A. Proposed programme plan for 2027 and programme performance in 2025***	3
Overall orientation	3
Programme of work	19
Subprogramme 1. Countering transnational organized crime	19
Subprogramme 2. A comprehensive and balanced approach to counter the world drug problem	23
Subprogramme 3. Countering corruption	29
Subprogramme 4. Terrorism prevention	33

* The present document (A/81/6 (Sect. 16)/Part A), consisting of the programme plan and programme performance information (part II; see General Assembly resolution [77/267](#), para. 10), will be replaced by a document containing parts A and B (A/81/6 (Sect. 16)) once part B is issued.

** [A/81/50](#).

*** In keeping with paragraph 10 of General Assembly resolution [77/267](#), the part consisting of the programme plan and programme performance information (part II) is submitted through the Committee for Programme and Coordination for the consideration of the Assembly.

Subprogramme 5. Justice	38
Subprogramme 6. Research, trend analysis and forensics.	43
Subprogramme 7. Policy support	48
Subprogramme 8. Technical cooperation and field support	52
Subprogramme 9	
Component 1: Provision of secretariat services and substantive support to the Commission on Narcotic Drugs, the Commission on Crime Prevention and Criminal Justice and the United Nations Congress on Crime Prevention and Criminal Justice	57
Component 2: Provision of secretariat services and substantive support to the International Narcotics Control Board	62

A. Proposed programme plan for 2027 and programme performance in 2025

Overall orientation

Mandates and background

- 16.1 The United Nations Office on Drugs and Crime (UNODC) is responsible for supporting Member States in making the world safer from drugs, crime, corruption and terrorism, with a view to promoting security and justice for all. The mandate derives from the priorities established in relevant United Nations conventions and General Assembly resolutions, including Assembly resolutions [45/179](#), [46/152](#) and [46/185](#) C. The work of the Office is grounded in a series of conventions and other international instruments for which the Office acts as guardian and advocate. They include the three international drug control conventions, the United Nations Convention against Transnational Organized Crime and the Protocols thereto, the United Nations Convention against Corruption, the 19 international conventions and protocols against terrorism, the United Nations standards and norms in crime prevention and criminal justice, and the United Nations Convention against Cybercrime; Strengthening International Cooperation for Combating Certain Crimes Committed by Means of Information and Communications Technology Systems and for the Sharing of Evidence in Electronic Form of Serious Crimes. The thematic focus areas of the Office include addressing and countering the world drug problem, preventing and countering transnational organized crime, corruption and economic crime, terrorism and cybercrime, and undertaking crime prevention and criminal justice reform.

Strategy and external factors for 2027

- 16.2 As a United Nations entity whose mandate contributes to the three pillars of the United Nations, the Office supports Member States through three broad, interconnected and mutually supportive workstreams:
- (a) Normative work, including policy, advocacy and legislative assistance to promote the ratification and implementation of the relevant international treaties and the provision of secretariat and substantive services to the treaty-based, governing and other Member State-driven bodies that help identify priorities, challenges, responses and commitments in relevant mandate areas relating to drugs, crime, corruption and terrorism;
 - (b) Research and policy support work to expand the evidence base and inform policymaking processes at the national, regional and global levels, through increased knowledge and understanding of drug and crime issues;
 - (c) Technical cooperation to enhance the capacity of Member States and other stakeholders to prevent and counter illicit drugs, crime, corruption and terrorism at the local, national, regional and global levels through the Office's specialized assistance, expertise and extensive field presence.
- 16.3 In 2027, the work of the Office will be guided by a UNODC strategy for the period 2026–2030, which is being finalized. Leveraging the strong global presence and thematic expertise of UNODC, the strategy seeks to enhance coordination and integration across the Office, identify emerging trends and threats, and develop effective responses to UNODC mandates.
- 16.4 With regard to cooperation with other entities, UNODC will continue to work closely with international and regional organizations and promote systematic South-South cooperation, enabling the exchange of information and expertise between countries. Moreover, the Office will facilitate multi-stakeholder engagement in partnerships with civil society, academia and the private sector. UNODC will promote an evidence-based analysis and understanding of the nature of the challenges faced by Member States and design coherent programmes and policies to support global peace and security.
- 16.5 With regard to inter-agency coordination and liaison, UNODC will continue to coordinate and participate in relevant groups linked to its mandated areas. It will continue to jointly implement projects

on drug prevention, treatment and rehabilitation (World Health Organization (WHO)); corruption (United Nations Development Programme); terrorism prevention (Office of Counter-Terrorism (UNOCT)); access to justice for children (United Nations Children's Fund); measuring illicit financial flows (United Nations Conference on Trade and Development); and women's empowerment (United Nations Entity for Gender Equality and the Empowerment of Women (UN-Women)).

- 16.6 With regard to external factors, the overall plan for 2027 is based on the following planning assumptions:
- (a) Member States recognize in their policies, programmes and budgets that challenges related to security, justice, governance and the rule of law must be addressed as part of an integrated effort to implement multilateral commitments;
 - (b) The United Nations system and other multilateral organizations highlight the importance of addressing issues under UNODC mandates, to contribute to the implementation of multilateral commitments in a holistic manner;
 - (c) Member States share real-time, statistical and operational data with the UNODC Research and Trend Analysis Branch and with their counterparts across borders;
 - (d) Extrabudgetary resources, including general-purpose funding for core functions, continue to be available.
- 16.7 The Office integrates a gender perspective into its operational activities, deliverables and results, as appropriate. In line with Economic and Social Council resolution [2025/4](#), the Office, through evidence-based engagement, will continue to strengthen Member States' capacity to address the implications for, and needs and concerns of, women and men in relation to organized crime, corruption, terrorism and access to justice, enabling policies and institutions that better uphold the rule of law and generating measurable outcomes.
- 16.8 The Office will continue to promote meaningful youth participation in commissions and conventions, including at the twelfth session of the Conference of the States Parties to the United Nations Convention against Corruption, and the positive role of youth in peace and security.
- 16.9 In line with the United Nations Disability Inclusion Strategy, the Office will continue to promote and protect the rights of persons with disabilities.

Adjustments arising from the UN80 Initiative

- 16.10 The proposed programme plan for 2027 reflects changes arising from the UN80 Initiative. In particular, the tables of deliverables reflect updated planned deliverables for 2026, in line with the approved programme budget for 2026.
- 16.11 UNODC will be guided by any future decisions taken by Member States in the context of the UN80 Initiative, in accordance with the applicable rules and procedures, including decisions, resolutions and established practice of the competent intergovernmental organs. This includes, among others, any decisions concerning proposals to integrate the United Nations Interregional Crime and Justice Research Institute (UNICRI) into UNODC, embedding UNICRI expertise within a global network and preserving the Institute's research independence. In addition, UNODC will enhance integrated planning, in particular with the United Nations Global Counter-Terrorism Coordination Compact led by UNOCT and its working groups, and will engage in joint resource mobilization to strengthen linkages between prevention and counter-terrorism efforts.

Legislative mandates

- 16.12 The list below, which was reviewed in the preparation of the proposed programme budget, provides all mandates entrusted to the programme.

Conventions and protocols

- Single Convention on Narcotic Drugs of 1961 as amended by the 1972 Protocol
- Convention on Psychotropic Substances of 1971
- United Nations Convention against Illicit Traffic in Narcotic Drugs and Psychotropic Substances of 1988
- United Nations Convention against Transnational Organized Crime and the Protocols thereto
- Protocol to Prevent, Suppress and Punish Trafficking in Persons, Especially Women and Children, supplementing the United Nations Convention against Transnational Organized Crime
- Protocol against the Smuggling of Migrants by Land, Sea and Air, supplementing the United Nations Convention against Transnational Organized Crime
- Protocol against the Illicit Manufacturing of and Trafficking in Firearms, Their Parts and Components and Ammunition, supplementing the United Nations Convention against Transnational Organized Crime
- United Nations Convention against Corruption
- United Nations Convention against Cybercrime; Strengthening International Cooperation for Combating Certain Crimes Committed by Means of Information and Communications Technology Systems and for the Sharing of Evidence in Electronic Form of Serious Crimes

General Assembly resolutions

S-20/2	Political Declaration	69/196	International Guidelines for Crime Prevention and Criminal Justice Responses with Respect to Trafficking in Cultural Property and Other Related Offences
S-20/4	Measures to enhance international cooperation to counter the world drug problem		
S-30/1	Our joint commitment to effectively addressing and countering the world drug problem	70/1	Transforming our world: the 2030 Agenda for Sustainable Development
44/25	Convention on the Rights of the Child	71/256	New Urban Agenda
45/179	Enhancement of the United Nations structure for drug abuse control	72/194	Technical assistance for implementing the international conventions and protocols related to counter-terrorism
46/104	United Nations International Drug Control Programme	72/197	Promoting the implementation of the United Nations Guiding Principles on Alternative Development and related commitments on alternative development and regional, interregional and international cooperation on development-oriented, balanced drug control policy addressing socioeconomic issues
48/12	Measures to strengthen international cooperation against the illicit production, sale, demand, traffic and distribution of narcotic drugs and psychotropic substances and related activities		
48/104	Declaration on the Elimination of Violence against Women	73/185	The rule of law, crime prevention and criminal justice in the context of the Sustainable Development Goals
48/112; 52/92	International action to combat drug abuse and illicit production and trafficking		
66/177	Strengthening international cooperation in combating the harmful effects of illicit financial flows resulting from criminal activities	74/175; 78/226	Technical assistance provided by the United Nations Office on Drugs and Crime related to counter-terrorism
67/186	Strengthening the rule of law and the reform of criminal justice institutions, particularly in the areas related to the United Nations system-wide approach to fighting transnational organized crime and drug trafficking	78/225	Enhancing the contributions of the Commission on Crime Prevention and Criminal Justice to the accelerated implementation of the 2030 Agenda for Sustainable Development
		79/1	The Pact for the Future
68/186	Strengthening crime prevention and criminal justice responses to protect cultural property, especially with regard to its trafficking	79/136	Cooperation between the United Nations and the International Criminal Police Organization (INTERPOL)
		79/154	Trafficking in women and girls

Part IV International cooperation for development

79/172	Human rights in the administration of justice	79/317	The situation in Afghanistan
79/191	Addressing and countering the world drug problem through a comprehensive, integrated and balanced approach	79/319	Interaction between the United Nations, national parliaments and the Inter-Parliamentary Union
79/226	Quadrennial comprehensive policy review of operational activities for development of the United Nations system	80/126	Promotion of international cooperation to combat illicit financial flows and strengthen good practices on assets return to foster sustainable development
79/243	United Nations Convention against Cybercrime; Strengthening International Cooperation for Combating Certain Crimes Committed by Means of Information and Communications Technology Systems and for the Sharing of Evidence in Electronic Form of Serious Crimes	80/229	Strengthening the United Nations crime prevention and criminal justice programme, in particular its technical cooperation capacity

Economic and Social Council resolutions

1985/11	Cooperation for the control of illicit drug trafficking and drug abuse in the African region	2009/25	Improving the collection, reporting and analysis of data to enhance knowledge on trends in specific areas of crime
1987/34	Meeting of Heads of National Drug Law Enforcement Agencies, Latin America and Caribbean Region	2010/19	Crime prevention and criminal justice responses to protect cultural property, especially with regard to its trafficking
1993/40	Implementation of measures to prevent the diversion of precursor and essential chemicals to the illicit manufacture of narcotic drugs and psychotropic substances	2011/34	Support for the development and implementation of an integrated approach to programme development at the United Nations Office on Drugs and Crime
1997/41	Implementation of comprehensive measures to counter the illicit manufacture, trafficking and abuse of amphetamine-type substances and their precursors	2012/19	Strengthening international cooperation in combating transnational organized crime in all its forms and manifestations
1999/30	Review of the United Nations International Drug Control Programme: strengthening the United Nations machinery for international drug control within the scope of the existing international drug control treaties and in accordance with the basic principles of the Charter of the United Nations	2013/39	International cooperation in the prevention, investigation, prosecution and punishment of economic fraud and identity-related crime
2001/14	Prevention of diversion of precursors used in the illicit manufacture of synthetic drugs	2013/40	Crime prevention and criminal justice responses against illicit trafficking in endangered species of wild fauna and flora
2005/14	Model bilateral agreement on the sharing of confiscated proceeds of crime or property covered by the United Nations Convention against Transnational Organized Crime and the United Nations Convention against Illicit Traffic in Narcotic Drugs and Psychotropic Substances of 1988	2013/42	United Nations Guiding Principles on Alternative Development
2007/21	Information-gathering instrument in relation to United Nations standards and norms in crime prevention and criminal justice	2019/23	Combating transnational organized crime and its links to illicit trafficking in precious metals and illegal mining, including by enhancing the security of supply chains of precious metals
2007/22	Strengthening basic principles of judicial conduct	2022/14	Strengthening national and international efforts, including with the private sector, to protect children from sexual exploitation and abuse
		2025/4	Mainstreaming a gender perspective into all policies and programmes in the United Nations system

Security Council resolutions

1540 (2004)	2634 (2022)
2370 (2017)	2692 (2023)
2462 (2019)	2776 (2025)
2482 (2019)	

Commission on Crime Prevention and Criminal Justice resolutions

21/3	Strengthening international cooperation to address the links that in some cases may exist between transnational organized criminal activities and terrorist activities	27/5	International cooperation against trafficking in cultural property
24/2	Strengthening crime prevention and criminal justice responses with respect to trafficking in cultural property and other related offences		

Commission on Narcotic Drugs resolutions, decisions, statements and declarations

44/14	Measures to promote the exchange of information on new patterns of drug use and on substances consumed	58/5	Supporting the collaboration of public health and justice authorities in pursuing alternative measures to conviction or punishment for appropriate drug-related offences of a minor nature
49/3	Strengthening systems for the control of precursor chemicals used in the manufacture of synthetic drugs	58/6	Strengthening international cooperation in preventing and combating illicit financial flows linked to drug trafficking, from the anti-money-laundering perspective
50/11	International cooperation in preventing the illegal distribution of internationally controlled licit substances via the Internet	58/7	Strengthening cooperation with the scientific community, including academia, and promoting scientific research in drug demand and supply reduction policies in order to find effective solutions to various aspects of the world drug problem
51/14	Promoting coordination and alignment of decisions between the Commission on Narcotic Drugs and the Programme Coordinating Board of the Joint United Nations Programme on HIV/AIDS	58/10	Promoting the use of the international electronic import and export authorization system for licit international trade in narcotic drugs and psychotropic substances
53/11	Promoting the sharing of information on the potential abuse of and trafficking in synthetic cannabinoid receptor agonists	58/11	Promoting international cooperation in responding to new psychoactive substances and amphetamine-type stimulants, including methamphetamine
54/3	Ensuring the availability of reference and test samples of controlled substances at drug testing laboratories for scientific purposes	59/5	Mainstreaming a gender perspective in drug-related policies and programmes
54/8	Strengthening international cooperation and regulatory and institutional frameworks for the control of precursor chemicals used in the illicit manufacture of synthetic drugs	59/7	Promotion of proportionate sentencing for drug-related offences of an appropriate nature in implementing drug control policies
54/11	Improving the participatory role of civil society in addressing the world drug problem	59/8	Promotion of measures to target new psychoactive substances and amphetamine-type stimulants
55/1	Promoting international cooperation in responding to the challenges posed by new psychoactive substances	60/4	Preventing and responding to the adverse health consequences and risks associated with the use of new psychoactive substances
56/8	Promoting initiatives for the safe, secure and appropriate return for disposal of prescription drugs, in particular those containing narcotic drugs and psychotropic substances under international control	60/5	Increasing international coordination relating to precursors and non-scheduled precursor chemicals used in the illicit manufacture of narcotic drugs and psychotropic substances
56/10	Tools to improve data collection to monitor and evaluate the implementation of the Political Declaration and Plan of Action on International Cooperation towards an Integrated and Balanced Strategy to Counter the World Drug Problem	60/6	Intensifying coordination and cooperation among United Nations entities and relevant domestic sectors, including the health, education and criminal justice sectors, to address and counter the world drug problem
56/13	Precursors: raising awareness on the diversion in international trade of non-scheduled substances for use as alternatives to scheduled substances in the illicit manufacture of narcotic drugs and psychotropic substances	60/9	Enhancing the capacity of law enforcement, border control and other relevant agencies to counter illicit drug trafficking through training
57/9	Enhancing international cooperation in the identification and reporting of new psychoactive substances and incidents involving such substances		

Part IV International cooperation for development

61/5	Promoting the implementation of the electronic International Import and Export Authorization System for licit trade in narcotic drugs and psychotropic substances	65/3	Intensifying efforts to address the diversion of non-scheduled chemicals frequently used in the illicit manufacture of drugs and the proliferation of designer precursors
61/8	Enhancing and strengthening international and regional cooperation and domestic efforts to address the international threats posed by the non-medical use of synthetic opioids	67/2	Promoting awareness-raising, education, training and data collection as part of a comprehensive approach to ensuring access to and the availability of controlled substances for medical and scientific purposes, including for the treatment of children, and ensuring their rational use
61/9	Protecting children from the illicit drug challenge		
62/2	Enhancing detection and identification capacity for synthetic drugs for non-medical use by increasing international collaboration	68/4	Safety of officers in dismantling illicit synthetic drug laboratories in particular those involving synthetic opioids
62/4	Advancing effective and innovative approaches, through national, regional and international action, to address the multifaceted challenges posed by the non-medical use of synthetic drugs, particularly synthetic opioids	68/5	Addressing the impacts of illicit drug-related activities on the environment
		68/6	Strengthening the international drug control system: a path to effective implementation
62/5	Enhancing the capacity of Member States to adequately estimate and assess the need for internationally controlled substances for medical and scientific purposes	Decision 63/15	Improved and streamlined annual report questionnaire
63/1	Promoting efforts by Member States to address and counter the world drug problem, in particular supply reduction-related measures, through effective partnerships with private sector entities		Political Declaration and Plan of Action on International Cooperation towards an Integrated and Balanced Strategy to Counter the World Drug Problem
63/2	Promoting and improving the collection and analysis of reliable and comparable data to strengthen balanced, integrated, comprehensive, multidisciplinary and scientific evidence-based responses to the world drug problem		Joint Ministerial Statement of the 2014 high-level review by the Commission on Narcotic Drugs of the implementation by Member States of the Political Declaration and Plan of Action on International Cooperation towards an Integrated and Balanced Strategy to Counter the World Drug Problem
65/2	Strengthening international cooperation to address the links between illicit drug trafficking and illicit firearms trafficking		Ministerial Declaration on Strengthening Our Actions at the National, Regional and International Levels to Accelerate the Implementation of Our Joint Commitments to Address and Counter the World Drug Problem
			High-level declaration by the Commission on Narcotic Drugs on the 2024 midterm review, following up to the Ministerial Declaration of 2019

Subprogramme 1 Countering transnational organized crime

General Assembly resolutions

64/293	United Nations Global Plan of Action to Combat Trafficking in Persons	79/133	Return or restitution of cultural property to the countries of origin
71/1	New York Declaration for Refugees and Migrants	79/189	Strengthening and promoting effective measures and international cooperation on organ donation and transplantation to prevent and combat trafficking in persons for the purpose of organ removal and trafficking in human organs
74/173	Promoting technical assistance and capacity-building to strengthen national measures and international cooperation to combat cybercrime, including information-sharing	79/313	Tackling illicit trafficking in wildlife
74/247; 75/282	Countering the use of information and communications technologies for criminal purposes	80/9	2025 Political Declaration on the Implementation of the United Nations Global Plan of Action to Combat Trafficking in Persons
76/185	Preventing and combating crimes that affect the environment		
76/266	Progress Declaration of the International Migration Review Forum	80/36	Assistance to States for curbing the illicit traffic in small arms and light weapons and collecting them
78/267	International Day for the Prevention of and Fight against All Forms of Transnational Organized Crime	80/38	The illicit trade in small arms and light weapons in all its aspects

80/110	Oceans and the law of the sea	80/228	Improving the coordination of efforts against trafficking in persons
80/227	Tackling illicit trafficking in wild fauna and flora, including timber and timber products, the illegal mining of and illicit trafficking in minerals and precious metals, illicit trafficking in waste and other crimes that affect the environment		

Economic and Social Council resolution

2025/17	Tackling illicit trafficking in wild fauna and flora, including timber and timber products, the illegal mining of and illicit trafficking in minerals and precious metals, illicit trafficking in waste and other crimes that affect the environment
-------------------------	--

Security Council resolutions

2117 (2013)	2331 (2016)
2220 (2015)	2388 (2017)
2322 (2016)	2616 (2021)

Commission on Crime Prevention and Criminal Justice resolutions

20/4	Promoting further cooperation in countering transnational organized crime	28/3	Strengthening regional and international cooperation in crime prevention and criminal justice responses to illicit trafficking in wildlife
25/1	Preventing and combating trafficking in human organs and trafficking in persons for the purpose of organ removal	30/1	Strengthening international cooperation in addressing the smuggling of migrants
27/2	Preventing and combating trafficking in persons facilitated by the criminal misuse of information and communications technologies	31/1	Strengthening the international legal framework for international cooperation to prevent and combat illicit trafficking in wildlife
27/3	Improving the protection of children against trafficking in persons, including by addressing the criminal misuse of information and communications technologies	32/1	Taking action against trafficking in persons in business operations, public procurement and supply chains for goods and services
27/4	Strengthening measures against trafficking in persons	33/1	Countering trafficking in persons in the context of rapid technological change
28/2; 34/1	Countering the smuggling of commercial goods in cases falling within the scope of the United Nations Convention against Transnational Organized Crime	34/3	Strengthening international efforts to prevent and combat the smuggling of migrants

Conference of the Parties to the United Nations Convention against Transnational Organized Crime resolutions

5/4	Illicit manufacturing of and trafficking in firearms, their parts and components and ammunition	7/2	Importance of the Protocol against the Illicit Manufacturing of and Trafficking in Firearms, Their Parts and Components and Ammunition, supplementing the United Nations Convention against Transnational Organized Crime
6/2	Promoting accession to and implementation of the Protocol against the Illicit Manufacturing of and Trafficking in Firearms, Their Parts and Components and Ammunition, supplementing the United Nations Convention against Transnational Organized Crime	8/1	Enhancing the effectiveness of central authorities in international cooperation in criminal matters to counter transnational organized crime
7/1	Strengthening the implementation of the United Nations Convention against Transnational Organized Crime and the Protocols thereto	9/1	Establishment of the Mechanism for the Review of the Implementation of the United Nations Convention against Transnational Organized Crime and the Protocols thereto

Part IV International cooperation for development

9/2	Enhancing and ensuring effective implementation of the Protocol against the Illicit Manufacturing of and Trafficking in Firearms, Their Parts and Components and Ammunition, supplementing the United Nations Convention against Transnational Organized Crime	11/2; 12/2	Implementation of the provisions on technical assistance of the United Nations Convention against Transnational Organized Crime
9/3; 11/1; 12/1	Implementation of the provisions on international cooperation of the United Nations Convention against Transnational Organized Crime	11/3	Outcomes of the joint thematic discussion of the Working Group of Government Experts on Technical Assistance and the Working Group on International Cooperation on the application of the United Nations Convention against Transnational Organized Crime for preventing and combating transnational organized crimes that affect the environment
10/1	Launch of the review process of the Mechanism for the Review of the Implementation of the United Nations Convention against Transnational Organized Crime and the Protocols thereto	11/4	Strengthening crime prevention and criminal justice responses to protect cultural property, especially with regard to its trafficking in any situations, including in the context of all armed conflicts and natural disasters
10/2	Strengthening international cooperation against the illicit manufacturing of and trafficking in firearms, their parts and components and ammunition	11/6	Strengthening international cooperation to prevent, combat and eradicate the illicit manufacturing of and trafficking in firearms, their parts and components and ammunition
10/3; 11/5	Effective implementation of the Protocol to Prevent, Suppress and Punish Trafficking in Persons, Especially Women and Children, supplementing the United Nations Convention against Transnational Organized Crime	12/3	Enhancing measures, including under the Firearms Protocol, to prevent, combat and eradicate the illicit manufacturing of and trafficking in firearms, their parts and components and ammunition, in view of technological developments
10/4	Celebrating the twentieth anniversary of the adoption of the United Nations Convention against Transnational Organized Crime and promoting its effective implementation	12/4	Enhancing measures to prevent and combat crimes that affect the environment falling within the scope of the United Nations Convention against Transnational Organized Crime
10/5	Preventing and combating the manufacturing of and trafficking in falsified medical products as forms of transnational organized crime		
10/6	Preventing and combating crimes that affect the environment falling within the scope of the United Nations Convention against Transnational Organized Crime		

Subprogramme 2

A comprehensive and balanced approach to counter the world drug problem

General Assembly resolutions

S-20/3	Declaration on the Guiding Principles of Drug Demand Reduction	75/284	Political Declaration on HIV and AIDS: Ending Inequalities and Getting on Track to End AIDS by 2030
S-30/1	Our joint commitment to effectively addressing and countering the world drug problem	78/131	Enhancing action at the national, regional and international levels to address the global public health and security challenges posed by the synthetic drugs
74/20	Global health and foreign policy: an inclusive approach to strengthening health systems		

Economic and Social Council resolutions and decisions

1999/36	Human immunodeficiency virus/acquired immunodeficiency syndrome	2005/28	Frequency of meetings of Heads of National Drug Law Enforcement Agencies, Europe
2003/32	Training in precursor control, countering money-laundering and drug abuse prevention	2007/9	The need for a balance between demand for and supply of opiates used to meet medical and scientific needs
2003/36	Establishment of national networks to counter money-laundering in the framework of national and international drug control plans	2025/20	Joint United Nations Programme on HIV/AIDS
2004/35	Combating the spread of HIV/AIDS in criminal justice pretrial and correctional facilities	Decision 2009/250	Proposed amendment to the Single Convention on Narcotic Drugs of 1961 as amended by the 1972 Protocol

Commission on Narcotic Drugs resolutions and decisions

49/4	Responding to the prevalence of HIV/AIDS and other blood-borne diseases among drug users	66/4	Promoting alternative development as a development-oriented drug control strategy that is sustainable and inclusive
58/4	Promoting the implementation of the United Nations Guiding Principles on Alternative Development	67/1	Promoting recovery and related support services for people with drug use disorders
60/8	Promoting measures to prevent HIV and other blood-borne diseases associated with the use of drugs, and increasing financing for the global HIV/AIDS response and for drug use prevention and other drug demand reduction measures	67/3	Celebrating the tenth anniversary of the United Nations Guiding Principles on Alternative Development: effective implementation and the way forward
64/3	Promoting scientific evidence-based, quality, affordable and comprehensive drug prevention, treatment, sustained recovery and related support services	67/4	Preventing and responding to drug overdose through prevention, treatment, care and recovery measures, as well as other public health interventions, to address the harms associated with illicit drug use as part of a balanced, comprehensive, scientific evidence-based approach
64/5	Facilitating access to comprehensive, scientific evidence-based drug demand reduction services and related measures, including for people impacted by social marginalization	68/1	Promoting comprehensive, scientific evidence-based and multisectoral national systems of drug use prevention for children and adolescents
65/1	Promoting alternative development as a development-oriented drug control strategy, taking into account measures to protect the environment	68/2	Promoting research on scientific evidence-based interventions for the treatment and care of stimulant use disorders
65/4	Promoting comprehensive and scientific evidence-based early prevention	68/3	Complementing the United Nations Guiding Principles on Alternative Development

Commission on Crime Prevention and Criminal Justice resolution

26/2	Ensuring access to measures for the prevention of mother-to-child transmission of HIV in prisons
------	--

Subprogramme 3 Countering corruption

General Assembly resolutions

S-32/1	Our common commitment to effectively addressing challenges and implementing measures to prevent and combat corruption and strengthen international cooperation	79/190	Preventing and combating corrupt practices and the transfer of proceeds of corruption, facilitating asset recovery and returning such assets to legitimate owners, in particular to countries of origin, in accordance with the United Nations Convention against Corruption
--------	--	--------	--

Conference of the States Parties to the United Nations Convention against Corruption resolutions and decisions

1/1; 2/1	Review of implementation	4/6	Non-governmental organizations and the Mechanism for the Review of Implementation of the United Nations Convention against Corruption
1/4	Establishment of an intergovernmental working group on asset recovery		
3/1	Review mechanism	6/1	Continuation of the review of implementation of the United Nations Convention against Corruption
4/1	Mechanism for the Review of Implementation of the United Nations Convention against Corruption	7/1	Strengthening mutual legal assistance for international cooperation and asset recovery
4/2	Convening of open-ended intergovernmental expert meetings to enhance international cooperation		

Part IV International cooperation for development

7/2	Preventing and combating corruption in all its forms more effectively, including, among others, when it involves vast quantities of assets, based on a comprehensive and multidisciplinary approach, in accordance with the United Nations Convention against Corruption	9/5 9/7 9/8	Enhancing international anti-corruption law enforcement cooperation Enhancing the use of beneficial ownership information to facilitate the identification, recovery and return of proceeds of crime Promoting anti-corruption education, awareness-raising and training
7/3	Promoting technical assistance to support the effective implementation of the United Nations Convention against Corruption	10/1	Atlanta 2023: promoting integrity, accountability and transparency in the fight against corruption
7/4	Enhancing synergies between relevant multilateral organizations responsible for review mechanisms in the field of anti-corruption	10/2; 11/3	Strengthening the implementation of the United Nations Convention against Corruption in small island developing States
8/1	Strengthening of international cooperation on asset recovery and of the administration of frozen, seized and confiscated assets	10/3; 11/4	Follow-up to the Marrakech declaration on the prevention of corruption
8/3	Promoting integrity in the public sector among States parties to the United Nations Convention against Corruption	10/4	Methodologies and indicators for measuring corruption and the effectiveness of anti-corruption frameworks
8/4	Safeguarding sport from corruption	10/5	Measures to address corruption involving organized criminal groups
8/5	Enhancing integrity by raising public awareness	10/6	Enhancing the use of beneficial ownership information to strengthen asset recovery
8/6	Implementation of international obligations to prevent and combat bribery as defined under the United Nations Convention against Corruption	10/7	Promoting international cooperation in civil and administrative proceedings related to corruption as provided in the United Nations Convention against Corruption
8/7	Enhancing the effectiveness of anti-corruption bodies in fighting corruption	10/8	Protection of reporting persons
8/9	Strengthening asset recovery to support the 2030 Agenda for Sustainable Development	10/9	Promoting transparency and integrity in public procurement in support of the 2030 Agenda for Sustainable Development
8/12; 11/9	Preventing and combating corruption as it relates to crimes that have an impact on the environment	10/10	Addressing the societal impacts of corruption
8/14	Promoting good practices in relation to the role of national parliaments and other legislative bodies in preventing and combating corruption in all its forms	10/11	Follow-up to the Sharm el-Sheikh declaration on strengthening international cooperation in the prevention of and fight against corruption during times of emergencies and crisis response and recovery
9/2	Our common commitment to effectively addressing challenges and implementing measures to prevent and combat corruption and strengthening international cooperation: follow-up to the special session of the General Assembly against corruption	10/12 11/11	Providing incentives for the private sector to adopt integrity measures to prevent and combat corruption Combating corruption that facilitates the smuggling of migrants
9/3	Follow-up to the Abu Dhabi declaration on enhancing collaboration between the supreme audit institutions and anti-corruption bodies to more effectively prevent and fight corruption, and the use of information and communications technologies	Decision 8/1	Extension of the second cycle of the Mechanism for the Review of Implementation of the United Nations Convention against Corruption
9/4	Strengthening the implementation of the United Nations Convention against Corruption at regional levels	Decision 10/2	Further extension of the second cycle of the Mechanism for the Review of Implementation of the United Nations Convention against Corruption

Subprogramme 4 Terrorism prevention

International legal instruments

- Convention on Offences and Certain Other Acts Committed on Board Aircraft of 1963 as amended by the Protocol of 2014
- Convention for the Suppression of Unlawful Seizure of Aircraft of 1970 as supplemented by the Protocol of 2010

- Convention for the Suppression of Unlawful Acts against the Safety of Civil Aviation of 1971 as supplemented by the Protocol for the Suppression of Unlawful Acts of Violence at Airports Serving International Civil Aviation of 1988
- Convention on the Prevention and Punishment of Crimes against Internationally Protected Persons, including Diplomatic Agents, of 1973
- International Convention against the Taking of Hostages of 1979
- Convention on the Physical Protection of Nuclear Material of 1980 and its Amendment of 2005
- Convention for the Suppression of Unlawful Acts against the Safety of Maritime Navigation of 1988 as amended by the Protocol of 2005
- Protocol for the Suppression of Unlawful Acts Against the Safety of Fixed Platforms Located on the Continental Shelf of 1988 as amended by the Protocol of 2005
- Convention on the Marking of Plastic Explosives for the Purpose of Detection of 1991
- International Convention for the Suppression of Terrorist Bombings of 1997
- International Convention for the Suppression of the Financing of Terrorism of 1999
- International Convention for the Suppression of Acts of Nuclear Terrorism of 2005
- Convention on the Suppression of Unlawful Acts Relating to International Civil Aviation of 2010

General Assembly resolutions

59/153	Strengthening international cooperation and technical assistance in promoting the implementation of the universal conventions and protocols related to terrorism within the framework of the activities of the Centre for International Crime Prevention	72/180	Protection of human rights and fundamental freedoms while countering terrorism
		77/298	The United Nations Global Counter-Terrorism Strategy: eighth review
		80/171	Measures to eliminate international terrorism

Security Council resolutions

1267 (1999)	2133 (2014)
1373 (2001)	2734 (2024)
1624 (2005)	

Subprogramme 5 Justice

General Assembly resolutions

34/169; 35/170	Code of Conduct for Law Enforcement Officials	45/113	United Nations Rules for the Protection of Juveniles Deprived of their Liberty
40/33	United Nations Standard Minimum Rules for the Administration of Juvenile Justice (the Beijing Rules)	45/118	Model Treaty on the Transfer of Proceedings in Criminal Matters
40/34	Declaration of Basic Principles of Justice for Victims of Crime and Abuse of Power	45/119	Model Treaty on the Transfer of Supervision of Offenders Conditionally Sentenced or Conditionally Released
43/173	Body of Principles for the Protection of All Persons under Any Form of Detention or Imprisonment	46/152	Creation of an effective United Nations crime prevention and criminal justice programme
45/110	United Nations Standard Minimum Rules for Non-custodial Measures (the Tokyo Rules)	51/60	United Nations Declaration on Crime and Public Security
45/111	Basic Principles for the Treatment of Prisoners	52/86	Crime prevention and criminal justice measures to eliminate violence against women
45/112	United Nations Guidelines for the Prevention of Juvenile Delinquency (the Riyadh Guidelines)	65/228	Strengthening crime prevention and criminal justice responses to violence against women

Part IV International cooperation for development

Subprogramme 9, component 2
Provision of secretariat services and substantive support to the International Narcotics Control Board

General Assembly resolutions

- 59/162 Follow-up on strengthening the systems of control over chemical precursors and preventing their diversion and trafficking

Security Council resolutions

- 1817 (2008)

Economic and Social Council resolutions

1966/1106 (XL)	Implementation of the Single Convention on Narcotic Drugs, 1961	1995/20	Measures to strengthen international cooperation to prevent diversion of substances listed in table I of the United Nations Convention against Illicit Traffic in Narcotic Drugs and Psychotropic Substances of 1988 and used in the illicit manufacture of stimulants and other psychotropic substances
1967/1196 (XLII); 1991/48	Administrative arrangements to ensure the full technical independence of the International Narcotics Control Board		
1973/1775 (LIV)	Keeping in force the administrative arrangements to ensure the full technical independence of the International Narcotics Control Board	1996/29	Action to strengthen international cooperation to control precursors and their substitutes used in the illicit manufacture of controlled substances, in particular amphetamine-type stimulants, and to prevent their diversion
1981/7	Implementation of the 1971 Convention on Psychotropic Substances		
1991/44	Prevention of diversion from international trade into illicit channels of psychotropic substances listed in Schedules III and IV of the Convention on Psychotropic Substances of 1971	2003/39	Strengthening systems of control over chemical precursors and preventing their diversion and trafficking
1992/29	Measures to prevent the diversion of precursor and essential chemicals to the illicit manufacture of narcotic drugs and psychotropic substances	2004/38	Follow-up on strengthening the systems of control over chemical precursors and preventing their diversion and trafficking

Commission on Narcotic Drugs resolutions

50/5	Identifying sources of precursors used in illicit drug manufacture	62/8	Supporting the International Narcotics Control Board in fulfilling its treaty-mandated functions in cooperation with Member States and in collaboration with the Commission on Narcotic Drugs and the World Health Organization
54/6	Promoting adequate availability of internationally controlled narcotic drugs and psychotropic substances for medical and scientific purposes while preventing their diversion and abuse		
62/1	Strengthening international cooperation and comprehensive regulatory and institutional frameworks for the control of precursors used in the illicit manufacture of narcotic drugs and psychotropic substances		

Deliverables

- 16.13 Table 16.1 lists all cross-cutting deliverables of the programme.

Table 16.1

Cross-cutting deliverables for the period 2025–2027, by category and subcategory

<i>Category and subcategory</i>	<i>2025 planned</i>	<i>2025 actual</i>	<i>2026 planned</i>	<i>2027 planned</i>
A. Facilitation of the intergovernmental process and expert bodies				
Substantive services for meetings (number of three-hour meetings)	3	3	3	3
Meetings of:				
1. The Fifth Committee	1	1	1	1
2. The Advisory Committee on Administrative and Budgetary Questions	1	1	1	1
3. The Committee for Programme and Coordination	1	1	1	1
B. Generation and transfer of knowledge				
Field and technical cooperation projects (number of projects)	2	2	2	2
4. On gender equality	1	1	1	1
5. On the independent evaluation function	1	1	1	1
Seminars, workshops and training events (number of days)	15	13	12	10
6. Food-for-thought conferences and side events on gender equality	7	9	4	4
7. Trainings for national counterparts on gender equality	6	2	6	4
8. Side events and conferences on topics related to evaluation	2	2	2	2
Technical materials (number of materials)	22	19	19	21
9. On topics related to gender equality	3	2	2	2
10. On evaluation (independent, joint and system-wide evaluations and synthesis studies)	16	14	15	16
11. On evaluation tools, methodologies and approaches and evaluation capacity development	3	3	2	3
C. Substantive deliverables				
Consultation, advice and advocacy: advisory services in the fields of drug control, crime prevention, anti-corruption and terrorism prevention and cooperation with Member States, intergovernmental organizations and civil society; advocacy of drug control, crime prevention, anti-corruption and terrorism prevention issues with Member States and civil society; technical advice and advisory services on country-led evaluations on drug control, crime prevention, anti-corruption and terrorism prevention in cooperation with Member States, intergovernmental organizations and civil society.				
Databases and substantive digital materials: Unite Evaluations and Independent Evaluation Section website.				
D. Communication deliverables				
Outreach programmes, special events and information materials: evaluation briefs, presentations, events and training; speaking engagements with internal and external stakeholders, conferences, information dissemination, public awareness and representation of the Secretary-General at international events and forums.				
Digital platforms and multimedia content: UNODC website and social media accounts.				

Evaluation activities

16.14 The following evaluations carried out in 2025 have guided the proposed programme plan for 2027:

- (a) Two independent in-depth evaluations on the work of UNODC on:
 - (i) Strengthening the rule of law and protecting the most vulnerable from drugs and crime in South-East Asia and the Pacific;
 - (ii) Preventing and fighting corruption;
- (b) Seven independent project evaluations on topics covering criminal justice, terrorist financing, anti-corruption, gender-based violence, waste trafficking, trafficking in persons and crimes that affect the environment;
- (c) Four joint evaluations on topics covering the smuggling of migrants, wildlife crime and maritime security.

- 16.15 Through the evaluations referenced above, and Unite Evaluations, the web-based evaluation application of UNODC, evaluation results and recommendations continued to inform interventions across UNODC mandates, ensuring further integration of cross-cutting considerations into UNODC projects and programmes. Recommendations of the joint evaluation on wildlife conservation informed the direction of a successor initiative, and evaluation results in South-East Asia and the Pacific supported the revision of the regional programme.
- 16.16 The following evaluations are planned for 2027 (themes will be determined with Member States, UNODC senior management and project staff):
- (a) Strategic and subprogramme evaluations;
 - (b) Evaluations and syntheses at the programmatic, thematic, country, regional and project levels;
 - (c) Contribution to joint system-wide evaluation and synthesis efforts.

Programme of work

Subprogramme 1

Countering transnational organized crime

Objective

- 16.17 The objective, to which this subprogramme contributes, is to prevent and combat transnational organized crime, illicit trafficking and cybercrime.

Strategy

- 16.18 To contribute to the objective, the subprogramme will:
- (a) Promote the signature, ratification and implementation of the international drug control conventions, the United Nations Convention against Transnational Organized Crime and the Protocols thereto and the United Nations Convention against Cybercrime, including by developing tools and providing targeted assistance to policymakers, legislators, legislative drafters and criminal justice practitioners, as well as collecting and disseminating knowledge on organized crime and cybercrime;
 - (b) Support the Conference of the Parties to the United Nations Convention against Transnational Organized Crime, including the Mechanism for the Review of the Implementation of the Convention and the Protocols thereto, by assisting States Parties in participating successfully in the review process, both as States Parties under review and reviewing States Parties;
 - (c) Provide technical assistance to Member States in preventing and countering transnational organized crime, including in its evolving and emerging forms, ranging from trafficking in persons, smuggling of migrants and trafficking in firearms to other forms of organized crime and trafficking, such as trafficking in cultural property and falsified medical products, organized fraud, crimes that affect the environment, cybercrime and laundering the proceeds related to such crimes;
 - (d) Build the capacities of central authorities and other criminal justice actors in international cooperation on transnational organized crime and cybercrime and facilitate mutual legal assistance requests through its support to international judicial cooperation networks and to individual Member States, particularly in trafficking, cybercrime and any serious crime cases, as well as through global, regional and interregional initiatives;
 - (e) Provide support to Member States to strengthen border management, interdict contraband and develop post-seizure criminal justice cooperation, along drug and other trafficking routes

aimed at disrupting the organized crime groups behind them, involving, as appropriate, relevant international organizations, civil society, the private sector and other actors and actively promote the use of special investigative techniques against drug trafficking and in organized crime and cybercrime investigations.

16.19 The above-mentioned work is expected to result in:

- (a) Active and effective participation of States Parties to the United Nations Convention against Transnational Organized Crime in the Mechanism for the Review of the Implementation of the Convention and the Protocols thereto, and strengthened legislative, strategic and institutional frameworks to prevent and counter organized crime and cybercrime;
- (b) Increased international cooperation and strengthened institutional and legislative capacity of Member States to detect, prevent, investigate and prosecute transnational organized crime and new and emerging crimes, including through enhanced cooperation on evidence in electronic form;
- (c) Reduced trafficking in persons and smuggling of migrants, and trafficking in drugs, firearms and other contraband, through the dismantling of greater numbers of organized criminal groups and improved responses to criminal networks using information and communications technologies.

Programme performance in 2025

Strengthened international cooperation on combating cybercrime and sharing electronic evidence for serious crimes

16.20 On 24 December 2024, the General Assembly adopted the United Nations Convention against Cybercrime; Strengthening International Cooperation for Combating Certain Crimes Committed by Means of Information and Communications Technology Systems and for the Sharing of Evidence in Electronic Form of Serious Crimes (see resolution [79/243](#)). The adoption of the Convention marks a historic milestone in international efforts to counter crimes committed via or enabled through information and communications technologies, reflecting a global consensus on the need to address cybercrime and enable the sharing of evidence in electronic form for serious crimes through a legally-binding framework. The subprogramme contributed to this achievement by providing substantive support to the Ad Hoc Committee to Elaborate a Comprehensive International Convention on Countering the Use of Information and Communications Technologies for Criminal Purposes, servicing its eight substantive negotiating sessions. By offering technical assistance and expertise to Member States to ensure the swift entry into force and implementation of the Convention, the subprogramme's work is expected to improve the ability of Member States to investigate and prosecute cybercrime.

16.21 Progress towards the objective is presented in the performance measure below (see figure 16.I).

Figure 16.I

Performance measure: number of Member States and regional organizations having signed the United Nations Convention against Cybercrime

Planned results for 2027

Result 1: improved registration and traceability of firearms, parts, components and ammunition

Programme performance in 2025 and target for 2027

- 16.22 The subprogramme's work contributed to advancing the customization of the UNODC integrated firearms registry software, goIFAR, in Honduras and Senegal, which did not meet the planned target of two additional countries adopting goIFAR. The target was not met as the subprogramme focused its support on finalizing customization in the two countries, while engaging with additional countries on potential adoption of goIFAR.
- 16.23 Progress towards the objective and the target for 2027 are presented in the performance measure below (see table 16.2).

Table 16.2

Performance measure

2023 (actual)	2024 (actual)	2025 (actual)	2026 (planned)	2027 (planned)
Honduras and Senegal developed action plans to customize goIFAR	Customization of goIFAR in Honduras and Senegal proceeded but was not finalized	Honduras and Senegal continued to customize goIFAR	Two countries develop action plans to customize goIFAR	Two additional countries customize goIFAR

Result 2: enhanced detection of trafficking by air, sea and land

Programme performance in 2025 and target for 2027

- 16.24 The subprogramme's work contributed to 4,726 seizures in cargo, postal mail and from passengers, as reported by UNODC-supported national units, which exceeded the planned target.
- 16.25 Progress towards the objective and the target for 2027 are presented in the performance measure below (see figure 16.II).

Figure 16.II

Performance measure: number of seizures in cargo, postal mail and from passengers, as reported by UNODC-supported national units (annual)

Result 3: strengthened normative, policy and institutional responses against organized crime globally

Proposed programme plan for 2027

- 16.26 Transnational organized crime threatens lives, jeopardizes peace and security, endangers livelihoods and undermines the economy. The effective implementation of the United Nations Convention against Transnational Organized Crime through normative, policy and institutional measures is critical in ensuring a comprehensive global response to organized crime. The subprogramme supports Member States and regional organizations in becoming Parties to the Convention, developing strategies and laws, and strengthening institutions that prevent and combat organized crime.

Lessons learned and planned change

- 16.27 The lesson for the subprogramme was that the direct impact of policies and strategies against organized crime can be constrained by operational and institutional conditions, making targeted support for effective implementation paramount. In applying this lesson, the subprogramme will prioritize the establishment and strengthening of implementation-oriented institutional structures, such as central and competent authorities, victim support units or strategic analysis units, and normative frameworks. This shift is expected to ensure that adopted policies and strategies are systematically translated into practice, thereby improving responses against organized crime at the national level.
- 16.28 Expected progress towards the objective is presented in the performance measure below (see figure 16.III).

Figure 16.III

Performance measure: number of Member States with strengthened normative, policy and institutional frameworks to prevent and counter organized crime, in line with the United Nations Convention against Transnational Organized Crime (cumulative)

Deliverables

- 16.29 Table 16.3 lists all deliverables of the subprogramme.

Table 16.3

Subprogramme 1: deliverables for the period 2025–2027, by category and subcategory

<i>Category and subcategory</i>	<i>2025 planned</i>	<i>2025 actual</i>	<i>2026 planned</i>	<i>2027 planned</i>

Consultation, advice and advocacy: advisory services and advocacy on accession to and implementation of the United Nations Convention against Transnational Organized Crime and the Protocols thereto, the United Nations Convention against Cybercrime and the drug control conventions; and consultation and advice to the International Narcotics Control Board, upon request.				
Databases and substantive digital materials: Sharing Electronic Resources and Laws on Crime (SHERLOC) platform, containing over 13,800 annotated legislative excerpts, 259 strategies and more than 3,360 case summaries covering 15 crime types.				

Subprogramme 2

A comprehensive and balanced approach to counter the world drug problem

Objective

- 16.30 The objective, to which this subprogramme contributes, is to ensure comprehensive and balanced responses to the world drug problem through integrated demand reduction and related measures, supply reduction and related measures, and enhanced international cooperation.

Strategy

- 16.31 To contribute to the objective, the subprogramme will:
- (a) Promote comprehensive and balanced approaches to countering the world drug problem in full conformity with the purposes and principles of the Charter of the United Nations, the three international drug control conventions and in line with scientific evidence and assist Member States, upon request, in:

- (i) Implementing the three international drug control conventions and all the international drug policy commitments to address and counter the world drug problem with a focus on public health, human rights and public security;
 - (ii) Establishing and/or expanding drug use prevention approaches and services, as well as drug dependence treatment, care and rehabilitation services and systems for people with drug use disorders;
 - (iii) Establishing and/or expanding HIV/AIDS prevention, treatment and care and support services for people who use drugs, including people in prison and other custodial settings;
 - (iv) Establishing and/or expanding access to and availability of controlled substances for medical and scientific use;
- (b) Support Member States' progress in each of the above-mentioned areas through advocacy, technical assistance, capacity-building, the provision of standards and operational guidelines based on science and evidence, and the development and dissemination of manuals, toolkits, reports and issue papers based on science and evidence as well as on applicable human rights obligations under international law;
- (c) Assist Member States, upon request, by promoting sustainable livelihoods to reduce the illicit cultivation of drug crops through alternative development, including preventive alternative development;
- (d) In coordination with subprogramme 1, promote the exchange of criminal intelligence and encourage multilateral operations targeting transnational criminal organizations involved in drug trafficking and provide enhanced technical assistance in accordance with the principle of shared responsibility;
- (e) Build the capacity of national counterparts, at the request of Member States, to detect, interdict, investigate and prosecute drug-related offences, including the illicit cultivation, production, manufacturing and trafficking of narcotic drugs and psychotropic substances, taking into account socioeconomic factors;
- (f) Facilitate the exchange of best practices and training curricula, methodologies and materials through the network of law enforcement training institutions, in coordination with subprogramme 1, helping Member States to build inclusive, healthy and resilient societies.

16.32 The above-mentioned work is expected to result in:

- (a) Increased access to quality healthcare services that include scientific evidence-based interventions in the areas of drug abuse prevention, drug dependence treatment, HIV/AIDS prevention, treatment and care, and access to controlled substances, for medical and scientific use;
- (b) Increased resilience, quality of life and diversified, licit, sustainable income for families in rural areas affected by or at risk of illicit cultivation, production of and trafficking in narcotic drugs and psychotropic substances;
- (c) Reduced illicit supply of drugs through joint and coordinated work by law enforcement authorities to strengthen maritime, air and land border control, and to track and dismantle networks engaging in drug production, trafficking and distribution both online and offline.

16.33 The strategy and results contributing to the achievement of the objective are complemented by the strategies and results under subprogramme 1, Countering transnational organized crime, and subprogramme 6, Research, trend analysis and forensics, especially in relation to law enforcement and laboratory and scientific services.

Programme performance in 2025

Enhanced ability of Member States to disrupt criminal networks engaged in drug trafficking through strengthened case-based international cooperation

- 16.34 Law enforcement and criminal justice responses to drug trafficking often stop at seizures and arrests of low-level couriers, which have limited deterrent or disruptive impact on the broader criminal networks. The subprogramme prioritized promoting multilateral operations and building the capacity of national counterparts through strategic and operational support to Member States to address this gap. These efforts included supporting the establishment, under article 19 of the United Nations Convention against Transnational Organized Crime, of case-specific joint investigation teams with law enforcement and/or judicial authorities and facilitating investigative case forums that bring together countries affected by the same drug trafficking case for coordination and potential joint action. These efforts have enabled the arrest of high-level targets and the disruption and dismantling of criminal networks operating across Latin America and the Caribbean, Africa and Europe.
- 16.35 Progress towards the objective is presented in the performance measure below (see table 16.4).

Table 16.4

Performance measure

2023 (actual)	2024 (actual)	2025 (actual)
64 raids, major seizures (including cash and firearms), and 17 arrests following the establishment of a joint investigative team between Argentina and Chile	Côte d'Ivoire sentenced 13 crime organizers, disrupting a transnational cocaine network operating from Suriname to Europe via Côte d'Ivoire	Eight arrests and one prosecution involving seven suspects linked to a large cocaine seizure case in Germany
High-level arrests, including one of Europe's most wanted drug traffickers, following the establishment of a joint investigative team between Brazil and Cabo Verde		Establishment of a joint investigative team between the Plurinational State of Bolivia and Peru to address crimes that affect the environment

Planned results for 2027

Result 1: Member States in sub-Saharan Africa implement stronger health and development interventions in the context of addressing the world drug problem

Programme performance in 2025 and target for 2027

- 16.36 The subprogramme's work contributed to the implementation of 24 health and development interventions in sub-Saharan Africa, including drug use prevention and treatment for drug use disorders, HIV prevention and treatment, alternative development and access to controlled medicines while preventing diversion and non-medical use, which exceeded the planned target of 23. The planned target for 2027 reflects the projected decrease in extrabudgetary resources.
- 16.37 Progress towards the objective and the target for 2027 are presented in the performance measure below (see figure 16.IV).

Figure 16.IV

Performance measure: number of health and development responses of Member States in sub-Saharan Africa that take into account international standards (annual)

Result 2: global gaps in service provision filled through new health and development initiatives implemented at the national level

Programme performance in 2025 and target for 2027

- 16.38 The subprogramme's work contributed to 23 new initiatives implemented by Member States, including Children Amplified Prevention Services (CHAMPS), on prevention for children; #ScaleUp, for scalable treatments for stimulant use disorders; Young Doctors' Network, on access to controlled substances for medical purposes; STRIVE, on gender-based violence among people who use drugs; IMPACT, on evidence-based HIV responses; and on alternative development, which exceeded the planned target of 17. The planned target for 2027 reflects the projected decrease in extrabudgetary resources.
- 16.39 Progress towards the objective and the target for 2027 are presented in the performance measure below (see figure 16.V).

Figure 16.V

Performance measure: number of new initiatives implemented by Member States that address gaps in drug and health service provision (annual)

Result 3: forensic laboratory personnel equipped in the analysis and identification of synthetic drugs and precursor chemicals used in their manufacture

Proposed programme plan for 2027

- 16.40 The availability and use of quality forensic science services, data and information are essential to understand and combat drug trafficking and respond to emerging threats in drug control. The number of harmful new psychoactive substances reported worldwide has almost reached 1,400 individual substances in the past decade. Effective policy responses start with accurate laboratory identification of drugs and precursor chemicals seized by law enforcement officers and of those found in cases of acute intoxication. Through the United Nations Narcotics Laboratory, the subprogramme delivers training to Member States in the analysis and identification of drugs and precursor chemicals used in their manufacture.

Lessons learned and planned change

- 16.41 The lesson for the subprogramme is that tailored training courses addressing the scheduling of harmful drugs and precursor chemicals under the international drug control conventions effectively support Member States in fulfilling their obligations. In applying the lesson, the subprogramme will increasingly deliver targeted, specialized laboratory training to Member States to better meet their needs and requirements.
- 16.42 Expected progress towards the objective is presented in the performance measure below (see figure 16.VI).

Figure 16.VI

Performance measure: number of countries and personnel with enhanced laboratory capacity and scientific expertise to analyse and identify internationally scheduled harmful drugs and precursor chemicals used in their manufacture (annual)

Deliverables

- 16.43 Table 16.5 lists all deliverables of the subprogramme.

Table 16.5

Subprogramme 2: deliverables for the period 2025–2027, by category and subcategory

<i>Category and subcategory</i>	<i>2025 planned</i>	<i>2025 actual</i>	<i>2026 planned</i>	<i>2027 planned</i>
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	5	5	5	4
1. Reports to the Commission on Narcotic Drugs on progress made by Member States in fulfilling the commitments in the 2009 Political Declaration and Plan of Action, and resolutions pertaining to drug demand reduction and related matters, HIV/AIDS, drug supply reduction and related matters and alternative development	3	3	3	2
2. Note to the Commission on Narcotic Drugs on coordination and alignment between the Commission and the Programme Coordinating Board of the Joint United Nations Programme on HIV/AIDS	2	2	2	2
Substantive services for meetings (number of three-hour meetings)	39	24	36	18
Meetings of:				
3. The Commission on Narcotic Drugs on issues related to drug demand reduction and related matters, HIV/AIDS, drug supply reduction and related matters and alternative development	21	21	21	15
4. The subsidiary bodies of the Commission on Narcotic Drugs (Heads of National Drug Law Enforcement Agencies and the Subcommission on Illicit Drug Traffic and Related Matters in the Near and Middle East)	12	1	9	1
5. The Commission on Crime Prevention and Criminal Justice on issues related to drug demand reduction, HIV/AIDS prevention, treatment and care, and sustainable livelihoods	1	1	1	1
6. Expert groups on drug demand reduction, HIV/AIDS and alternative development	5	1	5	1
B. Generation and transfer of knowledge				
Field and technical cooperation projects^a (number of projects)	3	3	3	3
7. On drug use prevention, treatment, care and rehabilitation, and availability of and access to controlled substances for medical purposes	1	1	1	1
8. On HIV/AIDS prevention, treatment and care	1	1	1	1
9. On alternative development and sustainable livelihoods	1	1	1	1
Seminars, workshops and training events (number of days)	24	27	24	7
10. Training courses on drug control conventions and drug supply reduction	15	22	15	5
11. Training on drug demand reduction, HIV/AIDS and alternative development	9	5	9	2
Publications (number of publications)	3	3	3	2
12. On drug use prevention and treatment, and access to controlled substances	2	2	2	2
13. On HIV/AIDS prevention, treatment and care	1	1	1	–
C. Substantive deliverables				
Consultation, advice and advocacy: advisory services on law enforcement and the implementation of the drug control conventions; substantive and technical advice on evidence-based drug prevention, treatment and care; HIV/AIDS prevention, treatment and care; access to controlled substances for medical and scientific use; and alternative development and sustainable livelihoods.				
D. Communication deliverables				
Outreach programmes, special events and information materials: social media campaigns and events on International Day against Drug Abuse and Illicit Trafficking, World Mental Health Day and World AIDS Day.				

^a For field and technical cooperation projects on drug supply reduction and publications thereon, please refer to deliverables B.6 and B.10 under table 16.3.

Subprogramme 3

Countering corruption

Objective

- 16.44 The objective, to which this subprogramme contributes, is to prevent and counter corruption through the effective implementation of the United Nations Convention against Corruption.

Strategy

- 16.45 To contribute to the objective, the subprogramme will:
- (a) Provide policy and legislative advice, build the capacities of relevant actors and facilitate the transfer of expertise in the areas of prevention, criminalization and law enforcement, international cooperation and asset recovery;
 - (b) Assist Member States, upon request, in strengthening public sector institutions and the role of civil society, parliamentarians, the private sector, academia, youth and the general public in the prevention of corruption, including by providing technical assistance to States in the follow-up to country reviews conducted under the Mechanism for the Review of Implementation of the United Nations Convention against Corruption, as well as other types of technical assistance;
 - (c) Provide technical assistance, upon request, to enable Member States to assess and address financial crime risks and to apply anti-money-laundering, counter-terrorism financing and anti-corruption measures in combating organized crime, recovering illicit assets and supporting victims;
 - (d) Implement the mandates given by policymaking and treaty bodies, in particular the Conference of the States Parties to the Convention, its subsidiary bodies and other governing organs, and support related intergovernmental processes, including the follow-up to the special session of the General Assembly against corruption held in 2021;
 - (e) Promote international cooperation regarding the investigation, prosecution and adjudication of corruption and related offences and provide technical assistance on the recovery of stolen assets, including through the Global Operational Network of Anti-Corruption Law Enforcement Authorities (GlobE Network) and the convening of expert group meetings;
 - (f) Develop and disseminate knowledge products on the implementation of the Convention and assist States, upon request, in producing data and conducting statistical and analytical studies and research into corruption, including in collaboration with academia and other stakeholders, and further emphasize South-South cooperation and encourage the sharing of knowledge and good practices at the national and regional levels.
- 16.46 The above-mentioned work is expected to result in:
- (a) States Parties participating actively and effectively in the Mechanism for the Review of Implementation of the United Nations Convention against Corruption;
 - (b) States' legal, policy and institutional frameworks addressing corruption and economic crime risks in line with the Convention and related international standards;
 - (c) States being able to systematically and in a timely manner trace, seize, freeze, confiscate and return assets stolen by officials through acts of corruption and economic crime, within the framework of the Convention and related international standards;
 - (d) Practitioners and other stakeholders having and using the capacity to prevent and counter corruption and economic crime;
 - (e) Policymakers, practitioners and other stakeholders using evidence-based knowledge and risk-based tools to inform decision-making to counter corruption and economic crime;

- (f) Partners actively supporting and promoting implementation of the Convention in a coordinated effort.

Programme performance in 2025

Member States investigate, prosecute and adjudicate complex international corruption cases

- 16.47 Complex corruption and financial crime cases often involve cross-border elements and organized networks that require advanced investigative, prosecutorial and adjudicative capacity. The subprogramme supported States in strengthening their readiness to detect, investigate, prosecute and adjudicate such cases by rolling out a multilevel training programme tailored for law enforcement, audit institutions, public procurement authorities, anti-corruption bodies and prosecution services. Delivered at both the national and regional levels over a multi-year cycle, the subprogramme trained practitioners to build expertise and strengthen operational cooperation. This approach led to tangible improvements in the way cases are investigated and prosecuted, as shown by a non-exhaustive list of examples in the table below.
- 16.48 Progress towards the objective is presented in the performance measure below (see table 16.6).

Table 16.6
Performance measure

2023 (actual)	2024 (actual)	2025 (actual)
In Viet Nam, investigators integrated new approaches into ongoing cases, with senior officials issuing national guidance to strengthen complex corruption investigations	In the Dominican Republic, prosecutors shifted focus to systemic corruption structures, leading to stronger prosecutions In Panama, prosecutors applied special investigation techniques and undercover operations in ongoing investigations to dismantle corruption and money-laundering networks	Malaysian police dismantled a major scam syndicate, with 400 arrests Kenyan authorities launched four virtual asset investigations worth 100 million KSh Tanzanian agencies upgraded standard operating procedures, forensic capacity and digital asset management

Planned results for 2027

Result 1: States' use of beneficial ownership information in anti-corruption efforts strengthened

Programme performance in 2025 and target for 2027

- 16.49 The subprogramme's work contributed to States' increased use of beneficial ownership information in anti-corruption efforts, with six countries (Guatemala, Honduras, Paraguay, the Philippines, Viet Nam and Zambia) developing policies and practices on beneficial ownership, which exceeded the planned target of three countries.
- 16.50 Progress towards the objective and the target for 2027 are presented in the performance measure below (see table 16.7).

Table 16.7
Performance measure

2023 (actual)	2024 (actual)	2025 (actual)	2026 (planned)	2027 (planned)
11 countries enhanced their knowledge base on beneficial ownership Second beneficial ownership resolution adopted	Six countries strengthened cooperation, information-sharing and peer-learning on beneficial ownership	Six countries developed policies and practices on beneficial ownership	Three countries strengthen their institutional structure for the collection and use of beneficial ownership information	Three countries demonstrate cross-border collaboration on beneficial ownership through peer learning, memorandums of understanding or initial steps towards information-sharing

Result 2: strengthened cooperation among States at the regional level to counter corruption**Programme performance in 2025 and target for 2027**

- 16.51 The subprogramme's work contributed to 10 active regional anti-corruption platforms, which did not meet the planned target of 11 platforms. The target was not met due to decreased extrabudgetary resources, a constraint that may limit progress towards the further expansion of platforms.
- 16.52 Progress towards the objective and the target for 2027 are presented in the performance measure below (see figure 16.VII).

Figure 16.VII

Performance measure: number of active regional anti-corruption platforms (cumulative)**Result 3: effective legal and policy frameworks of States to address corruption in line with the United Nations Convention against Corruption****Proposed programme plan for 2027**

- 16.53 Effective anti-corruption efforts rely on robust legal and policy frameworks that provide enforceable mechanisms, set out strong mandates, guide institutional actions and ensure compliance with the obligations in the United Nations Convention against Corruption. The subprogramme's work includes advancing legislative and policy reforms by combining technical expertise, recommendations from the Mechanism for the Review of Implementation of the Convention, multi-stakeholder engagement and best practices and lessons learned emerging from the work of UNODC.

Lessons learned and planned change

- 16.54 The lesson for the subprogramme was that legal and policy reforms are most effective when they are combined with targeted guidance and stakeholder engagement and are based on recommendations from the Implementation Review Mechanism. In applying the lesson, the subprogramme will further use recommendations from the Mechanism as the evidence base to identify priorities for legislative and policy reform, integrate good practices and ensure alignment with Convention standards.
- 16.55 Expected progress towards the objective is presented in the performance measure below (see figure 16.VIII).

Figure 16.VIII

Performance measure: number of regulations or policies adopted in line with the United Nations Convention against Corruption (annual)

Deliverables

- 16.56 Table 16.8 lists all deliverables of the subprogramme.

Table 16.8

Subprogramme 3: deliverables for the period 2025–2027, by category and subcategory

C. Substantive deliverables

Consultation, advice and advocacy: advisory services throughout the country review process under the Implementation Review Mechanism, in support of the completion and analysis of self-assessment checklist responses, the conduct of country visits and the preparation of country review reports and executive summaries.

Databases and substantive digital materials: database of laws and jurisprudence, as well as other knowledge relevant to the implementation of the United Nations Convention against Corruption, including on asset recovery; database of competent authorities, asset recovery focal points and central authorities; the online anti-corruption portal known as Tools and Resources for Anti-Corruption Knowledge (TRACK); the GlobE Network portal; electronic tools and training materials on standards, policies, operational procedures and good practices in the implementation of the Convention by States Parties.

^a Reflects updated planned deliverables for 2026. Values in square brackets represent the number of planned deliverables reflected in A/80/6 (Sect. 16).

Subprogramme 4 Terrorism prevention

Objective

- 16.57 The objective, to which this subprogramme contributes, is to strengthen a criminal justice regime against terrorism that is implemented by Member States in line with internationally agreed rule of law and obligations under relevant United Nations conventions and binding resolutions and the United Nations Global Counter-Terrorism Strategy.

Strategy

- 16.58 To contribute to the objective, the subprogramme will:
- (a) Provide normative and capacity-building support to prevent terrorism and violent extremism as and when conducive to terrorism, at the request of Member States, by initiating and supporting the development of cooperation frameworks with Member States at the national, regional and global levels, based on the strategic objectives of Member States and in line with internationally agreed rule of law and obligations under relevant United Nations conventions and binding resolutions;
 - (b) Implement projects, in coordination and through integrated planning with partners, that support Governments with terrorism prevention, helping Member States to strengthen institutions and build capacity to prevent and combat terrorism and violent extremism;

- (c) Deliver counter-terrorism technical assistance tools and training activities to requesting Member States, in accordance with its mandate under resolutions of the General Assembly¹ and the Security Council,² including the United Nations Global Counter-Terrorism Strategy, adopted by the Assembly in 2006 in its resolution [60/288](#), and the triennial reviews of the Strategy.
- 16.59 The above-mentioned work is expected to result in:
- (a) Ratification by Member States of an increased number of international legal instruments against terrorism, and enactment and revision of domestic counter-terrorism legislation;
- (b) Development by Member States of strategies, policies and action plans for preventing and combating terrorism;
- (c) Effective criminal justice investigation, prosecution and adjudication of terrorism offences in line with the relevant international legal instruments and norms, relevant obligations of Member States in accordance with international legal instruments on human rights and good practices;
- (d) Increased national, regional and international cooperation, especially between criminal justice entities, to prevent and counter terrorism;
- (e) Advanced implementation by Member States of the United Nations Global Counter-Terrorism Strategy and relevant international legal instruments, through structural changes in their legal and criminal justice measures and internal functioning that are sustainable over time.

Programme performance in 2025

Strengthened criminal justice responses to counter terrorist financing in Côte d'Ivoire

- 16.60 Terrorist organizations often rely on illicit financial flows to sustain their operations, particularly in contexts where informal and cash-based economies are present. Furthermore, illicit flows in the informal economy allow terrorist organizations to move resources undetected, most notably in border areas and in the cattle industry. Addressing these challenges is essential to safeguard national and regional security. The subprogramme assisted Côte d'Ivoire on countering terrorist financing with a specific focus on analysing financial data and identifying suspicious transactions indicative of terrorist involvement. This included promoting the embedding of financial intelligence processes into judicial procedures, leading to improved inter-agency cooperation and ensuring that viable evidence contributed to prosecutions. Following these efforts, Côte d'Ivoire secured its first-ever convictions in eight terrorist financing cases (some have been appealed), thus strengthening its criminal justice response to terrorist financing.
- 16.61 Progress towards the objective is presented in the performance measure below (see table 16.9).

Table 16.9
Performance measure

2023 (actual)	2024 (actual)	2025 (actual)
—	Côte d'Ivoire adopted a decree establishing a national asset freezing committee in charge of the implementation of targeted financial sanctions pursuant to Security Council resolutions 1267 (1999) and 1373 (2001)	In Côte d'Ivoire, the Court of First Instance of Abidjan handed down the country's first-ever convictions for terrorist financing in eight cases

¹ See General Assembly resolutions [77/298](#) and [78/226](#).

² See Security Council resolution [2734 \(2024\)](#) and previous related Council resolutions.

Planned results for 2027

Result 1: institutional change in Southern Africa to build strong and accountable criminal justice systems and counter terrorism

Programme performance in 2025 and target for 2027

- 16.62 The subprogramme's work contributed to Mozambique adopting and initiating implementation of a comprehensive strategy on counter-terrorism, which met the planned target.
- 16.63 Progress towards the objective and the target for 2027 are presented in the performance measure below (see table 16.10).

Table 16.10

Performance measure

<i>2023 (actual)</i>	<i>2024 (actual)</i>	<i>2025 (actual)</i>	<i>2026 (planned)</i>	<i>2027 (planned)</i>
Mozambique developed a framework for training and mentoring with the Mozambique Legal and Judicial Training Centre	Mozambique strengthened coordination mechanisms within the Central Cabinet against Transnational Organized Crime and harmonized procedures to ensure a more unified and effective response to terrorism across all districts in Cabo Delgado and Maputo	Mozambique adopted and initiated implementation of a counter-terrorism strategy	One country strengthens its capacity to implement the national counter-terrorism strategy and to operationalize the newly created counter-terrorism centre	One country strengthens inter-agency coordination and enhances its capacity to effectively investigate and prosecute terrorist cases

Result 2: increased contributions of women officials to the strengthening of criminal justice systems against terrorism

Programme performance in 2025 and target for 2027

- 16.64 The subprogramme's work contributed to 775 women criminal justice officials developing the skills and knowledge to address terrorism, which did not meet the planned target of 1,050 women criminal justice officials. The target was not met due to fewer nominations of participants.
- 16.65 Progress towards the objective and the target for 2027 are presented in the performance measure below (see figure 16.IX).

Figure 16.IX

Performance measure: number of women criminal justice officials developing the skills and knowledge to address terrorism (annual)

Result 3: States are better prepared to counter radiological and nuclear terrorism through the International Convention for the Suppression of Acts of Nuclear Terrorism

Proposed programme plan for 2027

- 16.66 The International Convention for the Suppression of Acts of Nuclear Terrorism supports States in strengthening legislative frameworks and criminal justice systems, and preventing and combating nuclear terrorism. Article 7, paragraph 4 of the Convention requires States to designate competent authorities and liaison points to detect, prevent, suppress and investigate offences stipulated in the Convention, and institute criminal proceedings against persons alleged to have committed those crimes. The subprogramme supported efforts for increased adherence to and effective implementation of the Convention through a campaign to increase designations of and update competent authorities and liaison points to enable rapid, reliable information exchange, including during a crisis.

Lessons learned and planned change

- 16.67 The lesson for the subprogramme was that continuous engagement with multiple stakeholders across relevant agencies is key in both awareness-raising and effective implementation. In applying the lesson, the subprogramme will increase its engagement efforts, with both States not yet Parties and those already Parties, to highlight the importance of universalization and effective implementation, including obligations under the Convention, to encourage adherence to the Convention and application of its provisions.
- 16.68 Expected progress towards the objective is presented in the performance measure below (see figure 16.X).

Figure 16.X

Performance measure: number of States Parties to the International Convention for the Suppression of Acts of Nuclear Terrorism that have designated their competent authorities and liaison points (cumulative)

Deliverables

16.69 Table 16.11 lists all deliverables of the subprogramme.

C. Substantive deliverables

Consultation, advice and advocacy: advisory services on legislative drafting and strategies and plans of action; consultation on the development of technical assistance plans; advisory services on the visits of the Counter-Terrorism Committee; advice to national training institutions; advice and advocacy related to the 19 international legal instruments.

Databases and substantive digital materials: SHERLOC counter-terrorism tools, including the database of national central authorities for counter-terrorism cases.

D. Communication deliverables

Outreach programmes, special events and information materials: information kits in legal, criminal justice and related areas.

Digital platforms and multimedia content: website and social media accounts; dedicated communication campaigns for international days related to counter-terrorism matters.

^a Reflects updated planned deliverables for 2026. Values in square brackets represent the number of planned deliverables reflected in A/80/6 (Sect. 16).

Subprogramme 5 Justice

Objective

- 16.70 The objective, to which this subprogramme contributes, is to prevent crime and ensure more effective, fair, humane and accountable criminal justice systems as a basis for the rule of law.

Strategy

- 16.71 To contribute to the objective, the subprogramme will:
- (a) Promote the application and facilitate the development of United Nations standards and norms in crime prevention and criminal justice through support for criminal justice reform and coordination with all relevant sectors in national criminal justice systems and all crime prevention and criminal justice reform actors;
 - (b) Provide assistance, upon request, to Member States' crime prevention and criminal justice actors by supporting Member States with institution-building and providing capacity-building and technical advice in cooperation with other sectors, including education, health and social services, in the areas of: community and knowledge-based crime prevention to address risk factors and root causes of offending and reoffending; access to justice, including through policing with full respect for human rights, access to legal aid, alternatives to imprisonment and restorative justice; preparation, response and recovery from crisis; violence against women; violence against children; as well as penal and prison reform, including related to treatment of violent extremist³ prisoners, radicalization and social reintegration upon release;
 - (c) Develop and disseminate practical tools, such as guidance notes, handbooks, training curricula and model legislation, and support crime prevention and criminal justice actors in applying these tools, and share studies, good practices and online resources;
 - (d) Incorporate cross-cutting issues related to: developments in the delivery of justice through the use of new technology; victims and witnesses; addressing women's needs and experiences in crime prevention and criminal justice policies and programmes; and preventing and responding to violence against children.

³ The terms "violent extremist" and "violent extremism" refer to violent extremism as and when conducive to terrorism (see General Assembly resolution 80/229).

16.72 The above-mentioned work is expected to result in:

- (a) Improved frequency and quality in application of alternatives to imprisonment in appropriate cases, effective and efficient prison management and humane treatment of prisoners and enhanced capacity of and coordination between justice actors to address excessive and arbitrary police and pretrial detention;
- (b) Improved prosecution and adjudication of cases of violence against women and girls and improved prevention of and responses to violence against children;
- (c) Increased equal access to justice for people in vulnerable situations and increased public trust in the justice system, including through nationwide legal aid services that are accessible to all and are tailored to the rights and needs of the population;
- (d) Enhanced support for social reintegration of prisoners and prevention of recidivism;
- (e) Prevention of victimization and creation of safer communities;
- (f) Empowerment of women and girls within crime prevention and criminal justice programmes and systems;
- (g) Continued functioning of criminal justice systems during health and other crises and reduced risk of violations of the rights of those affected disproportionately, in particular detainees, prisoners and victims of crime.

Programme performance in 2025

Improved compliance of national prison systems with international standards to promote rehabilitation

16.73 Adherence to the Nelson Mandela Rules, the Bangkok Rules and other international standards is vital in safeguarding the human rights, dignity and prospects of rehabilitation of individuals deprived of their liberty. To that end, the subprogramme has partnered with national authorities to conduct compliance assessments, deliver targeted technical assistance for infrastructure upgrades and health services, provide staff training on detention practices and develop comprehensive guidance on prison reform and social reintegration. These efforts have driven measurable progress in multiple prison systems, such as reinforced emergency responses that prioritize legality, proportionality and care for detainees; the piloting of the “Together for Rehabilitation” classification tool for risk and needs assessments; and the enhancement of information technology capacity by implementing standardized digital intake procedures that improve transparency and efficiency. Technical assistance supported the implementation of proportionate security levels, audit mechanisms and risk management protocols, all of which reinforced humane operations. Through these multifaceted efforts, the subprogramme continues to transform detention environments, upholding international human rights standards and promoting sustainable rehabilitation.

16.74 Progress towards the objective is presented in the performance measure below (see figure 16.XI).

Figure 16.XI

Performance measure: number of national prison systems that improved their compliance with the Nelson Mandela Rules, the Bangkok Rules and/or other relevant international prison standards (cumulative)

Planned results for 2027

Result 1: crime prevention and criminal justice reform efforts with full respect for human rights

Programme performance in 2025 and target for 2027

- 16.75 The subprogramme's work contributed to 30 Member States integrating human rights into their crime prevention and criminal justice frameworks, in line with United Nations standards and norms, which met the planned target. The planned target for 2027 reflects the projected decrease in extrabudgetary resources.
- 16.76 Progress towards the objective and the target for 2027 are presented in the performance measure below (see figure 16.XII).

Figure 16.XII

Performance measure: number of Member States undertaking crime prevention and criminal justice reform efforts with full respect for human rights (cumulative)

Result 2: children and youth empowered to prevent child involvement in crime and violence**Programme performance in 2025 and target for 2027**

- 16.77 The subprogramme's work has contributed to 4,849 children and youth engaged in actions to prevent their involvement in crime and violence, such as sport-based community activities, which exceeded the planned target of 4,000 children and youth. The planned target for 2027 reflects the projected decrease in extrabudgetary resources.
- 16.78 Progress towards the objective and the target for 2027 are presented in the performance measure below (see figure 16.XIII).

Figure 16.XIII

Performance measure: number of children and youth engaged in actions to prevent child involvement in crime and violence (cumulative)

**Result 3: increased national ownership of crime prevention and criminal justice initiatives through institutional partnerships****Proposed programme plan for 2027**

- 16.79 By prioritizing engagement with government institutions and domestic authorities, the subprogramme ensures that crime prevention and criminal justice interventions are contextually relevant, locally driven and sustainable in the longer term. In 2024, the subprogramme partnered with 64 institutions, including government ministries, counter-terrorism units, correctional services and law enforcement agencies, to organize and deliver activities aligned with national priorities, legal frameworks and operational capacities.

Lessons learned and planned change

- 16.80 The lesson for the subprogramme was that engaging on a regular basis with a diverse range of institutions, delivering activities in national venues and incorporating their recommendations into activities fosters greater local ownership, improves assistance and strengthens collaboration at every level. In applying the lesson, the subprogramme will more actively involve government bodies and local partners in the design and delivery of activities, while intensifying post-training follow-up to incorporate their feedback and monitor impact. Furthermore, to reinforce national ownership and institutional commitment, the use of national venues for training purposes will be encouraged.
- 16.81 Expected progress towards the objective is presented in the performance measure below (see figure 16.XIV).

Figure 16.XIV

Performance measure: number of local or national institutions in beneficiary countries engaged in the design and/or delivery of technical assistance activities (cumulative)

Deliverables

16.82 Table 16.12 lists all deliverables of the subprogramme.

Table 16.12

Subprogramme 5: deliverables for the period 2025–2027, by category and subcategory

Category and subcategory	2025 planned	2025 actual	2026 planned ^a	2027 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	2	2	1	1

Technical materials (number of materials)	20	18	20	14
6. E-learning modules	20	18	20	14
C. Substantive deliverables				
Consultation, advice and advocacy: substantive and technical advice on crime prevention and criminal justice to 35 Member States, relevant organizations and agencies, as well as 10 national and regional programmes; advice on best practices in crime prevention and criminal justice reform.				

Category and subcategory	2025 planned	2025 actual	2026 planned ^a	2027 planned
--------------------------	-----------------	----------------	------------------------------	-----------------

D. Communication deliverables

Outreach programmes, special events and information materials: campaigns to observe Nelson Mandela International Day; promotional materials on UNODC mandate areas in crime prevention and criminal justice.

External and media relations: fundraising initiatives and strategic partnerships with international organizations and civil society organizations.

^a Reflects updated planned deliverables for 2026. Values in square brackets represent the number of planned deliverables reflected in A/80/6 (Sect. 16).

Subprogramme 6

Research, trend analysis and forensics

Objective

- 16.83 The objective, to which this subprogramme contributes, is to ensure that Member States have enhanced knowledge of trends on drugs and crime for effective scientific and evidence-based policy formulation and access to and use of quality forensic science data, information and tools in their efforts against drugs, crime and terrorism.

Strategy

- 16.84 To contribute to the objective, the subprogramme will:
- (a) Provide timely, accurate and disaggregated statistics and analyses of world drug and crime problems, with particular attention to specific manifestations of crime and its transnational dimensions through the production of global and thematic reports, an online monitoring platform and a data-sharing portal;
 - (b) Generate high-quality and relevant evidence through strengthened research capacity in the field and technical oversight at headquarters, including in coordination with the regional Centres of Excellence in Mexico and the Republic of Korea;
 - (c) Support countries through workshops, training, the provision of guidelines and other capacity-building efforts, in the collection of and reporting on data regarding drugs and crime, including as required to monitor progress against certain Sustainable Development Goals and targets, in particular under Goals 3, 5, 15 and 16, as they relate to drug use, trafficking, illicit financial flows, justice, corruption, crime and crime-related violence;
 - (d) Build capacity of national statistical systems and other relevant national institutions, upon request, to produce, disseminate and analyse drug and crime data and statistics, and assist Member States, upon request, in identifying trends, emerging issues and priorities in drugs, crime and corruption;
 - (e) Provide technical assistance and expert advice to drug-testing laboratories, forensic institutions and Member States on forensics standard setting, early warning systems and the exchange of quality forensic data, services and support for policymaking and decision-making;
 - (f) Develop and disseminate forensic best practices guidelines and scientific-technical publications on drugs and crime;
 - (g) Provide scientific support to the three treaty bodies under the international drug conventions, namely the Commission on Narcotic Drugs, the International Narcotics Control Board and WHO.
- 16.85 The above-mentioned work is expected to result in:
- (a) Member States, the international community and other relevant stakeholders using enhanced knowledge on existing and emerging drugs and crime issues to formulate strategic responses;

- (b) Member States increasingly producing and analysing statistical data on trends in existing and emerging drugs and crime issues;
- (c) Enhanced scientific and forensic capacity of law enforcement personnel, national drug testing and toxicology laboratories and forensic service providers in line with internationally accepted standards of performance;
- (d) Enhanced scientific support to the three treaty bodies under the international drug conventions.

Programme performance in 2025

Improved capacity and expertise of law enforcement officers and forensic personnel from the Americas in crime scene investigation and the examination of counterfeit and fraudulent security documents

- 16.86 The availability and use of quality forensic science services, data and information are essential components of law enforcement operations to combat the clandestine manufacture and trafficking of illicit drugs. In 2025, to support Member States in the Americas, the subprogramme developed and provided in-person training to 113 law enforcement and forensic personnel in 13 countries on crime scene investigation, the safe and secure handling of evidence, and the identification of counterfeit and fraudulent security documents such as passports and currency. Moving forward, the impact of the training will be measured through post-training questionnaires.
- 16.87 Progress towards the objective is presented in the performance measure below (see table 16.13).

Table 16.13
Performance measure

2023 (actual)	2024 (actual)	2025 (actual)
—	32 law enforcement officers from Costa Rica, El Salvador, Guatemala and Honduras have enhanced skills and expertise in crime scene investigation and identification of counterfeit and fraudulent security documents	113 law enforcement officers from Argentina, Bolivia (Plurinational State of), Chile, the Dominican Republic, Ecuador, Guyana, Jamaica, Panama, Paraguay, Peru, Trinidad and Tobago and Uruguay have enhanced skills and expertise in crime scene investigation and identification of counterfeit and fraudulent security documents

Planned results for 2027

Result 1: Member States drug testing and toxicology laboratories monitor their performance as part of quality assurance practices

Programme performance in 2025 and target for 2027

- 16.88 The subprogramme's work contributed to the continuous participation of 216 drug testing and toxicology laboratories in the UNODC laboratory's drug analysis proficiency test, helping Member States to better ensure the accuracy and reliability of testing procedures and foster a culture of continuous improvement, which exceeded the planned target of 206 forensic laboratories.
- 16.89 Progress towards the objective and the target for 2027 are presented in the performance measure below (see figure 16.XV).

Figure 16.XV

Performance measure: number of forensic laboratories continuously participating in the UNODC drug analysis proficiency test (cumulative)

Result 2: greater access to the evidence needed by Member States to understand and combat trafficking in persons

Programme performance in 2025 and target for 2027

- 16.90 The subprogramme's work contributed to the collection of 37,610 data points on trafficking in persons, including 29,703 sex-disaggregated data points, which exceeded the planned target of 36,000 data points, of which 27,000 were sex-disaggregated. The subprogramme successfully contributed to building evidence and analyses needed to enhance criminal justice responses and prevention against trafficking in persons.
- 16.91 Progress towards the objective and the target for 2027 are presented in the performance measure below (see figure 16.XVI).

Figure 16.XVI

Performance measure: number of data points on trafficking in persons reported by Member States available on the United Nations Office on Drugs and Crime data portal (cumulative)

Result 3: Member States increasingly utilize UNODC research for policymaking

Proposed programme plan for 2027

16.92 UNODC global research reports have become a leading source for knowledge on threats related to drugs and crime, offering a wealth of data and analysis that support Member States in addressing these threats and mitigating their consequences. The subprogramme produces and releases global reports such as the *World Drug Report*, the *Global Report on Trafficking in Persons*, the *Global Study on Homicide*, the *Global Analysis of Crimes that Affect the Environment* and the *World Wildlife Crime Report*. These are used to inform policy and programmes at the national, regional and global levels, as evidenced by the large number of resolutions and national and regional strategic documents referencing UNODC research.

Lessons learned and planned change

16.93 The lesson for the subprogramme was that global reports that are methodologically sound, policy-relevant, impartial, responsive to emerging trends and accessible effectively support Member States in their policymaking. In applying the lesson, the subprogramme will strengthen its data and analysis frameworks, increase the use of modern tools and artificial intelligence to produce more timely knowledge, and enhance dissemination strategies to ensure that global reports effectively inform evidence-based policymaking.

16.94 Expected progress towards the objective is presented in the performance measure below (see figure 16.XVII).

Figure 16.XVII
Performance measure: number of international resolutions, national/regional strategies and policy documents that reference UNODC research findings (cumulative)

Deliverables

16.95 Table 16.14 lists all deliverables of the subprogramme.

Table 16.14

Subprogramme 6: deliverables for the period 2025–2027, by category and subcategory

<i>Category and subcategory</i>	<i>2025 planned</i>	<i>2025 actual</i>	<i>2026 planned^a</i>	<i>2027 planned</i>
A. Facilitation of the intergovernmental process and expert bodies

7. Forensic publications on drug control and crime prevention	4	4	4	4
8. Journals on narcotics, and crime and society	1	1	1	1
Technical materials (number of materials)	14	14	14	14
9. On the monitoring of illicit drug crops	5	5	5	5
10. On drug control and crime prevention	9	9	9	9
C. Substantive deliverables				
Consultation, advice and advocacy: approximately 60 briefings, and dissemination events to Governments, international, regional and national organizations, institutions and laboratories on drugs and crime statistics and on forensics.				
Databases and substantive digital materials: UNODC crime and drug data (750,000 data portal views and more than 500,000 data points); 30 research publications; early warning advisory on new psychoactive substances (10,000 monthly sessions); United Nations Toolkit on Synthetic Drugs (19,000 monthly sessions).				

^a Reflects updated planned deliverables for 2026. Values in square brackets represent the number of planned deliverables reflected in A/80/6 (Sect. 16).

Subprogramme 7

Policy support

Objective

- 16.96 The objective, to which this subprogramme contributes, is to advance institutional reform and strengthen policy and operational responses by Member States on drug control, crime prevention and criminal justice.

Strategy

- 16.97 To contribute to the objective, the subprogramme will:
- (a) Conduct dialogues with Member States, international organizations and private sector entities to mobilize resources and carry out targeted advocacy and communication activities in substantive areas such as combating transnational organized crime, trafficking in drugs and corruption;

- (b) Provide assistance to headquarters and field-based offices related to supporting institutional reforms and ensuring policy coherence through strengthening policy dialogue and enhancing interdivisional coordination;
- (c) Further institutionalize a results-based management culture across UNODC by providing technical advice and quality oversight with a view to further strengthening transparency and accountability in UNODC interventions;
- (d) Undertake policy analysis and coordinate with other United Nations agencies on emerging and cross-cutting issues related to drugs, crime, corruption and terrorism;
- (e) Strengthen the strategic engagement of non-governmental stakeholders in assisting Member States to prevent and combat corruption, crime and terrorism, as appropriate and as determined in relevant treaties.

16.98 The above-mentioned work is expected to result in:

- (a) Increased awareness and capacity of Member States to address the interlinked issues of drugs, crime, corruption and terrorism at the global, regional, national and local levels and these issues being reflected within broader national development efforts;
- (b) Promotion of participation of civil society on issues related to drugs, crime and corruption, as mandated in relevant conventions and policy instruments, and enhanced engagement between Member States, the private sector, academia and civil society;
- (c) Greater public awareness of issues related to drugs, crime, corruption and terrorism.

Programme performance in 2025

Victims of trafficking receive comprehensive, victim-centred support through the United Nations voluntary trust fund for victims of trafficking in persons, especially women and children

16.99 Trafficking in persons has severe and lasting consequences for victims, who require both urgent protection and sustained support to rebuild their lives. Survivors face diverse needs, including emergency and medical care, psychosocial counselling, legal aid, education and reintegration into their communities. Addressing these needs in a coordinated, victim-centred manner is essential to prevent re-victimization and enable long-term recovery. The subprogramme has supported 220 projects led by local non-governmental organizations in 70 countries, directly assisting more than 100,000 victims of trafficking since the establishment of the United Nations voluntary trust fund for victims of trafficking in persons, especially women and children, in 2010. In 2025, greater emphasis was placed on supporting projects that provide comprehensive and tailored assistance to respond to both urgent and longer-term needs, resulting in 6,694 victims of trafficking receiving support, including emergency assistance, medical support, psychosocial counselling, legal aid, vocational training, formal education and repatriation and reintegration support.

16.100 Progress towards the objective is presented in the performance measure below (see figure 16.XVIII).

Figure 16.XVIII

Performance measure: number of victims of trafficking receiving emergency and medical services to meet immediate needs and other forms of support, such as psychosocial counselling and legal aid to meet longer-term needs (annual)

Note: “2025 (actual)” reflects figures available as of 1 March 2026. Final figures for 2025 are not yet available.

Planned results for 2027

Result 1: young people engage meaningfully in decision-making processes on drugs, crime and corruption

Programme performance in 2025 and target for 2027

- 16.101 The subprogramme’s work contributed to the organization of five regional youth consultations ahead of the regional preparatory meetings for the Fifteenth United Nations Congress on Crime Prevention and Criminal Justice, which met the planned target.
- 16.102 Progress towards the objective and the target for 2027 are presented in the performance measure below (see table 16.15).

Table 16.15

Performance measure

2023 (actual)	2024 (actual)	2025 (actual)	2026 (planned)	2027 (planned)
“Youth changemakers” held at the twentieth Conference of the States Parties to the United Nations Convention against Corruption	Generation Justice (GenJust) initiative launched at the Commission on Crime Prevention and Criminal Justice	Five regional youth consultations supported ahead of the regional preparatory meetings for the Fifteenth United Nations Congress on Crime Prevention and Criminal Justice	Generation Justice Youth Network provides support to the Fifteenth United Nations Congress on Crime Prevention and Criminal Justice	Generation Justice Youth Network supports the implementation of the Fifteenth United Nations Congress on Crime Prevention and Criminal Justice declaration

Result 2: public-private partnership initiatives are implemented in the context of the United Nations Convention against Cybercrime

Programme performance in 2025 and target for 2027

- 16.103 The subprogramme's work contributed to the launch of two new public-private partnerships in the Dominican Republic and Nigeria to address cybercrime, which met the planned target.
- 16.104 Progress towards the objective and the target for 2027 are presented in the performance measure below (see figure 16.XIX).

Figure 16.XIX

Performance measure: number of new public-private partnerships to address cybercrime (annual)

Result 3: increased public awareness of the threats posed by drugs, crime, corruption and terrorism through targeted social media content

Proposed programme plan for 2027

- 16.105 Communication plays a key role in demonstrating how UNODC contributes to tackling drugs, crime, corruption and terrorism challenges and their impacts on people. As of 2025, 63.9 per cent of the global population are estimated to use social media. To effectively reach its audience, the subprogramme is leveraging social media channels through targeted multimedia content. To further enhance its outreach, the subprogramme started using a media and social media monitoring platform providing in-depth analysis of coverage, audience engagement and media pick-up around UNODC campaigns, report launches and priority topics.

Lessons learned and planned change

- 16.106 The lesson for the subprogramme was that improved monitoring and analysis of data enables a better understanding of the Office's target audience. By leveraging technology and innovation, tailored messages and content can be crafted, thereby maximizing the reach of the Office's communications. In applying the lesson, the subprogramme will explore new digital communication channels and focus on developing more engaging products, such as animated videos, with a greater emphasis on multilingualism, to contribute to greater public awareness on issues under the UNODC mandate.
- 16.107 Expected progress towards the objective is presented in the performance measure below (see figure 16.XX).

Figure 16.XX

Performance measure: number of followers on UNODC corporate social media channels (cumulative)

Deliverables

16.108 Table 16.16 lists all deliverables of the subprogramme.

Table 16.16

7. On results-based management and mainstreaming the 2030 Agenda	3	4	1	3
D. Communication deliverables				
Outreach programmes, special events and information materials: global campaigns to observe the International Day against Drug Abuse and Illicit Trafficking, World Day against Trafficking in Persons, International Day for the Prevention of and Fight against All Forms of Transnational Organized Crime, and International Anti-Corruption Day; promotional materials on UNODC mandate areas.				
External and media relations: press releases and events; fundraising outreach and strategic partnerships with international financial institutions, international organizations and the private sector.				
Digital platforms and multimedia content: UNODC website and social media channels.				

Subprogramme 8

Technical cooperation and field support

Objective

- 16.109 The objective, to which this subprogramme contributes, is to strengthen Member State-owned programmes countering drugs, crime and terrorism.

Strategy

- 16.110 To contribute to the objective, the subprogramme will:
- (a) Provide policy advice, strategic guidance and coordination to all UNODC field offices for the development and implementation of integrated operational programmes and ensure their full implementation;
 - (b) Ensure operational accountability and programmatic efficiency, including by engaging in the development of business operational strategies and common back offices, monitoring risks and ensuring the inclusion of results-based management in the planning, monitoring and reporting of all UNODC field presences;
 - (c) Provide substantive, technical and policy advice through its field offices, according to their mandates and at the request of Member States, and ensure the inclusion of governance, security, and preventing and countering drugs, crime and terrorism with full respect for human rights in the implementation of joint United Nations programmes through technical assistance;
 - (d) Support the development of regional strategies and operational programmes promoting the joint pursuit of justice, public security and development that build on the normative and technical assistance of the Office, through policy dialogue and coordination, and by serving as a common platform for joint efforts with United Nations partners, international financial institutions, other multilateral bodies and civil society;
 - (e) Provide technical and legislative assistance among partner countries designed to foster full ownership by regional entities to support the establishment of South-South cooperation and interregional cooperation;
 - (f) Provide targeted capacity-building to Member States to build peaceful, just and resilient societies and institutions, including through North-South, South-South and triangular cooperation.
- 16.111 This work is expected to result in:
- (a) Improved legal and policy responses and strengthened capacity of Member States to address the world drug problem, prevent and counter transnational organized crime, corruption and terrorism and promote justice and the rule of law and participate more effectively in joint initiatives and cross-border and transnational cooperation;
 - (b) Member States advancing in evidence-based and tailored programmes in priority areas of UNODC mandates, to contribute to peace, security and development based on contextual needs assessments;
 - (c) Renewed cooperation and coherence with offices of the United Nations resident coordinators, other United Nations entities and regional Development Coordination Office desks under both development system and business operations reforms, thus enhancing the efficiency of support to Member States.

Programme performance in 2025

Improved accountability and justice system effectiveness in Haiti

- 16.112 In line with Security Council resolution [2692 \(2023\)](#), which supports international efforts to stabilize Haiti through enhanced governance and security, the subprogramme strengthened the criminal justice system by supporting the establishment of specialized judicial task forces (Pôles judiciaires spécialisés) for financial crimes and building the capacity of the Anti-Corruption Unit (Unité de lutte contre la corruption), the Central Financial Intelligence Unit (Unité centrale de renseignements financiers), the General Inspectorate of Finance (Inspection générale des finances), the National Public Procurement Commission (Commission nationale des marchés publics) and the Financial and Economic Affairs Bureau (Bureau des affaires financières et économiques). Engagement with civil society and academia further reinforced investigative, prosecutorial and judicial capacities, strengthened preventive mechanisms and fostered accountability, contributing to a more resilient justice system and advancing the fight against corruption in Haiti.
- 16.113 Progress towards the objective is presented in the performance measure below (see table 16.17).

Table 16.17

Performance measure

2023 (actual)	2024 (actual)	2025 (actual)
—	—	Improved asset declaration compliance, with annual declarations rising from an average of 202 in 2019–2022 (606 total) to 366 in 2022–2025 (916 total) The number of complaints received by the Anti-Corruption Unit between October 2023 and May 2025 doubled compared to the previous 20-month period The Anti-Corruption Unit completed 55 investigation reports in the past three to four years, estimating public losses due to corruption at \$23 million and referring priority cases for prosecution

Planned results for 2027

Result 1: navigating challenges to safety at sea through strengthened maritime safety management systems

Programme performance in 2025 and target for 2027

- 16.114 The subprogramme's work contributed to nine countries preparing port facility security plans that comply with the International Code for the Security of Ships and of Port Facilities (Angola, the Comoros, Kenya, Madagascar, Mauritius, Mozambique, Namibia, Seychelles and the United Republic of Tanzania), which met the planned target.

- 16.115 Progress towards the objective and the target for 2027 are presented in the performance measure below (see table 16.18).

Table 16.18

Performance measure

<i>2023 (actual)</i>	<i>2024 (actual)</i>	<i>2025 (actual)</i>	<i>2026 (planned)</i>	<i>2027 (planned)</i>
Ports in nine countries started to conduct daily patrols and review their port facility security plans	One new port control unit established in Port Louis	Nine countries (Angola, the Comoros, Kenya, Madagascar, Mauritius, Mozambique, Namibia, Seychelles and the United Republic of Tanzania) prepared their port facility security plans and are International Ship and Port Facility Security Code-compliant	At least two ports in each of the nine countries assisted are International Ship and Port Facility Security Code-compliant	Criminal justice practitioners in at least one country in each of the eight regions supported demonstrate enhanced capacity to investigate, prosecute and adjudicate maritime crime cases
Protected radiata tortoises seized in Madagascar	Three additional ports in the Comoros, Kenya and Seychelles are International Ship and Port Facility Security Code-compliant			
A new port control unit established in Maputo				

Result 2: enhanced transparency and efficiency in asset management for improved crime prevention and public trust

Programme performance in 2025 and target for 2027

- 16.116 The subprogramme's work in 2025 contributed to Mozambique leasing 30 assets to third parties, allocating 26 assets to public services and generating \$7.53 million in revenue, which did not meet the planned cumulative target of 300 seized assets auctioned, 60 leased and 120 allocated to public services and \$23.44 million generated. The targets were not met due to the lower-than-projected value of seized and confiscated assets. Delays were also experienced due to post-electoral tensions and reviews of criminal proceedings.
- 16.117 Progress towards the objective and the target for 2027 are presented in the performance measure below (see figure 16.XXI).

Figure 16.XXI
Performance measure: asset management and revenue generation in Mozambique (cumulative)

Result 3: organized criminal activity prevented and addressed on the lands and territories traditionally inhabited by Indigenous Peoples

Proposed programme plan for 2027

- 16.118 The lands and territories traditionally inhabited by Indigenous Peoples in the Brazilian Amazon face significant threats, including drug trafficking, trafficking in persons and crimes that affect the environment. The subprogramme has supported Indigenous communities in strengthening their traditional and ancestral approaches to addressing these threats through capacity development, geotechnical monitoring, early warning systems, the provision of autonomous surveillance equipment, the dissemination of preparedness models and the development of integrated community-led and coordinated response mechanisms with law enforcement and relevant government environmental agencies. The subprogramme established an inter-institutional working group to enhance surveillance system evaluation, integrate monitoring tools and develop response indicators for organized criminal activity, and is advancing an integrated digital platform linking Indigenous communities with the Government of Brazil for more effective responses.

Lessons learned and planned change

- 16.119 The lesson for the subprogramme was that prioritizing Indigenous knowledge and community-led approaches is essential to effectively prevent, detect and respond to organized criminal activity in their lands and territories. In applying the lesson, the subprogramme will strengthen Indigenous-led protection and responses by embedding traditional knowledge in coordinated responses, expanding geographical coverage and enhancing engagement with youth communicators and government agencies.

16.120 Expected progress towards the objective is presented in the performance measure below (see figure 16.XXII).

Figure 16.XXII

Performance measure: number of lands and territories adopting community-led protection strategies to prevent, detect and respond to organized criminal activity (cumulative)

Deliverables

16.121 Table 16.19 lists all deliverables of the subprogramme.

3. Seminars on programme development and the 2030 Agenda	13	13	13	13
C. Substantive deliverables				
Consultation, advice and advocacy: advisory services through field office network on policies, strategies and cooperation frameworks and consultations on strategic priorities and new programmes with 150 Member States and 1,500 partners; strategic and operational field support and substantive oversight services in UNODC mandate areas.				
D. Communication deliverables				
Outreach programmes, special events and information materials: national campaigns in approximately 30 countries to observe the International Day against Drug Abuse and Illicit Trafficking, the International Day for the Prevention of and Fight against All Forms of Transnational Organized Crime, World Day against Trafficking in Persons and International Anti-Corruption Day.				
External and media relations: fundraising outreach and partnerships with 10 international financial institutions, 20 international organizations and 10 private sector companies specifically focused on country or regional contexts.				
Digital platforms and multimedia content: 17 UNODC field offices' websites.				
E. Enabling deliverables				
Safety and security: safety and security services to approximately 125 physical field office locations in 103 countries.				

Subprogramme 9

Component 1

Provision of secretariat services and substantive support to the Commission on Narcotic Drugs, the Commission on Crime Prevention and Criminal Justice and the United Nations Congress on Crime Prevention and Criminal Justice

Objective

- 16.122 The objective, to which component 1 of this subprogramme contributes, is to ensure the effective and efficient functioning of the United Nations intergovernmental bodies dealing with issues relating to drugs, crime and terrorism, as well as the effective and efficient functioning of the standing open-ended intergovernmental working group on improving the governance and financial situation of UNODC and of the United Nations Congress on Crime Prevention and Criminal Justice in fulfilling their advisory roles.

Strategy

- 16.123 To contribute to the objective, the component will:
- (a) Provide substantive, technical and organizational services to the Commission on Narcotic Drugs and its five subsidiary bodies, to the Commission on Crime Prevention and Criminal Justice and to the United Nations congresses on crime prevention and criminal justice, including preparations for the organization of the Fifteenth Congress and the adoption of its outcome document;
 - (b) Provide support to the standing open-ended intergovernmental working group on improving the governance and financial situation of UNODC by facilitating the preparations for and the organization of the formal and informal meetings of the working group.
- 16.124 The above-mentioned work is expected to result in:
- (a) Enhanced cooperation among Member States in accelerating the implementation of international drug policy commitments as well as comprehensive strategies for crime prevention towards social and economic development and integrated approaches to challenges faced by criminal justice systems;
 - (b) Enhanced understanding of Member States of governance and financial matters relating to UNODC;
 - (c) Increased participation by a broad and inclusive group of representatives.

Programme performance in 2025

Preparations advanced for the Fifteenth United Nations Congress on Crime Prevention and Criminal Justice

- 16.125 In 2025, the component supported Member States in their preparations for the Fifteenth United Nations Congress on Crime Prevention and Criminal Justice, to be held in April 2026 in Abu Dhabi. Pursuant to General Assembly resolutions [78/223](#) and [79/186](#), it organized five regional preparatory meetings for the Congress in Austria, Costa Rica, Ethiopia, Morocco and Thailand, enabling Member States to examine the items on the provisional agenda and the topics of the workshops of the Congress, and to formulate action-oriented recommendations. The component also produced a discussion guide on the main theme and agenda items of the Congress, to support the preparatory meetings and facilitate the preparation of the zero draft of the outcome document, and coordinated

intersessional consultations on that draft declaration to be adopted by the Congress. Planning arrangements with the host country were advanced, including through a dedicated mission to review venue readiness and logistical requirements. To ensure transparency and inclusive and informed engagement, the component continued to provide updated information through the Congress website and promotional events at related forums.

16.126 Progress towards the objective is presented in the performance measure below (see table 16.20).

Table 16.20

Performance measure

2023 (actual)	2024 (actual)	2025 (actual)
—	—	Member States formulated action-oriented recommendations during the regional preparatory meetings
		Zero draft of the outcome document of the Fifteenth Congress developed and informal consultations on the draft outcome document conducted

Planned results for 2027**Result 1: strengthened implementation of international crime prevention and criminal justice policy commitments****Programme performance in 2025 and target for 2027**

16.127 The component's work contributed to 100 per cent of Member States participating in the meetings of the Commission on Crime Prevention and Criminal Justice expressing full satisfaction with the quality and timeliness of technical and substantive services provided by the Secretariat to the Governing Bodies, which exceeded the planned target of 87 per cent.

16.128 Progress towards the objective and the target for 2027 are presented in the performance measure below (see figure 16.XXIII).

Figure 16.XXIII

Performance measure: Member States participating in the meetings of the Commission on Crime Prevention and Criminal Justice expressing full satisfaction with the quality and timeliness of technical and substantive services provided by the Secretariat to the Governing Bodies

(Percentage)

Result 2: accelerated crime prevention, criminal justice and the rule of law through the adoption and implementation of the Abu Dhabi declaration

Programme performance in 2025 and target for 2027

- 16.129 The component's work contributed to 100 per cent of Member States participating in the meetings of the Commission on Crime Prevention and Criminal Justice in preparation for the Fifteenth United Nations Congress on Crime Prevention and Criminal Justice expressing full satisfaction with the quality and timeliness of technical and substantive services provided by the Secretariat to the Governing Bodies, which exceeded the planned target of 87 per cent.
- 16.130 Progress towards the objective and the target for 2027 are presented in the performance measure below (see figure 16.XXIV).

Figure 16.XXIV

Performance measure: Member States participating in the meetings of the Commission on Crime Prevention and Criminal Justice expressing full satisfaction with the quality and timeliness of technical and substantive services provided by the Secretariat to the Governing Bodies, including in the context of the Fifteenth United Nations Congress on Crime Prevention and Criminal Justice

(Percentage)

Result 3: accelerated implementation of international drug policy commitments to effectively address and counter the world drug problem

Proposed programme plan for 2027

- 16.131 In the 2019 Ministerial Declaration on Strengthening Our Actions at the National, Regional and International Levels to Accelerate the Implementation of Our Joint Commitments to Address and Counter the World Drug Problem, Member States resolved to review the progress made in implementing all international drug policy commitments in the Commission on Narcotic Drugs in 2029, with a midterm review in 2024. At the midterm review, the Commission adopted a high-level declaration and committed to accelerating the implementation of all policy commitments until 2029. The component supports the follow-up process by organizing thematic discussions on relevant topics and the preparation of outcome documents.

Lessons learned and planned change

- 16.132 The lesson for the component was that effective implementation of international drug policy commitments requires a comprehensive approach and the inclusive participation of Member States and relevant stakeholders in the thematic discussions. In applying the lesson, the component will continue to refine meeting formats and services to facilitate broader participation and better respond to the needs of Member States and stakeholders.

16.133 Expected progress towards the objective is presented in the performance measure below (see figure 16.XXV).

Figure 16.XXV

Performance measure: percentage of participants reporting that services provided by the Secretariat to the Governing Bodies enabled them to effectively contribute to the thematic discussions on the accelerated implementation of international drug policy commitments to effectively address and counter the world drug problem

(Percentage)

Deliverables

16.134 Table 16.21 lists all deliverables of the component.

Table 16.21

Subprogramme 9, component 1: deliverables for the period 2025–2027, by category and subcategory

Category and subcategory	2025 planned	2025 actual	2026 planned ^a	2027 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	92	90	83	65
1. Reports to the General Assembly on international cooperation to counter the world drug problem and on crime prevention and criminal justice, including reports on the United Nations congresses on crime prevention and criminal justice	4	17	19 [20]	4
2. Notes to the Economic and Social Council on the contribution of the Commission on Narcotic Drugs and of the Commission on Crime Prevention and Criminal Justice to the annual high-level political forum on sustainable development	2	2	2	2
3. Annual reports to the Economic and Social Council on the Commission on Narcotic Drugs and the Commission on Crime Prevention and Criminal Justice	4	4	4	4
4. Annual reports to the Commission on Crime Prevention and Criminal Justice	17	17	15	15
5. Reports to the Commission on Narcotic Drugs	13	13	13	13
6. Reports and notes by the Secretariat to subsidiary bodies of the Commission on Narcotic Drugs	30	20	28	25
7. Notes by the Secretariat to the Commission on Narcotic Drugs and the Commission on Crime Prevention and Criminal Justice	2	2	2	2
8. Reports to the regional preparatory meetings of the Fifteenth United Nations Congress on Crime Prevention and Criminal Justice	20	15	–	–

Category and subcategory	2025 planned	2025 actual	2026 planned ^a	2027 planned
Substantive services for meetings (number of three-hour meetings)	195	140	181	165
Meetings of:				
9. The Economic and Social Council	6	6	6	6
10. The Commission on Crime Prevention and Criminal Justice	46	31	46	46
11. The Commission on Narcotic Drugs	46	39	46	46

15. Fifteenth United Nations Congress on Crime Prevention and Criminal Justice	–	–	26	–
B. Generation and transfer of knowledge				
Publications (number of publications)	5	5	5	5
16. On the manufacture of narcotic drugs and psychotropic substances and their precursors	1	1	1	1
17. Directory of competent national authorities under the international drug control treaties	1	1	1	1
18. Schedules and tables of the international drug control conventions	3	3	3	3
C. Substantive deliverables				
Consultation, advice and advocacy: substantive and technical advice to the Vienna-based Commissions, representatives of Member States, permanent missions in Vienna and other relevant stakeholders; notes verbales as notifications under the international drug control treaties; advice on the follow-up to the mandates contained in relevant resolutions and decisions adopted by the Commissions.				
Databases and substantive digital materials: online information on the manufacture of narcotic drugs and psychotropic substances and their precursors as well as on the competent national authorities under the international drug control treaties; database on resolutions and decisions by the Commission on Narcotic Drugs and the Commission on Crime Prevention and Criminal Justice.				
D. Communication deliverables				
Outreach programmes, special events and information materials: special events of the Commissions, including the annual launch of the <i>World Drug Report</i> .				
Digital platforms and multimedia content: websites for the Commissions and the United Nations congresses on crime prevention and criminal justice, secure web pages for use by the Commission on Narcotic Drugs, the Commission on Crime Prevention and Criminal Justice and the standing open-ended intergovernmental working group on improving the governance and financial situation of UNODC; social media accounts highlighting key developments in the work of the Commissions.				

^a Reflects updated planned deliverables for 2026. Values in square brackets represent the number of planned deliverables reflected in A/80/6 (Sect. 16).

Component 2

Provision of secretariat services and substantive support to the International Narcotics Control Board

Objective

- 16.135 The objective, to which component 2 of this subprogramme contributes, is to ensure the effective and efficient functioning of the International Narcotics Control Board in fulfilling its treaty-based mandate, through such measures as monitoring and promoting the full implementation of and full compliance with the three international drug control treaties and supporting Member States in implementing their treaty obligations.

Strategy

16.136 To contribute to the objective, the component will:

- (a) Provide independent secretariat services and substantive support to the International Narcotics Control Board, including ensuring that the Board is provided with advice on treaty implementation;
- (b) Raise awareness of Governments and the international community about the implementation of the international drug control conventions, through the publication and dissemination of the treaty-mandated reports of the Board and on the need to develop and implement national drug control policies and regulatory control systems for narcotic drugs, psychotropic substances and precursor chemicals;
- (c) Support Governments in meeting their treaty-based obligations for reporting to the Board, in monitoring the international movement of precursors and the illicit use of internationally controlled and non-scheduled precursors as well as equipment, and in promoting cooperation and the exchange of import and export authorizations, including through the International Narcotics Control Board learning programme and the International Import and Export Authorization System (I2ES), as well as information on licit and illicit activity, through electronic means such as the Pre-Export Notification Online system, the Pre-Export Notification Online Light system and the Precursors Incident Communication System, projects Prism and Cohesion and task force efforts; and support Governments in enhancing cooperation with relevant private sector entities, helping Member States to make progress towards Goals 3, 11, 16 and 17;
- (d) Provide technical advice to the Board in assessing substances for scheduling recommendations under the United Nations Convention against Illicit Traffic in Narcotic Drugs and Psychotropic Substances of 1988;
- (e) Build the capacity of and enhance cooperation among law enforcement, customs, postal and other national agencies to ensure the availability of controlled substances for licit purposes and to safely detect and interdict controlled substances, new psychoactive substances and non-medical synthetic opioids, through the Global Rapid Interdiction of Dangerous Substances programme, in line with international commitments;
- (f) Raise awareness and provide training to relevant national authorities on:
 - (i) Implementing the international drug control conventions;
 - (ii) Identifying and responding to changing patterns in trafficking in and misuse of controlled substances, new psychoactive substances and non-medical synthetic opioids;
 - (iii) Implementing the simplified control measures for international trade in controlled substances during emergency situations.

16.137 The above-mentioned work is expected to result in:

- (a) Advancement of the Board's dialogue with Governments to promote implementation of the drug control conventions and the Board's recommendations and engagement on treaty-related matters;
- (b) Effective functioning of the international system for licit trade in controlled substances;
- (c) More accurate identification and reporting by Governments on their needs for and consumption of narcotic drugs and psychotropic substances for medical and scientific purposes;
- (d) Increased availability of controlled substances, with improved cooperation among Member States to ensure a balance between the supply of and demand for controlled substances;
- (e) Decreased availability of precursor chemicals and essential equipment for the illicit manufacture of drugs;

- (f) Reduction in trafficking in and misuse of internationally controlled substances and new psychoactive substances;
- (g) Improved response of Member States to emergency situations, and their impacts on the demand for and trafficking of new psychoactive substances and non-medical synthetic opioids;
- (h) Improved measures by Member States to respond to emergency situations requiring expedited trade in and humanitarian supply of controlled substances for medical purposes.

Programme performance in 2025

Effective functioning of the international system of estimates and assessments for licit trade in narcotic drugs and psychotropic substances for medical and scientific purposes

- 16.138 Internationally controlled narcotic drugs and psychotropic substances are used in anaesthesia, pain management, opioid agonist therapy and the treatment of neurological and mental health conditions. Ensuring the licit trade of these substances is essential to ensuring access to and availability of these substances for medical and scientific purposes. The component worked with Member States to ensure the effective functioning of the international system for licit trade in these substances, promoting their availability and ensuring their supply for medical and scientific purposes while preventing their diversion, including by processing estimates for narcotic drugs and assessments for psychotropic substances and monitoring licit activities involving these substances.
- 16.139 Progress towards the objective is presented in the performance measure below (see figure 16.XXVI).

Figure 16.XXVI

Performance measure: number of processed estimates and assessments for narcotic drugs and psychotropic substances used in medical treatment (annual)

Planned results for 2027

Result 1: reduced trafficking in highly potent new psychoactive substances and non-medical synthetic opioids

Programme performance in 2025 and target for 2027

- 16.140 The component's work contributed to Member States reporting 21,925 seizures of new psychoactive substances and non-medical synthetic opioids through the Project Ion Incident Communication System, which did not meet the planned target of increased seizures of new psychoactive substances

and non-medical synthetic opioids. The target was not met due to reduced resource availability, which delayed, among other things, planned capacity-building activities.

- 16.141 Progress towards the objective and the target for 2027 are presented in the performance measure below (see table 16.22).

Table 16.22
Performance measure

2023 (actual)	2024 (actual)	2025 (actual)	2026 (planned)	2027 (planned)
Member States have access to guidance for voluntary cooperation with e-commerce, express courier industry, freight forwarding industry and Internet-related services	55 Member States engaged in voluntary cooperation with the private sector to prevent trafficking and marketing of new psychoactive substances and non-medical synthetic opioids	Member States reported 21,925 seizures of new psychoactive substances and non-medical synthetic opioids, a decrease compared to 24,327 in 2024	Member States increase the number of seizures of new psychoactive substances and non-medical synthetic opioids	Member States increase the number of seizures of new psychoactive substances and non-medical synthetic opioids

Result 2: strengthened capacity of Member States to ensure adequate availability of internationally controlled substances for medical and scientific purposes

Programme performance in 2025 and target for 2027

- 16.142 The component's work contributed to the enrolment of 160 countries and territories in International Narcotics Control Board e-learning modules, which met the planned target. This strengthened the capacity of Member States to comply with the mandates of the treaties, particularly the collection, analysis and reporting of treaty-mandated data, and to ensure the availability of internationally controlled substances for licit purposes.
- 16.143 Progress towards the objective and the target for 2027 are presented in the performance measure below (see figure 16.XXVII).

Figure 16.XXVII
Performance measure: number of countries and territories enrolled in the International Narcotics Control Board e-learning modules (cumulative)

Result 3: reduced availability of precursor chemicals and non-scheduled chemicals for use in the illicit manufacture of drugs

Proposed programme plan for 2027

- 16.144 Precursor chemicals controlled under article 12 of the 1988 Convention, materials and equipment addressed in article 13 of the 1988 Convention and non-scheduled chemicals are diverted from licit trade to illicitly manufacture drugs. To prevent diversion, the component has been providing investigative tools to Member States and facilitating cooperation among national authorities and the private sector, including through the Pre-Export Notification Online and Pre-Export Notification Online Light systems and the Precursors Incident Communication System.

Lessons learned and planned change

- 16.145 The lesson for the subprogramme was that some industries were unaware of the diversion and trafficking risks and of the initiatives and tools of the International Narcotics Control Board to prevent diversion. In applying the lesson, the component will seek to harness the capability of international industry associations as multipliers for awareness-raising and cooperation.
- 16.146 Expected progress towards the objective is presented in the performance measure below (see table 16.23).

Table 16.23

Performance measure

2023 (actual)	2024 (actual)	2025 (actual)	2026 (planned)	2027 (planned)
18 chemicals assessed for possible international control, with the Board's recommendation subsequently adopted by the Commission on Narcotic Drugs	Officials from nine Governments used the Precursors Incident Communication System to exchange information on equipment incidents	International cooperation facilitated by the Board's Pre-Export Notification Online platform thwarted an attempt to divert three tons of the fentanyl precursor 1-boc-4-piperidone, potentially sufficient to yield approximately 1.4–3.3 tons of fentanyl	Increased usage by Member States of Board tools to prevent and disrupt the diversion of precursor chemicals, non-controlled chemicals and equipment to illicit drug manufacture	Increased awareness among industry of Board tools, leading to more notifications of suspicious activity

Deliverables

- 16.147 Table 16.24 lists all deliverables of the component.

Table 16.24

Subprogramme 9, component 2: deliverables for the period 2025–2027, by category and subcategory

<i>Category and subcategory</i>	<i>2025 planned</i>	<i>2025 actual</i>	<i>2026 planned</i>	<i>2027 planned</i>
A. Facilitation of the intergovernmental process and expert bodies

2. Report of the International Narcotics Control Board on the implementation of articles 12 and 13 of the 1988 Convention, on narcotic drugs and on psychotropic substances	3	3	3	3
3. Reports on the supervision of the movement of narcotic drugs, psychotropic substances and precursor chemicals for licit purposes and on the supply of opiate raw materials and demand for opiates for medical and scientific purposes	8	8	8	7
4. Reports of the Committee on Finance and Administration and the Standing Committee on Estimates, and reports on intersessional developments, the implementation of decisions, and matters examined and decisions taken by the International Narcotics Control Board	11	9	11	11
5. Estimated requirements for narcotic drugs, assessments of requirements for psychotropic substances, and assessments of licit requirements for amphetamine-type stimulant precursors	6	6	6	6
6. Evaluation of overall treaty compliance by Governments, report on measures to ensure the execution of the international drug control treaties, reports on missions conducted by the International Narcotics Control Board, and specific studies on and evaluation of implementation by Member States of recommendations made by the Board	23	4	23	14
Substantive services for meetings (number of three-hour meetings)	98	106	98	98
Meetings of:				
7. The International Narcotics Control Board and its Standing Committee on Estimates	60	48	60	60
8. Ad hoc expert groups to advise the International Narcotics Control Board	18	18	18	18
9. The International Narcotics Control Board with Member States, international and regional organizations, the private sector and academia, as appropriate	20	40	20	20
Conference and secretariat services for meetings (number of three-hour meetings)	98	106	98	98
Meetings of:				
10. The International Narcotics Control Board and its Standing Committee on Estimates	60	48	60	60
11. Ad hoc expert groups to advise the International Narcotics Control Board	18	18	18	18
12. The International Narcotics Control Board with Member States, international and regional organizations, the private sector and academia, as appropriate	20	40	20	20
B. Generation and transfer of knowledge				
Field and technical cooperation projects (number of projects)	3	3	3	3
13. To support Government compliance with the international drug control conventions	3	3	3	3
Seminars, workshops and training events (number of days)	4	9	4	4
14. Training courses on compliance with drug control treaties and availability of internationally controlled substances for licit purposes while preventing diversion and abuse	4	9	4	4
Technical materials (number of materials)	96	86	96	86
15. Estimates and assessments of medical and scientific requirements for narcotic drugs and psychotropic substances	64	64	64	64

Category and subcategory	2025 planned	2025 actual	2026 planned	2027 planned
16. Forms for treaty-mandated reporting by Member States on narcotic drugs, psychotropic substances and precursor chemicals under the 1961, 1971 and 1988 Conventions and related Economic and Social Council resolutions, and annual update of the lists of narcotic drugs, psychotropic substances and precursor chemicals controlled under the three conventions	12	9	12	9
17. Tables of countries that require authorizations for the import of substances listed in Schedules III and IV of the 1971 Convention, and the special international surveillance list of non-scheduled chemicals	5	5	5	5
18. Training materials for national authorities on implementing the provisions of the three drug-control conventions	15	8	15	8

C. Substantive deliverables

Consultation, advice and advocacy: substantive support to country missions of the International Narcotics Control Board to review implementation of the conventions and to make recommendations to Governments aimed at improving treaty adherence and implementation with a view to ensuring the availability of internationally controlled substances while preventing diversion, trafficking and misuse; consultations with Member States on the control of narcotic drugs, psychotropic substances and precursor chemicals, as well as on issues relating to non-scheduled chemicals, including designer precursors, equipment and materials used in illicit drug manufacture, and new psychoactive substances and synthetic opioids.

Databases and substantive digital materials: International Drug Control System Database used by the International Narcotics Control Board secretariat; International Import and Export Authorization System (I2ES), with 78 registered countries and territories; Pre-Export Notification Online and Pre-Export Notification Online Light systems, with 170 registered countries and territories; Precursors Incident Communication System, used by approximately 95 Governments; and Project Ion Incident Communication System and Global Rapid Interdiction of Dangerous Substances Intelligence, used actively by 179 Governments.

D. Communication deliverables

Outreach programmes, special events and information materials: side events during intergovernmental meetings and meetings of the International Narcotics Control Board with Member States and civil society; and information materials on the recommendations and positions of the Board to decision makers and the general public.

External and media relations: press releases, press conferences and web stories on activities of the International Narcotics Control Board; responses to media requests; statements by members of the Board at intergovernmental meetings; and brochures and newsletters for Governments.

Digital platforms and multimedia content: upgraded website of the International Narcotics Control Board, institutional social media accounts and multimedia banners; and secure web pages for Board members and competent national authorities.
