesson for the Office was the need to further raise awareness of its work and mandate. In applying the lesson, the Office will strengthen its outreach efforts by disseminating its informational booklet to relevant stakeholders, participating in regional seminars and informing all listed individuals and entities of the Ombudsperson's mandate and of the delisting request procedure.

165. Progress towards the objective and the target for 2027 are presented in the performance measure below (see figure III).

Figure III
Performance measure: number of comprehensive reports received by the ISIL (Da'esh) and Al-Qaida Sanctions Committee

Deliverables

Table 54
Proposed posts and post changes

	Number	*Level*
2026 approved	2	1 P-4 and 1 GS (OL)
2027 proposed	2	1 P-4 and 1 GS (OL)

167. The proposed resource requirements for the Office for 2027 amount to $785,500 (net of staff assessment) and would provide for salaries and common staff costs ($381,800) for the continuation of two posts (1 P-4 and 1 General Service (Other level)) to provide substantive and administrative support to the Ombudsperson, and operational costs ($403,700) comprising fees ($265,200) and travel ($28,400) of the Ombudsperson, official travel of staff ($34,300) and other operational and logistical support requirements, including the rental of premises, rental of vehicles, communications and information technology and other supplies, services and equipment ($75,800).

168. For 2027, no change is proposed to the number and level of posts for the mission.

169. The increase in the requirements for 2027 compared with the appropriation for 2026 is attributable primarily to increased requirements under civilian personnel costs resulting from the application of the latest salary rates, as well as higher requirements for expert fees owing to higher budgeted average monthly fees based on the current incumbent. The increase is offset in part by lower estimated common staff costs for national staff based on actual past expenditures.

10. Panel of Experts pursuant to resolution 2713 (2023)

($1,477,100)

A. Proposed programme plan for 2027 and programme performance in 2025

Overall orientation

Mandates and background

170. The Panel of Experts pursuant to resolution 2713 (2023) is responsible for monitoring the implementation of the asset freeze, the travel ban, the targeted arms embargo and the territorial arms embargo focused on Al-Shabaab, the charcoal ban and the improvised explosive device components restrictions, as well as for providing information relevant to the designation of individuals and entities. Its mandate is referenced in Security Council resolution 2444 (2018) and was renewed in subsequent Council resolutions, including, most recently, 2806 (2025). The sanctions regime is aimed at supporting the efforts of the Somali authorities to deliver stability and security in Somalia, to prevent any flows of weapons and ammunition to Al-Shabaab and other actors undermining peace and security in Somalia and the region, and to disrupt Al-Shabaab's activities and finances.

171. On 24 October 2025, following the request by the Security Council in resolution 2776 (2025), the Secretary-General provided a technical assessment of the arms embargo targeting Al-Shabaab (S/2025/673), with specific recommendations. In resolution 2806 (2025), the Council requested the Secretary-General to submit a further technical assessment regarding the arms embargo targeting Al-Shabaab by 31 October 2026.

Programme of work

Objective

172. The objective, to which this mission contributes, is to ensure the full implementation of the sanctions regime concerning Al-Shabaab, which includes an asset freeze, a travel ban, targeted and territorial arms embargoes, a charcoal ban and improvised explosive device components restrictions.

Strategy and external factors for 2027

173. To contribute to the objective, the Panel of Experts will provide updated information to the Security Council and the Security Council Committee pursuant to resolution 2713 (2023) concerning Al-Shabaab.

174. The above-mentioned work is expected to result in an enhanced capacity of the Security Council and the Committee to take follow-up action on alleged violations of the sanctions regime.

175. With regard to cooperation with other entities, in the context of information-sharing, the Panel of Experts cooperates with, among others, Member States, INTERPOL, the African Union and the European Union. It also cooperates with the African Union Support and Stabilization Mission in Somalia.

176. With regard to inter-agency coordination and liaison, the Panel of Experts cooperates with, among others, the United Nations Transitional Assistance Mission in Somalia, the United Nations Support Office in Somalia, the United Nations Office at Nairobi, UNODC, other sanctions monitoring teams, groups and panels, as appropriate, and the Focal Point for Delisting to support the review of petitioners' requests to be removed from the Committee's sanctions list. In the context of safety, security and logistics, the Panel cooperates with the Department of Safety and Security and security teams of the United Nations Office at Nairobi, the United Nations Transitional Assistance Mission in Somalia, the United Nations Support Office in Somalia and UNDP.

177. With regard to the external factors, the overall plan for 2027 is based on the following planning assumptions:

(a) Member States comply with the resolutions of the Security Council and cooperate with the Panel of Experts;

(b) The security situation allows the Panel of Experts to conduct missions, as needed.

Adjustments arising from the UN80 Initiative

178. The proposed programme plan for 2027 reflects changes arising from the UN80 Initiative. In particular, the tables of deliverables reflect updated planned deliverables for 2026, in line with the approved programme budget for 2026.

Programme performance in 2025

Enhanced capacity of the Security Council, the Committee and Member States to counter Al-Shabaab financing

179. In 2025, in its final report (S/2025/777), the Panel of Experts assessed that the threat of Al-Shabaab remains the most immediate threat to the peace, security and stability of Somalia and the region. In Somalia, the threat goes beyond the impact of conventional military action and asymmetric warfare to include sophisticated extortion, forced recruitment practices and an effective propaganda machine. The Panel further documented that Abdullahi Wadad had been appointed as a new finance emir of Al-Shabaab, and the group continued to extort in areas outside its influence, including in Mogadishu.

180. Progress towards the objective is presented in the performance measure below (see table 55).

Table 55
Performance measure

2023 (actual)	*2024 (actual)*	*2025 (actual)*
Security Council and the Committee received information from the Panel of Experts on Al-Shabaab's financing and efforts to disrupt it	Security Council and the Committee received information from the Panel of Experts on Al-Shabaab's financing and efforts to disrupt it	Security Council and the Committee received information from the Panel of Experts on Al-Shabaab's financing and efforts to disrupt it, and Al-Shabaab's threat to Somalia

Planned result for 2027

Enhanced capacity of the Security Council, the Committee and Member States to degrade the threat posed by Al-Shabaab

Programme performance in 2025 and target for 2027

181. The mission's work contributed to the implementation of the sanctions regime concerning Al-Shabaab, but did not fully meet the planned target of the Security Council and the Committee receiving information from the Panel of Experts on exploitation of the banking system of Somalia and on violations of the arms embargo and human rights by Al-Shabaab. The target was not met owing to the delayed appointment of the Panel of Experts.

Lessons learned and planned change

182. The lesson for the Panel of Experts was the need to gain access to and receive more substantial information on illicit flows of finances, charcoal, weapons, ammunition and military equipment by

Al-Shabaab, from the Government of the Federal Republic of Somalia, the federal member states and neighbouring countries, on time. In applying the lesson, the Panel will continue to engage and cooperate with the Government, the federal member states and other relevant national, regional and international stakeholders, and use databases and subscriptions procured by the United Nations.

183. Progress towards the objective and the target for 2027 are presented in the performance measure below (see table 56).

Table 56
Performance measure

2023 (actual)	*2024 (actual)*	*2025 (actual)*	*2026 (planned)*	*2027 (planned)*
Panel of Experts focused on Al-Shabaab's use of the banking system of Somalia and the Security Council or the Committee considered designating individuals involved in the financing of the group	Security Council and the Committee continued to receive from the Panel of Experts information on exploitation by Al-Shabaab of the banking system in Somalia and on violations of the arms embargo and human rights by Al-Shabaab, and the Council and the Committee continued to consider new designations	Security Council and the Committee received limited information from the Panel of Experts on exploitation by Al-Shabaab of the banking system in Somalia and on violations of the arms embargo and human rights by Al-Shabaab	Security Council and the Committee receive from the Panel of Experts information on exploitation of the banking system of Somalia and on violations of the arms embargo and human rights by Al-Shabaab, and the Council and the Committee consider new designations	Security Council and the Committee receive from the Panel of Experts information on exploitation of the banking system of Somalia and on violations of the arms embargo and human rights by Al-Shabaab, and the Council and the Committee consider new designations

Deliverables

184. Table 57 lists all deliverables of the mission.

Table 60
Proposed posts and post changes

	Number	*Level*
2026 approved	4	1 P-3, 1 GS (OL) and 2 LL
2027 proposed	4	1 P-3, 1 GS (OL) and 2 LL

185. The proposed resource requirements for the Panel of Experts for 2027 amount to $1,477,100 (net of staff assessment) and would provide for salaries and common staff costs ($439,800) for the continuation of four posts (1 P-3, 1 General Service (Other level) and 2 Local level) to provide substantive, administrative, security and logistical support in relation to the sanctions regime, and operational costs ($1,037,300) comprising expert fees ($696,200) and travel ($193,900) of the five experts, official travel of staff ($38,500) and other operational and logistical support requirements, including the rental of premises, rental of vehicles, communications and information technology services, medical and other supplies, services and equipment ($108,700).

186. For 2027, no change is proposed to the number and level of posts for the mission.

187. The increase in the requirements for 2027 compared with the appropriation for 2026 is attributable primarily to: (a) increased requirements for expert fees owing to higher budgeted average monthly fees based on the current composition of the team; (b) increased requirements under civilian personnel costs resulting from the application of the latest salary rates for international and national staff; and (c) increased requirements for telecommunications services resulting from the experts being home-based. The increase is offset in part by lower estimated common staff costs for national staff based on actual past expenditures, as well as the lower requirements under communications and information technology resulting from a reduced cost-shared portion of subscriptions to specialized databases and news resources supporting investigations and research.

11. Panel of Experts on Haiti

($1,744,100)

A. Proposed programme plan for 2027 and programme performance in 2025

Overall orientation

Mandates and background

188. The Panel of Experts on Haiti is responsible for monitoring the implementation of the travel ban, asset freeze and territorial arms embargo, as well as for providing information relevant to the potential designation of individuals and entities. The mandate is referenced in Security Council resolution 2653 (2022) and was renewed by subsequent resolutions, most recently 2794 (2025). The sanctions regime aims, inter alia, to support the efforts of the Haitian authorities to restore stability and security in Haiti, counter gang violence and criminal activities and prevent human rights abuses.

189. On 18 September 2025, further to the request of the Security Council in resolution 2752 (2024), the Secretary-General submitted an assessment of the progress achieved on the revised key benchmarks (S/2025/588). In resolution 2794 (2025), the Council requested a further assessment of progress achieved on the key benchmarks no later than 1 September 2026.

Programme of work

Objective

190. The objective, to which this mission contributes, is to ensure the full implementation of the sanctions regime concerning Haiti, which includes a travel ban, an asset freeze and a territorial arms embargo.

Strategy and external factors for 2027

191. To contribute to the objective, the Panel of Experts will provide updated information to the Security Council and the Security Council Committee established pursuant to resolution 2653 (2022) concerning Haiti.

192. The above-mentioned work is expected to result in an enhanced capacity of the Security Council and the Committee to take follow-up action on alleged violations of the sanctions regime.

193. With regard to cooperation with other entities, in line with paragraph 15 of resolution 2794 (2025), the Panel of Experts will cooperate with, among others, Member States, as well as international, regional and subregional organizations and the Gang Suppression Force.

194. With regard to inter-agency coordination and liaison, the Panel of Experts will cooperate with, among others, BINUH, the United Nations Support Office in Haiti (UNSOH), UNODC and other sanctions monitoring teams, groups and panels, as appropriate. In line with paragraph 3 of resolution 2744 (2024), the Panel of Experts will cooperate with the Focal Point for Delisting to support the review of petitioners' requests to be removed from the sanctions list. In the context of safety, security and logistics, the Panel will cooperate with the Department of Safety and Security, BINUH, UNSOH and UNDP.

195. With regard to the external factors, the overall plan for 2027 is based on the following planning assumptions:

(a) Member States comply with the resolutions of the Security Council and cooperate with the Panel of Experts;

(b) The security situation allows the Panel of Experts to conduct missions, as needed.

Adjustments arising from the UN80 Initiative

196. The proposed programme plan for 2027 reflects changes arising from the UN80 Initiative. In particular, the tables of deliverables reflect updated planned deliverables for 2026, in line with the approved programme budget for 2026.

Programme performance in 2025

Committee members receive information on gang dynamics, arms trafficking and the illicit exploitation of natural resources

197. In 2025, the Panel of Experts submitted interim (S/2025/356) and final (S/2025/597) reports to the Security Council on the security situation in Haiti, gang leadership and activities, and individuals who met the designation criteria, including gang supporters. The Panel also reported on arms trafficking into Haiti, illicit financial flows and the exploitation of and trade in natural resources.

198. Progress towards the objective is presented in the performance measure below (see table 61).

Table 61
Performance measure

2023 (actual)	*2024 (actual)*	*2025 (actual)*
Security Council and the Committee received the mandated reports and information on individuals and/or entities meeting the designation criteria The Council adjusted the sanctions measures on the basis of the recommendation of the Panel of Experts, and the Committee designated additional individuals	Security Council and the Committee received information on individuals and/or entities meeting the designation criteria The Council adjusted sanctions measures on the basis of the recommendation of the Panel of Experts, and the Committee designated additional individuals	Security Council and the Committee received information on individuals and/or entities meeting the designation criteria and designated two entities and two individuals

Planned result for 2027

Full implementation of the sanctions regime concerning Haiti

Programme performance in 2025 and target for 2027

199. The Panel of Experts contributed to the implementation of the sanctions regime, which met the planned target. The Security Council, in its resolution 2794 (2025), and the Committee listed two individuals and two entities, respectively, based on information provided by the Panel.

Lessons learned and planned change

200. The lesson learned for the mission was that the volatile security environment in Port-au-Prince and surrounding areas increased unpredictability in the Panel's travel planning, leading to the adjustment of its investigations and the conduct of some activities remotely. In-person engagement with interlocutors and stakeholders in Haiti is indispensable for the Panel's investigative work and analysis of gang activities and networks, arms flows and illicit financing. The Panel will enhance its visit planning and coordination with BINUH, UNSOH and the Department of Safety and Security and implement necessary security risk mitigation measures.

201. Expected progress towards the objective and the target for 2027 are presented in the performance measure below (see table 62).

Table 62
Performance measure

2023 (actual)	*2024 (actual)*	*2025 (actual)*	*2026 (planned)*	*2027 (planned)*
Security Council and the Committee receive the mandated reports and information on individuals and/or entities meeting the designation criteria	Security Council and the Committee received information on individuals and/or entities threatening the peace, security or stability of Haiti and designated additional individuals	Security Council and the Committee received information on individuals and entities threatening the peace, security or stability of Haiti and designated additional individuals and entities	Security Council and the Committee receive information on individuals and/or entities threatening the peace, security or stability of Haiti and consider designating additional individuals and entities	Security Council and the Committee receive information on individuals and/or entities threatening the peace, security or stability of Haiti and consider designating additional individuals and entities

Deliverables

202. Table 63 lists all deliverables of the mission.

Table 63
Deliverables for the period 2025–2027, by category and subcategory

Table 66
Proposed posts and post changes

	Number	*Level*
2026 approved	3	1 P-5, 1 P-3 and 1 GS (OL)
2027 proposed	3	1 P-5, 1 P-3 and 1 GS (OL)

203. The proposed resource requirements for the Panel of Experts for 2027 amount to $1,744,100 (net of staff assessment) and would provide for the salaries and common staff costs ($651,800) for the continuation of three posts (1 P-5, 1 P-3 and 1 General Service (Other level)), and operational costs ($1,092,300) comprising expert fees ($551,400) and travel ($205,200) of the four experts, official travel of staff and travel of Close Protection Officers from various United Nations entities to support the experts while travelling in Haiti ($128,600), and other operational and logistical support requirements, including the rental of premises, Close Protection Officer replacement costs, rental of vehicles, communications and information technology services and other supplies, services and equipment ($207,100).

204. For 2027, no change is proposed to the number and level of posts for the mission.

205. The increase in the requirements for 2027 compared with the appropriation for 2026 is attributable primarily to higher requirements for expert fees owing to higher budgeted average monthly fees based on the current composition of the team, as well as the increased requirements under civilian personnel costs resulting from the application of the latest salary rates for international and national staff. The increase is offset in part by lower estimated common staff costs for national staff based on actual past expenditures, lower requirements for security services reflecting reduced close protection support during visits to Haiti, taking into account the inter-mission cooperation with BINUH for the partial provision of such support, and lower requirements under communications and information technology resulting from a reduced cost-shared portion of subscriptions to specialized databases and news resources supporting investigations and research.

12. Office of the Focal Point for Delisting

($731,200)

A. Proposed programme plan for 2027 and programme performance in 2025

Overall orientation

Mandates and background

206. The mandate of the Office of the Focal Point for Delisting derives from Security Council resolution 1730 (2006), in which the Council adopted a delisting procedure and requested the Secretary-General to establish a Focal Point. The mandate was extended in its subsequent resolutions 2083 (2012), 2161 (2014) and 2255 (2015) and, most recently, strengthened in resolution 2744 (2024). The Focal Point is mandated to review delisting requests from individuals, groups, undertakings or entities designated on the lists of the sanctions committees established by the Council, excluding the sanctions list of the ISIL (Da'esh) and Al-Qaida Sanctions Committee, which falls under the purview of the Office of the Ombudsperson established pursuant to Security Council resolution 1904 (2009). The Focal Point is also mandated to deal with requests for travel ban and asset freeze exemptions, and communications related to cases of false or mistaken identity and post-delisting challenges, from specific listed individuals or entities.

Programme of work

Objective

207. The objective, to which this mission contributes, is to provide an independent review of delisting requests submitted by, or on behalf of, an individual, group, undertaking or entity designated on the lists of the sanctions committees established by the Security Council (the petitioner), excluding the ISIL (Da'esh) and Al-Qaida Sanctions Committee, in accordance with annex I to resolution 2744 (2024).

Strategy and external factors for 2027

208. To contribute to the objective, the Focal Point will carry out the tasks set out in the delisting procedures detailed in annex I to resolution 2744 (2024), which provides an outline of the process for information-gathering, dialogue and committee discussion and decision upon receipt of a delisting request, and in other relevant resolutions.

209. The above-mentioned work is expected to result in strengthened due process in Security Council sanctions regimes, through fair and clear delisting procedures, and the timely processing of requests for delisting, travel ban and asset freeze exemptions, as well as communications related to cases of false or mistaken identity and post-delisting challenges.

210. With regard to cooperation with other entities at the global, regional and local levels, including in the context of information-sharing, the Focal Point will cooperate with Member States, such as members of the Security Council, and the designating State(s) and State(s) of residence and nationality or incorporation of the petitioners.

211. With regard to inter-agency coordination and liaison, the Focal Point will cooperate with any relevant sanctions committee's groups or panels of experts or monitoring teams, as well as any relevant United Nations envoys engaged in negotiations and peace processes relevant to the sanctions. In the context of safety and security, information technology security and logistics, the Focal Point will

also cooperate with the Department of Safety and Security, the Office of Information and Communications Technology and UNDP.

212. To improve the effectiveness of sanctions imposed by the Security Council, the Focal Point will, as requested, engage with the Informal Working Group of the Security Council on General United Nations Security Council Sanctions Issues established pursuant to resolution 2744 (2024).

213. With regard to the external factors, the overall plan for 2027 is based on the following planning assumptions:

(a) Member States comply with the resolutions of the Security Council and cooperate with the mission;

(b) The security situation allows the mission to conduct missions, as needed;

(c) Petitioners and other relevant actors are aware of the new delisting procedure outlined in resolution 2744 (2024).

Adjustments arising from the UN80 Initiative

214. The proposed programme plan for 2027 reflects efforts of the mission to implement all mandates in a more efficient and effective manner and contains no substantive adjustments arising from the UN80 Initiative.

Programme performance in 2025

Strengthen due process by ensuring fairer procedures for petitioners

215. By its resolution 2744 (2024), the Security Council requested the Secretary-General to appoint the Focal Point to implement the strengthened mandate of the mission. The activities in 2025 focused on the recruitment of the Focal Point in coordination with the Office of Legal Affairs and in consultation with the Informal Working Group of the Security Council on General United Nations Security Council Sanctions Issues, on recruitment outreach activities to attract a wide pool of candidates, the review of all relevant sanctions committees' guidelines on the Focal Point delisting procedures, and the establishment of the Office and its operational readiness.

216. Progress towards the objective is presented in the performance measure below (see table 67).

Table 67
Performance measure

2023 (actual)	*2024 (actual)*	*2025 (actual)*
–	Informal Working Group of the Security Council on General United Nations Security Council Sanctions Issues received a list of candidates for the position of the Focal Point for its consideration and approval	Informal Working Group of the Security Council on General United Nations Security Council Sanctions Issues received a list of candidates for the position of the Focal Point for its consideration and approval

Planned result for 2027

Strengthened due process through well-informed decision-making on delisting requests

Programme performance in 2025 and target for 2027

217. While the Office of the Focal Point for Delisting has been established, the appointment was not completed in 2025, as a result of which the planned target was not met. The Secretariat undertook the recruitment of the Focal Point and presented additional candidates to the Informal Working Group of the Security Council on General United Nations Security Council Sanctions Issues for its consideration and approval. In addition, the Secretariat conducted substantial outreach activities to Member States and international and non-governmental organizations, providing briefings on the new delisting procedures and recruitment process of the Focal Point.

218. The Focal Point supports sanctions committees in their consideration of delisting requests. Upon receipt of a delisting request, the Focal Point verifies that the petition properly addresses the original designation criteria and engages with petitioners and relevant stakeholders to gather relevant information. The Focal Point then prepares a confidential comprehensive report articulating the principal arguments in respect of the delisting request. This report assists the relevant committee in its decision-making process, thereby contributing to the strengthening of due process. The Focal Point is also mandated to submit two biannual reports on its activities to the Informal Working Group of the Security Council on General United Nations Security Council Sanctions Issues and participates in various forums to raise awareness of the new delisting procedure.

Lessons learned and planned change

219. The lesson for the mission was the need for the Focal Point for Delisting, in consultation with the Informal Working Group of the Security Council on General United Nations Security Council Sanctions Issues, to be appointed without further delay. In applying the lesson, the Department of Political and Peacebuilding Affairs will intensify additional outreach efforts to identify suitable candidates for the Informal Working Group's consideration.

220. Expected progress towards the objective is presented in the performance measure below (see table 68).

Table 68
Performance measure

2023 (actual)	*2024 (actual)*	*2025 (actual)*	*2026 (planned)*	*2027 (planned)*
–	Focal Point could not be appointed by the due date	Informal Working Group of the Security Council on General United Nations Security Council Sanctions Issues received further candidates for the position of the Focal Point for its consideration and approval	Relevant sanctions committees consider delisting requests as informed by confidential comprehensive reports of the Focal Point, and Member States are briefed on the Focal Point's activities and new delisting procedure	Relevant sanctions committees consider delisting requests as informed by confidential comprehensive reports of the Focal Point, and Member States are briefed on the Focal Point's activities and new delisting procedure

Deliverables

221. Table 69 lists all deliverables of the mission.

Table 69
Deliverables for the period 2025–2027, by category and subcategory

Proposed 2027	–	–	–	–	–	1	1	–	–	2	–	1[a]	–	1	–	–	–	3
Change	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–

[a] Other level, unless otherwise stated.

Table 72
Proposed posts and post changes

	Number	*Level*
2026 approved	3	1 P-4, 1 P-3 and 1 GS (OL)
2027 proposed	3	1 P-4, 1 P-3 and 1 GS (OL)

222. The proposed resource requirements for the Office for 2027 amount to $731,200 (net of staff assessment) and would provide for salaries and common staff costs ($344,300) for the continuation of three posts (1 P-4, 1 P-3 and 1 General Service (Other level)) to provide procedural, substantive and administrative support to the Focal Point, and operational costs ($386,900) comprising fees ($228,000) and travel ($28,400) of the Focal Point, official travel of staff ($39,500) and other operational and logistical support requirements, including the rental of premises, rental of vehicles, communications and information technology, and other supplies, services and equipment ($91,000).

223. For 2027, no change is proposed to the number and level of posts for the mission.

224. The increase in the requirements for 2027 compared with the appropriation for 2026 is attributable primarily to higher requirements under civilian personnel costs, owing to the application of a lower vacancy rate of 41.7 per cent for international staff, compared with 50.0 per cent applied in 2026. The increase is offset in part by lower estimated common staff costs for national staff based on actual past expenditures, as well as efficiency gains achieved through the discontinuation of fixed telephone communication services and increased reliance on Internet-based communication technologies.

13. Panel of Experts on the Islamic Republic of Iran

($2,511,400)

A. Proposed programme plan for 2027 and programme performance in 2025

Overall orientation

Mandates and background

225. The Panel of Experts on the Islamic Republic of Iran is responsible for monitoring the implementation of the embargo related to proliferation-sensitive nuclear activities and the development of nuclear weapon delivery systems; the arms embargo; restrictions on enrichment, reprocessing or heavy-water-related activities; the travel ban; the asset freeze; and the ban on bunkering services, financial services and training or assistance, as well as providing information relevant to the designation of individuals and entities. The mandate of the Panel derives from the priorities established in Security Council resolutions 1696 (2006), 1737 (2006), 1747 (2007), 1803 (2008), 1835 (2008) and 1929 (2010), as reinstated on 27 September 2025 until 26 September 2026, pursuant to paragraphs 11 and 12 of resolution 2231 (2015). The sanctions regime aims to ensure that the Islamic Republic of Iran halts all its uranium enrichment and other activities related to the development of nuclear weapons and fully complies with its obligations under the Treaty on the Non-Proliferation of Nuclear Weapons and relevant safeguards agreements with the International Atomic Energy Agency.

Programme of work

Objective

226. The objective, to which this mission contributes, is to ensure the full implementation of the sanctions regime concerning the Islamic Republic of Iran, which includes an embargo related to proliferation-sensitive nuclear activities and the development of nuclear weapon delivery systems; the arms embargo; restrictions on enrichment, reprocessing or heavy-water-related activities; the travel ban; the asset freeze; and the ban on bunkering services, financial services and training or assistance.

Strategy and external factors for 2027

227. To contribute to the objective, the Panel of Experts will provide updated information to the Security Council and the Security Council Committee established pursuant to resolution 1737 (2006).

228. The above-mentioned work is expected to result in an enhanced capacity of the Security Council and the Committee to undertake follow-up actions on the implementation of the sanctions regime.

229. With regard to cooperation with other entities at the global, regional, national and local levels, in the context of information-sharing, the Panel of Experts will cooperate with, among others, Member States, the Comprehensive Nuclear-Test-Ban Treaty Organization and the International Atomic Energy Agency.

230. With regard to inter-agency coordination and liaison, the Panel of Experts cooperates with, among others, the Focal Point for Delisting to support the review of petitioners' requests to be removed from the sanctions list, and other sanctions monitoring teams, groups and panels, as appropriate. In the context of safety and security, information technology security and logistics, the Panel cooperates

with the Department of Safety and Security, the Office of Information and Communications Technology and UNDP.

231. With regard to the external factors, the overall plan for 2026 is based on the following planning assumptions:

(a) Member States will continue to comply with the resolutions of the Security Council and cooperate with the Panel of Experts;

(b) The security situation allows the Panel to conduct missions, as needed.

Adjustments arising from the UN80 Initiative

232. The proposed programme plan for 2027 reflects efforts of the mission to implement all mandates in a more efficient and effective manner and contains no substantive adjustments arising from the UN80 Initiative.

Programme performance in 2025

Enhanced capacity of the Security Council and the Committee to address non-compliance with sanctions measures

233. On 27 September 2025, pursuant to the process outlined in paragraphs 11 and 12 of Security Council resolution 2231 (2015), the Council reinstated a United Nations sanctions regime on the Islamic Republic of Iran, the Sanctions Committee and its Panel of Experts. The Panel of Experts contributed to the implementation of sanctions measures at the national and regional levels by strengthening the capacity of the Council and the Committee to address instances of non-compliance.

234. Progress towards the objective is presented in the performance measure below (see table 73).

Table 73
Performance measure

2023 (actual)	*2024 (actual)*	*2025 (actual)*
–	–	The Security Council and the Committee were consulted on the modalities of the re-established Panel of Experts on the Islamic Republic of Iran

Planned result for 2027

Enhanced capacity of the Security Council and the Committee to address non-compliance with sanctions measures

Programme performance in 2025 and target for 2027

235. In 2025, the mission's activities focused on the re-establishment of the Panel of Experts on the Islamic Republic of Iran, including elaborating the terms of reference of the eight expert positions and defining the specific technical, regional and thematic expertise required in consultation with the Security Council and the Committee. The work also involved outreach to Member States to solicit qualified nominations to ensure a balanced and technically robust Panel of Experts able to support the work of the Committee and the Council.

236. The mission's work in 2027 will contribute to the enhanced capacity of the Security Council and the Committee to address non-compliance with sanctions measures by providing the Council and the Committee with information on individuals and/or entities meeting the designation criteria defined in relevant Council resolutions.

237. Progress towards the objective and the target for 2027 are presented in the performance measure below (see table 74).

Table 74
Performance measure

2023 (actual)	*2024 (actual)*	*2025 (actual)*	*2026 (planned)*	*2027 (planned)*

8. Missions to gather information relating to compliance with the sanctions regime	–	–	15	15

C. Substantive deliverables

Consultation, advice and advocacy: recommendations concerning individuals and entities to be listed; consultations with Member States on the implementation of the sanctions regime; consultations and advice to broaden engagement with international, regional, subregional and other organizations; and advice on the implementation of relevant resolutions.

Databases and substantive digital materials: archives of documents collected by the Panel of Experts.

D. Communication deliverables

Outreach programmes, special events and information materials: outreach programmes to report on the work of the Panel of Experts; fact sheets on the work and mandate of the special political mission; and notes verbales on the activities of the sanctions committee/Panel of Experts.

External and media relations: press releases on the activities of the sanctions committee/Panel of Experts.

Digital platforms and multimedia content: dissemination of information on the activities and mandate of the sanctions committee/Panel of Experts through its website.

B. Proposed post and non-post resource requirements for 2027

Resource requirements (regular budget)

Table 76
Financial resources

Change	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–	–

[a] Includes one general temporary assistance position.
[b] Other level, unless otherwise stated.

Table 78
Proposed posts and positions and post changes

	Number	*Level*
2026 approved	3	1 P-4, 1 P-3 (general temporary assistance position) and 1 GS (OL)
2027 proposed	3	1 P-4, 1 P-3 (general temporary assistance position) and 1 GS (OL)

239. The proposed resource requirements for the Panel of Experts for 2027 amount to $2,511,400 (net of staff assessment) and would provide for the salaries and common staff costs ($344,300) for the continuation of three posts and positions (1 P-4, 1 P-3 (general temporary assistance position), and 1 General Service (Other level)) to provide substantive, administrative and security support in relation to the sanctions regime, and operational costs ($2,167,100) comprising expert fees ($1,775,200) and travel ($140,800) of the eight experts, official travel of staff ($21,100) and other operational and logistical support requirements, including the rental of premises, rental of vehicles, communications and information technology services and other supplies, services and equipment ($230,000).

240. For 2027, no change is proposed to the number and level of posts and positions for the mission.

241. It is proposed that one existing general temporary assistance position of Political Affairs Officer (P-3) be continued in 2027, to provide substantive and procedural advice on matters relating to sanctions measures and existing exemptions and notification processes. The position would support the Chair and the Committee in providing procedural guidance and substantive support to the Panel of Experts, including the review of written products, the preparation of programme assessments for visits, the oversight of security mitigation measures and the organization of meetings with Member States.

242. The increase in the requirements for 2027 compared with the appropriation for 2026 is attributable primarily to higher civilian personnel costs, reflecting the full-year cost of the P-3 general temporary assistance position, compared with six months approved in 2026, as well as the application of a lower vacancy rate of 41.7 per cent for international staff, compared with a vacancy rate of 50.0 per cent applied in 2026. The increase is offset in part by lower requirements under communications and information technology resulting from the exclusion of non-recurrent requirements approved in 2026 for the purchase of information technology equipment.

14. Support to the Security Council Committee established pursuant to resolution 1540 (2004) on the non-proliferation of all weapons of mass destruction

($3,541,100)

A. Proposed programme plan for 2027 and programme performance in 2025

Overall orientation

Mandates and background

243. The mission in support of the Security Council Committee established pursuant to resolution 1540 (2004) is responsible for the provision of substantive, administrative, technical and logistical support to assist the Committee in achieving the aims of the resolution as well as subsequent resolutions. The mandate derives from Council resolution 1540 (2004) and subsequent resolutions, including, most recently, 2663 (2022), by which the Council extended the Committee's mandate until 30 November 2032. The mission assists requesting Member States in their national implementation efforts through activities such as country-specific visits and dialogues, workshops and peer reviews, with the objective of building capacity, developing voluntary national action plans, facilitating assistance and identifying and disseminating effective practices for the implementation of resolution 1540 (2004). The mission specifically supports the work of the Committee through the organization of regional and subregional workshops, including national points of contact training courses, on the implementation of the resolution, and through country-specific missions and activities, cooperation between international and regional bodies, and the facilitation of outreach and effective partnerships with civil society and the private sector.

244. In its resolution 2663 (2022), the Security Council further decided that the Committee would conduct comprehensive reviews on the status of implementation of resolution 1540 (2004), including through the holding of open consultations of the Committee in New York, with the first review (after the adoption of resolution 2663 (2022)) to be held before December 2027, and would submit to the Council a report upon the conclusion of each of the reviews. Preparatory work for the review is under way.

Programme of work

Objective

245. The objective, to which this mission contributes, is to prevent non-State actors from developing, acquiring, manufacturing, possessing, transporting, transferring or using nuclear, chemical or biological weapons and their means of delivery.

Strategy and external factors for 2027

246. To contribute to the objective, the mission will:

(a) Facilitate assistance to Member States, upon their request, which includes support for national reviews of the status of implementation of resolution 1540 (2004), the development and updating of national implementation action plans, and relevant capacity-building and awareness-raising activities to enhance the implementation of resolution 1540 (2004);

(b) Promote regional cooperation in the implementation of resolution 1540 (2004) by conducting regional, subregional and cross-regional activities, with priority given to training for points of contact;

(c) Prepare for and conduct the 2027 comprehensive review, including activities to take stock of progress since the 2022 review, identify gaps and evaluate needs, and support the implementation of the outcome of the 2027 review, including through the effective mobilization of necessary resources.

247. The above-mentioned work is expected to result in:

(a) Enhanced national capacity to implement resolution 1540 (2004);

(b) An increased number of reports, updates of reports and national implementation action plans submitted to the Committee;

(c) Concrete progress made on the implementation of adopted national action plans;

(d) Increased awareness of resolution 1540 (2004) and the importance of its implementation to address the risks posed by non-State actors acquiring access to weapons of mass destruction and their means of delivery;

(e) Increased cooperation among regional partners, including through peer review, in implementing resolution 1540 (2004);

(f) Successful conduct of the 2027 comprehensive review of the status of implementation of resolution 1540 (2004).

248. With regard to cooperation with other entities, the mission cooperates with Governments, international, regional and subregional organizations, civil society organizations and other relevant partners to raise awareness of the obligations under resolution 1540 (2004). It also facilitates assistance to Member States, upon their request, to build capacity, including through support in drafting legislation, in order to enhance the implementation of the resolution.

249. With regard to inter-agency coordination and liaison, the mission works closely with other relevant United Nations entities whose mandates address the risks of the proliferation of weapons of mass destruction to non-State actors. The inter-entity process organized by the mission aims to enhance programme implementation and coordination by facilitating collaboration and the efficient use of resources.

250. The mission also cooperates with the Security Council Committee established pursuant to resolution 1373 (2001) concerning counter-terrorism and its Executive Directorate, as well as the Security Council Committee pursuant to resolutions 1267 (1999), 1989 (2011) and 2253 (2015) concerning Islamic State in Iraq and the Levant (Da'esh), Al-Qaida and associated individuals, groups, undertakings and entities, and the Analytical Support and Sanctions Monitoring Team supporting that Committee, including through support for regular joint briefings to the Security Council by the three Committees.

251. With regard to the external factors, the overall plan for 2027 is based on the following planning assumptions:

(a) The proliferation of weapons of mass destruction and their means of delivery to non-State actors remains a threat to international peace and security;

(b) Members of the Committee continue to be able to reach agreement on the implementation of planned activities;

(c) Member States continue to demonstrate political commitment to implementing resolution 1540 (2004), while expressing an ongoing need for assistance;

(d) Assistance providers and the donor community continue to offer support to implement resolution 1540 (2004).

252. The mission integrates a gender perspective into its operational activities, deliverables and results, as appropriate, and is guided by the gender policy of the Office for Disarmament Affairs.

253. The mission, in support of the Committee, promotes diversity and inclusion and ensures inclusive programming throughout its work, including the inclusion of disability perspectives and other reinforcing factors, such as gender and age. The mission promotes an inclusive work environment that enables all stakeholders to participate fully and effectively in disarmament forums and processes.

Adjustments arising from the UN80 Initiative

254. The proposed programme plan for 2027 reflects efforts of the mission to implement all mandates in a more efficient and effective manner and contains no substantive adjustments arising from the UN80 Initiative.

Programme performance in 2025

Strengthened capacity of Member States requesting assistance to implement resolution 1540 (2004) through needs-based assistance activities and enhanced international cooperation

255. In 2025, the mission continued to provide critical support to the work of the Committee, further strengthening the scope and depth of the implementation of resolution 1540 (2004) for the benefit of Member States in need. The second open briefing of the Committee as mandated in resolution 2663 (2022) was successfully convened, which enhanced Member States' awareness of and meaningful engagement in the implementation of the resolution.

256. Progress towards the objective is presented in the performance measure below (see table 79).

Table 79
Performance measure: strengthened capacity of Member States requesting assistance to implement resolution 1540 (2004) through needs-based assistance activities and enhanced international cooperation

2023 (actual)	*2024 (actual)*	*2025 (actual)*
–	Requesting Member States across regions enhanced their capacity to advance implementation of resolution 1540 (2004) through multiple needs-based assistance activities	Requesting Member States across regions enhanced their capacity to advance implementation of resolution 1540 (2004) through multiple needs-based assistance activities

Planned result for 2027

Advancing implementation of resolution 1540 (2004) through needs-based assistance and enhanced regional cooperation

Programme performance in 2025 and target for 2027

257. In 2025, the mission contributed to the enhanced implementation of resolution 1540 (2004) by implementing multiple awareness-raising and capacity-building activities, including regional and national workshops, and through the facilitation of strengthened regional cooperation. Among those activities, four regional workshops were conducted, including the first training course for points of contact in the Latin America and Caribbean region in 10 years, which exceeded the planned target of three workshops. These activities enhanced Member States' knowledge and capacity, led to higher rates of points of contact nominations and engagement, and enhanced regional collaboration and coordination for the implementation of resolution 1540 (2004). Building on progress achieved to

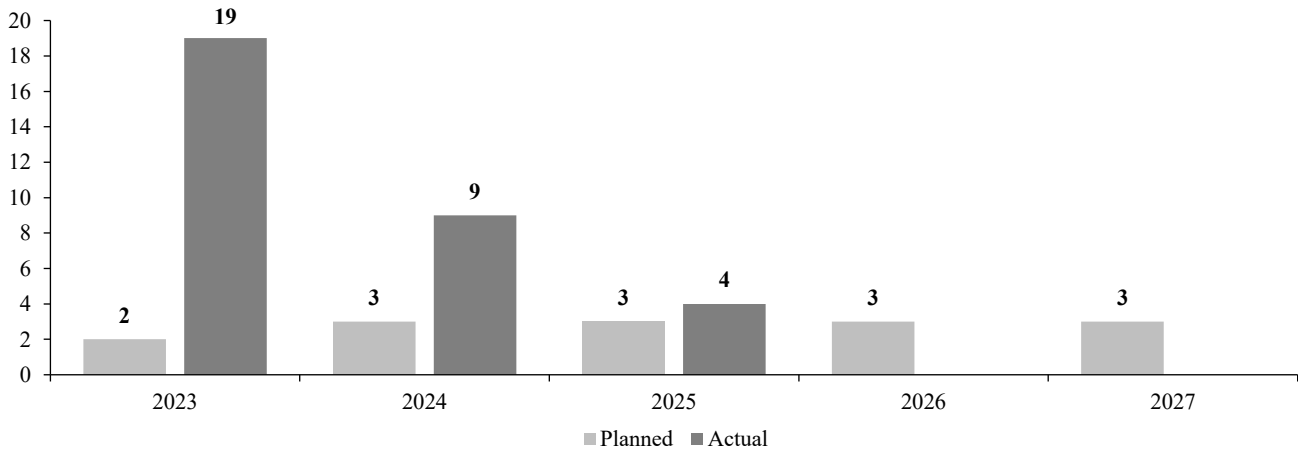

date, the mission plans to conduct three regional workshops and four national workshops in 2027 to sustain momentum and further enhance implementation while adapting to changes arising from the UN80 Initiative.

Lessons learned and planned change

258. An important lesson learned for the mission was that the sustainable implementation of resolution 1540 (2004) requires a nationally-driven process aligned with national priorities. In applying this lesson, the mission will promote a nationally-owned approach that aligns national priorities with efforts to implement resolution 1540 (2004). The mission will also strengthen its partnerships with regional and subregional organizations to build synergies and enhance collaboration. Furthermore, the mission will improve its needs-assessment processes to support the delivery of more targeted and effective assistance.

259. Expected progress towards the objective and the target for 2027 are presented in the performance measure below (see figure IV).

Figure IV
Performance measure: number of regional workshops that enhance Member States' capacity to implement resolution 1540 (2004)

Deliverables

260. Table 80 lists all deliverables of the mission.

Table 80
Deliverables for the period 2025–2027, by category and subcategory

Category and subcategory	*2025 planned*	*2025 actual*	*2026 planned*	*2027 planned*

Table 83
Proposed posts and post changes

	Number	*Level*
2026 approved	5	1 P-5, 2 P-3 and 2 GS (OL)
2027 proposed	5	1 P-5, 2 P-3 and 2 GS (OL)

261. The proposed resource requirements for the mission for 2027 amount to $3,541,100 (net of staff assessment) and would provide for salaries and common staff costs ($989,400) for the continuation of five posts (1 P-5, 2 P-3 and 2 General Service (Other level)), and operational costs ($2,551,700) comprising expert fees ($2,009,300) and travel ($141,100) of the nine experts of the Committee, official travel of the members of the Committee and staff ($118,400), facilities and infrastructure ($213,200), communications and information technology ($55,200), and other supplies, services and equipment ($14,500).

262. For 2027, no change is proposed to the number and level of posts for the mission.

263. The increase in the requirements for 2027 compared with the appropriation for 2026 is attributable to increased requirements under civilian personnel costs, owing to the application of a zero per cent vacancy rate for national staff, compared with 33.3 per cent applied in 2026, as well as the application of the latest salary rates for international staff.

Extrabudgetary resources

264. In 2026, extrabudgetary resources in the amount of $1,000,000 will be used for activities in support of the implementation of resolution 1540 (2004), including the facilitation of Member States' participation in capacity-building activities related to the resolution and in country-specific activities. The resources will also cover the continuous work of two Regional Coordinators (P-4) stationed in Africa and Asia, along with a Political Affairs Officer (P-3) responsible for project implementation globally.

265. In 2027, extrabudgetary resources in the amount of $1,000,000 are projected to be used to organize or support a number of activities related to the implementation of resolution 1540 (2004), including facilitation of Member States' participation in capacity-building activities related to the resolution and in country-specific activities. The resources will also cover the continuous work of the two Regional Coordinators (P-4) and the Political Affairs Officer (P-3).

15. Counter-Terrorism Committee Executive Directorate

($11,962,500)

A. Proposed programme plan for 2027 and programme performance in 2025

Overall orientation

Mandates and background

266. The Counter-Terrorism Committee Executive Directorate is mandated to support the Counter-Terrorism Committee in its work to monitor, promote and facilitate the implementation by Member States of the relevant Security Council resolutions on terrorism. The mandate derives from Security Council resolution 1373 (2001), which was renewed in its subsequent resolutions, including, most recently, resolution 2810 (2025), by which the Council extended the mandate until 5 January 2029. In addition, the United Nations Global Counter-Terrorism Strategy and the 2022 Delhi Declaration on countering the use of new and emerging technologies for terrorist purposes set forth several tasks for the Executive Directorate with respect to facilitating the delivery of technical assistance, assessing the capacities of Member States to counter the use of new and emerging technologies for terrorist purposes, including by developing two sets of non-binding guiding principles, compiling good practices, producing a gaps analysis and promoting good counter-terrorism practices.

267. In its resolution 2462 (2019), the Security Council requested the Executive Directorate to strengthen its assessment process relating to countering the financing of terrorism and to provide annually, on the basis of its reporting and in consultation with the Analytical Support and Sanctions Monitoring team, to UNOCT, through the Counter-Terrorism Committee, a thematic summary assessment of gaps identified and areas requiring more action to implement key counter-terrorism financing provisions of relevant Council resolutions for the purpose of designing targeted technical assistance and capacity-building efforts.

Programme of work

Objective

268. The objective, to which this mission contributes, is to enhance Member States' counter-terrorism legislation and policies, institutions and operations by ensuring the full and effective implementation by Member States of Security Council resolution 1373 (2001) and other relevant Council resolutions, to inform the efforts of United Nations entities and other implementing agencies to provide related capacity-building and technical assistance and to analyse new and emerging terrorism threats, trends and challenges.

Strategy and external factors for 2027

269. To contribute to the objective, the Executive Directorate will:

(a) Assist Member States in identifying and addressing implementation and capacity gaps in accordance with the requirements of Security Council resolution 1373 (2001) and subsequent Council resolutions on terrorism, through assessments and analytical tools, including country visits, the electronic detailed implementation survey and the overview of implementation assessments, and make technical recommendations to Member States on ways to strengthen their implementation of the relevant resolutions;

(b) Strengthen the effectiveness, timeliness and impact, as well as the transparency and inclusivity, of assessments conducted by the Executive Directorate on behalf of the Committee. This will

include enhancing the assessment process relating to countering the financing of terrorism through targeted and focused follow-up visits as complements to comprehensive assessments, as well as to annual assessments of gaps and areas requiring more action to implement key provisions of Security Council resolutions relating to countering the financing of terrorism for the purpose of designing targeted technical assistance by relevant partners;

(c) Organize follow-up meetings at the Committee level and in other bilateral and multilateral settings to highlight the priority technical assistance needs of visited Member States, and to facilitate the delivery of technical assistance;

(d) Contribute to identifying and assessing emerging issues, trends and developments relating to relevant resolutions and in support of action 23 of the Pact for the Future, the Global Digital Compact and the Declaration on Future Generations. In this respect, it will prepare and publish analytical materials, reference tools and guidelines and promote Security Council and Committee policy papers, international standards, codes and effective practices;

(e) Integrate and promote in the Executive Directorate's work the non-binding guiding principles on threats posed by the use of unmanned aircraft systems for terrorist purposes, preventing, detecting and disrupting the use of new and emerging financial technologies for terrorist purposes and countering the use of information and communications technology for terrorist purposes, which were prepared in accordance with the Delhi Declaration.

270. The above-mentioned work is expected to result in the strengthening of Member States' capacities to:

(a) Combat terrorism, including violent extremism conducive to terrorism, and achieve the full and effective implementation of resolution 1373 (2001) and other relevant resolutions;

(b) Take action on recommendations in Committee visit reports and other assessments and facilitate the provision of technical assistance to and share effective practices with other Member States, as appropriate;

(c) Operationalize their obligations pursuant to resolution 1373 (2001) and other relevant resolutions by facilitating awareness and understanding of the internationally recognized effective practices, techniques and tools available to combat terrorism.

271. With respect to cooperation with other entities, the Executive Directorate cooperates with a wide range of international, regional and subregional organizations, including the Financial Action Task Force and its regional bodies, the Organization of Islamic Cooperation, the Council of Europe, the European Union and the Regional Anti-Terrorist Structure of the Shanghai Cooperation Organization, to raise awareness of international requirements on counter-terrorism at the national and regional levels. It leverages and further develops its Global Counter-Terrorism Research Network to convene policymakers and researchers and engages and enhances its partnerships with civil society organizations, think tanks, academic institutions and the private sector to assist the Committee in identifying national, regional and thematic challenges and developments.

272. With respect to inter-agency coordination and liaison, the Executive Directorate works closely with other United Nations entities, within the framework of the United Nations Global Counter-Terrorism Coordination Compact. The Executive Directorate continues to pursue efficiency gains through chairing or co-chairing Global Compact working groups and by systematically sharing the Committee's recommendations and consented reports with the Compact, to ensure that relevant member entities participate in its assessment work and the development of prioritized recommendations as well as the design and delivery of technical assistance to build Member States' capacity in the most pressing areas, while reducing duplication and strengthening coherence across the United Nations system and technical assistance providers. The Executive Directorate will continue to collaborate with UNOCT and UNODC on relevant issues. It works closely with other subsidiary bodies of the Security Council and their expert groups to enhance information-sharing. It maintains strong cooperation with OHCHR and the Special Rapporteur on the promotion and protection of human rights and fundamental freedoms while countering terrorism.

273. With regard to the external factors, the overall plan for 2027 is based on the following planning assumptions:

(a) Consent of Member States to receive assessment visits and subsequently brief the Committee on progress made in implementing Committee recommendations;

(b) Ability to organize and conduct visits in accordance with United Nations safety and security measures;

(c) Ability to assess relevant thematic areas in sufficient detail, in particular to implement the mandate under paragraph 35 of resolution 2462 (2019);

(d) Participation of technical experts from international and regional organizations in country visit assessments conducted by the Executive Directorate on behalf of the Committee;

(e) Commitment of implementing partners to deliver technical assistance pursuant to Committee findings;

(f) Consideration by the Counter-Terrorism Committee of the non-binding guiding principles on countering the use of information and communications technology for terrorist purposes;

(g) Conduct of plenary meetings of the Counter-Terrorism Committee according to schedule;

(h) Implementation of proposals of the Executive Directorate pursuant to paragraphs 11 and 14 of Security Council resolution 2617 (2021).

274. The Executive Directorate integrates a gender perspective into its operational activities, deliverables and results, as appropriate, and works with the Working Group on Adopting a Gender-Sensitive Approach to Preventing and Countering Terrorism.

Adjustments arising from the UN80 Initiative

275. The proposed programme plan for 2027 reflects changes arising from the UN80 Initiative. In particular, the tables of deliverables reflect updated planned deliverables for 2026, in line with the approved programme budget for 2026.

Programme performance in 2025

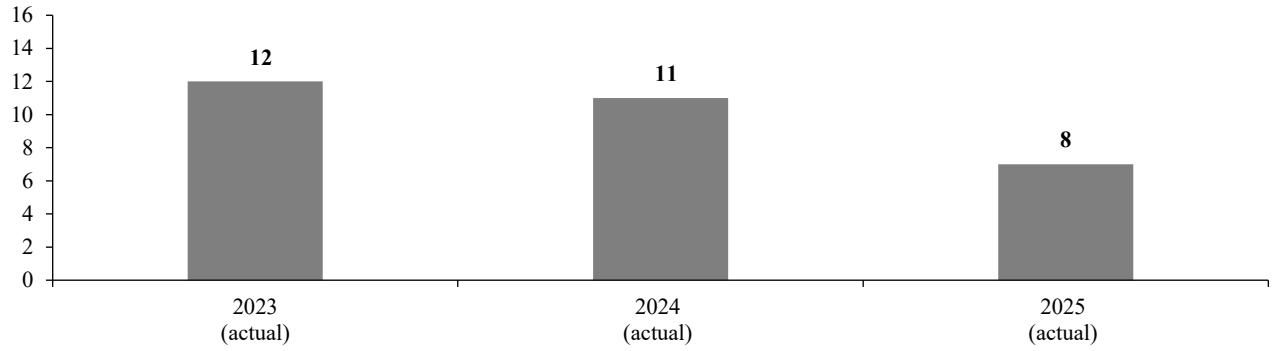

Road maps to improve the capacity of Member States to counter terrorism and violent extremism conducive to terrorism

276. In 2025, the Committee adopted reports on visits to 10 States (Canada, Ecuador, Kazakhstan, Malta, Mauritania, Montenegro, Malawi, Thailand, Turkmenistan and the United Republic of Tanzania). The Executive Directorate completed five overview of implementation assessments and electronic detailed implementation surveys. It also facilitated technical assistance and developed eight road maps for select beneficiaries as part of several capacity-building programmes spearheaded by the Office of Counter-Terrorism to enhance Member States' compliance with relevant Security Council resolutions and international standards. For instance, the Executive Directorate led capacity consultations under the United Nations Countering Terrorist Travel Programme to help increase implementation of advance passenger information and passenger name records pursuant to Security Council resolution 2396 (2017) and International Civil Aviation Organization standards. In 2025, the Executive Directorate led seven national consultations on advance passenger information/passenger name records, bringing the total number of Member States assessed to 49. The positive impact can be illustrated with the latest reporting of Member States using goTravel (the software provided under the Programme) who reported a significant number of hits in their passenger information units. These hits are generated through the systematic screening of advance passenger information and passenger name record data against targeting rules as well as watchlists and law-enforcement databases. All these hits would have gone unnoticed without the capabilities that the Programme has built in

beneficiary Member States. Another Member State developed a road map under the Global Programme on Countering Terrorist Threats against Vulnerable Targets.

277. Progress towards the objective is presented in the performance measure below (see figure V).

Figure V
Performance measure: number of Member States adopting national road maps to counter terrorism and violent extremism conducive to terrorism

Planned results for 2027

Result 1: Member States utilize Executive Directorate assessments and analysis to identify and respond to terrorism threats, trends and challenges to better implement Security Council resolution 1373 (2001) and subsequent Council resolutions

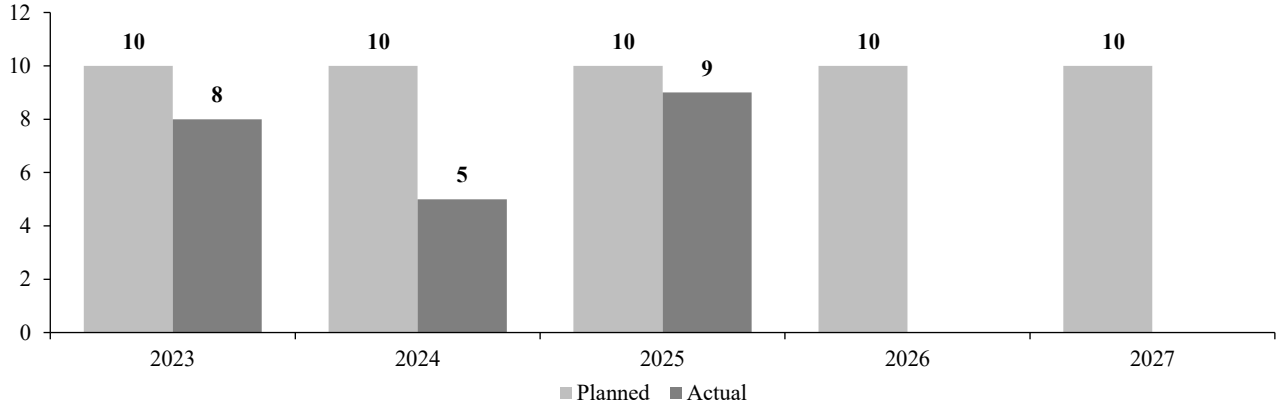

Programme performance in 2025 and target for 2027

278. The mission's work contributed to the identification of emerging counter-terrorism issues, trends and developments, including through the production of 9 publications, which did not meet the planned target of 10 publications. The target was not met owing to a combination of factors, including inadequate staffing. The Executive Directorate nevertheless provided advice on several thematic areas, such as border control and law enforcement, human rights and countering the financing of terrorism, including the adoption of two non-binding guiding principles: the "Algeria Guiding Principles" on preventing, detecting and disrupting the use of new and emerging financial technologies for terrorist purposes, and the "Valletta Principles" on national and regional counter-terrorism strategies. The Executive Directorate continued to advance its mandates on countering the financing of terrorism, as outlined in Security Council resolution 2462 (2019) and other relevant resolutions. Countering the financing of terrorism priorities were integrated across the Executive Directorate's assessment activities and informed the design of targeted technical assistance by implementing partners.

279. In 2027, the Executive Directorate plans to develop 10 publications to promote international standards and good practices. It will further enhance the use of its overview of implementation assessment and electronic detailed implementation surveys data to identify emerging trends and issue technical guidance.

280. Expected progress towards the objective and the target for 2027 are presented in the performance measure below (see figure VI).

Figure VI
Performance measure: Member States examine their own national counter-terrorism measures in the light of updated technical materials and guidance on the implementation of relevant Security Council resolutions

Result 2: Member States have access to strengthened assessment reports with action-orientated recommendations

Proposed programme plan for 2027

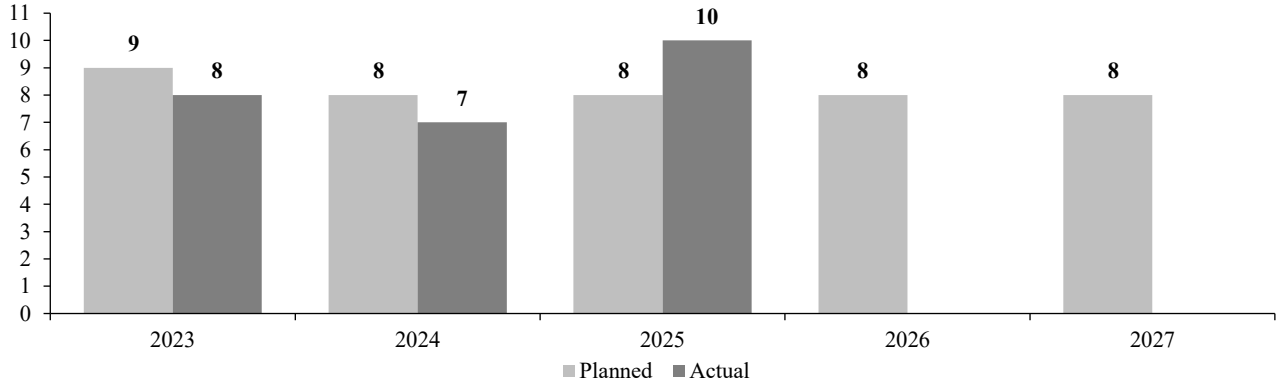

281. In August 2025, the Committee agreed on action to strengthen the assessment process regarding effectiveness, timeliness, inclusivity and transparency. Since then, a greater number of Member States have provided written feedback on steps taken to implement the Committee's recommendations, attended the portion of the Committee session at which its preliminary assessment and observations are presented and provided oral briefings to the Committee at its plenaries.

Lessons learned and planned change

282. The lesson for the Executive Directorate was the need to further improve its methodology to enhance the effectiveness, timeliness and impact of its assessments. In applying the lesson, the Executive Directorate will, among other measures, frame recommendations in assessments to make them more actionable, share a matrix of technical assistance needs with potential donors and implementing agencies, subject to the approval of the visited Member State, and request Member State feedback on steps taken to implement recommendations within 12 months of receiving the final report.

283. Expected progress towards the objective is presented in the performance measure below (see figure VII).

Figure VII
Performance measure: number of Member States assessment reports adopted by the Counter-Terrorism Committee

Deliverables

284. Table 84 lists all deliverables of the mission.

Table 84
Deliverables for the period 2025–2027, by category and subcategory

Category and subcategory	*2025 planned*	*2025 actual*	*2026 planned*[a]	*2027 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Substantive services for meetings (number of three-hour meetings)	**18**	**6**	**12 [18]**	**18**
1. Meetings of the Counter-Terrorism Committee	11	5	7 [11]	11
2. Briefings to Member States	7	1	5 [7]	7
B. Generation and transfer of knowledge				
Technical materials (number of materials)	**10**	**9**	**6 [10]**	**9**
3. Reports on trends and developments relating to the implementation of Security Council resolutions on counter-terrorism	5	6	3 [5]	4
4. Guidance, compendiums and good practice documents	5	3	3 [5]	5
Fact-finding, monitoring and investigation missions (number of missions)	**15**	**7**	**7 [15]**	**14**
5. Assessment visits relating to the implementation of Security Council resolutions on counter-terrorism	15	7	7 [15]	14
C. Substantive deliverables				
Consultation, advice and advocacy: facilitation of technical assistance delivery and capacity-building activities (approximately 25 per year) relating to the implementation of all relevant United Nations counter-terrorism resolutions and development of guidelines for Member States to assist them in responding to new and emerging challenges.				
Databases and substantive digital materials: database on stocktaking of Member States' implementation of Security Council resolutions on counter-terrorism.				
D. Communication deliverables				
External and media relations: fact sheets, folders, publications and flash drives to be distributed to Member States, the media, civil society and non-governmental organizations to promote the work of the Committee and the Executive Directorate.				
Digital platforms and multimedia content: maintenance and updating of the Committee's website, newsletter and all social media platforms.				

[a] Reflects updated planned deliverables for 2026. Values in square brackets represent the number of planned deliverables reflected in A/80/6 (Sect. 3)/Add.3.

B. Proposed post and non-post resource requirements for 2027

Resource requirements (regular budget)

Table 87
Proposed posts and post changes

	Number	*Level*
2026 approved	48	1 ASG, 1 D-2, 2 D-1, 8 P-5, 18 P-4, 9 P-3, 3 P-2 and 6 GS (OL)
2027 proposed	48	1 ASG, 1 D-2, 2 D-1, 8 P-5, 18 P-4, 9 P-3, 3 P-2 and 6 GS (OL)

285. The proposed resource requirements for the Executive Directorate for 2027 amount to $11,962,500 (net of staff assessment) and would provide for salaries and common staff costs ($10,364,400) for the continuation of 48 posts (1 Assistant Secretary-General, 1 D-2, 2 D-1, 8 P-5, 18 P-4, 9 P-3, 3 P-2 and 6 General Service (Other level)) and operational costs ($1,598,100) comprising official travel of mission staff ($705,300), facilities and infrastructure ($735,900), communications and information technology ($145,900) and other supplies, services and equipment ($11,000).

286. For 2027, no change is proposed to the number and level of posts for the mission.

287. The increase in the requirements for 2027 compared with the appropriation for 2026 is attributable primarily to higher civilian personnel costs, resulting from the application of the latest salary rates for international staff. The increase is offset in part by the application of a 14.3 per cent vacancy rate for international staff, compared with 14.0 per cent applied in 2026, and the application of a 14.6 per cent vacancy rate for national staff, compared with 8.3 per cent applied in 2026, as well as lower estimated common staff costs for national staff based on actual past expenditures.

Extrabudgetary resources

288. In 2026, extrabudgetary resources in the amount of $87,200 are projected to be used to support the activities and relevant initiatives aimed at promoting the implementation of mandates, including a project on strengthening national capacities for detecting and disrupting the use of information and communications technologies for terrorist purposes and facilitating capacity-building in detecting and disrupting Al-Shabaab's terrorist activities online and offline, and the second phase of a project on strengthening oversight and accountability of national security agencies in South and South-East Asia.

289. In 2027, extrabudgetary resources in the amount of $103,000 are projected to be used for building and strengthening sustainable capacities in Somalia and selected States in the Horn of Africa/Eastern Africa region to prevent and counter the use of information and communications technologies for terrorist purposes.

290. The variance in the estimates projected for 2027 compared with the estimates for 2026 is attributable primarily to the higher level of projected extrabudgetary resources in support of capacity-building activities related to preventing and countering the use of information and communications technologies for terrorist purposes, reflecting the commencement of the initiative in the Horn of Africa/Eastern Africa region.

Annex I

Summary of follow-up action taken to implement the decisions and requests made by the General Assembly, including the requests and recommendations of the Advisory Committee on Administrative and Budgetary Questions endorsed by the Assembly

Brief description of the recommendation	*Action taken to implement the recommendation*
Advisory Committee on Administrative and Budgetary Questions (A/80/7/Add.12)	
The Advisory Committee notes the intention to reorganize the support provided to the special political missions on the basis of the workload of teams supporting sanctions panels, sanctions committees and other subsidiary organs and trusts that more information in that regard will be provided in the next report. The Committee trusts that the Secretary-General will ensure the continued implementation of mandated activities and address challenges related to the proposed level of resources. The Committee looks forward to receiving updated information on mandate implementation and comprehensive mitigation plans in the next budget submission (para. 8).	Owing to the resource reductions under the UN80 Initiative, the Secretariat undertook an assessment and adjusted the workload across cluster II special political missions administered by the Department of Political and Peacebuilding Affairs, taking into account the scope and complexity of mandates, reporting requirements and the operational demands of experts and supporting staff. The Secretariat is continuing to assess and adjust the workload of both its programme budget and cluster II special political mission staff in light of the prevailing liquidity constraints and related hiring restrictions to ensure continued mandate implementation. More generally, over the past several years, the Secretariat has implemented several initiatives aimed at increasing efficiencies and mitigating against the effect of budget reductions on mandate implementation by consolidating several technical functions. The Secretariat currently centrally manages all sanctions lists through an enhanced data model, as requested by the Security Council in paragraph 48 of resolution 2253 (2015). The Secretariat has also consolidated the administrative functions for contracting, onboarding and exit of experts and the management of its pool of experts, as well as functions related to the provision of training to Committee Chairs, Council members and other Member States, and will continue to seek further efficiencies wherever feasible. For the support to the Security Council Committee established pursuant to resolution 1540 (2004) on the non-proliferation of all weapons of mass destruction, the mission has: • Maintained full implementation of mandated activities by ensuring continuity of staffing and expert support, with five posts (1 P-5, 2 P-3 and 2 General Service (Other level)) retained for 2027 and no changes to post levels.

Brief description of the recommendation	*Action taken to implement the recommendation*
	• Integrated updated workload, staffing and resource data into its 2027 budget submission, including detailed justification for operational costs, expert fees, travel and online training requirements. • Provided updated mitigation measures to ensure mandate delivery despite resource constraints, including prioritization of workload, enhanced planning of expert travel, and continued use of virtual engagement with Member States. • Contributed to cluster II–wide coordination efforts, in line with the Secretary-General's approach to standardize and streamline support for sanctions committees and subsidiary bodies.
The Advisory Committee trusts that updated information on vacancy rates and vacant posts will be provided to the General Assembly during the consideration of its present report and in the next budget submission (para. 11).	Information on vacancy rates is provided in annex II to this report. Additional information on vacant posts is provided in the supplementary information submitted to the committees.
The Advisory Committee takes note of the changes in the ratio of experts to staff and trusts that the Secretariat will explore opportunities to further streamline the support resources, on the basis of a workload analysis, and that updated information thereon will be provided in future budget submissions. The Committee encourages the Secretariat to review the basing arrangement for the experts to maximize cost efficiency and mandate implementation (para. 25).	Acting under Chapter VII of the Charter of the United Nations, the Security Council defines the mandates of panels of experts, including the required expertise, composition and basing arrangements necessary to implement each mandate. The Secretariat's role is to operationalize these mandates in a cost-effective manner, consistent with established budgetary and staffing policies. In accordance with the overall strategic vision of the Secretary-General under the UN80 Initiative, the Secretariat reduced its staff and operational resource requirements under both the programme and cluster II special political mission budgets (A/80/400). In so doing, the Secretariat identified efficiencies and operational cost reductions, including, in consultations with Security Council members, a reduction in the number of experts on panels of three special political missions (the Panel of Experts pursuant to resolution 2713 (2023), the Panel of Experts pursuant to resolution 2745 (2024) and the Analytical Support and Sanctions Monitoring Team). In addition, the basing arrangement for the Panel of Experts pursuant to resolution 2713 (2023) was changed from Nairobi to being home-based. These reductions were based on the assessment of the scope and complexity of special political mission mandates, their workload and reporting requirements (number of Chair briefings, committee meetings, informal consultations, informal-informal consultations, number of exemptions requests, volume of entries on the sanctions list, mandated annual review of sanctions lists, incoming and

Brief description of the recommendation	*Action taken to implement the recommendation*
	outgoing committee communications and notes, and panel missions and outreach activities, among other things), required security arrangements for experts, and the assessment of the workload of staff supporting the special political missions. The Secretariat has reviewed the expert–staff ratio and support structure for the mandate of the Security Council Committee established pursuant to resolution 1540 (2004) as part of a broader cluster II workload analysis. The existing configuration – five regular budget posts (1 P-5, 2 P-3 and 2 General Service (Other level)) supporting the nine experts of the Committee – was confirmed as appropriate, and no changes are proposed for 2027, while it is to be noted that the current support-to-expert ratio is near its functional limit and requires careful work prioritization. Updated information on this ratio and the underlying workload has been reflected in the budget submission. In addition, the mission continues to seek efficiencies through optimized travel planning, wider use of virtual engagement, and participation in cluster II efforts to ensure cost-effective expert basing arrangements without compromising mandate implementation.

Note: A dash (–) in this annex denotes a personnel category that is not applicable for that mission, while a 0.0 means the vacancy rate is 0.0 per cent. The rates contained in this table apply to continuing posts only. For posts proposed to be established, reassigned or converted in 2027 in all missions, a vacancy rate of 50 per cent is applied.

[a] For international staff, the General Assembly, in its resolution 80/254, approved one general temporary assistance position for a period of six months. Accordingly, a vacancy rate of zero per cent as at 31 March 2026 is reflected for the only international staff post approved during the first half of 2026. For 2027, however, rather than applying the lower actual vacancy rate of zero per cent as at 31 March 2026, a more prudent approach has been adopted by using a six-month average vacancy rate to account for the general temporary assistance position and its expected deployment.
