Subprogramme 4. Business transformation and accountability	41
Subprogramme 5. Addressing racism in the workplace	45

A. Proposed programme plan for 2027 and programme performance in 2025

Overall orientation

Mandates and background

- 29A.1 The Department of Management Strategy, Policy and Compliance is responsible for policy leadership in all management areas through the provision of a clear, integrated global management strategy and policy framework and through strengthened monitoring, evaluation and accountability mechanisms. The Department is also responsible, jointly with the Department of Operational Support, for managing the activities of the Office of Information and Communications Technology. The mandate derives from the priorities established in relevant General Assembly resolutions and decisions, including resolutions [72/266 A](#), [72/266 B](#), [72/254](#) and [73/281](#). The Department plays an integral role in realizing the Secretary-General's management paradigm, with an emphasis on transparency, accountability and decision-making that is closer to points of delivery.

Strategy and external factors for 2027

- 29A.2 The strategy for 2027 includes continuing to advance the management paradigm through an integrated approach, with five interlinked pillars: the enterprise resource planning solution; programme planning, finance and budget; human resources; business transformation and accountability; and addressing racism and racial discrimination. The Department will:
- (a) Commit to new internal ways of working, including through the formulation of holistic policies and approaches that foster the achievement of tangible results, including through renewed investment in technology and a commitment to continuous improvement;
 - (b) Strengthen the Organization's resilience, including its preparedness to maintain business continuity in emergencies and to continually adapt to changing environments, risks and opportunities;
 - (c) Drive results-based management policies and practices into the daily functioning and culture of the Organization, together with an integrated cycle of planning, risk and performance management, and evaluation;
 - (d) Promote a culture of efficiency in the request for and use of Member States' resources for the implementation of all Secretariat activities;
 - (e) Foster greater transparency and accountability to engender greater credibility and trust in the capabilities of the United Nations as an organization, among both the Member States and the people whom it serves;
 - (f) Enhance data analysis and reporting capabilities that enable real-time, user-friendly access to data to support informed decision-making and improved management of risks to achieve the objectives of the United Nations;
 - (g) Create a collaborative and inclusive environment through integrated solutions and strategic partnerships throughout the United Nations system;
 - (h) Work towards the implementation of a dynamic human resources strategy that achieves greater workforce diversity, supports the development and integration of skills and capabilities required to fulfil mandates and respond effectively to current and future challenges, supports managers in finding the right people, provides a strengthened learning framework and a strengthened multilingualism framework, ensures a civil and safe work environment and promotes a culture of continuous learning, innovation and improvement to actively build a better United Nations;

- (i) Address racism and racial discrimination more directly and effectively in the Secretariat by encouraging reporting; enhancing accountability, monitoring and transparency; and periodically reporting on efforts and progress towards addressing racism and promoting dignity for all.
- 29A.3 The Department will continue to provide leadership in the development and delivery of integrated organizational management strategies, policies and models supporting a decentralized, field-focused paradigm in which managers are empowered through the enhanced delegation of authority framework. It will liaise with Member States and other external entities on management-related issues and foster coordination within the Secretariat, as well as with the funds, programmes and specialized agencies of the United Nations system, to build partnerships and promote best practices.
- 29A.4 Having laid the foundation for greater decentralization, the main challenge will continue to be to maintain the culture of increased delegation of authority, transparency and accountability and a culture of continuous learning.
- 29A.5 The Department will continue to enable business transformation that leverages current and future trends in enterprise resource planning solutions. The Umoja solution and its accompanying business intelligence framework will allow the Department to respond to organizational requirements for better and more timely decision-making, enhanced accountability systems and the rapid adoption of newly identified best practices, as well as strengthened support for real-time data access, augmented and predictive analytics and planning and monitoring capabilities.
- 29A.6 With regard to cooperation with other entities, the Department will continue to support and work closely with all entities of the Secretariat and build partnerships, internally within the Secretariat and externally with the United Nations system, to find inclusive responses to challenges and develop innovative business models that cater to the evolving and specific requirements of each entity, with an emphasis on the field.
- 29A.7 With regard to inter-agency coordination and liaison, the Department will represent the Secretary-General in inter-agency coordination mechanisms, including the High-level Committee on Management of the United Nations System Chief Executives Board for Coordination (CEB).
- 29A.8 With regard to the external factors, the Department considered applicable risks identified in its risk register, and, accordingly, the overall plan for 2027 is based on the planning assumption that all stakeholders will extend their full cooperation and support to the Department in implementing its mandates.
- 29A.9 The Department integrates a gender perspective into its operational activities, deliverables and results, as appropriate. The Department will play a leadership role in driving the Secretary-General's system-wide strategy on the future of work and continue to support efforts to achieve gender parity and address sexual harassment in the workplace. Furthermore, the Department will work towards the equitable geographical distribution of Member States in the Secretariat workforce and prioritize the integration of environmental sustainability and resilience management into the strategies, policies and compliance and reporting frameworks of the Organization. Through its policy leadership in these interconnected fields, the Department will foster a change in culture at all levels of the Secretariat.
- 29A.10 The Department will monitor, coordinate and support implementation of the United Nations Disability Inclusion Strategy and will continue to elevate awareness of disability inclusion within the Secretariat and support entities by mainstreaming disability inclusion into policies, programmes and human resources strategy, in particular in the areas of leadership, capacity-building, enabling work environment and inclusive workforce.

Adjustments arising from the UN80 Initiative

- 29A.11 The proposed programme plan for 2027 reflects changes arising from the UN80 Initiative. In particular, the tables of deliverables reflect updated planned deliverables for 2026, in line with the approved programme budget for 2026.

- 29A.12 The Department will be guided by any decisions taken in the context of the UN80 Initiative, in accordance with the applicable rules and procedures, including decisions, resolutions and established practice of the competent intergovernmental organs. This includes, among others, decisions related to improving Secretariat support for Member States during mandate creation, implementation and review.

Legislative mandates

- 29A.13 The list below, which was reviewed in the preparation of the proposed programme budget, provides all mandates entrusted to the programme.

General Assembly resolutions

72/266 A; 72/266 B; 73/281	Shifting the management paradigm in the United Nations	80/242	Questions relating to the proposed programme budget for 2026
80/233	Programme planning	80/243	Special subjects relating to the proposed programme budget for 2026

Subprogramme 1

Enterprise resource planning solution, services to the Fifth Committee of the General Assembly and to the Committee for Programme and Coordination, and management advisory services

Component 1

Enterprise resource planning solution

General Assembly resolutions

60/260	Investing in the United Nations for a stronger Organization worldwide	63/262	Information and communications technology, enterprise resource planning, and security, disaster recovery and business continuity
60/283	Investing in the United Nations for a stronger Organization worldwide: detailed report		

Component 2

Services to the Fifth Committee of the General Assembly and to the Committee for Programme and Coordination

Charter of the United Nations

Chap. IV, Art. 17	Functions and powers of the General Assembly
-------------------	--

General Assembly resolution

45/248 B, sect. VI	Questions relating to the programme budget for the biennium 1990–1991
--------------------	---

Economic and Social Council resolution

920 (XXXIV)	Special Committee on coordination with particular emphasis on the United Nations Development Decade
-------------	---

Component 3

Management advisory services

General Assembly resolutions

69/273	Procurement	79/254	Administration of justice at the United Nations
76/246 B	Special subjects relating to the programme budget for 2022	80/138	Protection of global climate for present and future generations of humankind

Subprogramme 2 Programme planning, finance and budget

Component 1

Finance

General Assembly resolutions

60/283	Investing in the United Nations for a stronger Organization worldwide: detailed report	79/249	Scale of assessments for the apportionment of the expenses of the United Nations
76/272	Improving the financial situation of the United Nations	80/231	Financial reports and audited financial statements, and reports of the Board of Auditors
79/3; 80/2	Scale of assessments for the apportionment of the expenses of the United Nations: requests under Article 19 of the Charter		

Component 2

Field operations finance

General Assembly resolutions

60/283	Investing in the United Nations for a stronger Organization worldwide: detailed report	79/245	Financial reports and audited financial statements, and reports of the Board of Auditors
76/272	Improving the financial situation of the United Nations	79/250	Scale of assessments for the apportionment of the expenses of United Nations peacekeeping operations

Component 3

Programme planning and budgeting

General Assembly resolutions

42/211	Implementation of General Assembly resolution 41/213	77/267	Shifting the management paradigm in the United Nations: review of changes to the budgetary cycle
55/231	Results-based budgeting		

Subprogramme 3

Human resources

General Assembly resolutions

52/252	Revisions to article I of the Staff Regulations and chapter I of the 100 series of the Staff Rules of the United Nations	63/271 68/265	Amendments to the Staff Regulations Mobility framework
59/164	Improvement of the status of women in the United Nations system	71/263; 72/254; 77/278	Human resources management
61/262	Conditions of service and compensation for officials other than Secretariat officials: members of the International Court of Justice and judges and ad litem judges of the International Tribunal for the Former Yugoslavia and the International Criminal Tribunal for Rwanda	75/245 A; 77/256 78/275	United Nations common system Amendments to the Staff Regulations and Rules
63/256	Comprehensive proposal on appropriate incentives to retain staff of the International Criminal Tribunal for Rwanda and the International Tribunal for the Former Yugoslavia	78/292	Seconded active-duty military and police personnel

Subprogramme 4 Business transformation and accountability

General Assembly resolutions

59/272	Review of the implementation of General Assembly resolutions 48/218 B and 54/244	64/259	Towards an accountability system in the United Nations Secretariat
61/245	Comprehensive review of governance and oversight within the United Nations and its funds, programmes and specialized agencies	70/255; 74/271; 77/280	Progress towards an accountability system in the United Nations Secretariat
63/276	Accountability framework, enterprise risk management and internal control framework and results-based management framework		

Subprogramme 5 Addressing racism in the workplace

General Assembly resolution

76/271	Addressing racism and promoting dignity for all in the United Nations Secretariat
--------	---

Deliverables

29A.14 Table 29A.1 lists all cross-cutting deliverables of the programme.

Table 29A.1

Cross-cutting deliverables for the period 2025–2027, by category and subcategory

Category and subcategory	2025 planned	2025 actual	2026 planned	2027 planned
A. Facilitation of the intergovernmental process and expert bodies				
Substantive services for meetings (number of three-hour meetings)	10	13	10	10
Meetings of:				
1. The Fifth Committee of the General Assembly	4	5	4	4
2. The Special Committee on Peacekeeping Operations	1	1	1	1
3. The Advisory Committee on Administrative and Budgetary Questions	4	6	4	4
4. The Committee for Programme and Coordination	1	1	1	1
C. Substantive deliverables				
Consultation, advice and advocacy: consultation with Member States on matters relating to the work of the Department.				
D. Communication deliverables				
Outreach programmes, special events and information materials: information and engagement events; articles and videos; and newsletters.				
Digital platforms and multimedia content: websites and social media accounts of the Department.				
E. Enabling deliverables				
Administration: 4 meetings of the Management Client Board and 2 meetings of the Arts Committee.				

Evaluation activities

29A.15 A review of donor-led assessments of United Nations system organizations and other oversight-related requests from donors in the context of funding agreements and the United Nations single audit principle, conducted by the Joint Inspection Unit and completed in 2025, has guided the proposed programme plan for 2027.

- 29A.16 In response to the results of the evaluation referenced above, specifically a recommendation to ensure the explicit presentation of the Organization's assurance mechanisms in contribution agreements, subprogramme 2, component 1 has established that contribution agreements should routinely include standard provisions on auditing, evaluation, monitoring and reporting. This provides assurances to donors that funds are spent by the United Nations in accordance with its legal and regulatory framework and consistent with the terms of the contribution agreements.
- 29A.17 No evaluation is planned for 2027 as the Department plans to undertake an in-depth internal evaluation every two years.

Programme of work

Subprogramme 1

Enterprise resource planning solution, services to the Fifth Committee of the General Assembly and to the Committee for Programme and Coordination, and management advisory services

Component 1

Enterprise resource planning solution

Objective

- 29A.18 The objective, to which this component contributes, is to improve the management of the Organization's resources for its work in line with mandates.

Strategy

- 29A.19 To contribute to the objective, the component will:
- (a) Support business transformation in the areas of programme planning, programme management, the monitoring of programme delivery, and data and business analytics by harmonizing processes and practices and using modern technology;
 - (b) Support the Organization by building on its business intelligence platforms to support access to real-time data, augmented and predictive analytics, including machine learning and natural language processing, and planning capabilities;
 - (c) Support, monitor and upgrade the Umoja system to meet evolving business needs through continuous improvements directed by the business and work with business areas, to translate requirements into integrated functional solutions that are built, whenever possible, through out-of-the-box solutions that have sustainable road maps and meet Umoja architectural standards.
- 29A.20 The above-mentioned work is expected to result in:
- (a) A more efficient and transparent management of the Organization's financial, human and physical resources;
 - (b) Effective and timely decision-making by management informed by advanced analytics;
 - (c) Rapid adoption and application of newly identified best practices by the Organization;
 - (d) The continued effective operation of the Organization given that Umoja functionality will underpin the Organization's work.

Programme performance in 2025

Digital transformation using Umoja for improved efficiency and effective decision-making

- 29A.21 Building on the completion of the Umoja enhancement package 8 upgrade project, the Umoja mobile platform was upgraded in May 2025, providing a modern interface, expanded functionality and an improved user experience. The resilience of the Umoja system was also enhanced through a high-availability solution and full hardware symmetry.
- 29A.22 Progress towards the objective is presented in the performance measure below (see table 29A.2).

Table 29A.2
Performance measure

2023 (actual)	2024 (actual)	2025 (actual)
–	Completion of the Umoja enhancement package 8 upgrade	Improved user experience resulting in intuitive applications for staff and Member States
	Umoja Analytics available to the entire Secretariat, enabling effective decision-making	Improved decision-making through the roll-out of Umoja Analytics dashboards

Planned results for 2027

Result 1: data-driven actionable insights through NextGen Umoja Analytics

Programme performance in 2025 and target for 2027

- 29A.23 The component's work contributed to Umoja users utilizing NextGen Umoja Analytics-driven dashboards on cost recovery and liquidity management for improved data-driven decision-making, which met the planned target for 2025.
- 29A.24 Progress towards the objective and the target for 2027 are presented in the performance measure below (see table 29A.3).

Table 29A.3
Performance measure

2023 (actual)	2024 (actual)	2025 (actual)	2026 (planned)	2027 (planned)
–	Pilot availability of advanced features provided by NextGen Umoja Analytics, including predictive and prescriptive analytics	Users utilized NextGen Umoja Analytics for improved data-driven decision-making	Users leverage NextGen Umoja Analytics for enhanced data-driven decision-making	Users leverage NextGen Umoja Analytics for enhanced data-driven decision-making

Result 2: decision-making facilitated through enhancements to Member State portals**Programme performance in 2025 and target for 2027**

- 29A.25 The component's work contributed to the enhancements to the Uniformed Capabilities Support Portal, the Secretariat Workforce Portal and the Contribution Portal to facilitate Member States' decision-making, which met the planned target for 2025.
- 29A.26 Progress towards the objective and the target for 2027 are presented in the performance measure below (see table 29A.4).

Table 29A.4

Performance measure

<i>2023 (actual)</i>	<i>2024 (actual)</i>	<i>2025 (actual)</i>	<i>2026 (planned)</i>	<i>2027 (planned)</i>
Member States gained access to additional features in the Uniformed Capabilities Support Portal that provide more information on letters of assist and death and disability claims	Greater visibility of all claim types provided to Member States through the reimbursement dashboard in the Uniformed Capabilities Support Portal	Member States have on-demand access to tailored reports, visualizations and near-real-time data, made possible through additional enhancements to the Uniformed Capabilities Support Portal, the Secretariat Workforce Portal and the Contribution Portal	Further enhancements are made to Member State portals to facilitate decision-making	Further enhancements are made to Member State portals to facilitate decision-making

Result 3: upgrade to the Next Generation Enterprise Resource Planning (NextGen ERP)**Proposed programme plan for 2027**

- 29A.27 Foundational work for the Next Generation Enterprise Resource Planning (NextGen ERP) upgrade project started in 2025 and will continue through 2029 to meet the software support deadlines. This upgrade will be one of the Secretariat's most significant system upgrades to date, with its scale and complexity comparable to the original Umoja implementation.

Lessons learned and planned change

- 29A.28 The lesson for the component was that, as the software support for the current version of Umoja expires in 2030, the NextGen ERP upgrade project will have to be prioritized. In applying the lesson, this upgrade will be cross-cutting across all functional areas and will require seamless collaboration across all stakeholders.
- 29A.29 Expected progress towards the objective is presented in the performance measure below (see table 29A.5).

Table 29A.5
Performance measure

2023 (actual)	2024 (actual)	2025 (actual)	2026 (planned)	2027 (planned)
–	All users continue to benefit from implemented upgrades, including package 8 and related software dependencies	Users benefited from implemented upgrades that protect digital assets and improve the widespread availability of Umoja	All users will benefit from the implementation of the multi-year NextGen ERP upgrade project	All users will benefit from the implementation of the multi-year NextGen ERP upgrade project

Deliverables

29A.30 Table 29A.6 lists all deliverables of the component.

Table 29A.6
Subprogramme 1, component 1: deliverables for the period 2025–2027, by category and subcategory

Category and subcategory	2025 planned	2025 actual	2026 planned	2027 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	1	1	1	1
1. Progress report on the status of the functioning and development of the enterprise resource planning system	1	1	1	1
Substantive services for meetings (number of three-hour meetings)	3	1	3	3
2. Meetings of the Fifth Committee of the General Assembly	2	–	2	2
3. Meetings of the Advisory Committee on Administrative and Budgetary Questions	1	1	1	1
E. Enabling deliverables				
Administration: consultations with client groups, through the governance mechanisms and informally, on continuous improvements in the system to meet their business needs; Umoja Change Board meetings and informal exchanges; meetings with the Management Committee, Management Client Board and Information and Communications Technology Steering Committee; global information sessions for Secretariat staff; approximately 12 release notes on changes to Umoja; and approximately 6 internal broadcasts, including news articles on Umoja upgrades.				
Information and communications technology: the Umoja system and service desk tier 3 support.				

Component 2 Services to the Fifth Committee of the General Assembly and to the Committee for Programme and Coordination

Objective

29A.31 The objective, to which this component contributes, is to facilitate effective and efficient deliberations and decision-making by the Fifth Committee of the General Assembly and the Committee for Programme and Coordination.

Strategy

29A.32 To contribute to the objective, the component will:

- (a) Improve communication on organizational and procedural aspects of meetings;
- (b) Enhance substantive, technical and Secretariat support to Member States and other participants in the meetings.

29A.33 The above-mentioned work is expected to result in the smooth conduct of meetings of the intergovernmental bodies serviced.

Programme performance in 2025

Supported Fifth Committee processes through expanded information and efficient reporting

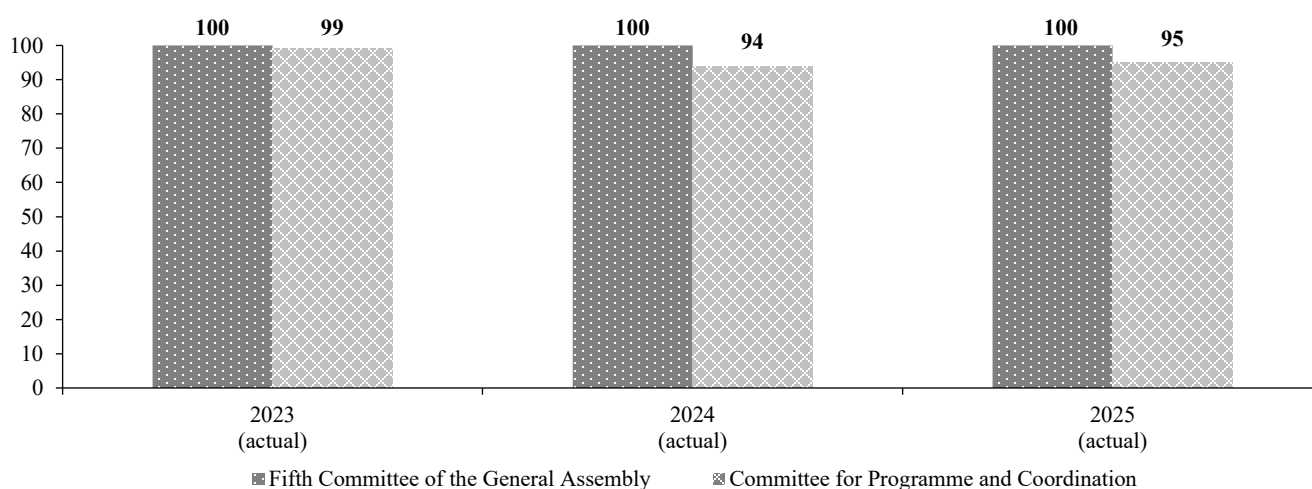

29A.34 In 2025, the component, based on lessons learned and taking into consideration feedback received from delegations, continued its efforts to simplify documentation and expand access to information, including through the Fifth Committee website, e-deleGATE and iGov. The issuance of a new document on the organization of the work of the Fifth Committee at the eightieth session of the General Assembly provided consolidated information and sources. In parallel with other Main Committees, and with a view to enhancing efficiency, the component consolidated the Fifth Committee's reporting to the General Assembly on the recommendations adopted at the closing meeting of the main part of the eightieth session into a single report, thereby reducing from 15 the number of documents covering that meeting.

29A.35 Progress towards the objective is presented in the performance measure below (see figure 29A.I).

Figure 29A.I

Performance measure: Member States' delegates who were either "very satisfied" or "satisfied" with the availability of information and documents prepared (annual)

(Percentage)

Planned results for 2027

Result 1: improved access to information, including pre-sessional information, for members of the Fifth Committee and the Committee for Programme and Coordination

Programme performance in 2025 and target for 2027

- 29A.36 The component's work contributed to 100 per cent positive feedback from Fifth Committee members and 95 per cent positive feedback from Committee for Programme and Coordination members on the availability of preparatory and background materials prepared by the Committees' secretariat, which met the planned target.
- 29A.37 Progress towards the objective and the target for 2027 are presented in the performance measure below (see table 29A.7).

Table 29A.7
Performance measure

2023 (actual)	2024 (actual)	2025 (actual)	2026 (planned)	2027 (planned)
Positive survey results on the availability of preparatory and reference material	Positive survey results on the availability of preparatory and reference material	Positive survey results on the availability of preparatory and reference material	Maintain positive survey results on the availability of preparatory and reference material	Maintain positive survey results on the availability of preparatory and reference material
Fifth Committee of the General Assembly: 100 per cent	Fifth Committee of the General Assembly: 100 per cent	Fifth Committee of the General Assembly: 100 per cent		
Committee for Programme and Coordination: 100 per cent	Committee for Programme and Coordination: 96 per cent	Committee for Programme and Coordination: 95 per cent		

Result 2: simplified and streamlined processes and improved services for meeting participants

Programme performance in 2025 and target for 2027

- 29A.38 The component's work contributed to 89 per cent positive feedback from Fifth Committee members and 93 per cent positive feedback from members of the Committee for Programme and Coordination on overall satisfaction, which did not meet the planned target of maintaining the level of overall satisfaction. The target was not met, and reflected slightly lower levels of satisfaction, primarily due to feedback regarding the Fifth Committee website and search function on the Fifth Committee e-Place on e-deleGATE. The component will work to improve the Fifth Committee website and with the lead department managing e-deleGATE, the Department for General Assembly and Conference Management, to explore improvements to search functions for e-deleGATE in line with Assembly resolution [80/242](#).
- 29A.39 Progress towards the objective and the target for 2027 are presented in the performance measure below (see table 29A.8).

Table 29A.8
Performance measure

2023 (actual)	2024 (actual)	2025 (actual)	2026 (planned)	2027 (planned)
Overall satisfaction with the services provided	Overall satisfaction with the services provided	Overall satisfaction with services provided	Maintain overall satisfaction with the services provided	Maintain overall satisfaction with the services provided
Fifth Committee of the General Assembly: 95 per cent	Fifth Committee of the General Assembly: 100 per cent	Fifth Committee of the General Assembly: 89 per cent		
Committee for Programme and Coordination: 97 per cent	Committee for Programme and Coordination: 97 per cent	Committee for Programme and Coordination: 93 per cent		

Result 3: strengthened support on election- and appointment-related processes**Proposed programme plan for 2027**

- 29A.40 In implementing its activities in support of the Fifth Committee's work in the areas of appointments and elections, the component continues to prepare the relevant parliamentary documentation, disseminate information and facilitate the submission and processing of nominations and endorsements.

Lessons learned and planned change

- 29A.41 The lesson for the component was that feedback from delegations underscored the importance of the component providing clear and targeted information on appointments and elections in support of the Committee. The component has, for example, consolidated information previously included across separate documents and different formats into a single, more user-friendly document and expanded the scope of the e-Candidatures module to future election cycles. In applying the lesson, the component will continue to enhance the information provided to Member States and further facilitate their easy and secure use of the e-Candidatures module for submitting nominations and endorsements.
- 29A.42 Expected progress towards the objective is presented in the performance measure below (see table 29A.9).

Table 29A.9
Performance measure

2023 (actual)	2024 (actual)	2025 (actual)	2026 (planned)	2027 (planned)
A 93.2 per cent satisfaction rate of Fifth Committee members with the election- and appointment-related information available to Member States	A 93.1 per cent satisfaction rate of Fifth Committee members with the election- and appointment-related information available to Member States	A 95.5 per cent satisfaction rate of Fifth Committee members with the election- and appointment-related information available to Member States	Maintain positive feedback on Fifth Committee election- and appointment-related matters	Maintain positive feedback on Fifth Committee election- and appointment-related matters

Deliverables

29A.43 Table 29A.10 lists all deliverables of the component.

Table 29A.10

Subprogramme 1, component 2: deliverables for the period 2025–2027, by category and subcategory

Category and subcategory	2025 planned	2025 actual	2026 planned	2027 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	232	263	232	232
1. Notes on the programme of work of the Fifth Committee of the General Assembly	125	127	125	125
2. Notes on the status of documentation of the Fifth Committee of the General Assembly	25	36	25	25
3. Procedural notes for the Chair of the Fifth Committee of the General Assembly	40	46	40	40
4. Notes on the programme of the work of the Committee for Programme and Coordination	20	30	20	20
5. Notes on the status of documentation of the Committee for Programme and Coordination	2	2	2	2
6. Procedural notes for the Chair of the Committee for Programme and Coordination	20	22	20	20
Conference and secretariat services for meetings (number of three-hour meetings)	200	165	200	180
7. Meetings of the Fifth Committee of the General Assembly	160	119	160	140
8. Meetings of the Committee for Programme and Coordination	40	46	40	40
D. Communication deliverables				
Digital platforms and multimedia content: websites of the Fifth Committee of the General Assembly and the Committee for Programme and Coordination; and updates of information on e-deleGATE, the <i>Journal of the United Nations</i> and iGov.				
E. Enabling deliverables				
Consultation, advice and advocacy: advice to 15 Bureau members; consultation and advice to approximately 100 coordinators; and response to queries from and provision of advice to individual delegations on historical proceedings of the two Committees.				

Component 3 Management advisory services

Objective

29A.44 The objective, to which this component contributes, is to advance the transparency of administrative decision-making, fairness, integrity and the resilience of the Organization to deliver on its mandates.

Strategy

29A.45 To contribute to the objective, the component will:

- Strengthen the Organization's resilience, including its preparedness to maintain business continuity in emergencies and to continually adapt to changing environments, risks and opportunities;
- Improve the overall quality of the acquisition process and reflect those improvements in substantive policy and guidance-related recommendations, including through the use of data analytics;
- Objectively analyse the facts presented in requests for a management evaluation vis-à-vis the legal framework of the Staff Regulations and Rules of the United Nations and provide the requesting staff member with a reasoned, comprehensive evaluation conveying the basis for the recommendation of the Management Advice and Evaluation Section on the case.

- 29A.46 The above-mentioned work is expected to result in:
- (a) A more resilient, agile and sustainable Organization and an innovative and thriving workforce that delivers results;
 - (b) An Organization better prepared for complex and long-term emergencies;
 - (c) A strengthened acquisition and asset disposal process;
 - (d) The early resolution of disputes that arise from decisions taken in the Administration on a staff member's employment;
 - (e) Greater staff awareness of the internal justice system.

Programme performance in 2025

Timely responses to management evaluation requests

29A.47 Over the final three months of 2025, the Management Advice and Evaluation Section received over 50 per cent of its total caseload for the year, marking a significant increase in the number of cases received during such a short period. This included 127 cases concerning a policy change to roster management. Given the unusually heavy caseload in 2025 and the need to ensure the timely completion of all case management evaluations, the subprogramme conducted a review of its internal case management workflow and was able to expedite its evaluation of the increased workload in order to meet the statutory deadline in all of these cases.

29A.48 Progress towards the objective is presented in the performance measure below (see table 29A.11).

Table 29A.11
Performance measure

2023 (actual)	2024 (actual)	2025 (actual)
—	—	All cases received over the final three months (representing over 50 per cent of the total caseload) closed by/before the statutory deadline

Planned results for 2027

Result 1: organizational resilience management system is institutionalized in United Nations system organizations

Programme performance in 2025 and target for 2027

- 29A.49 The component's work contributed to the United Nations system organizations adopting additional new practices, such as tools and procedures related to the implementation of the organizational resilience management system, namely, those pertaining to responses to medical emergencies during crisis situations, which met the planned target.
- 29A.50 Progress towards the objective and the target for 2027 are presented in the performance measure below (see table 29A.12).

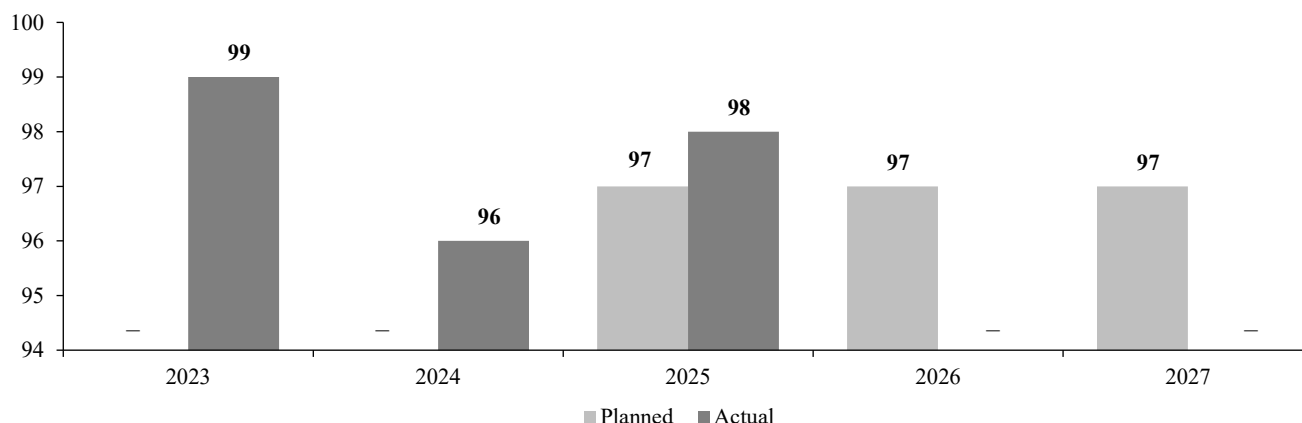

Table 29A.12
Performance measure

2023 (actual)	2024 (actual)	2025 (actual)	2026 (planned)	2027 (planned)
Online organizational resilience management system repository available to enhance information-sharing	United Nations system organizations develop and share software for automated business continuity planning	United Nations system organizations adopt new practices, such as tools and procedures for responding to medical emergencies during crises	United Nations system organizations adopt additional new practices relating to the organizational resilience management system	United Nations system organizations adopt additional new practices relating to the organizational resilience management system

Result 2: recommendations of the Headquarters Committee on Contracts accepted by delegated officials**Programme performance in 2025 and target for 2027**

- 29A.51 The component's work contributed to the delegated officials accepting 98 per cent of the recommendations of the Headquarters Committee on Contracts, which exceeded the planned target of 97 per cent.
- 29A.52 Progress towards the objective and the target for 2027 are presented in the performance measure below (see figure 29A.II).

Figure 29A.II

Performance measure: percentage of recommendations accepted by delegated officials (annual)**Result 3: Enhanced understanding by staff of the Organization's formal system of justice****Proposed programme plan for 2027**

- 29A.53 The component conducts a preliminary review of management evaluation requests to determine their procedural receivability, that is, whether a request has been submitted within the statutory deadlines, whether the contested decision is appealable under the Staff Rules and whether the requestor has standing to appeal. The component noted that a significant number of cases over the past three years had been determined to be not receivable (36 per cent in 2023, 28 per cent in 2024 and 34 per cent in 2025).

Lessons learned and planned change

29A.54 The lesson for the component was that, while assessing receivability is often not straightforward, staff in a portion of those requests could have benefited from a greater background understanding of the procedural issues involved. In applying the lesson, the component will, in addition to its outreach briefings, elaborate further guidance on these issues to assist staff in deciding whether to exercise their recourse in the Organization's formal system of justice.

29A.55 Expected progress towards the objective is presented in the performance measure below (see table 29A.13).

Table 29A.13

Performance measure

2023 (actual)	2024 (actual)	2025 (actual)	2026 (planned)	2027 (planned)
Staff awareness of procedural requirements for management evaluation requests supplemented by Management Advice and Evaluation Section outreach briefings	Staff awareness of procedural requirements for management evaluation requests enhanced through Management Advice and Evaluation Section outreach briefings to staff in field missions	Staff awareness of procedural requirements for management evaluation requests supplemented by Management Advice and Evaluation Section outreach briefings	Staff awareness of procedural requirements for management evaluation requests supplemented by Management Advice and Evaluation Section outreach briefings, enhanced by increased outreach to staff representatives	Staff awareness through guidance materials available on iSeek, supplemented by iSeek articles and continued outreach efforts

Deliverables

29A.56 Table 29A.14 lists all deliverables of the component.

Table 29A.14

Subprogramme 1, component 3: deliverables for the period 2025–2027, by category and subcategory

Category and subcategory	2025 planned	2025 actual	2026 planned	2027 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	1	1	–	–
1. Progress report on the implementation of the organizational resilience management system for consideration by the General Assembly	1	1	–	–
Substantive services for meetings (number of three-hour meetings)	2	2	–	–
2. Meetings of the Fifth Committee of the General Assembly	1	1	–	–
3. Meetings of the Advisory Committee on Administrative and Budgetary Questions	1	1	–	–
E. Enabling deliverables				
Administration: administration of and support for the Management Advice and Evaluation Section's case management system; training and guidance for members of 27 local committees on contracts and 31 local property survey boards; and related training and guidance.				
Internal justice and oversight: recommendations on requests for management evaluation of contested administrative decisions; responses to requests for suspension of action in cases involving separation from service of staff members; substantive and technical servicing of the Headquarters Committee on Contracts and of the Headquarters Property Survey Board; reports on the functioning of the local committees on contracts; and annual reporting to the United Nations Environment Programme on Secretariat-wide environmental sustainability performance.				

Subprogramme 2

Programme planning, finance and budget

Component 1

Finance

Objective

- 29A.57 The objective, to which this component contributes, is to secure the financing of the Organization's expenses, pursuant to Article 17 of the Charter of the United Nations, and to ensure sound, effective and efficient integrated financial management of and reporting on United Nations resources, supported by a strong internal control environment.

Strategy

- 29A.58 To contribute to the objective, the component will:
- (a) Ensure the proper application of the Financial Regulations and Rules of the United Nations, adapt policies relating to financial matters in response to emerging issues and strengthen the system of internal controls in support of the efficient management of resources in the context of the decentralized delegation of authority framework;
 - (b) Provide effective support to the Committee on Contributions, ensure the timely issuance of assessments, provide up-to-date information on the status of assessed contributions and closely monitor and forecast the collection of assessments and manage cash outflows on the basis of liquidity forecasts;
 - (c) Prepare International Public Sector Accounting Standards (IPSAS)-compliant financial statements for the Organization, focusing on transparency, by incorporating a financial discussion and an analysis statement, as well as ensuring that updates to accounting standards are operationalized and that all entities are appropriately guided in year-end requirements for the preparation of financial statements and are supported in the establishment, management and reporting of the extrabudgetary funds of the Organization;
 - (d) Manage financial risks through sound financial processes, investment management, global cash management and global banking management;
 - (e) Coordinate and manage the group health and life insurance programmes and provide services to the Advisory Board on Compensation Claims and the United Nations Claims Board, and administer related compensation payments;
 - (f) Provide governance of finance master data to ensure the integrity, standardization and harmonization of data across the enterprise resource planning system;
 - (g) Provide procedures, guidance and support for Umoja finance processes to ensure effective and efficient financial management.
- 29A.59 The above-mentioned work is expected to result in:
- (a) Prudent financial management of the resources entrusted to the Secretariat;
 - (b) A strengthened system of internal controls that supports better programme performance management and compliance with the regulatory framework;
 - (c) Increased transparency and simplification of financial processes and reporting;
 - (d) Effective and efficient financial procedures;
 - (e) Better positioning of the Organization to respond to external shocks.

Programme performance in 2025

Improved access to consolidated cost-recovery information for decision-making by Secretariat entities

29A.60 Cost-recovery activities across the Secretariat are recorded across multiple Umoja modules, including funds management, accounts receivable, general ledger, controlling, sales and distribution, and payroll. The absence of integrated reporting meant that entities relied on fragmented data sources and manual extraction, making it difficult to efficiently monitor fund balances, track revenue, assess receivables or evaluate performance. Following repeated recommendations from oversight bodies for strengthened monitoring, the component led a multi-year effort culminating in 2025 with the deployment of a cost-recovery dashboard in Umoja Analytics. The dashboard integrates data across six modules into a single platform, providing consolidated analysis of fund balance movements, revenue by client and cost-recovery method, receivables ageing and payment patterns, and budget consumption against revenue and cash collected. The Assistant Secretary-General for Programme Planning, Finance and Budget, Controller, as well as heads of entities, service providers and clients can now access streamlined, actionable cost-recovery insights from their own operational perspective, replacing what previously required consulting multiple disconnected reports.

29A.61 Progress towards the objective is presented in the performance measure below (see table 29A.15).

Table 29A.15

Performance measure

2023 (actual)	2024 (actual)	2025 (actual)
—	—	27 United Nations Secretariat entities actively used the new cost-recovery dashboard in Umoja Analytics for decision-making

Planned results for 2027

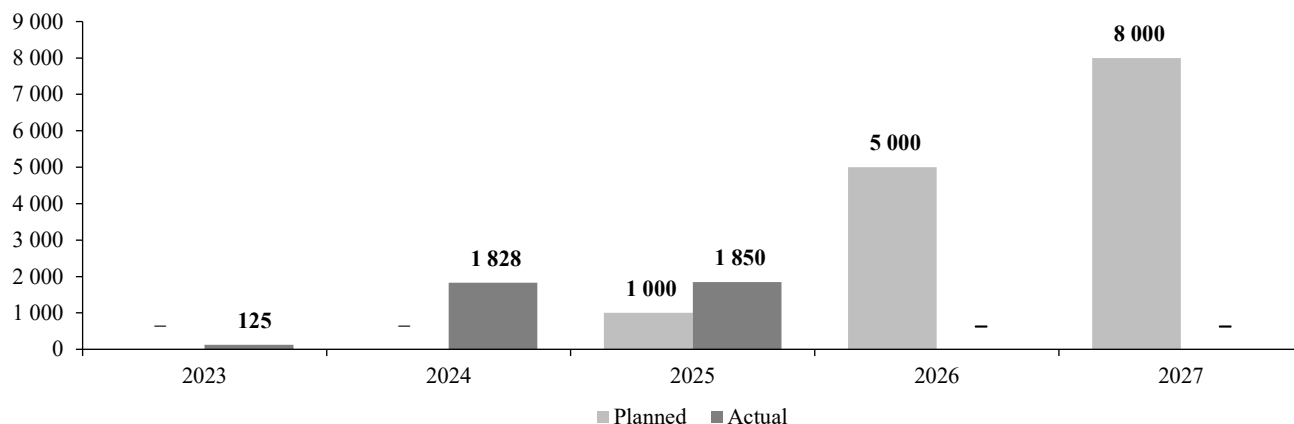

Result 1: improved client experience with United Nations global payment systems

Programme performance in 2025 and target for 2027

- 29A.62 The component's work contributed to 1,850 individual clients using debit cards and digital wallets as a preferred mode of payment, exceeding the planned target of 1,000 clients.
- 29A.63 Progress towards the objective and the target for 2027 are presented in the performance measure below (see figure 29A.III).

Figure 29A.III

Performance measure: number of individual clients using debit cards and digital wallets as a preferred mode of payment (annual)

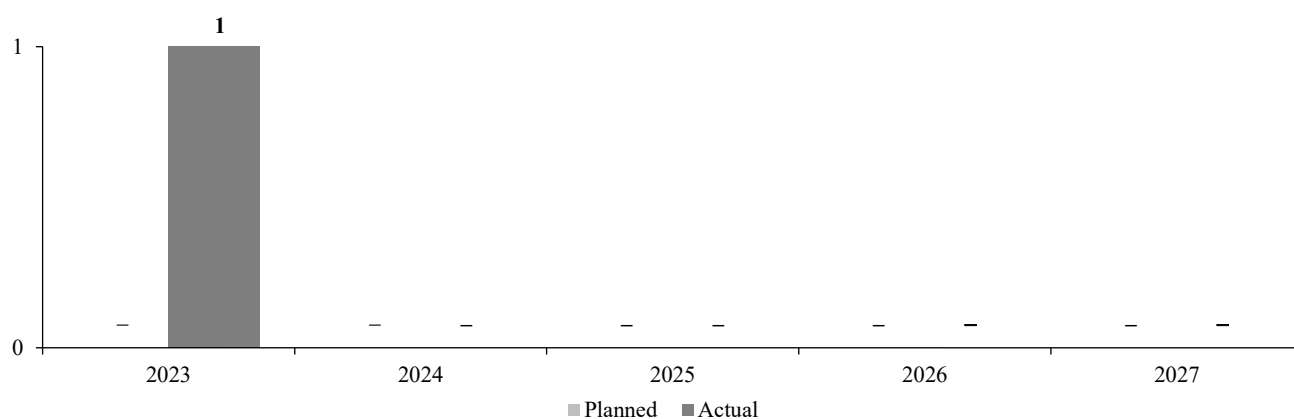

Result 2: implementation of approved updates to the International Public Sector Accounting Standards and impact analysis of upcoming changes

Programme performance in 2025 and target for 2027

- 29A.64 The component's work in integrated system enhancements, authoritative policy documents, Organization-wide lease information capture and a comprehensive guidance and training suite ensured effective implementation of significant IPSAS updates in 2025 and contributed to full audit assurance and no audit recommendations raised during the year, which met the planned target.
- 29A.65 Progress towards the objective and the target for 2027 are presented in the performance measure below (see figure 29A.IV).

Figure 29A.IV

Performance measure: number of audit recommendations related to implementation of the International Public Sector Accounting Standards (annual)

Note: The financial statements of the United Nations, volume I, for the year ended 31 December 2025 will be audited in April and May 2026.

Result 3: strengthened financial management regulatory framework through newly established and updated policy instruments

Proposed programme plan for 2027

- 29A.66 As part of ongoing efforts to strengthen the financial management regulatory framework, promote consistent understanding and application of policies and enhance accountability across Secretariat operations, the component has been conducting a comprehensive review of a compendium of policy instruments, with a view to issuing new and updated key policies and guidelines as applicable.

Lessons learned and planned change

- 29A.67 The lesson for the component was the importance of ensuring that entities receive appropriate technical support and training related to policy updates to ensure harmonization and correct common understanding of the instruments. In applying the lesson, the subprogramme will develop and issue additional operational guidelines on an ongoing basis, incorporating feedback received from entities, and provide continuous training to support consistent and effective implementation. This will further support the effective management of financial resources and provide the necessary flexibility in complex operations.

- 29A.68 Expected progress towards the objective is presented in the performance measure below (see table 29A.16).

Table 29A.16

Performance measure

2023 (actual)	2024 (actual)	2025 (actual)	2026 (planned)	2027 (planned)
—	Secretariat entities have access to revised policies on engagement with service providers	Secretariat entities have access to revised guidelines on management of non-assessed funds Positive feedback from entities on the impact of the revised policy on the effective management of financial resources	Secretariat entities indicate an increased understanding of the new/revised policy instruments	Consistent application of policies by entities across the Secretariat

Deliverables

- 29A.69 Table 29A.17 lists all deliverables of the component.

Table 29A.17

Subprogramme 2, component 1: deliverables for the period 2025–2027, by category and subcategory

<i>Category and subcategory</i>	<i>2025 planned</i>	<i>2025 actual</i>	<i>2026 planned</i>	<i>2027 planned</i>
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	12	12	11	11
1. Annual financial reports to the General Assembly	2	2	2	2
2. Reports on multi-year payment plans and the financial situation of the United Nations to the General Assembly	3	3	3	3

10. Monthly reports on the status of contributions	12	12	12	12
11. Documents on the assessment of the contributions of Member States to the United Nations	13	13	13	13
12. Donor financial reports	830	697	700	700

C. Substantive deliverables

Consultation, advice and advocacy: advice to donors on the financial arrangements and status of voluntary contributions, as required; and ad hoc information on the scale of assessments, peacekeeping financing and the status of contributions.

E. Enabling deliverables**Administration:**

Advice to departments and offices on the application of the Financial Regulations and Rules of the United Nations, accounting and financial matters and related systems; advice on IPSAS compliance to the United Nations finance community; monitoring and support for global bank reconciliation processes and global physical and intangible assets analysis, accounting and reporting support; global finance Umoja production support for integrated finance processes, including managing and testing Umoja enterprise resource planning system updates; Umoja finance operational guidance on the Finance Knowledge Gateway, including training materials and videos; processing of approximately 20,000 transactions serviced by the United Nations Development Programme; financial management support for the Development Coordination Office and the United Nations Office for Partnerships; CEB reporting frameworks; and processing of over 3,000 transactions for advances and payments to implementing partners as well as refunds of unspent balances.

Assessment calculations for contributions of Member States for the regular budget, the Peacebuilding Fund, peacekeeping operations and the international tribunals; and calculations for credits for peacekeeping operations.

Guidance on the interpretation of the Financial Regulations and Rules and financial management policies, procedures and guideline instruments; advice on the interpretation of the delegation of authority framework (finance-related); issuance of the statement of internal control and 3 technical documents, and guidance and advocacy on the internal control framework; roll-out of the process control component of the Umoja Governance, Risk and Compliance module to offices and departments; workshop on cross-cutting analysis on the implementation of internal controls in peacekeeping and non-peacekeeping operations; advice to Member States and United Nations offices on the management of extrabudgetary resources; accounting policies and associated corporate guidance, practices and procedures; 5 workshops on financial matters for chief finance officers and 68 chief administrative officers; reports on cases of fraud and presumptive fraud to the Board of Auditors; Umoja finance process documents; maintenance of Umoja finance master data; and Umoja financial help desk and user access provisioning requests for finance roles in Umoja.

Category and subcategory	2025 planned	2025 actual	2026 planned	2027 planned
Manage bank accounts worldwide, including bank account signatory panels; banking arrangements and contracts; payments for the house bank accounts; records of incoming funds; bank reconciliation processes; cash requirements in various currencies; database on banking details of vendors, staff and Member States; management of pooled investments; monthly United Nations operational rates of exchange for 153 currencies; Umoja finance processes; financial applications; SWIFT and global payment data; approximately 700 investment settlements; approximately 5,000 foreign exchange transactions; substantive support for departments on business analysis; health and life insurance policies and related activities; and processing of compensation claims under Appendix D to the Staff Regulations and Rules and ST/AI/149/Rev.4/Amend.1 , including payment and administration of monthly benefits.				

Component 2 Field operations finance

Objective

- 29A.70 The objective, to which this component contributes, is to ensure effective and efficient deliberations by Member States on the results to which the field and other Secretariat entities contribute, and on the resources required for the work of those entities in line with their mandates, and to ensure the effective and efficient management of resources.

Strategy

- 29A.71 To contribute to the objective, the component will provide strategic guidance on budgeting and financial stewardship and develop policies, methodologies and tools in that regard, in particular:
- (a) Provide strategic guidance on financial management and financing issues, especially on cross-cutting initiatives affecting field operations, including guidance on formulating human resources requirements, corporate initiatives, financial strength and liquidity and strengthening of internal controls, and timely, high-quality, simplified and action-oriented responses to managers in the field; monitor the liquidity of individual special accounts; and oversee cash-flow and operating reserves for field operations;
 - (b) Provide strategic guidance on global property management and real estate services, including oversight of major construction projects and long-term capital planning;
 - (c) Provide expert advice and guidance on property management and review financial data for accurate recording and for compliance with IPSAS and the established property management performance framework for Secretariat entities, and ensure the central supervision of projects, including by incorporating risk management principles and lessons learned in decision-making.
- 29A.72 The above-mentioned work is expected to result in client entities effectively and efficiently managing their resources within the approved levels, with improved accuracy in forecasts and proposals.

Programme performance in 2025

Strengthened oversight and accountability in property management

- 29A.73 In 2025, the component strengthened the organizational performance management framework through the establishment of a consolidated data quality report, underpinned by key performance indicators covering critical data fields, to support entities in identifying data inconsistencies in property records. The indicators focused on the accuracy and timeliness of Umoja data, including the correct reflection of property status across the lifecycle, such as assets issued into operational use versus those held in warehouse, thereby reinforcing accountability for data quality at the entity level.

29A.74 Introduced towards the end of the year, the data quality report provided initial visibility over areas of potential inefficiency in property management processes and laid the foundation for more targeted corrective actions by entities. The framework supported early identification of data gaps, strengthened oversight and reporting and established a basis for more informed management decision-making going forward.

29A.75 Progress towards the objective is presented in the performance measure below (see table 29A.18).

Table 29A.18
Performance measure

2023 (actual)	2024 (actual)	2025 (actual)
No data quality metric for property management was in place within the organizational performance management framework	The organizational performance management framework continued to operate without an established data quality metric for property management	Entities use data quality metric for property management, which was developed and integrated into the organizational performance management framework, to support the identification and monitoring of critical data inconsistencies

Planned results for 2027

Result 1: coordination and exchanges towards synergy and standardization in facilities management

Programme performance in 2025 and target for 2027

29A.76 The component's work contributed to the promulgation and exchange of good practices and frequent exchanges through the meeting of the Inter-Agency Network of Facilities Managers, which contributed to synergy and standardization and showcased opportunities for improved efficiency and effectiveness in facilities management, which met the planned target.

29A.77 Progress towards the objective and the target for 2027 are presented in the performance measure below (see table 29A.19).

Table 29A.19
Performance measure

2023 (actual)	2024 (actual)	2025 (actual)	2026 (planned)	2027 (planned)
—	Meeting of the Inter-Agency Network of Facilities Managers enables the exchange of good practices and the exploration of opportunities for synergy and standardization in facilities management	Promulgation of good practices and frequent exchanges through the meeting of the Inter-Agency Network of Facilities Managers, which contributed to synergy and standardization and showcased opportunities for improved efficiency and effectiveness in facilities management	Mutual learning by facilities managers within the community	Formalized collaboration and structured knowledge-sharing strengthen synergies and support continuous improvement in facilities management

Result 2: quality and cost-efficient capital construction projects of the Organization**Programme performance in 2025 and target for 2027**

- 29A.78 The component's work contributed to the continuous implementation of the major construction projects at the United Nations Office at Geneva and the United Nations Office at Nairobi and the successful completion of the three major construction projects at the Economic Commission for Africa (ECA), the Economic and Social Commission for Asia and the Pacific (ESCAP) and the Economic Commission for Latin America and the Caribbean (ECLAC), drawing lessons from ongoing projects, which met the planned target.
- 29A.79 Progress towards the objective and the target for 2027 are presented in the performance measure below (see table 29A.20).

Table 29A.20

Performance measure

<i>2023 (actual)</i>	<i>2024 (actual)</i>	<i>2025 (actual)</i>	<i>2026 (planned)</i>	<i>2027 (planned)</i>
Implementation of six ongoing capital projects, drawing on past lessons learned since the capital master plan	Implementation of six ongoing capital projects, drawing on past lessons learned since the capital master plan	Major construction projects at the United Nations Office at Geneva (1 project) and the United Nations Office at Nairobi (2 projects) were continuously implemented, and major construction projects at ECA, ESCAP and ECLAC were completed, drawing on lessons learned from other projects	Entities are supported to plan and implement capital projects in a coherent manner on the basis of enhanced guidelines	Entities are supported to plan and implement capital projects with well-coordinated and systemized guidance from Headquarters

Result 3: greater transparency and efficiency in the formulation of budgetary requirements for special political missions**Proposed programme plan for 2027**

- 29A.80 The component makes efforts to identify efficiency gains in the budgetary preparation process for the special political missions while ensuring effective mandate implementation, including by applying a data-driven approach in formulating budgetary requirements.

Lessons learned and planned change

- 29A.81 The lesson for the component was the importance of building and strengthening a culture of efficiency for the use of resources for the implementation of mandates. In applying the lesson, the component will, in line with General Assembly resolution [80/243](#), facilitate mutual learning across missions in identifying, tracking, quantifying and reporting on efficiency initiatives across post and non-post resources. To enhance reporting, reports of the Secretary-General will include additional information on efficiency gains, including a comparison of projected efficiencies made at the outset of the budget period and the actual realized efficiencies.
- 29A.82 Expected progress towards the objective is presented in the performance measure below (see table 29A.21).

Table 29A.21
Performance measure

2023 (actual)	2024 (actual)	2025 (actual)	2026 (planned)	2027 (planned)
Discrete efficiency initiatives	Quantifiable savings and cost avoidance of \$9.3 million in the proposed budget for 2025, representing 1.3 per cent of the 2024 appropriation	Quantifiable savings and cost avoidance of \$12.7 million in the proposed budget for 2026 and further reductions of \$96.3 million in the revised estimates	Member States have improved understanding of sustained efficiency measures and gains based on a coherent and consistent approach	Member States receive enhanced reporting on efficiency gains through a further developed methodology that captures realized and projected efficiencies over a multi-year period

Deliverables

29A.83 Table 29A.22 lists all deliverables of the component.

Table 29A.22
Subprogramme 2, component 2: deliverables for the period 2025–2027, by category and subcategory

Category and subcategory	2025 planned	2025 actual	2026 planned	2027 planned

^b 6 in A/80/6 (Sect. 29A).

^c 40 in A/80/6 (Sect. 29A).

^d 52 in A/80/6 (Sect. 29A).

Component 3 Programme planning and budgeting

Objective

- 29A.84 The objective, to which this component contributes, is to ensure the effective and efficient deliberations by Member States on the results to which the Secretariat contributes, on the translation of mandates into programme plans and on the resources required for the work of the Secretariat in line with its mandates, and to ensure the effective and efficient management of resources and transparent reporting thereon.

Strategy

- 29A.85 To contribute to the objective, the component will:
- Issue strategic guidance on the preparation of the proposed programme budget and the proposed budget of the International Residual Mechanism for Criminal Tribunals and engage with Member States from the early stages of the budget process;
 - Finalize and present to the legislative bodies the Secretary-General's annual proposed programme budget and the proposed budget of the International Residual Mechanism for Criminal Tribunals, the budget performance reports and other reports on budgetary matters, including statements of programme budget implications and revised programme budget proposals, in accordance with the Financial Regulations and Rules of the United Nations, the Regulations and Rules Governing Programme Planning, the Programme Aspects of the Budget, the Monitoring of Implementation and the Methods of Evaluation and applicable resolutions of the General Assembly;
 - Provide information to Member States on the potential budgetary implications of draft resolutions of the General Assembly and its Main Committees, the Economic and Social Council, the Human Rights Council and other legislative organs;
 - Provide substantive services on programme planning and budgetary matters to the Fifth Committee of the General Assembly, the Committee for Programme and Coordination and the Advisory Committee on Administrative and Budgetary Questions and provide online tools accessible to Member States in order to facilitate deliberations;
 - Provide strategic guidance on results-based management, budgeting and financial stewardship, including on managing spending authorities, develop policies, methodologies and tools in that regard and provide advice on all budgetary matters.

- 29A.86 The above-mentioned work is expected to result in:
- (a) Increased transparency and strengthened dialogue between the Secretariat and Member States;
 - (b) Efficient and effective implementation of programmes while ensuring the prudent use of resources;
 - (c) Improved accuracy of programme budgets.

Programme performance in 2025

Successful conclusion of budgetary deliberations on the UN80 initiative within a condensed timeline

- 29A.87 Following the launch of the UN80 Initiative by the Secretary-General in March 2025 to build a stronger and more effective Organization that is better equipped to deliver on its mandates, the report on the revised estimates relating to the proposed programme budget for 2026 and the support account for peacekeeping operations for the 2025/26 period ([A/80/400](#)) was prepared and presented for review by legislative bodies in a condensed period. The proposals resulted from the engagement of all Secretariat entities led and coordinated by the subprogramme, in particular the component, in its lead role for the programme budget. The General Assembly successfully concluded its deliberations on 30 December 2025.

- 29A.88 Progress towards the objective is presented in the performance measure below (see table 29A.23).

Table 29A.23
Performance measure

2023 (actual)	2024 (actual)	2025 (actual)
—	—	Member States were able to successfully deliberate and make decisions regarding Secretariat-wide efficiency measures and cost reductions through optimization, reorganization and streamlining, despite operating under a very condensed timeline

Planned results for 2027

Result 1: enhanced transparency on the programme budget implications process for Member States

Programme performance in 2025 and target for 2027

- 29A.89 The component's work contributed to Member States from four Main Committees having access to information at the start of their session on the programme budget implications process through a detailed guide available on the portal, which did not meet the planned target of Member States from six Main Committees having access to information. The target was not met because resources had to be prioritized to support operational requirements arising from the UN80 reforms, particularly the preparation of the report on the revised estimates relating to the proposed programme budget for 2026 and the support account for peacekeeping operations for the 2025/26 period ([A/80/400](#)).
- 29A.90 Progress towards the objective and the target for 2027 are presented in the performance measure below (see table 29A.24).

Table 29A.24
Performance measure

2023 (actual)	2024 (actual)	2025 (actual)	2026 (planned)	2027 (planned)
Three Main Committees (Third, Fifth and Sixth Committees) receive a briefing, at their request, on the programme budget implications process	All six Main Committees receive a briefing opportunity early in their sessions on the programme budget implications process Four Main Committees receive a briefing	Member States from four of the six Main Committees had access to information at the start of their session on the programme budget implications process through a detailed guide available on a portal	Member States have access to a detailed guide on the programme budget implications process	Member States have access to an enhanced detailed guide on the programme budget implications process

Result 2: enhanced budgetary information available on the Budget Information Pilot to support Member States' decision-making

Programme performance in 2025 and target for 2027

- 29A.91 The component's work contributed to new content available in a timely manner in the Budget Information Pilot, leading to an 18 per cent increase in usage, which exceeded the planned target of 5 per cent.
- 29A.92 Progress towards the objective and the target for 2027 are presented in the performance measure below (see table 29A.25).

Table 29A.25
Performance measure

2023 (actual)	2024 (actual)	2025 (actual)	2026 (planned)	2027 (planned)
—	Limited information available in the Budget Information Pilot	New content regularly made available in the Budget Information Pilot on the 2026 programme budget and the revised estimates, leading to an 18 per cent increase in usage	Enhanced content in the Budget Information Pilot enables greater ability to analyse data, leading to a 10 per cent increase in usage	Expanded content covering additional datasets in the Budget Information Pilot enables greater ability to analyse data, leading to a 20 per cent increase in usage

Result 3: greater efficiency reflected in budgetary requirements across Secretariat entities

Proposed programme plan for 2027

- 29A.93 Building on the UN80 Initiative and the change proposals approved as part of the 2026 programme budget, and having undertaken spending reviews informed by updated methodology and standard operating procedures, the component will continue to support the identification of efficiencies that enable Secretariat entities to enhance the overall effectiveness of the Organization, including the pursuit of synergies and structural, operational and functional efficiencies, while safeguarding mandated functions.

Lessons learned and planned change

29A.94 The lesson for the component was that, while efficiencies were identified across Secretariat entities as part of the approved 2026 programme budget, prioritizing efficiencies requires a sustained and focused approach. In applying the lesson, the component will consider meaningful ways of providing qualitative and quantifiable information on entities' efforts to foster a culture of efficiency and cost-effectiveness.

29A.95 Expected progress towards the objective is presented in the performance measure below (see table 29A.26)

Table 29A.26

Performance measure

2023 (actual)	2024 (actual)	2025 (actual)	2026 (planned)	2027 (planned)
–	Spending reviews were conducted by seven entities in preparation for the proposed programme plan for 2025	Spending reviews were conducted by five entities, and further efficiencies identified by most entities as part of the UN80 Initiative Proposals for operational efficiencies and improvements were approved by the General Assembly in the programme budget for 2026	The UN80 Initiative change proposals approved in the programme budget for 2026 are successfully implemented and yield the expected benefits Additional efficiencies are identified in the proposed programme budget for 2027	12 entities implement additional efficiencies in accordance with the 2027 programme budget

Deliverables

29A.96 Table 29A.27 lists all deliverables of the component.

Table 29A.27

Subprogramme 2, component 3: deliverables for the period 2025–2027, by category and subcategory

Category and subcategory	2025 planned	2025 actual	2026 planned	2027 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	85	61	75	75
Reports to:				
1. The General Assembly on the proposed programme budget, including programme plan and performance information	47	48	47	47
2. The General Assembly on the proposed budget, revised estimates and performance information for the International Residual Mechanism for Criminal Tribunals	3	2	2	2
3. The General Assembly on revised estimates resulting from resolutions and decisions adopted by the Economic and Social Council and the Human Rights Council	2	3	2	2
4. The General Assembly on the programme budget implications of draft resolutions	15	–	15	15
5. The General Assembly on financial and budgetary matters	18	8	9 ^a	9

Category and subcategory	2025 planned	2025 actual	2026 planned	2027 planned
Substantive services for meetings (number of three-hour meetings)	179	171	187	180
6. Meetings of the Fifth Committee of the General Assembly and the Committee for Programme and Coordination	91	79	92	92
7. Meetings of the Advisory Committee on Administrative and Budgetary Questions	88	92	95	88
B. Generation and transfer of knowledge				
Technical materials (number of materials)	152	150	139	138
8. Oral statements of programme budget implications arising from draft resolutions	129	134	125	125
9. Letters to the Advisory Committee on Administrative and Budgetary Questions on extrabudgetary posts or positions at the level of D-1 and higher	22	14	12	12
10. Guidance material on the programme budget implications process	1	1	1	1
11. Updated standard operating procedure on spending reviews	–	1	1	–
C. Substantive deliverables				
Consultation, advice and advocacy: briefings for Member States on programme planning and budgetary matters, including training sessions for new delegates; advice on potential budgetary implications of approximately 500 draft resolutions and decisions of the Main Committees of the General Assembly; and approximately 5,862 written responses to the Advisory Committee on Administrative and Budgetary Questions and the Fifth Committee.				
E. Enabling deliverables				
Administration: advice and guidance on budgetary issues and policies relating to programme planning and budgeting for 28 programmes and 41 budget sections; and workshops to support entities' spending reviews and on results-based management, including training of staff and monitoring results and deliverables in the Umoja strategic management application.				

^a 10 in A/80/6 (Sect.29A)

Subprogramme 3 Human resources

Component 1 Global strategy and policy

Objective

- 29A.97 The objective, to which this component contributes, is to ensure a decentralized, agile, field-focused management paradigm for the effective and transparent management of human resources and a high-performing, diverse and engaged workforce.

Strategy

- 29A.98 To contribute to the objective, the component will further develop, update and enhance the recruitment system to ensure that it is effective, fair, efficient and agile and to enable the United Nations to have a diverse workforce and foster a culture of ethics, integrity, transparency and accountability in the Organization. Specifically, the component will:
- Steer efforts for equitable geographical distribution under the system of desirable ranges, in accordance with General Assembly resolution [77/278](#);
 - Provide strategic guidance on human resources supported by an enabling policy framework to fulfil entities' mandates, in which team, individual and organizational performance are aligned and human resources risks are transparently and effectively managed; and foster innovation as a means of improving programmatic delivery of human resources in support of cultural change across the Organization;

- (c) Establish strategic policy imperatives anchored in guidance and feedback from entities, in particular from the field, continue to provide authoritative policy interpretation to ensure consistency, fairness and the equitable treatment of staff in the global Secretariat, and oversee the setting of salaries and benefits for locally recruited staff members by applying methodologies established by the International Civil Service Commission;
- (d) Actively engage on all aspects of relations between staff and management and work with other organizations of the United Nations common system on salaries and allowances to advance the work of the High-level Committee on Management and the Human Resources Network of CEB, and through the International Civil Service Commission, including by leading the implementation of the United Nations workplace mental health and well-being strategy across the United Nations system;
- (e) Further develop efforts towards mutual recognition over time, which calls for entities within the United Nations common system to operate according to the principle of mutual recognition of best practices in terms of policies and procedures, and lead efforts to enhance harmonization and improve efficiency in the United Nations system;
- (f) Improve talent management in the Organization and, in particular, work towards implementing the new approach to mobility and organizational learning, developing a new staff selection system that is effective, fair, efficient and agile, and that enables the Organization to have a diverse workforce, adopting approaches that incorporate new values and behaviours into talent management and strengthening the performance management framework;
- (g) In line with action 45 (a) of the Pact for the Future, engage in talent management actions, such as the upskilling and reskilling of staff or the creation of new job profiles, to enable the workforce of the Organization to meet the future demands identified through strategic workforce planning, and to attract and retain the best talent with due regard to geographical representation and gender parity priorities;
- (h) Provide workforce data to external stakeholders for analyses of staff and affiliated personnel demographics, Member State representation and workforce trends;
- (i) Manage and provide monitoring, coordination and technical support to ensure the effective and coherent programmatic and operational implementation of the United Nations Disability Inclusion Strategy and provide targeted support to strengthen the mainstreaming of disability inclusion, capacity-building, reasonable accommodation and accessibility across the Secretariat.

29A.99 The above-mentioned work is expected to result in:

- (a) A culture of staff mobility that accelerates the mobility process across the Organization, in particular movements between Headquarters and field duty stations;
- (b) Talent acquisition focused on current workforce capability needs, anticipation of future needs and enhancement of existing talent through learning and development, mobility and effective performance management and career satisfaction support;
- (c) Gender parity at all levels;
- (d) Recruitment of staff on as wide a geographical basis as possible, a reduced number of unrepresented and underrepresented Member States, and progress made on bringing as many Member States as possible within their desirable range;
- (e) Improved institutional capacity on disability inclusion, reasonable accommodation and accessibility across the Organization, enabling engagement with and inclusion of persons with disabilities in all areas of the Organization's work and support to Member States.

Programme performance in 2025

Staff members, managers and senior leadership navigated organizational change

29A.100 In 2025, organizational change across the Secretariat heightened the need to provide comprehensive, timely and consistent information to staff, managers and senior leaders. The component contributed by consolidating staff-facing guidance and updates through established channels and a staff support framework that has been updated regularly as new information becomes available, alongside a feedback mechanism enabling staff to share suggestions.

29A.101 Progress towards the objective is presented in the performance measure below (see table 29A.28).

Table 29A.28
Performance measure

2023 (actual)	2024 (actual)	2025 (actual)
—	—	Senior leadership and managers led organizational transformation and supported staff members in navigating change, guided by the staff support framework

Planned results for 2027

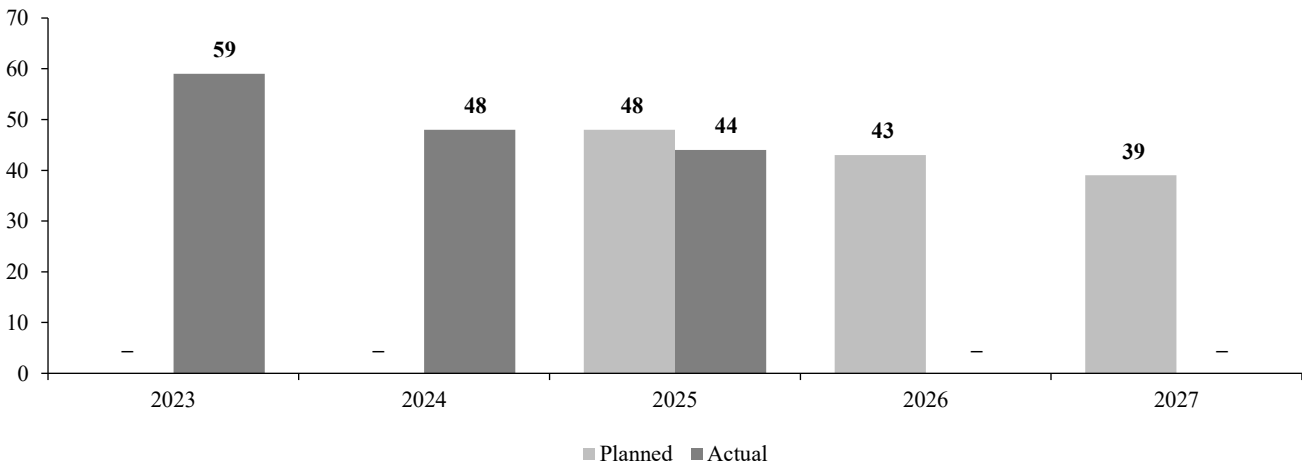

Result 1: fewer unrepresented and underrepresented Member States in the desirable ranges system

Programme performance in 2025 and target for 2027

29A.102 The component’s work contributed to reducing the number of unrepresented and underrepresented Member States under the system of desirable ranges to 44 (as at 30 November 2025), which exceeded the planned target of 48.

29A.103 Progress towards the objective and the target for 2027 are presented in the performance measure below (see figure 29A.V).

Figure 29A.V
Performance measure: number of unrepresented and underrepresented Member States in the desirable ranges system (annual)

Result 2: a fair, effective, efficient and agile staff selection system

Programme performance in 2025 and target for 2027

- 29A.104 The component's work contributed to programme managers benefiting from the advancement of skills-based recruitment in 2025 through the alignment of Inspira with the United Nations Language Framework and job-relevant and professionalized evaluation, guided by a skills-based assessment framework, which met the planned target.
- 29A.105 Progress towards the objective and the target for 2027 are presented in the performance measure below (see table 29A.29).

Table 29A.29
Performance measure

2023 (actual)	2024 (actual)	2025 (actual)	2026 (planned)	2027 (planned)
—	—	Programme managers benefit from the advancement of skills-based recruitment, including job-relevant and professionalized evaluation and alignment of Inspira with the United Nations Language Framework	Programme managers further benefit from the full implementation of the staff selection 2.0 programme	Professionalized talent acquisition capacity and assessment expertise are institutionalized across the Secretariat through the staff selection 2.0 programme

Result 3: comprehensive young-talent approach enhancing the Organization's ability to attract, develop and retain early-career talent

Proposed programme plan for 2027

- 29A.106 The Organization has in place several established entry pathways to recruit and retain young talent, including the young professionals programme, Junior Professional Officer programmes and internships, which contribute to efforts to rejuvenate the workforce, including as reflected in General Assembly resolution [77/278](#). Experience with these programmes has highlighted the value of a more coordinated approach to maximize their collective impact, particularly in relation to strategic outreach, partnerships, workforce planning and longer-term talent management.

Lessons learned and planned change

- 29A.107 The lesson for the component was the need to strengthen coordination between the existing young talent programmes and provide systematic and structured support to enhance their long-term contribution to workforce diversity. In applying this lesson, the component will, in a phased manner, work towards a more comprehensive and coordinated approach to young talent by better linking existing programmes, strengthened strategic talent outreach and partnerships, supporting workforce planning and enhancing structured talent management support. The component will lead coordination efforts with relevant implementing entities.
- 29A.108 Expected progress towards the objective is presented in the performance measure below (see table 29A.30).

Table 29A.30
Performance measure

2023 (actual)	2024 (actual)	2025 (actual)	2026 (planned)	2027 (planned)
—	—	Existing young talent programmes (such as the young professionals programme, Junior Professional Officer programmes and internships) lack systematic support and coordination, as well as standards for skills and capabilities	Improvements are identified to address gaps in coordination, strategic alignment and structured support across existing young talent programmes and incorporated in the development of the comprehensive young talent approach	Increased ability of the Organization to attract, develop and retain early-career talent

Deliverables

29A.109 Table 29A.31 lists all deliverables of the component.

Table 29A.31
Subprogramme 3, component 1: deliverables for the period 2025–2027, by category and subcategory

Category and subcategory	2025 planned	2025 actual	2026 planned	2027 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	2	5	5	6
1. Reports to the General Assembly	2	5	5	6
Substantive services for meetings (number of three-hour meetings)	129	91	133	133
Meetings of:				
2. The Advisory Committee on Administrative and Budgetary Questions	6	8	10	10
3. The Fifth Committee of the General Assembly	35	20	35	35
4. The International Civil Service Commission	88	63	88	88
E. Enabling deliverables				
Administration:				
Human resources policies and procedures, including on conditions of service and delegation of authority; advice and guidance to Secretariat entities on human resources-related rules and policies; salary surveys; and provision of classification advice and related appeals.				
Talent management strategies, policies, processes and tools pertaining to workforce capabilities and skills, diversity, inclusion, mobility and outreach, leveraging innovation, creativity and best practices; partnerships with unrepresented and underrepresented Member States; outreach focused on online channels and platforms, including participation in approximately 30 career events organized with academia and professional networks; deployment of the staff selection 2.0 programme; servicing of the Staff-Management Committee; strategic workforce planning deliverables, including new and updated job profiles; workforce analytics; and Member States' dashboards of workforce demographics, including support for users in permanent missions.				

Category and subcategory	2025 planned	2025 actual	2026 planned	2027 planned
Performance management and staff development strategies, including learning initiatives to build strategic workforce capabilities and behaviour, such as leadership programmes and the senior leadership support programme; strategic advice, tools and guidance on organizational development, including the implementation of values and behaviours; management, monitoring, coordination and strategic advice, tools and guidance on implementing the United Nations Disability Inclusion Strategy 2.0; workforce diversity and inclusion; professional and substantive skills development programmes, including 6 mandated corporate learning programmes and substantive skills programmes; strategies and tools for career satisfaction and staff mobility; frameworks, strategies, tools and guidance on performance management, including managerial effectiveness; enhanced learning management system; and learning needs analysis to identify high-priority and emerging staff capacity needs.				

Component 2 Administrative law

Objective

- 29A.110 The objective, to which this component contributes, is to strengthen accountability in line with the standards of conduct by all categories of personnel.

Strategy

- 29A.111 To contribute to the objective, the component will:
- (a) Deploy and use a global case management system and identify lessons learned, including in relation to critical incidents involving serious reputational risks affecting the Organization's core values and norms, and develop tools and guidance material for senior leaders;
 - (b) Engage in capacity-building, including through the online information-sharing platform ALD Connect, direct outreach to senior managers and the ongoing development of tools and guidance materials to support senior managers in carrying out their responsibilities and exercising their authority;
 - (c) Review disciplinary matters for sanctioning purposes, represent the Secretary-General before the United Nations Dispute Tribunal regarding appeals against administrative decisions, continue to expand screening for integrity for the Secretariat, and continue to review and update policies relating to the conduct of personnel.
- 29A.112 The above-mentioned work is expected to result in:
- (a) Enhanced oversight across the Secretariat and monitoring of matters that affect the reputation of the Organization, and the timely review and handling of misconduct matters;
 - (b) Well-informed decision-making by senior managers in relation to the management of personnel;
 - (c) An enhanced culture of individual accountability.

Programme performance in 2025

Expanded use of screening tools for conduct and discipline matters

- 29A.113 The component contributed to and supported initiatives to strengthen accountability in matters related to conduct and discipline across the global Secretariat. In response to General Assembly resolutions [77/280](#) and [78/253](#) and through consultations with stakeholders, the scope of ClearCheck was expanded to include all substantiated forms of serious misconduct including racism and racial discrimination matters in addition to sexual harassment and sexual exploitation and abuse.

29A.114 Progress towards the objective is presented in the performance measure below (see table 29A.32).

Table 29A.32

Performance measure

2023 (actual)	2024 (actual)	2025 (actual)
Increase in the number of United Nations system organizations (36 in 2023 compared with 33 in 2022) that used the ClearCheck database	40 United Nations system organizations (including 30 out of 31 CEB organizations) used ClearCheck, which improved the harmonization of the background verification process across the United Nations system	43 United Nations system organizations used ClearCheck, which was expanded to include other forms of misconduct

Planned results for 2027

Result 1: adjustments to the Secretariat's policy framework and management practices facilitated by United Nations Dispute Tribunal judgments

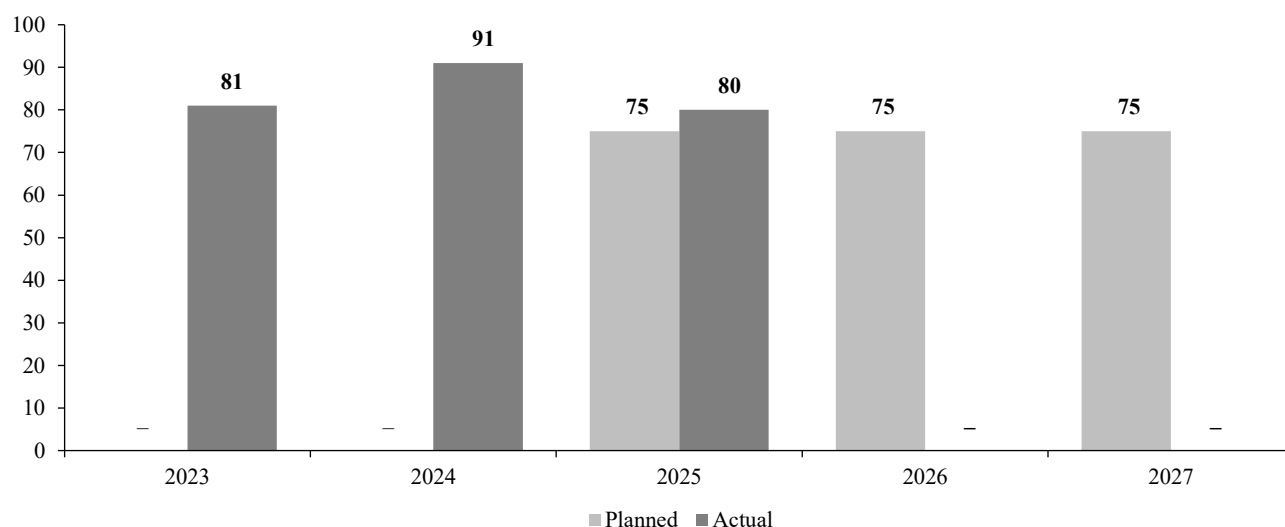

Programme performance in 2025 and target for 2027

29A.115 The component's work contributed to 80 per cent of administrative decisions being upheld, which exceeded the planned target.

29A.116 Progress towards the objective and the target for 2027 are presented in the performance measure below (see figure 29A.VI).

Figure 29A.VI

Performance measure: percentage of administrative decisions (non-disciplinary) of the United Nations Dispute Tribunal that are upheld (annual)

Result 2: enhanced decision-making capacity of senior leadership in handling conduct and discipline matters

Programme performance in 2025 and target for 2027

- 29A.117 The component's work on advisory services provided to senior managers contributed to a 20 per cent reduction in the number of cases involving prohibited conduct in which no appropriate action had been taken by senior management, which met the planned target.
- 29A.118 Progress towards the objective and the target for 2027 are presented in the performance measure below (see table 29A.33).

Table 29A.33
Performance measure

2023 (actual)	2024 (actual)	2025 (actual)	2026 (planned)	2027 (planned)
—	No appropriate action was taken by senior management in 40 per cent of cases involving prohibited conduct	Prohibited conduct cases not handled appropriately by senior management reduced by 20 per cent	Further reduction in or maintenance of the percentage of cases involving prohibited conduct in which no appropriate action has been taken by senior management	Further reduction or maintenance of the percentage of cases involving prohibited conduct in which no appropriate action has been taken by senior management

Result 3: enhanced accountability through efficiency and consistency in the review and disposition of disciplinary cases

Proposed programme plan for 2027

- 29A.119 The component has been leveraging the application of available electronic tools to identify areas within the disciplinary review process that can be optimized with the available resources to improve the efficiency in the processing of disciplinary matters before the United Nations Dispute Tribunal on behalf of the Secretary-General.

Lessons learned and planned change

- 29A.120 The lesson for the component was that leveraging emerging technologies can significantly enhance the efficiency and consistency of legal research across both public and confidential information streams. In applying this lesson, the component will adapt tools—develop solutions for public sources and a secure internal system for confidential and strictly confidential materials—to facilitate the greater disposition of cases, with the aim of increasing accountability. Going forward, the component will expand the use of these tools to streamline research processes and reduce manual workloads.
- 29A.121 Expected progress towards the objective is presented in the performance measure below (see table 29A.34).

Table 29A.34
Performance measure

2023 (actual)	2024 (actual)	2025 (actual)	2026 (planned)	2027 (planned)
The average age of cases closed with outcomes given to victims of staff misconduct was 16.2 months	The average age of cases closed with outcomes given to victims of staff misconduct was 15.8 months	The average age of cases closed with outcomes given to victims of staff misconduct was 12.8 months	Piloted tools enhance case processing capacity, leading to a 10 per cent reduction in the average time taken to give outcomes to victims of staff misconduct	Continued development and early phased introduction of tools enable greater case disposition, leading to a further reduction in the average time taken to give outcomes to victims of staff misconduct

Deliverables

29A.122 Table 29A.35 lists all deliverables of the component.

Table 29A.35
Subprogramme 3, component 2: deliverables for the period 2025–2027, by category and subcategory

Category and subcategory	2025 planned	2025 actual	2026 planned	2027 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	1	1	1	1
1. Report for the General Assembly	1	1	1	1
Substantive services for meetings (number of three-hour meetings)	22	22	22	22
Meetings of:				
2. The Advisory Committee on Administrative and Budgetary Questions	5	5	5	5
3. The Fifth Committee of the General Assembly	10	10	10	10
4. The Special Committee on Peacekeeping Operations	2	2	2	2
5. The Fourth Committee of the General Assembly	1	1	1	1
6. The Sixth Committee of the General Assembly	3	3	3	3
7. The Committee for Programme and Coordination	1	1	1	1
C. Substantive deliverables				
Consultation, advice and advocacy: advice on conduct issues to other international organizations (e.g. African Union and CEB entities); and advocacy with Member States on conduct and discipline issues.				
Databases and substantive digital materials: public database and United Nations standards of conduct website.				
D. Communication deliverables				
Digital platforms and multimedia content: website relating to conduct and discipline.				
E. Enabling deliverables				
Administration: implementation and oversight, including updating, of the Organization's conduct and discipline policies; and training of the global network of conduct and discipline focal points (more than 200 practitioners).				

Category and subcategory	2025 planned	2025 actual	2026 planned	2027 planned
--------------------------	-----------------	----------------	-----------------	-----------------

Internal justice and oversight: representation of the Secretary-General before the United Nations Dispute Tribunal in cases challenging administrative decisions, including challenges to disciplinary sanctions; facilitation of informal dispute resolution in partnership with relevant Secretariat entities; and advice to all Secretariat entities on conduct and discipline and administration of justice matters, as well as on critical incidents involving serious reputational risks affecting the Organization's core values and norms.

Subprogramme 4 Business transformation and accountability

Objective

- 29A.123 The objective, to which this subprogramme contributes, is to ensure a results-oriented, data-driven, agile Organization that is efficient, accountable, transparent, compliant and driven by lessons learned and continuous improvements.

Strategy

- 29A.124 To contribute to the objective, the subprogramme will:
- (a) Focus on simplifying the Organization's systems of accountability by evaluating overall organizational performance trends, assessing the alignment of roles and responsibilities and monitoring the exercise of delegated authority, monitoring the senior managers' compacts, mainstreaming the use of evaluation as part of the programme planning cycle, and coordinating the Secretariat's interaction with oversight bodies and identifying trends in their recommendations;
 - (b) Carry out capacity-building activities to support all United Nations entities in identifying, assessing, evaluating and controlling risk, using an enterprise risk management approach;
 - (c) Support the implementation of the data strategy of the Secretariat, enable entities to have access to management data from Secretariat systems and to gain access to or design analytical tools supporting data-driven decision-making, and lead and coordinate a portfolio of business transformation and innovation projects.
- 29A.125 The above-mentioned work is expected to result in:
- (a) A reinforced accountability culture in the Organization in the areas of risk awareness, monitoring performance and the exercise of delegated authority;
 - (b) Greater use of enterprise data and data analytics in decision-making and programme delivery;
 - (c) Teams across the Secretariat adopting agile methodology and innovation and strengthening new collaboration practices using online platforms.

Programme performance in 2025

Problem-solving using generative artificial intelligence to improve efficiency

- 29A.126 The subprogramme began experimenting with the potential of generative artificial intelligence to achieve efficiency gains in core business processes after the software was made available in 2025. A series of pilots identified significant opportunities to maintain the timely provision of information/advice to clients in spite of the recruitment freeze. For example, in the fourth quarter of 2025, the subprogramme advanced its development and use of generative artificial intelligence tools within the United Nations' information technology environment. The tool supports structured

information retrieval across internal records and guidance, enabling comprehensive and traceable research to inform requests for briefings, managing meetings and responding to intergovernmental and oversight body enquiries.

29A.127 Progress towards the objective is presented in the performance measure below (see table 29A.36).

Table 29A.36
Performance measure

2023 (actual)	2024 (actual)	2025 (actual)
—	—	Use of generative artificial intelligence enabled the reengineering of 2 pilot business processes in the areas of providing briefings for senior managers and responding to enquiries from stakeholders, thereby maintaining the timely provision of information/advice to clients and increasing the consistency of outputs. Lessons from the initial pilots are informing how other entities perform similar processes

Planned results for 2027

Result 1: increased use of internal evaluation by smaller entities to inform decision-making

Programme performance in 2025 and target for 2027

29A.128 The subprogramme's work contributed to improving awareness about the value and practice of evaluation, which did not meet the planned target of 3 additional entities commissioning internal evaluations. The target was not met due to the ongoing liquidity challenges of the Organization, as the funds approved to enable evaluation experts to support small entities to undertake evaluations were not made available.

29A.129 Progress towards the objective and the target for 2027 are presented in the performance measure below (see table 29A.37).

Table 29A.37
Performance measure

2023 (actual)	2024 (actual)	2025 (actual)	2026 (planned)	2027 (planned)
—	—	Small entities received advisory support on the value and practice of internal evaluations	Three additional entities commission internal evaluations	Two additional entities commission internal evaluations

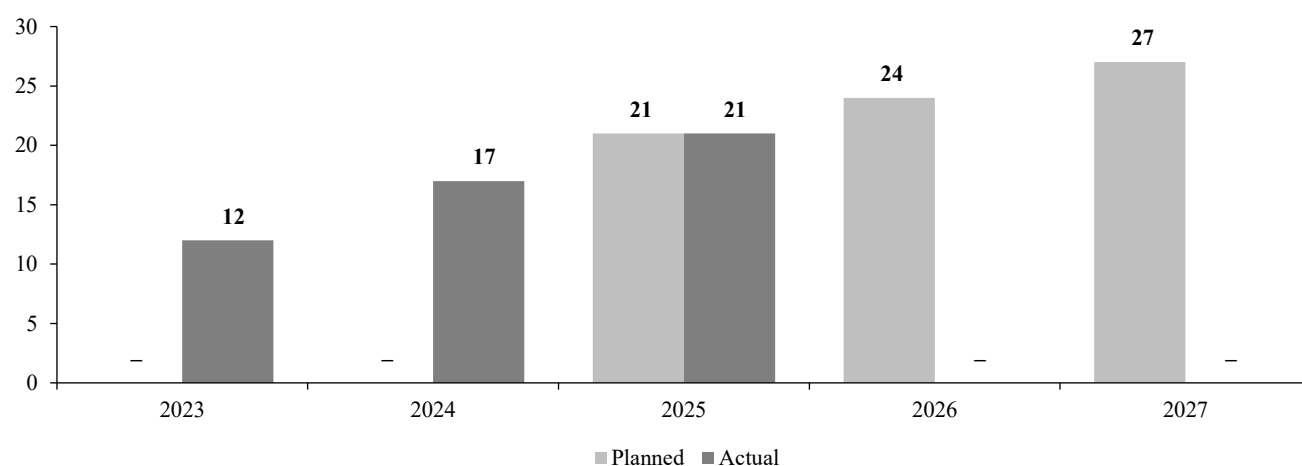

Result 2: enhanced data-driven decision-making through continuous improvement of the management dashboard

Programme performance in 2025 and target for 2027

- 29A.130 The subprogramme's work contributed to the availability of 4 new and/or enhanced features or functionalities available on the management dashboard in support of improved decision-making by programme managers, which met the cumulative planned target of 21.
- 29A.131 Progress towards the objective and the target for 2027 are presented in the performance measure below (see figure 29A.VII).

Figure 29A.VII

Performance measure: number of new and/or enhanced features or functionalities available on the management dashboard (cumulative)

Result 3: timely implementation of oversight bodies' recommendations

Proposed programme plan for 2027

- 29A.132 The Secretariat must ensure the timely implementation of oversight recommendations. In 2025, the subprogramme undertook an audit process review and established a dedicated capacity to monitor and support entities in engaging with oversight bodies and closing outstanding recommendations. The subprogramme's enhancements to the management dashboard now allow for more effective monitoring by including recommendations from both the Office of Internal Oversight Services (OIOS) and the Board of Auditors from 2021 and 2025, respectively, thereby providing entities with centralized access to this information to support timely action and operational improvement.

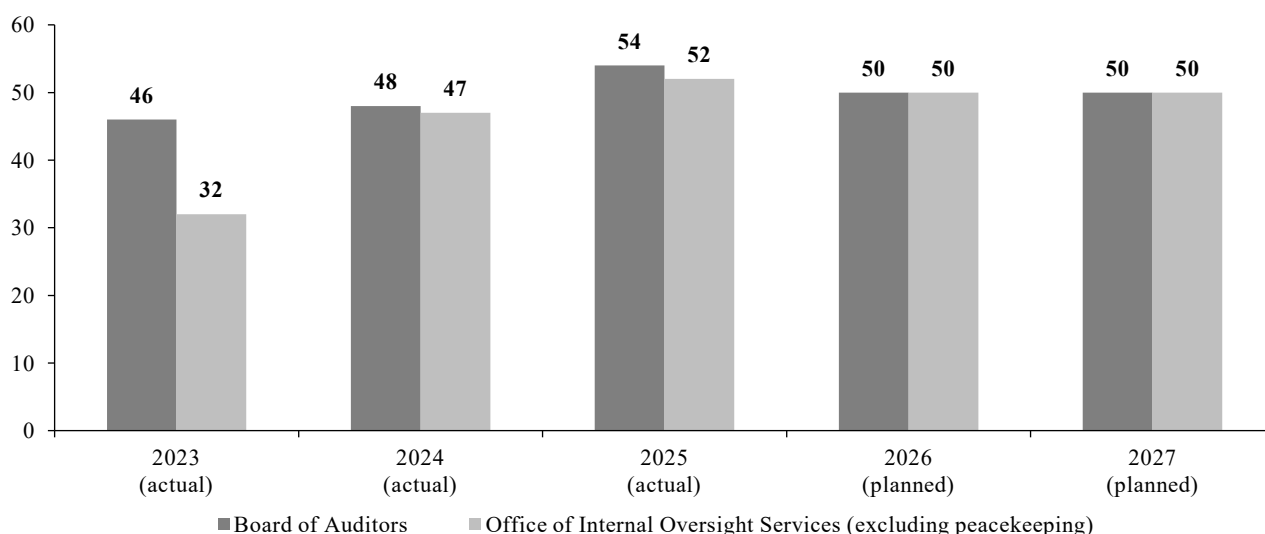

Lessons learned and planned change

- 29A.133 The lesson for the subprogramme was that capacity-building across the Secretariat, combined with close engagement with the oversight bodies, is essential for improving implementation rates. In applying the lesson, the subprogramme will continue to provide targeted support, such as guidance, working sessions and one-on-one training, to help entities strengthen capacity and resolve outstanding and long-standing recommendations.
- 29A.134 Expected progress towards the objective is presented in the performance measure below (see figure 29A.VIII).

Figure 29A.VIII

Performance measure: percentage of outstanding recommendations implemented/closed

(Percentage)

Deliverables

29A.135 Table 29A.38 lists all deliverables of the subprogramme.

Table 29A.38

Subprogramme 4: deliverables for the period 2025–2027, by category and subcategory

Category and subcategory	2025 planned	2025 actual	2026 planned	2027 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	3	3	3	3
1. Report to the General Assembly on accountability	1	1	1	1
2. Reports of the Secretary-General on the implementation of the recommendations of the Board of Auditors	2	2	2	2
Substantive services for meetings (number of three-hour meetings)	12	11	10	11
3. Hearings of the Advisory Committee on Administrative and Budgetary Questions	4	4	4	4
4. Meetings of the General Assembly	4	4	4	4
5. Meetings of the Independent Audit Advisory Committee	4	3	2	3
E. Enabling deliverables				
Administration: Provision of 100 per cent of briefing sessions requested for incoming senior managers on governance, accountability and related monitoring mechanisms in use by the Administration; 2 enterprise risk management workshops for approximately 120 managers and focal points across 60 entities; annual key performance indicators report covering approximately 235 entities with delegation of authority; enhancements to the delegation of authority portal; enterprise-wide outreach, advocacy campaigns, and network and training opportunities to raise awareness of change management, business innovation and new internal ways of working; quarterly release of continuous improvements in analytics and corporate dashboards; senior managers' compacts performance assessment for 70 heads of entity; support for implementing the administrative instruction on evaluation in the Secretariat to all Secretariat entities; workshop for approximately 120 oversight focal points; workshops, briefings and guidance to approximately 150 compact focal points; workshops, briefings and guidance to the delegation of authority focal points of about 235 entities.				

Subprogramme 5

Addressing racism in the workplace

Objective

- 29A.136 The objective, to which this subprogramme contributes, is to ensure a workplace free from racism and racial discrimination, in which every staff member feels valued and respected and is treated with dignity.

Strategy

- 29A.137 To contribute to the objective, the subprogramme will:
- (a) Implement the strategic action plan by driving progress towards a racism-free Secretariat through oversight, coordination and monitoring of all anti-racism initiatives;
 - (b) Review and address existing or potential racial bias in institutional policies and practices and promote data transparency;
 - © Promote advocacy, awareness-raising and training programmes to support personnel and foster an organizational culture to address racism;
 - (d) Strengthen accountability mechanisms within the Organization by providing expertise to United Nations system entities on evolving practices and developments relating to the investigation and adjudication of racial discrimination matters;
 - © Address institutional and systemic racism by establishing and reinforcing leadership accountability mechanisms;
 - (f) Advance system-wide anti-racism initiatives by fostering collaboration and synergies with United Nations system entities and other relevant partners, including through the exchange of best practices and lessons learned.
- 29A.138 The above-mentioned work is expected to result in:
- (a) An institutionalized anti-racism culture fully integrated into the policies, procedures and practices within the Organization, upholding a zero-tolerance approach to racism and racial discrimination;
 - (b) The empowerment of staff and the prevention of racial bias in the institutional policies and practices of the Organization;
 - © Increased trust in internal systems and processes of administration of justice to prevent, address, mediate, investigate and adjudicate fairly allegations of racism and to provide racial justice.

Programme performance in 2025

Addressing interpersonal, institutional, and systemic forms of racism in the Organization

- 29A.139 The subprogramme continued to implement the series of initiatives that had been launched to target interpersonal, institutional and systemic forms of racism within the Organization. The subprogramme convened the inaugural United Nations Conference on Addressing Racism and Promoting Dignity for All at the Secretariat in June 2025; continued entity-level engagement through dialogues, conversations and town hall meetings; and launched the Secretariat's first online course entitled "Addressing racism and racial discrimination in the workplace" in English and French. The subprogramme made structural advances through the completion of a framework for the collection of race-related data, in line with General Assembly resolution [78/253](#). The subprogramme also

worked to strengthen accountability mechanisms through progress on amending the Secretary-General's bulletin on addressing discrimination, harassment, including sexual harassment, and abuse of authority ([ST/SGB/2019/8](#)), planned to be promulgated in 2026, to include racial discrimination as prohibited conduct.

29A.140 Progress towards the objective is presented in the performance measure below (see table 29A.39).

Table 29A.39
Performance measure

2023 (actual)	2024 (actual)	2025 (actual)
United Nations Secretariat entities appointed 180 anti-racism advocates, alternates and anti-racism working group members across 103 entities to actively and visibly champion and drive the implementation of the strategic action plan at the entity level	United Nations Secretariat entities appointed 188 anti-racism advocates and alternates Tracker tool available to monitor progress in the implementation of the strategic action plan by all implementing departments and offices in the Secretariat	United Nations Secretariat entities appointed 146 anti-racism advocates and alternates, as well as over 75 working group members, serving across 85 Secretariat entities worldwide

Planned result for 2027

Result 1: strengthened accountability systems to address allegations of racism in the workplace

Programme performance in 2025 and target for 2027

29A.141 The subprogramme's work contributed to progress in the review and consultations processes to incorporate a definition of racial discrimination in the revised Secretary-General's bulletin on addressing discrimination, harassment, including sexual harassment, and abuse of authority ([ST/SGB/2019/8](#)), which did not meet the planned target of the revised bulletin to be available in 2025. The target was not met due to prolonged consultation between key stakeholders on the legal definition of racial discrimination as prohibited conduct in the workplace. The revised bulletin is expected to be promulgated in 2026.

29A.142 Progress towards the objective and the target for 2027 are presented in the performance measure below (see table 29A.40).

Table 29A.40
Performance measure

2023 (actual)	2024 (actual)	2025 (actual)	2026 (planned)	2027 (planned)
Officials, including judges and Office of Internal Oversight Services investigators, have increased knowledge of racism in the workplace, to enable more effective investigation and assessment of complaints of racism	Investigators in the Office of Internal Oversight Services, legal officers in the Administrative Law Division of the Office of Human Resources, experts in the Office of the United Nations Ombudsman and Mediation Services and judges of the	Review and consultations took place to incorporate the definition of racial discrimination in the Secretary-General's bulletin ST/SGB/2019/8	Senior leaders review progress and challenges related to addressing racism within their entities	Availability of an accompanying guideline to the revised bulletin, to assist with providing examples of racial discrimination

2023 (actual)	2024 (actual)	2025 (actual)	2026 (planned)	2027 (planned)
	United Nations Tribunals, as well as conduct and discipline focal points, anti-racism advocates and Staff Counsellors across the Secretariat, were provided training on addressing allegations of racism and racial discrimination			

Result 2: improved institutional transparency on diversity**Programme performance in 2025 and target for 2027**

- 29A.143 The subprogramme's work contributed to the finalization of a framework for the collection of race-related data in accordance with General Assembly resolution [78/253](#), which did not meet the planned target of staff and job applicants providing race-related data in Inspira. The target was not met due to the need to refine data collection parameters in line with General Assembly resolution [80/238](#).
- 29A.144 Progress towards the objective and the target for 2027 are presented in the performance measure below (see table 29A.41).

Table 29A.41

Performance measure

2023 (actual)	2024 (actual)	2025 (actual)	2026 (planned)	2027 (planned)
—	—	Finalization of a framework for the collection of race- related data in accordance with General Assembly resolution 78/253	Availability of an interactive dashboard on diversity in staff composition and movements Increased transparency and accountability in recruitment processes	Further transparency and accountability in recruitment processes

Result 3: Increased knowledge related to addressing racism and racial discrimination in the workplace

- 29A.145 Since the inception of the Anti-Racism Office, the subprogramme has continued to implement the strategic action plan to make progress in institutionalizing anti-racism culture within the Organization.

Lessons learned and planned change

29A.146 The lesson for the subprogramme was that, to increase awareness and knowledge related to addressing racism and racial discrimination in the workplace, targeted trainings are necessary for specialized functions (e.g. staff counsellors, investigators, conduct and discipline officers, administrative law officers) and key stakeholders (senior leadership, anti-racism advocates, staff unions, affinity groups). In applying the lesson, the subprogramme will promote learning and dialogue through town hall meetings, live talks, brown-bag sessions and conversations; launch an online resource hub to support advocates; roll out a basic awareness course for all personnel; and convene a global conference for anti-racism advocates.

29A.147 Expected progress towards the objective is presented in the performance measure below (see table 29A.42).

Table 29A.42

Performance measure

2023 (actual)	2024 (actual)	2025 (actual)	2026 (planned)	2027 (planned)
–	Town hall meetings, live talks and brown-bag sessions, as well as training for the advocates, staff, senior leadership, staff unions and affinity groups, made available	Availability of targeted training for director-level staff and the basic awareness course for all staff	75 per cent of all senior leaders (D-1 and above) in the Secretariat have demonstrated an understanding of racism and racial discrimination in the workplace 75 per cent of staff have demonstrated an understanding of racism and racial discrimination in the workplace	100 per cent of all senior leaders (D-1 and above) in the Secretariat have been exposed to anti-racism training and other events 100 per cent of staff have participated in anti-racism training and other events

Deliverables

29A.148 Table 29A.43 lists all deliverables of the subprogramme.

Table 29A.43

Subprogramme 5: deliverables for the period 2025–2027, by category and subcategory

Category and subcategory	2025 planned	2025 actual	2026 planned	2027 planned
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	1	1	–	–
1. Report to the General Assembly on addressing racism in the workplace	1	1	–	–
2. Revised estimates on addressing racism in the workplace	–	–	–	–
Substantive services for meetings (number of three-hour meetings)	2	2	–	–
3. Advisory Committee on Administrative and Budgetary Questions	1	1	–	–
4. Fifth Committee of the General Assembly	1	1	–	–
